NEWS OF THE WEST.

A Young Man Killed While Lighting a Cigarette.

LUMBER FOR SOUTH AFRICA.

Scarlet Fever along the Union Pacific—Fugitive for Five Years—Idaho Irrigation Scheme.

A San Diego, Cal., manufacturer is shipping in brooms made by the convicts from Lassen to be used in sweeping streets.

The governor of Idaho has appointed Caleb F. Jones, of Moscow, a regent of the state university at Moscow, vice W. E. Borah, resigned.

Nearly every town along the Union Pacific during the present season has had a number of cases of scarlet fever, double counting in several places.

A personal note for $10 recently came to light in Arizona on which the interest was $540. The rate was $1.25 a week. Fortunately the note was collected.

Francois Marchand, the Frenchman, aged 65, who was run over by an engine at San Diego, Cal., recently and had his leg cut off, suffered a relapse and died.

Willie Barrett, a ten-year-old boy, who his kin lost early crossed Sunday afternoon at Reno, Nev., while attempting to climb over a freight train. He will lose his foot.

The heads of the departments of the Union Pacific road have decided to tender a dinner to Senator Thurston on the occasion of his severing his connection with the company as its general solicitor. The date for the dinner is Monday, Dec. 30.

E. R. Ward, a dry goods clerk, was accidentally asphyxiated at his lodgings, in San Francisco Saturday night. It is not known whether the gas was blown out by air while the slipper of whether Ward turned it on by mistake without lighting it.

The Norwegian steamer Florida sailed Saturday evening from Vancouver, B. C., for South Africa, with a cargo of lumber consisting of 2,500,000 feet, valued at over $22,500. Just as she was leaving the harbor a coal-trimmer named George Wrighton was killed, owing to a mass of coal sliding on him.

Wesley Halliday, a young man about 17 years old, accidentally shot and killed himself Sunday afternoon while out hunting ducks along the Santa Ana river, Cal. The gun was discharged while the butt was resting on the ground and the muzzle in the boy's armpit, during which time he leaned over to light a cigarette.

The new rotary snow plow recently taken to Sacramento, Cal., makes the fifth rotary which the company has purchased. Three of them, including the new one, will be kept in the Sierra Nevada mountains. One is in service in the Shasta, Cal., division, and the other is on the border line between Nevada and Utah.

The Phoenix Herald says: Arizona differs in its methods somewhat from Kansas. In Kansas when a carload of beer is discovered it is put in the lockup; in Arizona they put the beer in the man and put the man in the lockup. The Arizona process seems to be much more satisfactory to the average man.

The goddess were after Patrick H. Dayton, of Los Angeles, Cal., Sunday morning, and in order to escape them he jumped from the third story of the lodging-house. He was not killed, but received injuries which will probably confine him to the hospital for a few weeks. Dayton is editor of the Los Angeles Business Review, a small monthly paper. He is an Irishman, about 42 years old, unmarried and apparently of good habits.

Some five years ago the Lander, Wyo., jail was pretty well crowded with prisoners, among them being one James Walker, who was under arrest for horse stealing. The Dawson Journal say that Walker, Sa'ill and others succeeded in breaking jail and escaping to the hills, where they were hunted for some days by a sheriff's posse. Smith was killed in a running fight with the officers, but Walker escaped capture and has been gone for some five years. Monday, Sheriff Davis arrested him.

Geo. Stoddard, of Seattle, Wash., woke up Saturday night to find the house wobbling through the air and sticks of wood chasing the cat from corner to corner, the earth grumbling, the doors of his house falling from their hinges and the shouts of people ringing in his ears. Stoddard lived in a small house that stood on piling close to the track of the Columbia and Puget Sound railroad in the southern part of the city. He went through this lively experience unharmed. He did not even get rattled, but jumped from his bed and running to the door just as his house landed in the bay, yelled out "What are you doing?" He was living close to the railway track, and a derailed car struck his house, throwing it into the bay. Stoddard escaped.

Weiser, Idaho, Signal: The Weiser Reservoir, Land and Irrigation company completed their Nutmeg Flat reservoir last week and now have a fine, substantial dam 200 feet long and 50 feet high, making a pond that will hold water sufficient to irrigate 4,000 acres, all the land expected to be in cultivation under their system next season. The engineering party are now at work cross-sectioning on the ditch from the Cove reservoir site. This ditch will be ten miles long. Teams will be put to work on this about the middle of next week, the weather permitting, and it will take very severe weather to effect operations. The company even expect to begin work on the Cove dam this winter. The latter will be 300 feet long and hold twice the amount of water in the Nutmeg reservoir. Water is guaranteed by the projectors by the 15th of May. The advantages growing out of this enterprise are very flattering. It will bring between 8,000 and 10,000 acres of magnificent land into cultivation.

This is the day of antidotes, and antidotes, but what people need most is a wholesome, is the antibilious antidote, Simmons Liver Regulator. The King of Liver medicines, and Better than Pills. "I have used no other anti-bilious remedy for six years and know from experience that for ladies of a sedentary habit nothing equals it." Laura V. Craig, Ellenbury, Fla. 3

If you want a sure relief for pains in the back, side, chest, or limbs, use an

Allcock's Porous Plaster

BEAR IN MIND—Not one of the host of counterfeits and imitations is as good as the genuine.

Medals

Two Gold
Three Silver

FIVE—that's the number of Medals taken in November by Goodyear Welt Shoemaking System at Mechanics' Fair, Boston.

People said it was the most complete working exhibit of Modern Shoemaking ever made.

The World's Fair at Chicago gave us a half-dozen medals. They'll be delivered, as they tell us, about February, 1, 1896. A little late, but, added to those we have, they'll make a fine display.

Taking medals is "dead easy"; but, what is more to the purpose, the people are taking

Goobyear Welt Shoes

And wearing them. Easier, stronger, and wear longer than the hand-sewed kind; cost less.

Try a pair, but first be sure you get Goodyear Welt Shoes. Any honest shoe merchant has them in all grades, all styles, for both sexes.

Remember because next the foot, no wax, no tacks, no nails to hurt the foot, do not rip, pliably easy, comfortable, stronger, fit better, and keep shape better than hand-sewed shoes, because the machines drive tighter stitches than the hand workman can, repaired cost less hand-sewed shoes—these are some of the good points in Goodyear Welt Shoes.
