MINING, BUSINESS AND STOCKS.

AMONG THE STOCK BROKERS

Mining Share Market Was Not So Good Today.

WABASH PLAYS A STUNT

Upon the Toboggan Again—Was Attacked Upon Open Board—Galena Improves Some.

Consolidated Mercur cut an important figure in the sales of stocks on the mining exchange this forenoon. Fourten hunred and fifty shares were transferred, one lot at $1.71, and another at $1.71, which is plus the dividend payable on the 9th of next month. Daly was practically unchanged, compared to yesterday's quotations; altogether 460 shares went down under the hammer and the closing bid was registered at $4.55. Daly-Judge failed to recover from the hammering it received at the late call yesterday and ended up with $9.92½ bid. Daly-West also continued weaker. Galena was a favorite with some on account of encouraging reports received from the mine It closed 3 points to the better.

New York opened at 26 cents, but the stock was nervous and was passed with 25 cents bid for it. Wabash entered the pit in bad order; it displayed such a weakness that staggered the talent for a time; before they could regain the gavel fell. But on the open board the bears had complete control of the situation and the stock went tumbling at a rate that frightened; it did not stop until it closed 5 cents under the regular call close. Sales of Naildriver were registered to the amount of 750, while a block of Lone Pine was alleged to have been "washed" at 78½ cents.

The closing quotations and sales posted were:

SAME OLD BOARD HOLDS THE FORT

No Changes Made in Daly-West Directorate.

AT THE DENVER MEETING.

Mine Produced 1,827,585.72 During The Fiscal Year—Bamberger and McCornick Enroute Home.

At the meeting of the Daly-West Mining company, held in Denver late yesterday afternoon, the old board of directors was re-elected, which consists of the following: J. E. Bamberger, W. S. McCornick, J. D. Wood, Ezra Thompson and W. H. Dickson. The organization of the board will not take place until after the return of Messrs. Bamberger and McCornick, who are now en route from the Colorado capital. Immediately after their arrival the reports submitted to those present at the Denver gathering will be placed in the hands of the printer and each shareholder furnished with a copy.

The report of President Bamberger will show that during the year the company mined and marketed 65,363 tons of first class ore and concentrates, which was sold for $1,827,585.72. The total amount of dividends paid during the same period was $1,044,000, regardless of the fact that the price of silver ruled about 10 cents per ounce lower. The expenditure of $100,000 for additional territory is noted; the settlement of the claims growing out of the disaster occasioned by the explosion are shown in detail, yet the treasury contains a balance, after all expenditures, of more than $250,000.

The concentrates produced during the year showed a greater value per ton than they did during the previous year; a better record of extraction is also noted. The concentrates sold for about $2 per ton more this year, notwithstanding that the average price of the metals figured about $5 per ton lower.

Sup't. John A. Kirby says that there is no reason why the output of 1903 should not eclipse the record of any previous year.

The reports show that 8,000 feet of territory was opened up during the year, and that a greater tonnage of ore has been exposed than at any time in the history of the mine.

CAMP OF DE LAMAR.

One Hundred Eighty Tons of Ore Being Milled Daily.

The impression has gone abroad that De Lamar, Ida., is practically a camp of the past. But Editor John Lamb, of the Silver City Nugget, and who is recognized as being one of Idaho's ablest writers, takes exceptions to such assertions. While the camp is not as active as it was one time, he shows that it is not by any means dead. He says: "The usual amount was paid out at DeLamar Tuesday—payday. The usual amount of ore, about 180 tons per day, is being put through the mill, and the usual number of men are still employed. For a camp over which people have been croaking for several years and calling it 'played out,' it is a pretty lively old one yet. We would like to see some other old moribund camps displaying the same activity."

EUREKA-HILL MEETING.

Not Enough Stock Represented for A Quorum.

Yesterday was the date set for the annual shareholders' meeting of the Eureka Hill Mining company, but for lack of a quorum none was held. As a consequence the officers of last year will hold over another 12 months. They are: President, M. C. Fox; vice president, Robert Harkness; treasurer, L. S. Hills, and secretary, G. W. Riter.

SAW THE MAJESTIC.

J. P. Haines, of Chicago, Visited the Beaver Copper Belt.

J. P. Haines, a prominent Chicago capitalist, is in the city. He has just returned from a trip to Beaver county, where he made a thorough examination of the Majestic and Imperial mines. Mr. Haines, like many others who have visited the great copper belt, is enthusiastic over its future.

Mr. Haines was in consultation with Senator Lewis this forenoon.

GONE TO THE J. I. C.

Manager Turner Hears Good News From Park City.

Manager O. B. D. Turner of the J. I. C. mine of Park City departed for that property this morning expecting to remain there for several days.

Advices received from the property yesterday were to the effect that an interesting change was taking place in the bottom of the shaft and indications point favorably to breaking into a large body of ore.

AT THE BLUE ACRE.

Conditions Very Favorable, the Report of Manager Crowther.

Henry M. Crowther, managing director of the Blue Acre Copper company, has returned from an inspection trip to that Beaver county property. He states that conditions are looking very favorable there and that in the bottom of shaft No. 1, which has reached the depth of 166 feet, a streak of ore has been encountered along the foot wall of the vein which assays 11.6 per cent copper, 7.2 ounces silver and $6 gold. The shaft is to be continued to the 200-foot level, from which point drifting and cross cutting will be done.

The application made some time ago for the establishment of a postoffice in the district has been acted upon favorably and has been already established. It is known as Blue Acre, and L. E. Kiser, superintendent of the mine, is postmaster. A tri-weekly service has been inaugurated, but assurances have been given that it will be changed to a daily service soon.

A stage line has also been established between Blue Acre and Beaver, coaches running on Monday, Wednesday and Saturday of each week.

Mr. Crowther states that the weather has been quite cold in the camp, but the snow is not deep.

Notice.

Bank of Commerce at 160 Main Street.

PRODUCERS MEET AGAIN ON FRIDAY

Committee Appointed Recently is Busy Preparing a Report.

IMPORTANCE OF MEETING

Secretary Daly Urges Every Mine Owner in the Camp to be Present On This Occasion.

On next Friday evening at the Commercial club, the producers of the Tintic district will meet together again and probably by that time the committees appointed at last Friday evening's session will be ready to submit some kind of a report as to the best plan to pursue in the matter of inducing the railroads to make a favorable revision of the existing tariffs, which applies to the shipment of low grade ores to the valley smelters.

The committee appointed to devise ways and means of relieving the present condition of affairs is at work and last night the members met in consultation.

A prominent Tintic shipper said today that the situation is more critical than many people suppose. He has great hopes that the transportation companies will do the right thing by the producers by making such concessions that will prove to be satisfactory.

"There is no use talking," he said. "The railroads must do something; we cannot grade our ores under the $15 average to get the $1.50 rate and make it pay.

"If the railroads refuse to help out, it just means that the low grade ores will have to be left in the mines until some other plan of relief is mapped out; which might possibly mean the building of reduction plants on the ground or the leasing, by the producers, of the mills in the district which are not in commission at present.

"But these are matters that will be gone over thoroughly."

P. J. Daly, who was made secretary of the temporary organization of the producers said today he had the assurance that the meeting next Friday will be largely attended. He desires that it shall be and urges upon every mine owner in the district the importance of being present.

MINES OF DEEP CREEK.

Traction Engines May be Employed To Transport Ores.

The committee appointed at the recent meeting of Deep Creek mine owners is busily engaged in gathering data for a report to be submitted at a later meeting of the Deep Creek association. President John Dern said today that he knew of a certain party who would establish a transportation line between Salt Lake and the mines and agree to deliver the ores to the smelters in the valley at a reasonable price; provided, that he has the assurance of the producers that they can furnish him no less than 100 tons per day.

He would, Mr. Dern states, put traction engines on the road, but before doing so would expect the producers to enter itno a contract with him for a period of two or three years.

The committee will ascertain if the amount of tonnage required can be had; in fact, the members will go into every detail, so whenever their report is completed, it will be very comprehensive.

No meeting will be called until the committees finish their labors; nothing can be done to further the interests of the Deep Creek country until they are ready to report.

Monthly Output.

In the Yellow Pine mining district, Nevada, the Nevada-Keystone Mining company is operating at 30-ton cyanide plant.

The output of the property each month, it is said, amounts to about $40,000. The mines are located near the town of Sandy.

Case Leaves Amalgamated.

Special Correspondence.

Anaconda, Mont., Feb. 15.—George D. Case, who has been the superintendent of the Washoe smelters, owned by the Amalgamated Copper company, in this city, has resigned. He has accepted a similar position with the Copper Range company in the Lake Superior region.

McConaughy Expected Home.

Secy. McConaughy of the Sacramento mine is expected home this week from the east, where he was called on account of the death of his father. Upon his return, the March dividend of $5,000, will be posted.

MINING CONCENTRATES.

J. T. Breckon is up from Kimberly.

Taylor & Brunton reported the arrival today of six cars of ore from Tintic.

Willard F. Snyder of the Western Exploration company is expected home from California tomorrow.

Manager M. M. Johnson of the Cactus mine of Beaver county will leave for that property tonight.

The Centennial-Eureka mine of Tintic is to be equipped with an independent electric light plant.

A carload of low grade ores from the Martha Washington mine of Tintic is at the sampler today.

Manager John J. Daly, of the Daly-Judge, departed for the coast last night. He will be absent several weeks.

The property of the Consolidated Stanley Mining company, at Idaho Springs, Colo., has been sold at sheriff's sale.

Encouraging reports continue to come from the Galena mine of Fish Springs where a new strike of ore was reported sometime ago.

A deposit of gypsum has been located by A. N. Moore, near Florence, Colo. The locator is manager of the Portland Cement works at that place.

The ore and bullion settlements reported at the close of banking hours yerterday amounted to $72,000, as follows: Base bullion, $41,100; ores, $30,900.

A. F. Holden, managing director of the United States pompany, departed for California last night in response to a message announcing the illness of a member of his family.

The directors of the Calumet and Hecla mine of Michigan have declared a dividend of $5 per share, payable March 10. With this amount the mine has distributed in "velvet" $80,350,000.

At the monthly meeting of the Copper Producers' association, held in New York yesterday, the formal notice of the withdrawal of the Amalgamated and allied concerns was accepted. This was anticipated.

A Boston publication says: "During January the United States Mining company shipped 342,809 pounds of copper bullion east worth over 30 cents a pound, including gold and silver. The four furnaces are handling 1,000 tons of ore per day, and the company is preparing to handle custom ores."

Articles of incorporation of the Henry Bradburn Mining company of West Virginia were yesterday filed with the secretary of state by H. Bradburn, T. A. Godfrey, M. R. Stewart, W. McClure and J. F. Richard. The company, which has a capital stock of $100,000, will operate mines in Sevier country.

Manager F. Leonard, at Sutro, says operations have begun on the tunnel to unwater the south end of the Comstock by the Gold Canyon Extension company. This tunnel will begin at the end of the Sutro at the Alta shaft and extend to the Dayton shaft, 8,300 feet. It will run on the vein and open up the mine at an average depth of 1,000 feet.—Reno Journal.

John Beck, the original owner of the great Bullion-Beck mine, is making a strenuous effort to regain control of the property, and believes that he will succeed. The big owners are said to have mentioned a price for their holdings that is satisfactory to Mr. Beck, and that gentleman, if the deal is made, will take over the old bonanza with a full sack of coin on hand to meet the necessary expenses of opening up the virgin ground, of which there remains a big territory. Mr. Beck has great faith in the mine, and feels certain that success will crown his efforts, if he can again occupy the managerial chair.—Tintic Miner.

MOST STOCKS WERE LOWER

Smelting and Leather Made Marked Declines.

AMALGAMATED WAS BID UP

Had a Good Effect—Market Hardened On Prospect of No Gold Exports, Then Eased Off.

New York, Feb. 18.—The majority of stocks were lower at the opening today. Amalgamated Copper and Tennessee Coal were conspicuous exceptions with advances of a larger fraction, and Anaconda rose 3⅜ in sympathy with the former. Amongst the declines Smelting and Leather preferred reached a point. The changes otherwise were small fractions. Dealings were very quiet and rather irregular. A number of the active leaders, including St. Paul, New York Central, Anaconda, Amalgamated Copper and Tennessee Coal ran off below their opening prices. Meanwhile Wabash preferred, Brooklyn Transit, Smelting and Republic Steel rose sharply. Large orders for Amalgamated Copper came into the market at the low level and the price advanced to 74 with some effect all around. Prices drifted sluggishly in an aimless way, except in special stocks. The market hardened when gold exports tomorrow were seen to be unlikely but eased off again with a loss of 1¼ in New York Central. Northwestern preferred sold at a decline of 15 points from the preceding sale last month and Canada Southern fell 1⅝. Among the specialties American Telephone advanced 4½. Sloss-Sheffield Steel preferred advanced 4, People's Gas 2 and Pressed Steel Car and Fort Worth & Denver City Stamped 1 point.

Bonds were steady at noon.

Most of the limited selling was in Amalgamated which again touched 74, the highest of thed ay. Fluctuations in other speculative favorites were trivial and traders paid little attention to the market. General Electric gained 1⅝ while Colorado Fuel and St. Louis-Southwestern lost 1 and New Jersey Central 4 points.

MONEY AND BONDS.

Money on call steady at 3 per cent. Prime mercantile paper 4⅝5¼ per cent.

Sterling exchange firm with actual business in bankers' bill at 4.87.25@4.87.50 for demand and at 4.84.50@4.84.625 for 60 days. Posted rates, 4.85@4.85½ and 4.88@4.88½. Commercial bills, 4.83¾@4.84¼.

LIVERPOOL.

Liverpool, Feb. 18.—Close: Wheat—March 6s 3½d; May 6c 2½d; July 6s 1½d.

CHICAGO MAY WHEAT.

Chicago, Feb. 18.—May wheat opened a shade to ⅛@¼c higher at 78¼ to 78⅜, but under scattered selling with only a moderate demand from commission houses the price eased off to 78⅛.

The market was extremely weak throughout the day, the estimates of liberal Argentine shipments being the chief bear factor. May sold down to 77⅜ and closed ⅜c lower, at 77⅜@77½.

WOOL.

BOSTON.

Boston, Feb. 18.—The Boston wool trade is quiet, with a moderate business doing in small lots. Large buyers are waiting for further developments in the market before taking stocks. Others are said to be holding off in an endeavor to weaken prices. The situation, however, continues firm, with an advance probable at an early date. Fleece wools have been in fair demand, while territory wools seem to be in better shape than other varieties.

Eggs—Receipts, 13,500 packages. Firm. State and Pennsylvania, 19; western unaided, 18.

WANT DONE BILL PASSED

Patrons of the Public Schools Unanimously Favor Measure.

Representative Dome's bills were the subject of discussion in meetings held in two of the city schools yesterday by the parents of pupils. They relate to lengthening the school year and raising the taxation for the maintenance of the schools. Both measures were indorsed and committees were appointed to go before the house and senate committees to urge the passage of the bills.

The meeting of the Oquirrh school was largely attended. P. A. Dix was chairman and John Holt secretary. The measures were well discussed and everyone favored the proposed increase in taxation from 5½ to 7 mills. A committee consisting of P. A. Dix, John Holt, Mrs. Joseph Cohen, Mrs. J. F. Grant and Mrs. C. E. Shermer was appointed to urge the passage of the bills.

At Webster school Supt. D. N. Christensen and Judge C. C. Goodwin delivered addresses and the proposed legislation was unanimously indorsed. Joseph Young, W. Jones and Mrs. Lillian Freeze were appointed a committee to wait upon the legislative committees to express the sentiments of the meeting.

SWANSON'S 5 DROPS TRADE MARK

CURES RHEUMATISM

Neuralgia, Kidney Trouble and all Kindred Diseases.

Swanson's "5-DROPS" will cure Rheumatism in any of its forms or stages of development. Applied externally it affords instant relief from pain. Taken internally it rids the blood, tissues and joints of the uric acid and other poisonous matter, which are the causes of the disease. "5-DROPS" never fails to cure Rheumatism, Sciatica, Lumbago, Neuralgia or Kidney Trouble. It has effected more cures of these ailments than all other remedies combined. It is the greatest blood purifier ever discovered.

FREE COUPON No. 241

Cut this out and send it with your name and address to Swanson Rheumatic Cure Co., Chicago, and you will be sent a trial bottle of "5-DROPS" free, postpaid.

Burlington Route

What Constitutes Good Service.

What makes a train popular? Good service.

What constitutes good service? Good cars, good track, good meals, fast time, and civil employes.

The Burlington's Chicago Special is a striking illustration of the results of good service. It is far the most popular train between Denver and Chicago—which is simply another way of saying that its service is better than of any other train.

Leaves Denver 4:15 p. m.; arrives Omaha 6:45 a. m., Chicago 8:30 p. m. next day.

To St. Louis at 2:30 p. m. and 10 p. m.

R. F. NESLEN, Gen Agent, 79 W. Second South Street, Salt Lake City.

P. S.—Thro' sleeper for Chicago leaves Salt Lake City 3:15 p. m daily.
