What They Did and How They Did It on the Exchange Today.

CALL PRODUCTIVE OF GOOD BUSINESS.

Grand Central and Centennial-Eureka Dividends—The Finore in Ore—Strike in the Emerald.

A little more than one-third the business done yesterday was recorded today, the sales made amounting to over 18,000 shares, represented by a selling value of $11,921.12. As on the previous call there was a manifest demand for nearly every security on the board and a good many shared in the trading both in the listed and unlisted, although the business done was heavier on the latter side this time, the sales of higher grade stocks being in order in the trading and this call was a model for all to copy. The same Four Aces, which developed strength and yesterday made a leader of the standard of present estimation, the Grand Central-Marion was somewhat active at a fine advance, the sales amounting to 2,000 and contributing between yesterday and 4,000 shares, as figures range, to the 6 sales, with the Eureka-Iron group sharing at the same. Unless appearances are misleading the Eureka-Iron group will make several more sales, Mammoth was firm at $2.05 with Northern Light made conspicuous by a gratifying position, the stock selling freely at 4½ cents. The other sales were Joe Bowers, Lee Queen, Keystone, Little Pittsburg, Uncle Sam, Star Consolidated and Rabbit Foot, all of which shared in a creditable manner, and along with figures demonstrating the confidence of the local market.

The closing figures were as follows:
