DESERET EVENING NEWS.

Friday, June 5, 1896.

SCHOOL BOARD MATTERS.

Dr. Millspaugh Re-elected Superintendent for Another School Year.

Reduction of $500 in Salary—From the Training School to the State Normal School.

The board of education met last night, all members being present except Thomas. A large volume of business was transacted, and appropriations aggregating upwards of $3,000 made. Dr. Millspaugh was unanimously reelected superintendent at a salary of $2,500, which is $500 less than paid heretofore.

THE STATE NORMAL SCHOOL.

The following report concerning the abandonment of the training school in the Fremont building for the State normal school was read:

"Your committee on teachers and school work, to whom was referred the communication of James E. Talmage, president of the University, in relation to the arrangement of details for the proposed State normal school, beg to report that we have had the matter under careful consideration for some time and have had several meetings with the faculty of the University, and under authority granted the board in the following section of the new school law, viz., 'That the board of education may assign to the State normal school for the purpose of constituting instruction in the practice school connected therewith a sufficient number of children of appropriate grades and reimburse the state normal school for the instruction of such pupils at rates per pupil not exceeding the average cost of instruction per pupil in the public schools of the city, as ascertained for each year,' your committee beg to recommend the adoption of the following resolutions:

"Resolved, First, that the board of education assign to the State normal school forty-five pupils of each grade, or as near that number as is done in other schools throughout the city, or as near thereto as is practicable.

"Second, that the board furnish the pupils thus assigned to the State normal school books, stationery and school supplies such as are furnished the other pupils in the public schools, and loan to the state normal school a sufficient number of desks for pupils and teachers, and chairs to fit up an eight-room building.

"Third, that the board exercise no supervision over the State normal schools as to the conduct of the grade work beyond requiring a compliance with the rules of the board as to the course of study, hours of daily session, statistical reports and the conduct of the teachers of each.

"Fourth, that the board does not desire to have any voice in the selection of teachers for the training school.

"Fifth, that the board will not incur any expense for rent of the rooms occupied by the training school and also that the training school be removed from the Fremont building, and that the State normal school provide a suitable and comfortable building for the accommodation of the pupils thus assigned to it at its own expense.

"Sixth, that the board will reimburse the State normal school for the instruction of said pupils at rates per pupil not exceeding the average cost of instruction per pupil in the public schools of the city, as ascertained for the preceding school year; said average cost of teachers' salaries, janitors' salaries, janitors' supplies, fuel and lights and maintenance and repairs as ascertained for each year, and that that the payments be made monthly to the State normal school on duly verified vouchers."

TEACHERS' CERTIFICATES.

The following rules relating to teachers' certificates were adopted:

First—That teachers who expect to teach in any of the first four grades be required to take the examination of primary certificates only.

Second—That teachers who expect to teach in grades from the fourth to the eighth, inclusive, be required to take the examination for grammar certificates.

Third—That principals of buildings in which six, seven and eight grades are taught, and all high school teachers be required to take the examination for high school certificates.

Fourth—That an average of 70 in all subjects, with a standing in no subject lower than 50, be required for any certificate.

Fifth—That an average of 80 in all subjects, with a standing in no subject lower than 60, be required for renewals of certificates.

Sixth—That an average of 80, and not less than 60 in all subjects necessary for a grammar certificate be required as a preliminary to an application for a high school certificate.

Seventh—That an average of 70 in high school branches, and not less than 60 in all subjects be required to secure a high school certificate.

The committee on teachers and school work was also authorized to employ a woman to write the names of the eighth grade pupils upon their certificates and of the high school pupils upon their diplomas, the date for the high school commencement exercises was fixed for June 12, to be held at the Salt Lake theater, and a special committee appointed to look after the invitations and the distribution of tickets for the exercises.

MISCELLANEOUS.

Ex-police Officer John W. Miner was formally employed at a compensation of $2 per day to look after truant school children, notify parents in regard to the law compelling them to send their children to school, to make arrests when necessary and to act as a special police officer in so far as any pupil of the public school may be concerned.

As to the apparent discrepancies between the report made by J. M. Fisher for the county court and the one made by Harry Lyttle for the board on account of tax sale redemptions of 1893, and 1894, Mr. Lyttle sent in a letter stating that he and Mr. Fisher had compared reports and as far as the tax due each of these funds on account of these redemptions they agree, but that in the writer's report the share of interest amounting to $539.66 entitled to by the city and county schools were included contrary to the allowance of the same by the county court and thus excluded in Mr. Fisher's report. This was the only apparent discrepancy in the two reports.

A resolution was passed providing that all certificates obtained by any applicant at a regular examination on an average of 95 per cent or above, with a minimum of not less than 60 per cent in any one subject, to be renewed by the examining board; provided, that if the standing in one subject only is below 60 per cent the applicant shall be subject to examination in that subject only prior to renewal of certificate.

Treasurer Barnett submitted his report for May as follows:

Receipts—	
On hand Apr. 30	$ 17,774 10
Received back of Thirteenth school building	20 00
Total	$ 17,794 10
Disbursements—	
Paid city treasurer	$ 8,594 10
Balance on hand	$ 9,200 00
Balance June 1, 1895	$ 8,000 00
Receipts, 11 months	169,558 11
Total	$177,558 11
Disbursements, 11 months	171,158 60
On hand to-day	$ 6,399 51

Superintendent announced that Dr. Millspaugh had been selected to deliver the address at the high school commencement.

William Graham was temporarily employed as janitor at the Lincoln school at reasonable salary, vice Charles Culver resigned.

The leases on the Clayton and Bigelow school buildings expire on the 30th of this month. The following buildings will be discontinued for the June 30: Davis, Peterson, Tenth ward rented room, Baptist chapel, Free Methodist church and the Benton building. The clerk was instructed to notify the lessors.

Mrs. Mary M. Sloan was employed temporarily at a salary of $65 per month, to take Miss Mayne's place in the Quincy school, and Miss Sarah Medale, at the same amount of salary, to take Miss Goodrich's place in the Grant school. Miss Minnie Bartels, Miss Grace Frost and Mrs. Mary G. Major were granted a leave of absence for the next school year.

The services of the following janitors will, on resolution of the committee on buildings and grounds, be dispensed with on June 15: Mrs. McCallister, Peterson building; Otto Eckers, Thirteenth school; Leonard Howell, Davis school; James C. Petty, Benton; Thomas Timmins, Fifth school; Mr. James R. Hall, Baptist chapel; George W. Ross, Free Methodist church; James Lee and C. J. Larson, high school, June 30. The following janitors were allowed half of their regular salary to take care of the school buildings during July and August: Ellen Fawson, Seventh; Hattie R. Jones, Ninth; Mrs. M. A. Williams, Tenth; Mis. E. Conroy, Twelfth; William Bailey, Longfellow; Charles Lindgreen, Bonneville; F. Groves, Emerson; Harry Chapman, Uintah; Sam O. Kelsey, Irving.

Mrs. Priscilla J. Smith, who was granted a leave of absence for one year, was reemployed as teacher at a salary of $65 per month.

Applications for positions as janitors were received from William E. Hungerford and Mrs. L. B. Perkins.

Sixty-five applications from teachers were received and given the usual reference and a private numerically signed asking that Miss Irene C. Murphy be retained as a teacher was referred to the committee on teachers and school work.

The board then adjourned for two weeks.

Salt Lake Stake Conference.

The quarterly conference of this Stake will convene in the Assembly Hall, Salt Lake City, on Saturday, June 6th, at 10 a. m. and 2 p. m., and in the Tabernacle on Sunday, the 7th, at 10 a. m., 2 and 7:00 p. m.

The officers and members of the Stake will please govern themselves accordingly.

Your brethren,

ANGUS M. CANNON,
JOSEPH E. TAYLOR,
CHARLES W. PENROSE,
Presidency of the Salt Lake Stake of Zion.

OPINIONS OF OUR LEADING MEN.

President Angus M. Cannon says of the Keeley treatment:

"I thought it impossible for one man to do what Dr. Keeley has done scientifically in counteracting the terrible evils of intemperance. His treatment strengthens men physically, mentally and morally. Under these circumstances they are given another opportunity to become men amongst men. Is there a man who loves his fellow beings that can fail to say, I view Dr. Keeley as engaged in a most commendable work? I trust his good work may continue."

ANGUS M. CANNON,
President Salt Lake Stake.

Call at the Keeley Institute, 166 west Second North, or address Lock Box 468, Salt Lake, for full information and literature. All inquiries are strictly confidential.

R. A. ANDREWS,
Auctioneer.

SHAKER DOCTOR.

Your Scribe Has a Pleasant Chat With the Shaker Doctor at His Suite of Rooms in the Walker House.

He was welcomed into the doctor's presence just at the close of office hours and after the doctor had finished what seemed to your reporter a task, so anxious that he prepared himself for a hasty dismissal, but was assured that a social visit was a relief to him, highly appreciated at any time, and especially after fatiguing office hours.

Asked your scribe: "Doctor, are you the man who in the East is called the old Shaker doctor?"

"Oh, say! the old Shaker doctor is a man rapidly approaching the fourscore-and-ten mark, while I am but a little past half of that, being fifty-four my next birthday."

"Well, doctor, you are the man who is at the head of the active business interests of the institution, are you not?"

"Nay, the old doctor is at its head."

"Does he endeavor to transact business of this immense volume at such an age?"

"Yes; he is an active old man, not yet white-haired, though the silver streaks are rapidly appearing. We expect him to pay us a visit ere we leave here, and have written him of many of the beauties of your city, the scenery surrounding it and of the delightful climate."

"Doctor, really are you not contemplating locating here permanently and establishing in the practice of medicine?"

"Nay; indeed, nay. It would be foolish for me to entertain such an idea. The city has an abundant supply of physicians, many of whom are as good and thorough in their profession as can be found anywhere."

"Then why did you attend medical lectures and graduate in medicine if you did not care to practice?"

"I not only attended lectures and graduated, but have taken post-graduate courses, and have practiced in hospitals, have also been in general practice where my charges were ten dollars each visit, but the irregular life necessary to this work would not permit of long continuance, and as I was in practice in connection with the present business and for the purpose of studying the therapeutic action of medicines to better enable us to prepare them in proper formulae. This is not only my work, but the work of all the Shakers who choose the profession of medicine. It is required of them that they devote a certain length of time after graduation to general and special practice and take post-graduate courses. At the present time we are confident that we have specifics for the greater number of the ills common to humanity. There are some of them prepared without thorough investigation by the board of compounding examiners. Were we to enter into practice the good we are now doing suffering humanity would cost an untold amount of money—costly or quite two hundred times as much as it now does, and I truly think the benefits would not be one bit greater, because in general practice we use the same medicines that we are now selling, and we never put a purchaser in any risk, because the Shakers guarantee all the medicines they make and refund the price if benefit or cure does not result from its use."
