RAWLINS CHOSEN

As the Standard Bearer of the Democrats in the Coming Contest.

HIS SELECTION WAS UNANIMOUS.

Thomas Griffith, Israel Evans and Peter Graves Secured the Nomination of University Land Commissioners.

The Democratic Territorial convention late on Saturday, as foreshadowed in the News of that date, completed its labors by renominating by acclamation Hon. Joseph L. Rawlins as a candidate for Delegate to Congress. For university land commissioners the following gentlemen were placed in nomination:

Israel Evans, of Lehi, Utah county.
W. H. Shoemaker, of Rosebud, Sevier county.
Hyrum Stewart, of Davis county.
Thomas Griffith, of Ogden.
Peter Graves sr., of Sanpete.
Edwin D. Woolley, of St. George.
L. E. Cropper, of Milford.

The ballot resulted in Griffith, Evans and Graves being chosen.

PLATFORM AND RESOLUTIONS

The following platform and resolutions were adopted unanimously:

We, the Democrats of Utah, in convention assembled, hereby reaffirm our adherence to the principles of union and the government which the Democratic party was organized to establish and preserve, and which have been cherished as the priceless inheritance of the Democracy in their national aspirations.

We believe in a strict construction of the three powers—the people's grant of power to the Federal government—to the end that the rights of the respective states may be preserved, the control of government may be secured, and the personal liberty may be exercised in the fullest extent consistent with the public safety.

We believe in wise economy in public expenditures that officers should be held to a strict accountability for their acts, that the employment of the taxing power in any form by any state for any purpose other than the improvement of the many, by which labor is employed, or material, by which trade are created and business is promoted, is a violation of a wicked perversion of the powers designed for the common good.

We believe in commercial and industrial freedom and equity, and we would prevent its exercise in the promotion of monopolies by the state in the full development of our national resources in the management and sale of public lands, in some instances, in the protection of labor from the aggressiveness of capital, and in equal rights to all special privileges to none.

We demand the passage of a law for the free and unlimited coinage of both silver and gold at a ratio of 16 to 1, without waiting for the consent of any other nation, and that the government shall pay out silver as money as it does gold, if obligations redemptable in coin be paid.

We commend the Democratic Congress and administration of the measures of reform which they have succeeded in effecting, by which hundreds of millions of dollars will be specially saved to American consumers and all classes of people will be benefited. In the arrangement of tariff duties we favor such adjustment as will operate equally throughout the country and not discriminate between classes or sections. We contend that such duties as are laid on foreign imports should be levied for revenue only, as contemplated in the national Constitution.

We emphatically disapprove of the course of those Democrats, who, by combining with the Republicans, thwarted the expressed will of the people in relation to the tariff and prevented the coinage of silver to be right place as money.

We endorse the income tax provision of the tariff law, by which a more equitable distribution is made of the burdens of taxation, and wealth as well as manhood is required to contribute its share to the public expense.

We endorse the acts of the Democratic Congress and administration: In abolishing the oppressive and anti-American federal election laws and thus restoring freedom to citizens at the polls.

In so revising the pension lists that the frauds which have robbed the treasury of vast sums of money will be prevented in future, while no worthy pensioner will be deprived of the aid to which his services are entitled.

In removing to a religious organization in Utah its property, which was confiscated under the provisions of law, with the prospect of the further restoration of the real estate also escheated.

In the appointments which have been made of actual residents of the Territory to public office, many of them native to the soil of Utah, a policy altogether different from that of Republican administrations.

In throwing open to settlement the Uintah and Uncompahgre reservations, by which a vast area of timber, grazing and mineral lands will be utilized by white labor and will add to be added to the wealth of Utah.

In passing an enabling act by which Utah may enter the Union as a free and sovereign State, on an equal footing with the existing states. For this Utah owes a debt of gratitude to the Democratic Congress and President, whose kind treatment of this Territory stands out in striking contrast to their harshness and cruelty exhibited by Republican Congresses and administrations for thirty years.

We are proud of our delegate in Congress, Hon. J. L. Rawlins, to whose fidelity, perseverance and splendid political tact and energy the successful passage of legislation so beneficial to Utah have been attributed. His unparalleled success has demonstrated to the people of Utah that they make no mistake in sending him to the national legislature, where he was recognized as an peer of his associates and a man of nerve and ability.

We denounce the Republican party for its obstruction to those financial measures demanded by the country to promote trade, industry and business from the chaos into which they were driven through Republican legislation and misrule.

For stimulating to feel the blasts of 93, the Democrats in power for the effect of Republican misrule.

By the demonetization of silver and the unconstitutional and partial system of class legislation, the masses of the people have been impoverished, the agricultural and industry classes oppressed, and the land disturbed by the cries of disembodied workmen, and the cries of the unemployed.

We point to the only Republican legislature of Utah as a specimen of the class government and statute law which that party would enforce if given a free hand in the new State.

In attempting to deprive the public schools of one-fifth of the revenue essential to their support, taxed in good necessary funds for the Center, the Agricultural college and other public institutions, as also roads and necessary expenses, and in appointing a large share of public money as another for favored private and one of doubtful expenditure, which the governor has provided, during recession of Congress, endeavoring to cast and foment a prejudice against the people of Utah, and thus to prejudice capital in a manner of duty and political history which was disgusting in influence and made the assembly a laughing stock to the people.

We appeal to the people of Utah to adhere to the principles of the party which has endeared them the union was founded, and we now to meet the coming Utah elect rest upon the broad foundation of constitutional rights in the future of commercial prosperity.

We demand that the Constitution of the new State shall be formed on a republican basis, shall provide for the equal protection of all law abiding citizens.

We demand that economy shall rule in all branches of the public service; that public money shall be expended only for public benefit, and that the taxed community shall be specially favored to the State to the exclusion of any other class.

The Democrats of Utah are unqualifiedly in favor of woman suffrage, and the political rights and privileges of women equal with those of men, including eligibility to office, and we demand that such guarantee shall be provided in the Constitution of the State of Utah as will secure to the women of Utah these inalienable rights.

And we demand that in providing for the settlement and disposal of the public lands granted to the State of Utah, care should be taken to prevent speculators in lands and to provide for small holdings, and that the wealth put into circulation shall be granted only to actual settlers upon, and improvers of, the soil.

We declare to be American, any society or organization that is pledged to deprive any citizen of his right to labor or his political or religious rights, or to wrong act as soon as it was presented to him.

In view of the benefits conferred by the Democratic party upon this Territory and the other acounts of any benefit received from the Republican party, and of the undying principles of liberty and equal rights which the Democracy spread, we are fully convinced that the people of Utah, who are not one iota of an organization, will so vote to the polls in November that the voice of 1892 will be heard and Utah will enter the Union crowned with glory as a free and Democratic state.

Mr. Franklin S. Richards, of Salt Lake, and Mr. Elias Benson, of Utah county, expressed themselves as highly pleased with the women's suffrage plank and thanked the convention most heartily for that recognition of the fair sex.

Mr. Rawlins was placed in nomination in an eloquent speech full of glowing tributes to him by Hon. F. L. Williams. The nomination was made unanimous amid the wildest enthusiasm and a committee consisting of David Evans, of Ogden, Judge Norrell and John C. Cahoz, of Salt Lake, were appointed to escort him to the platform. On motion of a delegate under the gallery Mr. Hawkins's name was added to the committee, whereupon there was another outburst of enthusiasm.

Mr. Rawlins said he felt overwhelmed with the kindness exhibited towards him and would endeavor to retain the confidence of the people. He accepted the honor bestowed by the nomination with heartfelt thanks and made a lengthy report of the work he had done for Utah in Congress. At 8:30 the convention adjourned sine die, beginning at 8 o'clock a grand ratification meeting was held in the Theater at which Governor West presided and at which speeches were made by the governor, S. R. Thurman, Colonel Payne, Fisher Harris, C. C. Richards, Colonel A. J. Weber, Mr. Rawlins and Hoyt J. Grant.
