Have You a Home?

If not it will pay you to investigate the advantages of Forest Dale before buying elsewhere. We have our own water system; water piped to most desirable east bench lots, and the ownership of the water, including the extension of the pipes past your door posts purchasers in Forest Dale little if any more than laying the mains in most cities. The advantage this affords will be readily seen, for the water belongs to the residents each purchaser of a lot being allowed his proportion of the capital stock of the Forest Dale Water Company) and it rests with them to 1. the water turns charged. The expense of running the system is very small, and after the first expense of laying the mains is paid, the rates need not be more than one-tenth those charged by Salt Lake City.

Have You Saved Anything?

Some people have been waiting for years for land or south benches, prices, in the meantime they have paid rent, and if they have made any improvements on those are work on their residences, the improvements have been made, or the work done, for their landlord. Many other people have built homes, and while those first mentioned have been "waiting for something to turn up," have paid for their property and now own the home that shelters them.

Don't Get in Debt

unless you feel assured you can get out again. But if you have money saved, buy a home. If you have an income, buy a home. It pays to have an object in view, and there is no more worthy object than procuring a home for those dependent upon you.

My clerks, at room 332 Constitution Building, will give you prices and show you the properties.

AN OPINION GIVEN.

Recently Mr. J. D. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country, invited in Winchester, he writes to Mr. V. Hocards, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am frank in my opinion that this valley surpasses all other sections in the Union. The farms are low in price, and produce profitable crops. I thank you for inviting me here, and would show such the pleasant and profitable home to locate in this country."

DEPUTY REGISTRARS.

Appointments That Have Been Made By the Utah Commission.

Thirteen Counties Yet to be Heard From—Resolutions Passed and Other Business.

It was quite late yesterday afternoon when the Utah Commission got down to the work for which the session had been specially called—that of appointing deputy registrars to act at the coming fall elections. Chairman J. R. Letcher presided; Messrs. A. G. Narrell, G. W. Thatcher, E. W. Tulloch and Hoyt Sherman Jr.; the other members, were also present. Deputies for fourteen counties were chosen; the remaining thirteen counties will be attended to when the reports of the registrars come to hand during next week. The commission therefore, on its rising last evening, adjourned till Saturday, the 28th inst.

HOW TO DO IT.

When the meeting opened yesterday afternoon Commissioner Tulloch submitted the following resolution. It was seconded by Commissioner Sherman:

Whereas, The act of Congress approved March 22, 1892, by which the Utah Commission was brought into existence, provided among other things that not more than three-fifths of the members of said board should belong to the one political party; and

Whereas, The purpose of Congress in the passage of said act was not only to secure fair elections and full and honest returns thereof and complete registration of all the legal voters in the Territory, but that the party in the political minority should have representation not only on the said commission but in the officers selected by such commission to make the registration of the voters and conduct such elections; and

"Whereas, The said act contemplates that all the doings of said commission be so far as practicable non-partisan and that all registration officers be selected for their honesty and fitness, rather than for their political work of affiliations, therefore be it

"Resolved, That three-fifths of all the deputy registrars appointed in this Territory be taken from members of the Democratic party, and two-fifths from members of the Republican party, and that this rule be observed in each county and precinct thereof as far as practicable."

Commissioner Norrell moved to table the resolution, but the motion was lost.

A vote on the adoption of the resolution was then taken, and by a party vote of 2 to 1 was opposed.
