IN POLITICAL CIRCLES.

What Local Parties and Partisans are Doing.

There are no announcements of political meetings held or coming off in the News today. The reader perhaps knows the reason why and is not only because such is the case.

There is some little local talk and speculation over the position of the present administration leaving nothing territorial for the Democrats to work up by the lower admitting Utah, New Mexico, Arizona and Oklahoma into wider; this would about send the admission business, as only the District of Columbia, Indian Territory and Alaska would be left.

Election talk is still rife and when a man stops another on the street the expectation of a figuring up on the result is so clearly apparent in the mind of the stopped that the situation which comes is sometimes hilarious. But this kind of thing will grow less and less with the coming days, the acerbities engendered by the conflict are already disappeting, and equanimity as it was will be the rule before long. The question of who will hold the offices is likely to be rife for some time to come, primarily with those who are filled by President Cleveland, in this connection there is but a word or so to contribute to those who are willing if not anxious to become public servants and government agents; if you don't know the incoming chief magistrate's characteristics, study them up in the light of his former terms and well known predilections, and don't be too sanguine.

Congratulations Not in Order.

Mr. Philip Spry says everybody is congratulating him on the recovery of the articles stolen from his establishment, as previously reported, but he regrets that he can receive no congratulations as he has not succeeded in finding any of his lost property.

AN INTERESTING POINT.

The report of the county attorney on the question of the right of Salt Lake county to borrow money to pay the full payment of the county taxes now in course of collection was read and ordered filed. Mr. Murphy stated that the power to borrow was expressly given by statute. Many of the statutes hold the power to be impliedly granted as an incident to express grants of power to perform specific public functions in which expense must necessarily be incurred, and that when money was so borrowed bonds or notes might be issued, thereby which should possess the characteristics and have the effect of ordinary negotiable paper. The latter doctrine was repudiated by the supreme court of the United States. No evidence of the indebtedness would, therefore, be given to the lender in the form of an ordinary negotiable instrument, or, rather, if such an instrument were given, it would, although assignable or transferable by indorsement and delivery, have no higher character than a simple certificate of indebtedness, under which the original validity of the debt could always be inquired into. But it was held by all the courts that cities and counties, unless expressly prohibited, might incur debts in the performance of the duties committed to them by statute, and for which debts might issue vouchers or certificates which in the hands of any holder should be valid to the extent to which the debt was a valid one. Certain debts had been contracted by Salt Lake county in the proper manner and for authorized purposes, and received unpaid swalling collection of this year's taxes, which would be much more than sufficient to pay them all. Money might be borrowed for their payment, and a warrant for the amount of the loan issued to the lender. This would draw interest at the legal rate, from the date of its presentment until paid. A valid indebtedness being already in existence this would be a mere substitution of one creditor, or some creditors, for others. The lender's claim against the county would be valid to and any debt.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authoritative medium through which the views, wishes and instructions of the Church Authorities are expressed and given to the Saints.

2.—It may always be relied upon as defending to defending the right side of every question proper for public journals to treat upon.

3.—It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles in which they believe, and every Latter-day Saint should therefore feel under obligations it in his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.—It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electrotyping—branches necessary to the development and independence of the community, during the time that money which is in this Territory they have not yet, much, can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the business and responsibility of the publishers—a result in the case of hundreds of newspaper ventures every year.

7.—It is printed in readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it; in fact, it refuses thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to pecuniary gain at any price.

9.—Its tone is not regulated by public opinion nor the fear of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never measures its readers by palaring off estimates of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, proceeds to stand on its own merits, as the respective newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News; and if more than one, the News should invariably to the first.
