What Scott's Emulsion Has Done

Over 25 Pounds Gain in 20 Weeks. Experience of a Prominent Citizen.

THE CALIFORNIA SOCIETY FOR THE SUPPRESSION OF VICE. SAN FRANCISCO, July 7th, 1886.

I took a severe cold upon my chest and lungs and did not give it proper attention; it developed into bronchitis, and in the fall of the same year I was threatened with consumption. Physicians ordered me to a more congenial climate, and I came to San Francisco. Soon after my arrival I commenced taking Scott's Emulsion of Cod Liver Oil with Hypophosphites regularly three times a day. In ten weeks my avoirdupois went from 155 to 190 pounds and over; the cough meantime ceased.

CONGRESS AND HOUSE.

The Immigration Question.—Oklahoma Townsite Bill, Etc.

WASHINGTON, Jan. 22.—Chandler offered a concurrent resolution, which went over till tomorrow, authorizing the committee on irrigation in the two houses to investigate the working of the various laws of the United States and of the several States in regard to immigration from foreign countries.

The Senate resumed consideration of the bill discussed, yesterday to require the superintendent of census to ascertain what percentage of the people own their farms, the number of farms under mortgage and the amount thereof.

Responding to Vest's remark of yesterday, on the farm mortgage question, Teller remarked that the agricultural depression was not peculiar to the United States. It prevailed in all the countries in the world except France. Recent parliamentary inquiry had shown that the British farmers had within twelve years sunk more than half their capital, and that the condition of the British farmers could not be attributed to a protective tariff. The trouble was neither free trade nor protection. Since the United States resumed specie payments in 1879 there had been a continuous drop in the prices of farm produce. It was that which made the discontent and trouble. He moved the bill be recommitted.

A discussion was kept up nearly two hours, going largely over the

QUESTIONS OF TARIFF,

silver, over-production and steamship subsidies. It was further participated in by Morrill, George, Stewart, Spooner, Vest, Blair, Plumb and Reagan. Finally Hale, chairman of the census committee, expressed a willingness to have the bill recommitted, which was done.

The Blair Educational bill was then taken up, Blair demanding its reading in full. At the close of the reading, and after some discussion, it was arranged by unanimous consent that the bill should be postponed till Monday.

The Senate then took up the calendar and passed, among other bills, one to open the abandoned military reservations in Nevada to homestead entry; also, bills for a new lighthouse tender in the lighthouse district of Portland, Oregon; granting to the city of Colorado Springs, Colo., certain land for water reservoirs.

A bill was reported from committee and placed on the calendar legalizing the general laws of Arizona, except as to certain repealing acts.

The House amendments to the Senate joint resolution appropriating $75,000 for a jetty at the mouth of the Columbia River, Oregon, were concurred in.

After executive session the Senate adjourned.

House.

WASHINGTON, Jan. 22.—The Oklahoma townsite bill was somewhat amended and reported to the House and passed.

Mason of Illinois introduced a bill to forfeit certain land grants to aid in the construction of railroads.

Grosvenor of Ohio, from the committee on rivers and harbors, reported back the Senate joint resolution appropriating $250,000 for the removal of snags and other obstructions from the Missouri river between St. Joseph and its mouth. The committee proposed a substitute, reducing the appropriation to $55,000 and appropriating $75,000 for the removal of snags from the Columbia river, Oregon.

On motion of Hermann of Oregon the substitute was amended so that the appropriation for the Columbia river may be expended for continuing the jetty work. The substitute was agreed to and the joint resolution was amended and passed.

The House went into committee of the whole on the Oklahoma townsite bill. The third section of the bill was finally agreed to, after some amendment, and the committee rose.

Stewart of Georgia, from the committee on judiciary, reported a bill for the purchase of two sites for the erection of buildings for the confinement of federal prisoners at a cost of half a million each, and appropriating $400,000 for the

ERECTION OF WORKSHOPS.

The House went into committee of the whole and on motion of Cluine of California, an amendment was reported, providing for three buildings, one to be located north and another south of the thirty-ninth degree and east of the Rocky Mountains, and another west of the Rockies. The second section provides that convicts be employed exclusively in the manufacture of supplies for the government.

Spinola, of New York, offered an amendment providing that they shall not be employed in the manufacture of any goods or merchandise that are manufactured in any part of the United States. Rejected.

McCreary, of Kentucky, offered an amendment providing that convicts shall not be worked outside the prison enclosure. Adopted.

Raines, of New York, offered an amendment providing that the convicts be employed exclusively in the manufacture of such supplies for the government as can be manufactured without the use of machinery. Agreed to.

Pending further action, the committee rose.

McKinley reported back the customs administration bill and it was referred to the

COMMITTEE ON THE WHOLE.

McKinley moved that the House go into committee of the whole, stating that as soon as the committee was in session he would move that it rise and adjourn. This did not prove satisfactory to the Democrats and Crisp moved an adjournment.

The Speaker decided the motion lost, 83 to 88, and the yes and nays were called for. The motion to adjourn was lost—yeas 94, nays 100.

The vote then recurred to go into committee of the whole, but as it was evident the democrats would demand the yes and nays, McKinley moved to adjourn, which was agreed to.

The reason underlying the opposition to Crisp's motion to adjourn was that the committee on elections might report upon the contested election case of Smith vs. Jackson, from the fourth West Virginia district. He does not desire, and in this he has the full support of the democratic side of the House, that any contested election cases shall be called up while the House is devoid of any regular rules for its government and is dependent only on general parliamentary law, as construed by the Speaker.

The Issue of Pound Notes.

LONDON, Jan. 22.—Further inquiries were prosecuted this afternoon among financial authorities in regard to the plan of issuing pound notes. The prevailing opinion seemed to be that the present report is based on a revival of the old story that Goschen, chancellor of the exchequer, intends to introduce a bill in Parliament giving banks authority to issue pound notes. It is admitted, however, that there are indications which would seem to justify the conclusion that Goschen really contemplates the introduction of a measure of that description. During the Parliamentary recess the treasury authorities had frequent conferences with the leading bankers of the metropolis touching on the advisability of authorizing the issuing of notes of small denomination. In the conferences the question of issuing notes of the value of ten shillings as well as one pound has been under discussion, and the understanding is that in case such notes are issued, they are to be made redeemable in silver coin. Another significant fact is that in view of the likelihood of legislation of the character indicated, the mint has greatly reduced the coinage of gold ten-shilling pieces.

Deaths in the Blockade.

ST. PAUL, Jan. 22.—The Pioneer Press' Tacoma, Washington, special: The first train in ten days over the Union Pacific Railroad arrived this morning. The passengers report the blockade was near Baker City, Oregon, where eight passenger trains were snowed in, the first one having been caught over a week ago. The passengers report a terrible experience, three persons having died during the blockade and a number of women and children being sick and receiving no other attendance than that extended by their fellow passengers.

A Love Tragedy.

NEW YORK, Jan. 22.—Mary Petrekausky, a handsome young Russian girl, was shot and killed this afternoon by a young Russian named Michael Popoff. He was in love with the girl and wanted to marry her, but she refused on account of his shiftless habits. The murderer comes of a wealthy family of high standing in Russia. His parents died two years ago. He became a spendthrift and squandered the most of his fortune in less than two years. He then came to this country, and since then has been living on the remnant of his fortune.

Happy Roosters.

Wm. Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined." John Leslie, farmer and stockman, of the same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine, made me feel like a man." J. W. Gardner, hardware merchant, same town, says: Electric Bitters is just the thing for a man who is run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease of life. Only 50c. a bottle at A. C. Smith & Co's drug store. 2

Remarkable Recurs.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited by first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and looks well as ever she was.—Free trial bottles of this Great Discovery at A. C. Smith & Co.'s Drug Store, large bottles 50 c. and $1.00. 2
