KOYLE OYLE 50c. per gallon at Reid & Kinsey's.

LIKE TO OBTAIN—No doubt the public would like to obtain what it requires at as cheap a rate as possible, and many times are induced to purchase the cheapest articles they can procure, overlooking the fact that although professedly the cheapest they are in reality the dearest in the end. Take Dr. Price's Cream Baking Powder and his True Flavouring Extracts, and they may cost a few cents more than the common kind, yet they are the cheapest, for they require one-third less in quantity, and when used in cakes, pies, puddings, etc., make them splendid and wholesome. We have yet to see the housewife that was not satisfied with these articles. As there are powders sold in bulk for Dr. Price's—which are not his—be sure to get the genuine, put up in cans carefully labeled, and made only by Steele & Price.

Symptoms of Liver Complaint, and of Some of the Diseases Produced by it.

A sallow or yellow color of the skin, or yellowish brown spots on face and other parts of the body; dullness and drowsiness with frequent headache; dizziness, bitter or bad taste in the mouth, dryness of throat and internal heat; palpitation, in many cases a dry, teasing cough, with sore throat; unsteady appetite, raising food, choking sensation in the throat; distress, heaviness, bloated or flat feeling about stomach and sides, pain in sides, back or breast, and about shoulders; colic, pain and serenity through the bowels, with heat of digestion alternating with frequent attacks of diarrhoea; piles, flatulency, nervousness, coldness of extremities; rush of blood to head, with symptoms of apoplexy, numbness of limbs, especially at night; cold chills alternating with hot flashes, kidney and urinary difficulties; dullness, low spirits, unsociability and gloomy forebodings. Only a few of above symptoms likely to be present at one time. All who use Dr. Pierce's Kidney and Bladder Medical Discovery and Pleasant Purgative Pellets for Liver Complaint and its complications, are loud in their praise of them. They are sold by all dealers in medicines.

CHIEF BUILDING SPOT for sale 20th Ward. Apply at this Office. d124 tf

GREAT inducements offered to wholesale purchasers in Lamps, Coal Oil, etc., at Reid & Kinsey's.

CHAMBER'S ENCYCLOPEDIA—Messrs. J. B. Lippincott & Co., of Philadelphia, announce that, by a recent purchase, they have become the sole proprietors of the American Revised Edition of "Chamber's Encyclopedia," and are thereby enabled to offer the work at much lower rates than hitherto. In the course of its recent thorough revision, the American edition was edited with the special view of supplying the wants of American readers. It also possesses a special attraction in containing a series of over seventy-five full-page engravings not contained in any other edition. d50

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination, with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between

Omaha and Chicago. Within the past two years the road has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kansas City and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago.

PRICE OF GOLD.

Corrected daily by Denver National Bank. SALT LAKE CITY, April 19, 1875. Buying at \$1.12; selling at \$1.15.

EVENING NEWS.

Tuesday, April 20, 1875.

Local and Other Matters.

Thermometer 70 degrees F. in the shade at 1 p.m. to-day. Cloudy.

No Mails—No eastern mail will arrive to-night.

No Telegrams—The wires east are down, which accounts for the absence of telegraphic news in our issue to-day.

Found—The young man who lately escaped from the Insane Asylum was found yesterday afternoon and returned there by Sheriff Taylor.

Break Down—A wagon loaded with bricks broke down on East Temple Street to-day, in crossing the street railroad track. A hind wheel and the axle-tree were smashed.

Died at the Hospital—We are informed by the Superintendent of the Insane Asylum and Hospital, that a man named Hamilton Stewart, a native of Scotland, aged 43 years, died at the hospital last Sunday.

Lamanites at Meeting—About fifty Indians attended meeting at the 16th Ward School-room, on Sunday afternoon. They conducted themselves with decorum and partook of the sacrament. All of them appeared with clean faces, having washed the paint from them.

Accident—Last evening Master Charlie Crookwell, son of Dr. Crookwell, jumped upon a passing wagon, when his foot caught in the wheels, which turned a couple of revolutions with him hanging to it, dashing him twice upon the ground. The result was the wrenching of his knee out of joint and several bad bruises about the body. The driver was in nowise blamable.

Mining—We are permitted to extract the following from a letter written at Pioche, under date of April 10th, to a gentleman of this City:

"Raymond and Ely have commenced shipping 50 tons of ore per day, and are going to start two of their mills at Bullionville. They have struck a rich body of ore at the 800 foot level and talk of putting 100 or 150 more men at work as soon as they start the pumping machine, which will be about the first of next month.

The Centennial—The Nevada legislature appropriated \$20,000 to represent that State in her mining interests. Messrs. W. S. Stewart and Jeremiah Miller, of Nevada, will erect a mill with five stamps at the Centennial Exhibition, and five tons of gold-silver quartz, from Nevada, will be crushed, amalgamated and run into bullion every day during the exhibition. Mr. J. A. Robertson, who represents the mineral cabinet of California at the Centennial will exhibit specimens of ores from all the mines from the latter State.

Rowdiness—Last night a number of young men, apparently under the influence of liquor, set up a terrific howling and yelling in the 10th Ward. They smashed the window of Mr. George Chandler's butcher shop, and George, being near by, and thinking that "one good turn deserves another," did his smashing on one of their heads. The same kind of a crowd made havoc among foot bridges and gates in the 11th Ward, on Saturday night.

It is a pity that so many incidents of this nature occur and the guilty parties escape the punishment they so richly deserve.

A Genuine Case of "Hart Karl."—This morning Mr. Geehr arose from his bed before daylight, at his residence, next house east of the Richards building, Second South Street, and went to the Antelope restaurant, on the same street, of which he is proprietor. A young man named George Osborne was sleeping in a back room of the premises, and was partially aroused from his slumbers by Mr. Geehr calling to him and telling him to get up, but being drowsy he paid little attention to him till he came and lay down on a couch in the same room, when Osborne was greatly shocked on looking up and seeing Mr. Geehr apparently in a great distress, and with his hands covered with blood. He soon discovered that he had stabbed himself in the abdomen with a huge carving knife. He was conveyed

to his residence and Dr. Hamilton was sent for and rendered what aid could be given, but the injuries, we understand, are necessarily fatal, although the unfortunate man may possibly survive a couple or three days.

A visit to the premises showed that after stabbing himself, which was done near the rear of the premises, Mr. Geehr endeavored to go up stairs, the door leading to the upper room being covered with bloody finger marks. Near where the large knife lay was a pool of clotted blood, and there were marks of his hands on the floor where he struggled up a few steps to get to the sleeping room of George Osborne.

We understand Mr. Geehr is a German by birth, and speaks French fluently as well as his native language and English. He is between fifty and sixty years of age, and has a wife and several children.

Mr. Osborne states that Mr. Geehr had acted for several days past as if he was not exactly in his right mind, being downcast and melancholy. On being questioned, this morning, by his wife as to his reason for committing the act, he stated that it was because he had no friends.

It does not appear that he had long contemplated self-destruction, as he had only recently expressed a determination to put up a building in front of his residence, and move his restaurant there.

Suicide—Coroner George J. Taylor, being notified by Mr. Anthony Godbe that a young woman named Jenny Powell, who had been living at his house, had committed suicide yesterday afternoon, proceeded to that gentleman's residence last night and held an inquest over the remains.

The investigation lasted about two hours and a half, being completed about eleven o'clock. The following witnesses were examined: Mrs. Godbe, Miss Annie Jones, Mr. Frank Jones, Dr. Hamilton, Thos. Reamer and Sarah Haynes.

The testimony showed, in substance, that deceased was born in Pennsylvania, of Welsh parentage, was 17 years of age, had been in Utah two years, and had resided at the house of Mr. Godbe for the last ten months. She has a mother and other relatives living at Spanish Fork. She was taken with convulsions at three o'clock yesterday afternoon and died in two hours afterwards. Dr. Hamilton was sent for, but did not arrive till after she was dead. His impression from the symptoms described and the appearance of the body, was that the poison was not any form of opium, but was probably corrosive sublimate or some arsenical poison.

It appeared that she had, at various times during the past two years, signified her intention to commit self-destruction.

A couple of young men had been paying their addresses to her, and yesterday each of them sent her a note, by the same messenger, stating that they did not want to have anything to say to her any more, as they believed she was deceiving both, on receiving which she turned pale and sent back by the messenger a lock of hair received from one of them. These letters probably led to the commission of the rash act.

She told a little boy yesterday that she would be taken sick in the afternoon, and that when she was so taken, she desired that Frank Jones and his sister should be sent for.

The following is the verdict of the jury:

"Territory of Utah, County of Salt Lake."

"An inquisition holden in the Third Precinct, Salt Lake City, at 9 o'clock p. m., April 19th, 1875, at the residence of Anthony Godbe, upon the body of Jenny Powell, there lying dead, before George J. Taylor, coroner, of said county, by the jurors whose names are hereunto subscribed.

"The said jurors on their oaths, do say that she died from the effects of poison, self-administered.

"In witness whereof we have hereto set our hands the day and year aforesaid.

"HOWARD EGAN,
"R. B. MARSHALL,
"A. B. TAYLOR, CORONER.

Our Country Contemporaries.

Beaver Enterprise, April 16—We learn from Judge Spicer, that the people of Lincoln have engaged J. S. Carter to run a daily race from Minneapolis to Lincoln, and to carry their mail matter tri-weekly.

Spicer & Smith's furnace has again resumed work, with fifteen hundred bushels of coal on hand.

A correspondent writing from Cedar, of the recent discovery of coal near that city, says, "I was there (at the coal beds) yesterday, and it is really the best prospect for coal and a plenty of it I have seen. It is now about seven feet thick, and the little seams of fire clay are getting thinner and turning into coal. They are in thirty-six feet, and are getting from their four feet vein, some of the best coal that has been dug in this vicinity. There is then two or three inches of fire clay, and the upper strata are improving very much and will eventually be as good as the lower strata. They are driving in as fast as they can, and are trying to get into the full vein of good coal, which I think they will do when they get in about ten or twelve feet further. If it turns out as anticipated it will be one of the best things that has happened to old Cedar for some time. The other vein, that is higher up the Canyon half a mile, seems to me to be a heavier vein than the one they are now working. I should judge it to be ten feet thick at the least."

Mr. B. H. Padgett came into our museum yesterday morning, from whom we learned a few things in regard to the mining interest in southern Utah and northern Arizona. He says:

"There is an incorporated company of laboring men living in St. George known as the Grand Gulch Mining Company, that have been working a copper mine about sixty-five miles south of St. George, for the last four years, which is situated in what is known as the Bentley District. They have worked with untiring energy, believing that the time would come when they would be remunerated for their labor and time, notwithstanding many failures and disappoint-

ments. They have gone ahead with the work until now they have got a well developed mine, showing some fifteen thousand tons of thirty-six per cent ore in copper, besides the gold and silver, which averages from forty-five to fifty dollars per ton. The company has made arrangements with Mr. John Williams, late of Riverside, to build smelters for the mines, of which he has three nearly completed. The company expect through the superintendency of Mr. Williams, to begin to run out bullion by the last of April or the first of May, this present year.

"Mr. Williams is, I understand, a thorough go-ahead man at the smelting business. There are many other mines in that section of the country I believe to be rich, and will some day be worked and become very valuable."

Ogden Junction, April 19—

The treacherous old Weber is beginning to show its strength. Look out for head-gates of canals and water cuts. Fortify farms which reach down to banks and give an eye to the drift of the river.

Baseball players, beware! Mind how you catch a flyer. Ephraim Myers caught one between the forefinger and thumb of his left hand a day or two ago, in going to buying a cheap ticket to San Francisco. He was afterwards induced to accompany this person to the depot, where he could obtain the ticket desired. On reaching a point near the C. P. track, a third man appeared, and both attacked the miner. They pounded him and the head fell he was senseless, then tied his hands behind him, and taking a belt from his body, fastened his legs together. The "catcher" went through him. He had \$173.20 on his person, of which they took \$170, leaving him the balance. Those two men are wanted, but up to the present time no trace of them has been discovered.

A miner from Big Cottonwood came to town a few days ago and put up at Collins' boarding house on Fifth Street. Yesterday he had some conversation with a man, who came up from Salt Lake on the same train with him and put up at the same place, in regard to buying a cheap ticket to San Francisco. He was afterwards induced to accompany this person to the depot, where he could obtain the ticket desired. On reaching a point near the C. P. track, a third man appeared, and both attacked the miner. They pounded him and the head fell he was senseless, then tied his hands behind him, and taking a belt from his body, fastened his legs together. The "catcher" went through him. He had \$173.20 on his person, of which they took \$170, leaving him the balance. Those two men are wanted, but up to the present time no trace of them has been discovered.

New Goods!

We desire to inform the public that we are now receiving our new Stock of Spring Clothing, consisting of the latest styles and patterns, manufactured by ourselves, which enables us to sell from 15 to 20 per cent less than any other house in this city.
