SPECIAL TO THE DESERET NEWS.

By Telegraph.

For WESTERN UNION Telegraph Line

WASHINGTON, D. C.

WASHINGTON.—The secretary of the Treasury states that he has received a proposition to sell the Trinity Church property in New York for twenty-five million dollars. The proposal comes from parties claiming that the estate belongs to the government under the terms of the treaty of peace of 1783. The secretary ordered the letter to be filed, and it is understood that he will not consider the offer as the commissioner of general of the land office has charge of the public land.

Subscriptions to the new loan are gradually falling off every day.

Secretary Boutwell will not change his financial programme until he hears definitely from Judge Richardson in regard to the views of the European lawyers and financiers. The secretary will shortly order the payment of the semi-annual interest on the public debt. The amount is about twenty-eight millions.

Mr. Medill of the Chicago *Tribune* has accepted the appointment of civil service commissioner.

Nothing has been heard from Curtis of New York, nor Walker of Georgia, but it is supposed they would have declined before now if they intended to at all. The commission is to convene a week from to-day.

In the joint committee on Southern outrages, yesterday, Stephenson, of Ohio, offered a resolution to send a subcommittee of three into the disturbed sections of the South. The Democrats opposed it and on motion of Senator Blair, consideration of the resolution was temporarily laid aside. Pierce, Mayor of Eutaw, Alabama, was examined and Judge Richard Busseed, of the United States court of Alabama, arrived here to give evidence but was not examined.

A recent dispatch to the navy department regarding the Corean expedition, was sent by telegraph from Hong Kong, China, and cost the government a large sum of money. The next news is expected by the next regular mail from China, by way of San Francisco.

NEW YORK.

Mrs. Vallandigham.

NEW YORK, 22.—A special dispatch from Dayton, says Mrs. Vallandigham is still unconscious. The physicians who are in constant attendance, are reticent as to her recovery. She fails to recognize her most intimate friends who are watching by her bedside. It is feared she has lost or will lose her reason, while others declare that no doubt the shock she has encountered during the last few days, in the loss of both brother and husband, will result in fatal consequences, and that her death is merely a matter of brief time.

Pacific Coast Dispatches.

SAN FRANCISCO, 22.—Arrived this morning, the steamer *Moses Taylor*, from Honolulu, five days overdue, with 100 passengers, mostly from New Zealand and Australia, bound east. The detention was caused by the collapse of a flue, while eighty miles out from San Francisco, May 24th, by which Nicholas Prendergast and H. Mooney, firemen, Paul Nicholas and Wm. Young, coal passers, were instantly killed by scalding; and Thos. Harrison, engineer, and Oliver Hays, water tender, were scalded so that they died in a short time. Chief engineer Whitney held a survey of the steamer and found her all right, and Captain Bennett decided to keep her on her way. She made the round trip with but one boiler. The dead were buried at sea. Several of them have left families in San Francisco.

The sailing of the *Ajax* for Honolulu is postponed until to-morrow noon.

A sash and blind factory, on the south side of Mission street, between First and Second streets, was badly damaged by fire this morning.

The first regiment of national guards, Col. W. H. L. Barnes, is ordered to hold itself in readiness for marching orders, on account of mob demonstrations at Amador and Sutter Creek. The first battalion, supplied with Henry rifles, ammunition and a full outfit, leaves this evening; the remainder will follow at an hour's notice if required. There is a general expression of feeling here that the mine owners must be sustained, and the rights of men to labor without fear of personal violence will be maintained at any cost. The national guards generally express their readiness to turn out and do their whole duty whenever called on.

The steamer *Nevada*, the first of Webbs' line, reached Auckland, New Zealand May, 14th, four hours ahead of schedule time. They were greeted on their arrival at the wharf by over 1000 people. A banquet was given to the officers at Auckland.

Mining news from New Zealand is very satisfactory. Political news is unimportant. A cargo of salmon and salt codfish, shipped from San Francisco to Auckland, was found almost unsaleable, and could only be closed out at heavy loss to the shippers.

The *Daily Southern Cross* gives a review of trade, which is rather discouraging for those who participated in the immediate extension of commerce with those colonies and San Francisco.

FOREIGN NEWS.

SPAIN.

The integrity of Cuba to be preserved.

MADRID, 22.—In the Cortes Minister Coltas declared that Spain would preserve the integrity of Cuba as long as men were forthcoming.

It is rumored that the ministerial crisis has added to the Cabinet resignations.

ITALY.

FLORENCE, 22.—The Chambers have adjourned this week. The idea of a short session at Rome is abandoned.

The minister of the interior orders the dissolution of the internationals.

The king goes to Naples.

GREAT BRITAIN.

The peace of Europe to be preserved.

LONDON, 22.—The Count of Paris goes to Paris on Friday and then with Aumale and Joinville, visits Chambord.

The *Post* says there is an understanding between Germany, Austria and Russia to preserve the peace of Europe.

FRANCE.

Political matters.

PARIS, 22.—It is said that Gambetta refuses to acknowledge the mandate of the Assembly, declaring that he ceased to exist, officially, when the treaty was voted.

Subscriptions to the loan will open on Monday.

The *Debats* proposes an election of a second Chamber by *Conseils generaux*, like the late Senate.

The Assembly sits during the elections.

FREQUENT HOEINGS.—The Maine *Farmer* concludes an article on hoeing with the following suggestive paragraph:

"Frequent hoeings, even during the dryest seasons, contribute to the benefit of the crop. By the loosening of the soil, the air, and especially night air, charged with moisture, even in times of severe drouth, obtains ready access to the roots of plants, and mingles in the soil. Very often during a hard summer drouth, we have seen corn leaves and other vegetation roll up during the day time, but come out again at night in consequence of the falling of the dew, or the prevalence of moist air. Where the ground is not stirred, it becomes crusted over, or "baked," as it is called, and hence the moisture from below does not find its way up to meet the condensed moist air. But where the ground is frequently hoed, the reverse is the case; hence, the benefit of repeated hoeing during the summer months. Upon this point, one of our late English journals mentioned the fact, that during the extreme dry season of 1826, a gentleman was in the habit of hoeing, with his own hand, three drills of turnips, daily. The result was that the three drills thus hoed were a good crop, while the yield upon the remainder of the field, hoed less frequently, came almost to nothing."

A DRUNKEN negro stumbled into a colored prayer meeting at Americus, Ga., a few nights since, while the congregation were kneeling, and in hunting about for a seat fell heavily upon a brother, who, it seams, was oblivious to all earthly things, and who suddenly starting up, yelled "Ku-Klux!" and at one bound went through the window. In an instant the congregation was in the greatest confusion. The women shouted, screamed and prayed; the men yelled and fought, striking anything and everybody near them. The lights were put out during the melee, and the house was emptied as speedily as the affrighted darkies could disentangle themselves and get out, except the drunken wretch who had been trampled upon and knocked about until he was nearly senseless.—*Ex.*

A TRAVELER who saw a pretty girl in the same car with himself, says; "in a few years," thought I, "that infant will be an ornament to society; but had she better not die? Very soon they will tie some dead woman's hair to the back of her head, fasten her ribs with a corset, and hang a bird cage around her lower limbs. Worse than that: when she arrives at maturity she will be compelled to determine whether she is for protection or free trade, to understand the intricacies of pig iron."

OLD ROSE BUSHES.—Never give up a choice but decaying rose bush till you have tried watering it two or three times a week with soot tea. Take soot from a chimney or stove in which wood is burned, and make a tea of it. When cold, water the rose with it. When all is used, pour boiling water a second time on the soot. The shrub will quickly send out thrifty shoots, the leaves will become large and thick, and the blossoms will be larger and more richly tinted than before. To keep plants clear of insects, syringe them with Quassia tea. Quassia can be obtained at any apothecary's.

A MOTHER'S INFLUENCE.—When temptation appears, and we are almost persuaded to do wrong, how often a mother's word of warning, will call to mind vows that are rarely broken. Yes, the memory has saved many a poor wretch from going astray. Tall grass may be growing over the hallowed spot where all her earthly remains repose; the dying leaves of autumn may be whirled over it, or the white mantle of winter may cover it from sight; yet the spirit of her, when he walks in the right path appears, and gently, softly and mournfully calls to him when wandering off in the path of error.

40,000 Pounds OF WOOL WANTED AT THE Excelsior Woolen Mills, ORDERS IN EXCHANGE FOR CLOTH, At the LOWEST CASH Price. d tf 39 A. RANDALL.
