TODAY'S TELEGRAMS.

A Mexican Town Wiped Out of Existence by Soldiers.

MORE FAILURES REPORTED.

The Boundary Between Canada and Alaska.—New Rifles.—A Negro Lynched.

CHIHUAHUA, Mex., June 3.—The government troops stationed at Temosachic and other posts in that section are waging a war of extermination upon all settlers and others supposed to have participated in the revolutionary outbreak in that part of the state last April. A large number of persons have been summarily shot without trial. It was at Temosachic the wholesale massacre of Indians by Mexican soldiers occurred a year ago. The population of the town was about 2500. All that now remains is the pretty church edifice, which was not molested by the troops.

THE NEW RIFLES.

Preparations to Arm the Soldiers to Great Style.

WASHINGTON, June 3.—The ordnance department of the army is making preparations to begin the manufacture of the new army rifles at Springfield armory immediately after the beginning of the new fiscal year. The rifle is a very small calibre intended to use smokeless powder and is a magazine arm. It is estimated that within one year from July the total output will be about 12,000 rifles, which is made possible by the use of the most modern labor-saving machinery. This number of rifles is probably sufficient to arm the entire infantry and artillery branches. The carbine for cavalry used has not yet been designed but will be pushed forward as rapidly as possible. It is expected at the ordnance department that there will be many calls for the new arm from state militia organizations. These demands will be met as fast as the army equipment is complete, and the charge for the guns will not be made against the special appropriation of $400,000 made for the supply of the army, but against the regular militia appropriations.

TO DETERMINE THE BOUNDARY.

Canadian and United States Commissioners Preparing for Work.

OTTAWA, June 3.—Professor W. F. King, the Canadian commissioner in the Alaska boundary question, arrived today from Vancouver, and reports that the Canadian and United States survey parties are all under way. Professor Mendenhall, the United States commissioner, is not on the coast, but Assistant Ogden is superintendent of the dispatch of the American parties. The steamer Thistle has been sent up the coast to give all help possible and carry reserve provisions. Both the Canadian and United States parties will report in September, but they will probably only be half through the work by that time. They are expected to need all next summer. Professors King and Mendenhall are required to report to their respective governments within two years. No friction is anticipated. Professor King says the commissioners and surveyors are all on the best terms and prepared to give each other assistance if need be. Still they will be strictly loyal to their respective interests, as the ownership of valuable mining resources, including, it is believed, considerable gold fields, will be decided by the location of the boundary line.

The London Market.

LONDON, June 3.—The failure of Gerald A. Moran, a stock broker for a large Scotch account in American railroad securities was announced yesterday.

Large sales for the Continental account, partly German, in connection with the coming election and the long continued indecision in regard to financial events, combined to cause depression on the stock exchange here. The section of the exchange devoted to dealings in American securities was very unsettled, the prices falling.

Mining in Wyoming.

Special Dispatch to the NEWS.

LARAMIE, Wyo., June 3.—A half dozen Laramie mining men, among whom are Messrs. Morgan and Borhardt are about to commence work on some placer ground near the Metcalf ranch on the Laramie river in the northern part of Albany county. There is a large bar of gravel at that place and as high as sixty colors have been taken from a single pan of dirt. It is their intention to use hydraulics in working the bed. Water will be taken from the Laramie river.

Thousands Tons of Coal.

Special Dispatch to the NEWS.

NEWCASTLE, Wyo., June 3.—Kilpatrick Bros. and Collins, owners of the extensive coal mines at Cambria, four miles west of this place are now mining one thousand tons of coal a day. Tests have demonstrated that the coal makes as fine a grade of coke as is turned out from any pile in the world. It is the intention of the company to at once enlarge their coking ovens and increase the facilities for hauling the coal.

A Destructive Flame.

LOGAN, June 3.—Herman's hardwood store, one of a row of houses adjoining, burned this morning. The loss is half a million dollars.

A Plan Agreed Upon.

NEW YORK, June 3.—A plan has been finally agreed upon for the settlement of the differences between the Pacific Mail and Panama railroad companies and will shorter three steamships by the Pacific Mail between New York and Aspinwall and back to the Columbian, recently taken off. Behind in opposition to the Pacific Mail the Panama steamships will shorter too ships

of the North American Navigation company now running between Panama and San Francisco in connection with the Panama road. This railroad will control its business on the Atlantic and Pacific. The operating office of the steamship company will hereafter be in San Francisco. C. P. Huntington will on Monday be elected president of the Pacific Mail company in place of George J. Gould. Vice-President and General Manager A. H. Hoxsie will retire. The salary of his office is $10,000. Huntington says: We are going to shut down the expenses wherever we can and try to make some money.

NEGRO MURDERED BY A MOB

The Wretch Charged With a Heinous Crime and Imprisoned.

Lynchers Break the Prison Gates and Hang Their Victim to a Telegraph Pole.

DECATUR, Ill., June 3.—A lynching which gathered yesterday on the arrival here of the negro captured near Sullivan, Ill., and charged with outraging Mrs. Hale Dill, last Monday, near Mount Zion, found its way into the jail at 8 o'clock this morning and took the ravisher out and lynched him. No resistance was made to the mob.

HOW THE DEED WAS DONE.

Owing to threats of lynching earlier in the day an extra force of twelve men was put inside the jail and another force outside. A scout was sent out to Mount Zion early in the night and reported everything quiet there and fears of trouble were about given up, though five hundred curious people stood around the jail all night, unwilling to miss the chance of a sensation. About three o'clock twenty-five armed men marched to the jail in a solid body and demanded admittance. This was refused, and the wooden outside door was at once battered down with a sledge hammer, while the crowd looked on without protest. Once inside, the lynchers demanded the keys, which the guards declared they did not have. The lynchers at once set to work on the iron door with a cold chisel and opened it in twenty minutes. Then came the steel door, which resisted another twenty minutes. In the meantime a great crowd of citizens had gathered outside and looked on. The city marshal appeared, and forced his way inside, but was kicked in the stomach by the lynchers and hustled out, after which he also submitted. Finally the lynchers reached the cell of the negro whose name was Sam Bush. They put a leather strap around his neck, and took him to a telegraph post under the glare of the electric light. There they gave him ten minutes to pray, after which they swung him up, dropped him and then put him on the top of a hack. The strap was tied to the cross arm of the post, and the hack drives from under him. He was pronounced dead in two minutes by two doctors who stood by the scene and noted the sinking of the wretch's life. He protested his innocence to the last. As soon as death was assured, the Mount Zion mob left for home. The men wore no masks and made no attempt to conceal their identity. Among the number were Wm. Veal, the husband of the woman outraged last Monday. From all circumstances, it seems measurably certain that Bush was guilty. The most remarkable feature of the whole affair seems to be that 25 men could march into a town of over 20,000 inhabitants and without even a show of resistance batter down the doors of the jail and hang a human being.

AN OLD FIRM FAILS.

Hermann Shaffner and Co. of Chicago Assign.

CHICAGO, June 3.—Hermann Shaffner and Co., private bankers, have made an assignment. The firm is the largest private concern in Chicago or the Northwest, dealing exclusively in commercial paper. The firm is also about the oldest of its kind in Chicago.

No statement of the bank's affairs was filed with the application for a receiver. The assignment was made to the American Trust and Savings bank. The cashier of that institution on visiting the suspended institutions' quarters this morning, found a large demonstrative crowd around the closed doors.

To add to the excitement it was rumored that Schaffner had committed suicide. An investigation developed the fact that the assignment was the direct result of the disappearance of Hermann Schaffner, the senior member of the firm. It is said the firm has been in straits for some days, and that its difficulties preyed very heavily on Shaffner's mind. He left the bank yesterday afternoon and has not been seen since. Unless diligent search has been made for Shaffner his friends say that mental alienation is not unknown in his family and they fear his distress unsettled his mind and that some mishap has befallen him. The police have been notified to keep a sharp look out for him. The partner, A. G. Becker, was at overcome by the news of his chief but he was taken sick and is now confined to his bed.

A representative of the assignee says the cause of the failure was for much commonplace paper. In this line the firm was the largest in the country, handling twenty-five million dollars' worth last year. There has been little money to do since the tight money mess. It will take some time to make an a statement of assets and liabilities.

It is said the firm was caught by several of the recent failures for sums ranging from $10,000 down. It is further said that the bank where in need of money pledged commercial notes as collateral for advances from other banks. There is also a story that Schaffner was caught in the recent great shrink in values on the local stock exchange.

The attorney for the bank has made a statement, in which says it is expected the suspension will be only temporary. It was made only because of Schaffner's disappearance, likely to cause distrust. The firm owed its depositors which it and on its assets winding up, and therefore is not liable to U. N. taxes in the country will lose anything and be safe after the firm's affairs are wound up.

One house notice of a failure said that, leaving out of the account the theory of insanity the only way in which to call account for Schaffner's disappearance would be that he has been doing of securities without knowing for them.

At the Fair.

CHICAGO, June 3.—Another rainy day is on over the World's Fair city, lessening the attendance.

The Indian section in the Fine Arts building was opened to the public this morning for the first time. There were no formal ceremonies in connection with the opening.

The World's Fair gates will be opened tomorrow. In the several controversy Judge Woods announced that it has been decided on to District Attorney Mackey's application for a temporary injunction against opening the Fair tomorrow that no action would be taken by the court till it received the final decision, which would be next Wednesday.

Cut His Throat.

CHICAGO, June 3.—T. O. McLoughry, a retired capitalist and planter of Louisiana, stopping here with his family for the summer, committed at the Metropolitan hotel this morning an unusual business reverses, by cutting his throat.

Too Hot.

PITTSBURG, June 3.—Two persons have died and many are prostrated by the intense heat of the past twenty-four hours. The thermometer registered 87 degrees at noon.

Gold in the Treasury.

WASHINGTON, June 3.—The total net gold in the treasury today was $103,317, allowing for a million and a half taken at New York yesterday for shipment today. As a result of a conference between Comptroller Eckels and the officers of the failed Capital National Bank of Indianapolis this morning, the comptroller announced that the bank would probably resume in about two weeks.

To Take Charge.

WASHINGTON, June 3.—Comptroller Eckles has instructed Bank Examiner Cleary to take charge of the failed Mechanics' National Bank, Tacoma, Washington.

Locomotive Works in Trouble.

CHICAGO, June 3.—The great Grant locomotive works, which were moved here from New Jersey a couple of years ago, being pressed by some of its creditors and in order to provide ready cash, has called a meeting of the shareholders. The court strike preventing the filling of contracts is the cause of the trouble. The company is solvent, the assets greatly exceeding the liabilities.

Peonage Cases Ended.

PITTSBURG, June 3.—The cases for murder, not and conspiracy, against A. C. Frick, chairman of the Carnegie company, Vice Chairman Lohmann, Secretary Lovejoy, Superintendent Potter, and the Pinkertons have been dropped by District Attorney Burleigh on the suggestion from the private counsel employed by the Homestead strikers in which they said the accused were guilty in believing that they could be convicted of the offenses charged. The general opinion is that this will be followed by the quashing of all the indictments against the Homestead strikers.

Garden Hose Thieves.

Some of our citizens are being made wiser if not more joyful. Last night one of them left his garden hose stretched out upon his spacious lawn. This morning he was stretched out with surprise at not finding it where he had saw it. The article had been carried off during the night by some sneak thief, and consequently he must procure another one or his grass plot becomes a thicket of the past. Eternal vigilance is the matter in the price of a good lawn. Take care of your garden hose.

Being Improved.

The White House, corner of East Temple and Second South streets, is enjoying considerable of a change. A new front, with iron pillars, is being put in and other improvements being made. Meanwhile business is temporarily suspended there.

Painful Accident.

Special Dispatch to the NEWS.

BEAVER, Utah June 3.—At 8:15 this morning as Harry Hodges, Sr., was hauling lumber the team ran away throwing him under the wheels and injuring him terribly. His left arm is crushed very badly and will have to come off, the left leg is broken in two places about the thigh. It is expected he will be sent to Salt Lake City for treatment. One horse is badly bruised, the other has an eye put out.

Adjudged Insane.

Winnie Joyce, the unfortunate young Valley House servant arrested some days ago, was adjudged insane by the county board of lunacy this afternoon, whereupon Judge Blair ordered that she be committed to the insane asylum at Provo.

CAPITOL GROUNDS.

The Commission in Charge Decide To Open Them to the Public.

THE ACTION TAKES THIS MORNING.

Mayor Baskin Will Be Asked to Appoint Policemen to Patrol the Grounds at the Expense of the City.

The Territorial Capitol Grounds commission held a meeting this morning for the purpose of considering the advisability of taking steps to throw the grounds open to the public.

The meeting was an informal one and was held at Governor West's office. The members present were Governor West, Judge Zachariah Chandler, Thomas Marshall and James Sharp of Salt Lake.

It was decided to make the necessary arrangements at once for the opening of the grounds, which will probably occur some time next week. In the meantime the commission will wait upon Mayor Baskin with a view to securing police patrol of the grounds at the expense of the city to prevent or more effectively protect from injury the trees, flowers and shrubs. In the event some arrangement is taken by the police of the commission's grounds the grounds will be immediately closed again.

The Capitol grounds commission consists of the following gentlemen: Governor West being chairman, Joseph Marshall, Ogden; Aaron Parry, Logan; A. H. Lund, Moroni; A. O. Smoot, jr., Provo; James Sharp and Thomas Marshall, Salt Lake.

Probate Court Business.

The following orders were made in the Probate court this morning:

Estate of Godfrey Lambert, deceased. Petition for order of sale of real estate. Order made allowing sale to be made at private sale. Additional bonds of executrix fixed in the sum of $10,000.

Estate of Peter Erickson. Hearing on return of sale of real estate. Henry J. H. E. Erickson and Isaac D. Erickson sworn and examined. Order made confirming sale.

Estate and guardianship of Lucile Pearl Armstrong et al, minors. Order made appointing Annie R. Armstrong guardian on filing $ bond in the sum of $500.

Estate of James McFadden, deceased. Order of publication of notice to creditors made.

Estate of William A. Nelson, deceased. Continued till this day.

Estate of O. J. Hollister, deceased. Continued till the 6th inst.

Points Picked Up.

A fine large black horse was taken sick on East Temple street this afternoon. Dr. Young said it was a case of water cramp.

Sommer appears to have come to for good.

Nothing doing today in the commissioners' courts.

The large new poles now being laid along the streets are for the use of the telephone company.

Another Soap Company.

The Western Manufacturing company have filed articles of incorporation with County Clerk Metcy.

The incorporators are, Edward D. Woodruff, George V. Parmeter, Joel A. Hughes, William R. Lindsay and Minnie M. Woodruff.

The object of the company is the buying and selling of real estate, also buying and selling, building, operating and maintaining a plant or plants for the manufacture of all kinds of soap and other chemical compounds for sale and trade, and to own and control patents, copyrights and all kinds of appliances used in and about said business.

Edward D. Woodruff will be president and treasurer, George V. Penfield vice-president and William R. Lindsay secretary. The principal place of business will be in Salt Lake.

THE ELDERS SAFE.

They were Robbed and Allowed to Go at Liberty.

The following telegram was received in this city today:

LOGAN, Utah, June 3.—I have received a letter from Chattanooga, dated May 27th. The Elders were robbed as stated in your dispatch, but were afterwards allowed to go unmolested.

J. G. KUMBALL.

This is confirmatory of the news already published, and will remove all doubts of the safety of the Elders, if there should be any who are still anxious on the subject.

The following telegram came to President Woodruff this afternoon:

CHATTANOOGA, TENN., June 3, 1893.—Nothing definite yet. Answer to telegram indicate safety of Elders.

GEORGE A. SMITH.

A BUTCHER SANDBAGGED.

Andrew J. Wilson Knocked Down and Robbed by Footpads Last Night.

Andrew J. Wilson was surprised, sandbagged and robbed by a couple of slick and enterprising footpads last night.

Mr. Wilson is a butcher doing business on First South street. Last night about 9 o'clock, as he was passing along South Temple street, between Third and Fourth West streets, a brace of thugs slipped quietly up behind him and one of them struck him a severe blow on the side of the head felling him to the sidewalk. Although he was not rendered unconscious he was so much dazed as to be entirely helpless. The thugs went through his pockets quickly and secured all the cash in them amounting to $25. They also took his watch but in their haste to get away dropped it on the sidewalk where it was subsequently recovered.

The police were notified of the affair but in the meantime the robbers had made good their escape.

A New Dress.

The Valley House, which has stood in need of a new dress, is having it worked supplied. The excavation is early all paid and whitewash, but the place looks the newer and cleaner for the change.

UNIVERSITY COMMENCEMENT.

Exercises to be Held at the Theater on Thursday, June 8th.

The commencement exercises of the University of Utah will be held in the Salt Lake theater at ten o'clock Thursday morning, June 8th. The public are most cordially invited. The program is as follows:

MUSIC.

Prayer ..... Professor Joseph E. Smith.
Chorus ..... Choir Parties.
"The Silver Clarion" ..... Joseph Ballantyne.

MUSIC.

Address ..... Chancellor Robert Maclaren.
Presenting Diplomas and Awarding of Medals ..... Acting Chairman Joseph E. Caine.

MUSIC.

Address ..... Governor Heber M. Wells.
Benediction ..... Dr. Geo. Alfred Lawrence.

MUSIC.

Friesthood Meeting.

The monthly Priesthood meeting of the Salt Lake Stake of Zion, was held in the Assembly Hall today at 11 a. m. Elder Angus M. Cannon, President of the Stake, presiding.

Hall called showing as follows: One High Councilor, four Patriarchs, all the members of the Presidency of the High Priests' quorum, fifteen home missionaries and ten presidents of Seventies.

All the wards of the Stake were properly represented excepting the First, Fourteenth and Twentieth city wards.

The First, Second, Seventh, Tenth, Twelfth, Thirteenth, Fourteenth, Fifteenth, Eighteenth, Nineteenth, Twentieth and Twenty-first quorums of Elders were represented by their presiding officers.

The usual opening exercises were followed by the recommendation of twenty-four men to be ordained to the office of Elder.

ELDER ANGUS M. CANNON

explained that in case of a man being an elder in the Priesthood, who has been excommunicated from the Church, his rebaptism into the Church and the reordination of his former blessings, does not restore to him the Priesthood he formerly held. That must be especially conferred upon him again. These blessings must be restored by the authority which removed them.

Several of the brethren spoke of the duties of the ward teachers, complaining of their negligence in visiting and exhorting the people.

ELDER C. W. PENROSE

referred to this subject, and stated that the duty of the visiting Teachers or Priests is to call on everybody in the ward, exhorting all to come unto Christ. Too frequently it is the case that those who are most in need of such visitations do not receive them. Special diligence should be used with those people who had been lukewarm for years before the time of the dedication of the Temple, but who secured admittance to the dedicatory exercises because they had not been placed under the ban of the Church. They should now be labored with and exhorted to renew their diligence and prove themselves worthy of the standing they have in the Church of Christ.

ELDER ANGUS M. CANNON

referred to the carelessness of the Bishops of some of the wards with regard to their records. These should be kept in perfect order, and each addition to the ward should be recorded in it, whether such persons are received by baptism or by note of standing.

ELDER JOSEPH E. TAYLOR

spoke of the financial condition of the Latter-day Saints' college in this city, and called attention to the fact that this condition is very discouraging. He expressed his opinion to the effect that this Stake is in duty bound to rescue the college from its embarrassments. The Eighteenth ward and the Stake were sustaining the Central Seminary may not be considered as not partaking of this responsibility, but the other wards of the Stake should feel the obligation in this direction. Elder Taylor moved, and it was unanimously carried, that Elder Angus M. Cannon be given full power to make whatever arrangements he would consider necessary in this regard.

In response to this motion, Elder Cannon requested the Bishop of each ward, except the seven named, to appoint three influential men to meet with the Stake board of education and the college board on Saturday, the 17th inst., at 11 a.m., in the office of the presidency of the Stake.

The meeting adjourned for one month.

Benediction by Elder Elias Morris.

From British Columbia.

Mr. F. Reeser, a mining engineer and metallurgist, for several months in the employ of the Kootenai Smelting and Trading syndicate, describes the Kootenai region as one of great promise. It is located 200 miles north of the British line in British Columbia, the popular way in being by the Spokane Falls and Northern railway. The mines are not well developed, there being little or no heavy machinery in the place. There are four lead smelters in the region, but as the ore supply is irregular they are compelled to shut down portions of the time. The sale of the Silver King supply mine, recently for $2,000,000, is just reported. The purchasers a British syndicate. On tons the mine runs 35 to 40 per cent copper and 20 to 40 ounces in silver to the ton. It is recognized as a prolific formation, and stands close to the district. From Nitrate camp, where there are now some 200 people, shipments of high grade lead-silver ore are being made to the smelter at Trail, Wash., in spite of the tariff. The American tax for lead stand 1 cent higher than the British 40% which offsets the tariff rate of 1½ cents. Most of the miners in Nitrate district are from Coeur d' Alene. The average grade of ore taken out runs 60 per cent lead and 10 ounces in silver. The season in those districts is short, not over six months in the year, and transportation difficult.

The Visiting Journalists.

The German and Austrian journalists within our gates visited the Tabernacle today at 10 o'clock a.m., where they listened to a fine organ recitation and admired the building. To a representative of the NEWS they expressed themselves most pleased with what they had seen and heard while sojourning in Salt Lake City. They leave for the east tonight.

PARK CITY IS BUOYANT.

Revival in Business.—Mining Prospects Brighter.

See Shipments—Gossip Mentioned—County Seat Removal—Local and Social Notes.

Regular Correspondence.

PARK CITY, June 3.—During the past week business of all kinds has been looking up, and the merchants have put on more smiling faces than at any time during the past six months. It is a good sign always when collections are reported easier, and that is what the merchants now claim. The great anticipation of everybody is the possibility of silver going up where it belongs, and when it reaches the point of 80 or over, this place will take on such a new-born business aspect that the oldest inhabitant will look on with wonder and admiration and give credit to the new blood which is the mainstay of all mining towns.

Decoration was any more generally observed in Park than ever before, all the banks and business houses being closed during the entire day, and the flags on all flagstaffs being placed at half mast. The cold and windy weather interfered somewhat with the people being out more, but nevertheless the ball game leading to the exercises were alive with people, from early morning till late in the afternoon. In the afternoon a procession of the Patriotic Sons of America and a large number of school children, headed by drums and fife, made a visit to the two cemeteries and short exercises were held at each.

The heavy wind storm which passed over Salt Lake on Monday, arrived safely in Park City about 5 o'clock, strong and healthy. No damage was done, but for a time frail houses and signs were nearly down.

Our policemen have received during the past week their new uniforms, they show up splendidly, and the remark is made quite frequently on the streets that other towns have a standard. No arrests have been made during the last ten days, due, most likely, to the new uniforms.

A great amount of heavy timber from Oregon is being brought in this season, and is being used by all the different mines and mills in the various stopes and shafts now being made. It looks from the great amount of lumber and other materials which is being delivered to the Ontario company, that the new mill so long talked of will be erected during the present season. Hopes are entertained that such is the case, for there is nothing which puts a bright side on a city as the mills and factories.

Several runaway teams have had possession of the streets during portions of the day, and all can be laid to the fact that teamsters are careless in not hitching them to the posts, erected for that purpose. One party here advances the theory of runaways in this city, to be "too much down hill" which is a great temptation to an unlied team.

Ore shipments over the Utah Central and Union Pacific still continue at a lively rate, and with prospects good for all summer.

Crescent ore to the amount of nearly five hundred thousand pounds has been shipped to Louisville during the past week, all first class ore, and of the second class over one thousand tons are now on the dump at the concentrating mill, ready to be worked. The concentrator will start up next week.

The gas furnace which has been in course of construction at the Ontario mills, have been completed and are now in working order. It is thought that the mill will be started up again about June 6th.

A meeting was held at the City Hall last Monday night, presided over by W. I. Snyder. The object of the meeting was to talk over the matter of moving the county seat of Summit county from Coalville to Park City. Earnest speeches were made advancing the fact of the importance of Park City in connection with the business of the county, and also that all but two of the county officers live in Park City. Committees were appointed to arrange a series of meetings in the outlying settlements, and the question will now be fought to a finish. Of course Park City people think there is no doubt that the county seat should be here, for here is the wealth and majority of the people; besides, Park City pays the greater part of all the taxes of the county.

Despite report of very little sickness in town at present, which can be accounted for mainly by the cleaning up given to all back yards and streets.

"WILL."

SALTAIR OPENING.

The Important Event Announced to Occur on Thursday Next.

THE PROGRAM WELL IN HAND.

Governor West to Deliver the Opening Address.—The Banquet Will Be a Big One.

After long delays and many disappointments the formal opening of Saltair is positively announced for Thursday next, the 8th inst.

The army of carpenters, plumbers, painters and decorators who have held high carnival for three months past, will be laid off Wednesday night, and the grand pavilion, the great sweep of promenades, the long array of bath houses, and all the numerous privileges for which high houses have been paid, will be handed over ready for opening by 10 o'clock Thursday morning.

The officials both of the road and the beach intend celebrating the event with all the eclat that such an important occurrence demands. The completion of a great public enterprise that will do so much towards advertising Salt Lake City, is hailed by all hands as being a red letter affair in the history of this city and without doubt all classes of citizens will participate in commemorating it.

The program of exercises is not fully made out as yet, but General Manager Clayton gave some of the main features in a NEWS representative this morning. Governor West has consented to deliver the formal address declaring the great resort open. Special trains bearing the mayors and city councils of Ogden, Provo, and possibly other cities will be run by the Rio Grande. Mayor Baskin, the City Council, the Funeral officials and the Press club, with other invited guests to the number of one hundred, will sit down to a private lunch in the main tower during the afternoon, whereas a few toasts will be offered by prominent citizens. Immediately after Gov. West's address, which will be delivered in the dancing pavilion, Professor Scimeca of twenty men will render a brief concert program. Dancing will then be in order till midnight. The whole force of electric lights, 1200 in number, will be turned on at dark, and the spectacle is sure to be one of unequaled magnificence.

The bath houses will be all ready for bathers to note the temperature allows no indulgence in the briny waters.

The various privileges have been disposed of as follows: The bar, to Charles Auer; lunch room, to caterer Miller, formerly of the Continental hotel; the popcorn, fruit, ice cream and soda water, to M. L. Cummings; the merry-go-round and cosmorama, to Messrs. Pendlton & Thorne; the boating, to Messrs. Lo Bruhl & Wilkes.

Two thousand picnickers can be accommodated at one time without any degree of overcrowding. Mr. Clayton states that trains will be run hourly, and the outside limit of the run each way will be twenty to twenty-five minutes.

OGDEN.

Stolen Goods Recovered and a "Sneeper" Arrested.—Juvenile Tongue Sentenced.—Shooting Club Challenge.

OGDEN, June 3.—Early this morning parts of not all—of the goods stolen from Kuhn Bros.'s store, were found by the police secreted in the brush, near the Ogden river bridge. A man named C. P. Martin was arrested near the spot at the same time. A number of silk handkerchiefs were found on Martin's person. The police feel assured they have got one of the burglars and say they will have the others in custody today.

Three youngsters named Sam Davis, Charles Carrol and Charles Brown, sentenced to fifteen days' imprisonment in the police court yesterday for having smashed the windows of a Chinese washhouse on Twenty-fourth street.

C. E. Snelgrad and John Smith, two genuine tocking tramps were arrested yesterday and booked on the charge of vagrancy. They were allowed to go free on promising to leave town.

Janet I. Barker of Logan has commenced proceedings in the Fourth district court for divorce. Desertion and failure to provide are the grounds upon which suit is instituted.

The board of education met again last night and re-elected Professor H. S. Page superintendent of schools. There was no further business of public interest. The board adjourned until Monday night.

A special car "St. Nicholas" arrived this morning from the west on board of which were the board of managers of the California Soldier's Home. They left later on for the East.

Wells Fargo's express team indulged in a runaway yesterday morning. Beyond the demolishing of the tony pole and a general scare of the street pedestrians no further damage was done.

The Home Dramatic club of this city will (by courtesy of the Salt Lake club) present Brunton Howard's six act drama, The Banker's Daughter, at the Grand Opera House, on Monday night.

The Salt Lake shooting club did not take very kindly to having Ogden wash away with the honors at the shooting match at Calder's Park Monday. Yesterday they issued a challenge to the Ogden club which has been accepted. The match will come off in the city some time this month.

We are to be favored with another storm on the 27th inst.

William Vanfyke of Salt Lake came up yesterday on business.

Andrew Kimball representing the Granite Paper Mill company was in Ogden yesterday on business.

A. E. Reiser of Salt Lake came up this morning on business.
