NEWS OF THE WEST.

A Harrowing Picture of the Trials of Wyoming Farmers.

ANSPIGMANIA PERFECT CURE CO.

Switches Designated on the Railroad.—Smoking Accident to a Family.

Salt Houston, the patriarch of the white colonies in the upper Tonto basin in Arizona, is dead, having been accidentally shot with his own revolver while riding a colt. He and his brother had the largest herd in that locality.

Sayre, Colo., horsemen are puzzled over a case of lycanthropy in a horse. One of a team of valuable colts which have been driven out in short time, manifest hostile signs toward their mother last week. No cause can be assigned.

Long valley, Nev., has been visited by a very severe hailstorm. A woman who was carrying a basket of eggs was caught in the storm and all her eggs were broken by the hailstones. Much grain and garden vegetables were beaten down.

The sheep owners in the east end of Morgan county, Colo., complain that they are unable to secure sufficient shearers to remove the wool crop. Many men from the eastern states are having employment among the farmers, and so many such will be given work as can be accommodated.

A new stock company has just been organized in Laramie, Wyo., to be known as the Dispensatory Perfect Cure company. It is organized for the purpose of trading laudanum and cocaine and also for curing people of the tobacco, opium and morphine habits, also for the manufacture, use and sale of various medicines used in the treatment and cure of the diseases mentioned.

Gen. W. Dodtman, a switchman in the Colorado Midland yards at Colorado Springs, was decapitated on Monday at the exchange switch in West Colorado Springs. Several cars of freight were being transferred from the Rio Grande to the Midland and Dodtman stepped off one of the cars to throw the switch, when he slipped and fell, his head being completely severed from his body. He leaves a wife and two children.

The Fort Collins (Wyo.) *Express* gives the following picture of the trials of the farmers of that section: Grasshoppers are hatching out in some of the gardens of the city and also on the farms along the Poudre and in the foothills. Great successes are also reported from about the vicinity of Stoneys—with the best roller and rolling mills in the orchards, the Colorado beetle on the potatoes, the web worm in the alfalfa, the pea weevil, the bean bug, the squash bug in myriads, the army worm in the oats, the onion maggot, the cabbage worm, cut worm everywhere and the grasshopper easily pleased and nibbling at everything.

California has secured another record, says the San Francisco *Chronicle*. This time the record-breaker is a young lady who bids fair to gain celebrity as a rifle shot. On Saturday last, at the Schuetzen park, San Rafael, Miss Lizzie Utschig captured the first-class medal at the monthly meeting of the Ladies California Schuetzen club, with a score of 112 out of a possible 125. The best previous lady's score was 110, made by Mrs. Utschig, the mother of the young lady. Miss Utschig is described as a pretty demi-brunette, rather petite, and has seen twenty winters. She is a native daughter and never did any shooting until about four months ago.

After the settlement of a dispute at a ball game in Bussemer, Colo., on Monday, the trouble broke out again between two men not concerned in the first difficulty, Harry Sister, a steel works hand, and George Lloyd, a negro. Lloyd drew a knife and slashed Sister twice under the left eye and across the nose, inflicting serious cuts. Lloyd now ran toward the Rio Grande tracks, jumped a freight train and rode to the round house. Jack O'Leary, a steel works switchman and friend of Sister, also caught the train in pursuit of the negro. When the train stopped, O'Leary says, Lloyd drew the knife on him. O'Leary picked up a club and rendered Lloyd unconscious with a blow over the head, making an ugly scalp wound.

The Virginia City (Nevada) *Enterprise* says: The Consolidated California & Virginia weekly letter shows that the face of the west crescent on the 1,700 level is in $30 ore. There can be no gainsaying the fact that a large and rich body of ore is that which has recently been discovered. The data known show that the body has already been marked out, and that the ore assays from $20 to $600 per ton. The opinion of mining men is that the ore extends both above and below the point at which it has been reached, and it is generally thought that the ore above the 1,600 level is of greater richness than any taken from the new bonanza. However this may be, enough is known to assure the fact that men will be put to work and at least a partial revival of the former prosperity of the Comstock will take place.

An afternoon of pleasure was turned into an evening of extreme sorrow for the family of J. E. Miller, a leading merchant of Leadville, Colo., on Monday evening. His wife and two children, with Mr. and Mrs. Lorentz, chief of the Hotel Vendome, started out for a drive. Evergreen lake was to be the destination. On the way the team showed signs of restiveness, but Mrs. Miller, being an expert horsewoman, feared nothing. Just before reaching the United States fish hatchery a frightened horse coming in the road and so scared the already uneasy team that they broke into a run and became unmanageable. Mr. Lorentz tried to help gain control over the thoroughly frightened animals, but on turning a sharp curve in the road the carriage was overturned. Mrs. Miller and her little boy were thrown down an embankment. The mother was very seriously cut and bruised about the head and it is feared fatally injured internally. The little boy had his skull fractured in two places and was cut and bruised all over the body. The little girl, Ollie, aged five years, was caught between the wheel and top of the carriage and her throat literally ground out. No hope are entertained of her recovery. Mr. and Mrs. Lorentz escaped with only a few cuts and bruises.

GIVE US WORK

To enable us to put some idle men to work, we have decided to discount prices and lay down Asphaltum work on sidewalks, which is very much below the real value, and every dollar is paid to Utah workmen:

Garden walks, yards and brick courts,	10c	SQ. FT.
Sidewalks, etc., 1½ in.,	15c	"
Alley work, etc., 4½ in.,	25c	"
Warehouse, stable and cellar floors, 1½ to 2½	25c	"

Road work, etc., at equally low prices. Our Asphaltum is not slippery in winter, does not hurt the eyes in summer, and is far superior to the best cement work ever laid.

We hope everyone will do their share with us at once for all they can afford to do, and while saving money for themselves, help to furnish labor for the needy.

We will take part of the pay in store pay, that our workmen can use on a cash basis.

Highest Award

for
Supreme Excellence,
to the
PUTNAM
HOT FORGED AND HAMMER POINTED HORSE
NAILS.

At the World's Columbian Exposition at Chicago. A model and dispassionate word. "Supreme excellence in material, method in manufacture, and quality of finished product; elasticity and accuracy combined with holding power in clinch. It allows the use of very small nails."

There is nothing beyond supreme excellence, so there nothing competent to a horse but which the material from which it is made, "the method of manufacture," and "quality of finished product," Putnam Nails, by their "elasticity," give eligibility to the expansion and contraction of the hoof when the force is in motion; by their "accuracy," do not impair the air holes in the hoof, which their "supreme excellence" in "holding power in the clinch" enables them to hold the shoe in the proper action upon worn ends.

By the "use of small nails" large forces are avoided and more surface is left for the shoe.

This is will be seen that the officials of the Worlds Columbian Exposition recognized what chemists are to make up a good horse nail and that only the "Putnam" nail can do this.
