SENATE.

Chicago Relief—Amnesty—Tariff—Miles Greenwood—Ocean Telegraph—Lewis Explains—Sumner's Amendment—Alabama Prize Money.

The resolution to re-consider the Chicago relief bill was debated until the expiration of the morning hour, when the amnesty bill was taken up. Carpenter spoke at length in favor of the principle of Sumner's amendment to the bill, but against the provision forbidding exclusion from churches as unconstitutional, and also undesirable for the colored people. If this objection were obviated by amendment, he would insist that if those who wanted amnesty did not accept this civil rights bill, he would let them wait for amnesty.

Joseph Wharton, of Philadelphia, in behalf of the industrial league, argued before the senate finance committee today against a reduction of the tariff on a sliding scale, which is the principle of the bill of the committee. Such a reduction would have the effect of reducing wages. The labor league was in favor of the removal of duty on tea and coffee, and increasing the free list with such raw materials as are not produced in this country, and which enter into the various branches of manufacture.

Sherman introduced a bill for the relief of Miles Greenwood, naval contractor.

Sawyer introduced a bill to encourage telegraphic communication between America, Asia and Europe.

Lewis made a personal explanation, saying that he always was in favor of equal rights for the colored people.

Logan called up the pending resolution to re-consider the vote by which the Chicago relief bill was passed.

Davis, of Kentucky, said that Sumner's amendment was to be attached to the amnesty bill for the purpose of defeating it. Those who insisted on amnesty, knew will that the Southern people would rather do without amnesty, than accept it saddled with such provisions, and for one he would say that human ingenuity could not devise a proposition of the character of the civil rights bill that he would accept. He then discussed at great length the history of the doctrine of secession, and the unconstitutional acts of the Republican party.

Morrill, of Maine, introduced a bill to authorize the secretary of the navy to distribute among the officers and crew of the United States steamer *Kearsage*, while engaged in the capture and destruction of the *Alabama*, $190,000 as prize money, in lieu of the bounty authorized by the act of June 30th, 1864; provided the money shall not be paid to the assignees or mariners, but only to themselves or their legal representatives.

HOUSE.

Syndicate—Indians.

The debate was resumed on the report of the committee of Ways and Means on the transactions of the syndicate.

Maynard, of the committee, made an elaborate argument in defence of the secretary, and in support of the resolution of the majority of the committee.

At 3:10 the House voted on the Syndicate resolution and it was adopted 100 to 86.

Taffe offered an amendment providing that no payment shall be made to tribes that are at war with the United States, but that if portions of such tribes shall remain at peace and observe treaty obligations, payment may be made to them *pro rata*, and that all appropriations for Indians shall be liable to payment for depredations committed by any of these tribes.

EASTERN DISPATCHES.

R R Accident—Public Debt—Salt Lake Telegrams—Fishery Question—Armament of Southern Forts—Montana Indian War Claims—Fire—Rebuilding Chicago—Murder—St. Joe Bridge—Shot the Professor.

SCRANTON, Pa., 1.—There was a terrible accident to-day on the Lehigh Valley R. R. near Rockport. As the Buffalo express train was nearing there a rail broke, throwing the train over an embankment about thirty feet high, wrecking the cars, which were set on fire by the stoves. Four passengers were instantly killed, four more have since died, and some eighteen others are more or less wounded. Among the killed was the wife of Prof. Lewis Pratarius, of Wilkesbarre; and Judge Danna, law justice of Luzerne county, had his arm and shoulder broken.

WASHINGTON, 1.—The debt statement shows a decrease since March 1st, 1871, of $82,503,897. Balance in the treasury February 1st, coin, $103,371,-730; currency, $12,840,271.

Telegrams from Mormons and Gentiles of Salt Lake, among the latter many of the most prominent citizens, were received by the attorney general to-day, condemning the decision of Judge McKean in not admitting Brigham Young and other indicted Mormons to bail, and from the federal officers there endorsing the Judge's decision.

The reported decision in the case of Abbott *vs.* Van Ness, by the election committee, was premature, that committee not having held any meeting.

The house committee on foreign affairs had the fishery question up to-day, and will call the secretaries of the State and treasury before them, to give their views.

The President has appointed Frederick McCrelish, of San Francisco, one of the board of visitors of WestPoint academy, for 1872.

W. T. Collins, U. S. pension agent, for the district of Columbia, is discovered to be a defaulter to the amount of about $1,000; he has resigned.

The Secretary of War has recommended Congress to make a special appropriation of $100,000 to continue the armament of certain Southern forts.

Inspector-general James A. Hardie reports that he succeeded in replacing nearly all the evidence collected in support of the Montana Indian war claims, and which was destroyed in the Chicago fire. The amount covers half a million, and it is expected that the appropriation will be made during the present session.

BATH, N. Y., 1.—A fire to-night destroyed the Congregational church, Calton's hotel and several other buildings. Loss, $25,000, insured a little. David Chase was killed by falling bricks. Deputy sheriff Morrison received serious internal injuries, and Wm. Minot broke his shoulder on ice during the fire.

ST. LOUIS, 1.—The board of trade and the Merchants' Exchange have both passed resolutions opposing the Chicago relief bill. They declare that any relief Congress sees fit to give should be by direct appropriations.

MADISON, 1.—The legislature to-day adopted a joint resolution, instructing the Wisconsin representatives in Congress to vote against the bill to allow the importation of building material to be used in rebuilding Chicago free of duty.

CHICAGO, 1.—A terrible murder near Dwight, Ills., January 23d, came to light yesterday, and the murderer was arrested. The victim was A. V. Pomditz, said to be a German nobleman, who lived near that place, and the murderer was a German employe of his. After the murder, which was committed with a monkey wrench, the body was buried in a heap of manure. He took the horse, wagon, personal effects, and dress of his victim and came to this city, where he was arrested and taken back to-day.

NEW YORK, 1.—Before the congressional committee to-day, Bixby stated that the whole profits of the North river general order business was $60,000 to $75,000 annually. His relations with Leet were friendly.

The trustees of the Market Savings bank have agreed to offer a reward of $2,800 for the arrest of Conkling.

ST. JOSEPH, Mo., 1.—The second pier of the bridge across the Missouri river was safely laid on the bed rock to-day, sixty-six feet below high water. For the past few days the progress has been slow, owing to the caisson meeting three feet of water-bearing gravel. This gravel bed contains specimens of rich gold bearing quartz, topaz, amethyst, winestone, and other relics of the glacial period.

PITTSBURG, 1.—At Washington, Pa., to-day, Thos. McGippin, aged 14, shot and dangerously wounded Professor Wilson, principal of the Union school. The professor had refused to deliver a note to one of the young lady pupils, and ordered him off the premises, when the boy shot him.

WESTERN DISPATCHES.

Various.

SAN FRANCISCO, 1.—The theatrical benefit for the destitute families of Roussey, the man who lost his life in rescuing others at the time of the *El Capitan* disaster at Oakland, and Ernest, who was killed by the falling of the pavillion, at Platt's Hall last evening, will nett each family about $800.

Christian Lean shot himself dead through the head by his wife's grave at Lone Mountain to-day.

Lorenzo A. Phillips shot himself through the body and head, at his residence on Potrero Nueva last night, while insane.

The Warren-Mansfield-Perley affair, wherein a check was extorted but payment stopped thereon, was the common talk long before Lawlor married the woman, but he was never mentioned as connected with the scheme.

MEXICO.

A letter from Hermadillo, Sonora, dated January 7th, states that Governor Pesquira, with the federal contingent from Sonora, had already exchanged shots with the advance of the rebels in Sinaloa, and a decisive battle was hourly expected.

An Apache chief, supposed to be the celebrated Cachize, from Arizona, was killed and scalped and his pistol, sword, &c., taken, and is now at Ures. When last heard from, *via* Tucson, Cachize was on the reservation at Canada Alamos, New Mexico. It is probably a mistake in the individual.

Professional Extortion.

A poor servant girl the other day paid a visit to a well known physician of our city to consult him concerning a slight throat affection. The interview lasted about five minutes, and the fee charged was $6, which she had to almost empty her ill-furnished purse to pay. Comments are unnecessary, but should not the law define the terms "pick-pocket" and "thief" a little more clearly than it does at present?

Contrary to our civilized boasts, circumstances are daily transpiring which prove that honesty is purely a conventional term, protected chiefly by the safeguards of spurious respectability, and having little or no connection with integrity of character. In a general sense,

"Honor and shame from false conditions rise,
And in no honest part true honor lies."

Many evils must necessarily attend this state of things, but few abuses can be thought of greater than professional extortions similar to the one here mentioned.

It is painful to speculate on the necessity of police *surveillance* that would be derogatory to gentlemanly honor, but if afflicted and impecunious servants have their misfortunes taken advantage of in the manner described, the law cannot be better interposed than to protect the poor and ignorant from the rapacity of professional curmudgeons.—*Alta Cal.*

NOTICE.

A PUBLIC MEETING of the citizens of Salt Lake City, favorable to the Constitutional Party, will be held in the Old Tabernacle on Saturday, 3rd inst., at 3 o'clock p. m., for the nomination of candidates to be voted for at the city election on Monday, 12th Feb., 1872.

PUBLIC NOTICE.

SALT LAKE CITY, U. T., Jan. 30, 1872.

ON THE 23rd OCTOBER, 1866, a reward was offered by certain parties, for the apprehension and safe delivery into the hands of the proper officers, of the murderer or murderers of Dr. J. K. Robinson, wherein I offered the sum of $500.

I now give notice, that in consequence of endangering the lives of innocent men, I withdraw that offer, and that the same shall be of no force or effect from and after this date.

Are indorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are A SURE PREVENTIVE for Fever and Ague, Intermittents, Billiousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public SO PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, indorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent physicians in the country:

ST. LOUIS, July, 1870.—JAMES A. JACKSON & CO.: Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it can not therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

U. S. MARINE HOSPITAL, ST. LOUIS, MO., Oct. 8, 1870.—JAS. A. JACKSON & Co.: I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use. L. MELCHER.

ST. LOUIS, July 6, 1870.—JAS. A. JACKSON & Co.: Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded, and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use. Respectfully yours,

T. J. VASTINE, M. D. — T. G. COMSTOCK, M. D.

We cheerfully concur with every word contained in the above testimonial.

SINGER SEWING MACHINES

WERE SOLD WITHIN THE PAST YEAR.—*Scientific American*, June 10, 1871.

The Singer Manufacturing Company,

AT THE WORLD'S FAIR

—Constituted by the homes of the people—

Received the Great Award of the Highest Sales and have left all rivals far behind them, for they

Sold in 1870 127,833 Machines!

SEWING MACHINE SALES FOR 1870.

"The magnitude to which the manufacture of Sewing Machines has attained is shown by the "SWORN" returns (to which any one can have access) of the manufacturers for the year 1870 to the owners of the leading patents, on which they pay a royalty. According to those returns the number of machines sold by each manufacturer in 1870 is as follows:

The Singer	127,833	Florence	17,660
Wheeler & Wilson	83,208	Gold Medal	8,912
Howe	75,156	Ætna	5,806
Grover & Baker	57,402	Empire	3,560
Weed	35,002	Finkle & Lyon	2,420
Willcox & Gibbs	28,890	Parham	1,760
American Buttonhole & Overseaming	14,573	Wilson	500

And several other companies who sold a few machines.

It will be seen by this table that the popularity of the Singer Machine far exceeds that of all others, their sale being one-half greater than even that of the famous "Wheeler & Wilson" machine. This is owing to the fact that the Singer Company have lately commenced making, besides their old and well-established manufacturing machine, what is known as their "New Family Machine," which is selling at the rate of nine to one better than their old style." Their total sales for 1869 were 86,781 machines against the 127,833 of 1870, showing an increase of one-half in the latter year."—*New York Sun.*

One-half of our Gigantic Sales, now nearly:

THREE-QUARTERS OF A MILLION

Machines Sold,

AND ALL IN PRACTICAL USE, WERE MADE WITHIN THE PAST THREE YEARS.

But the greatest increase of our Sales over all other Machines, being within the past year This is incontestible proof that

Our Machines are the Best in the World!

The New Family Singer Sewing Machine,

With Attachments for All Kinds of Work,

Is fast winning supreme favor in the household, as shown by the rapidly increasing sales, over all other machines.

This New Family Machine is now capable of a range and variety of work such as was only recently thought impossible to perform by machinery. We claim and can show that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, speedy and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the interlocked-elastic-stitch, alike on both sides of the fabric sewn; the only stitch which is universally approved, or is at all adapted to first-class work. Thus, beaver cloth, or leather may be sewn with great strength and uniformity of stitch, and, in a moment this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarlatan, or ruffling, or almost any other work—even by a child—which delicate fingers have been known to perform. Even the careless and thoughtless have little or no trouble on this machine.

Send for Descriptive and Price Circulars.

We manufacture our own needles, silk and twist; furnish linen and cotton thread and oil—all of superior quality—but which can be relied on only when obtained through our Principal or Branch Offices, or Agencies.
