HAWAIIAN ADVICES.

The Trouble Between Minister Thurston and Sec. Gresham.

SURPRISE IN OFFICIAL CIRCLES.

Feeling Manifested as Thurston's Friends Increase—Rifle Shooting in Honolulu.

SAN FRANCISCO, April 11.—The steamer Alameda arrived today bringing the following Hawaiian advices, dated April 3rd:

The first news brought here of the trouble existing between Minister Thurston and Secretary Gresham was received by the Chess two days ago. It was a surprise in official circles as well as to the community. Minister Willis was the first and only minister to not received any word the past disclosure that caused him to be sent home.

The only news received by the steamer was a despatch from Thurston stating that he was on his way home. He leaves written March 20th, due to six months, but in a private letter he says he intends remaining in Washington for the present. Minister Willis sails today.

The news received absolutely nothing definitely in the matter. The weeks few days since the newspapers noted Secretary Gresham's notice was given to the government, but Minister Thurston will be given his notification of his recall on the arrival of the American steamer of mail.

The government is quietly awaiting developments. If Thurston returns immediately to Honolulu Minister Hatch of the foreign department will assume him, if Hatch will accept the position. Thurston will be given his choice in the matter. Although the case has been mentioned by the complaint of the American league Thurston's recall has the appearance of importance.

The ministers of the government said evasively that to refuse to appoint a successor to Thurston, thus constituting the result of Minister Willis, is the same as telling Thurston he is expected to leave Honolulu. Willis is not for a decree to say to himself come with the United States as well as with the news discussed very well, and that of Consul General Mills. Policy alone keeps him out.

The only points of Hawaii they are not to be present too great in every sense of the word, but President Dole will be inclined for a reasonable time with existing men a policy using a conciliatory measure.

"SUPPLY" CONFERENCE.

Establishment on the Best Place at Reading.

LOS CITY, April 11.—At the conclusion of the Rangerland Gas the principal business transacted was the selection of the next conference meeting, to be held April 8, 1896.

The resolution was presented by a committee appointed to the question. It was adopted the board of directors of the Lamoni, Ia., college, now building, and provide a fund for students, two of whom are to be members of the church.

Six Saved Chicago From Illinois.

PORTSMOUTH, Ill., April 11.—A school-house on fire in Hyde-Sidney Dixon of Green, in the Ingle-town today, which, it carried out, will probably settle Cook county (Chicago) from the state of Illinois. It was in the shape of a joint resolution and states that the question of giving Cook county separate government shall be submitted to a vote of the people.

The resolution noted that the rapid and unprecedented growth of Chicago renders it necessary for special laws to be enacted in every legislature, the interests of Chicago are so many to whom directly opposed to those of the state at large, and therefore it is deemed best to make the section to cover to repeal the act. It is therefore resolved that there be submitted to the people for their satisfaction or rejection at the next general election for members of the general assembly an amendment to take the place of section seven of article seven of the constitution.

This amendment provides that on and after January 1, 1896, Cook county shall be governed by a general assembly, composed of senators equally and fairly apportioned among the state. To this is made in division of Cook county into districts, and the general assembly of the state shall grant the authority of such senators and representatives. The general assembly of Cook county shall pass the laws necessary to authorize local in that county, and provide for such officers shall be their respective offices and in accordance of the terms of which they are to be elected.

"Children were frequently sold up by the feet and [illegible] in two, or had their throats cut. Women with babes were ripped open. Other children were pulled apart by their legs.
