TELEGRAPHIC.

OPINIONS DIFFER.

Lack of Currency One Feature of the Monetary Situation.

NO ACTUAL SCARCITY YET.

Says an Influential Member of the Clearing House.—The Banks Hoarding Their Gold.

NEW YORK, July 5.—The chief feature of the monetary situation today, according to several leading bank presidents, were unrest, lack of confidence and scarcity of currency. The latter is apparently becoming a very serious matter and some banks are very hard pushed to secure enough to meet the demands upon them. One of the most influential members of the clearing house said this afternoon: "It is all nonsense this talk about the actual scarcity of currency, but everybody keeps on talking about it there will soon be one. The banks have yet plenty of cash, but they are attempting to hoard their gold."

Orders for currency by mail this morning were reported light, but it was said that in view of Monday's exportations they could not be estimated. The president of one of the large national banks in speaking of the scarcity of currency, said a large amount of currency was locked up in the vaults of trust companies. He knew one trust company that had $5,000,000 of currency locked up in that way.

At the sub-treasury today it was said that there had been no telegraphic transfer of money, but $200,000 in small notes had been exchanged for large ones. The scarcity of currency in the banks, it is said, is known, and everything is done by the treasury officials possible to relieve the strain. The sub-treasury in this city has at present only $15,000,000 in currency in hand, but it can draw for two or three million more from Washington if occasion requires.

The Clearing House Loan committee issued $500,000 more certificates today, thus making the total amount now issued $22,115,000.

Three hundred and thirty thousand ounces of silver will go out by a steamer tomorrow.

Silver Production of the Country.

WASHINGTON, D. C., July 5.—Inquiry at the treasury department today as to whether the amount of silver offered the government was as large now as formerly, developed the fact that for the first six months of the current calendar year the offers aggregated 52,500,000 ounces, while for the same period last year they were only 45,350,000 ounces, showing an excess for the corresponding period this year of 6,350,000 ounces, which would indicate that the production of silver is not falling off in the United States. The amount of silver bullion imported for the first six months of the current calendar year, including that in ores, was 8,471,000 ounces, while there has been exported 11,308,000 ounces. Of the amount of silver offered to the government during this period, 27,000,000 ounces were purchased.

EASTBOUND RATES.

Stories belonging to the technical calling, right in sight of the Pacific Announces a Reduction.

July 5.—The Union Pacific announced today that beginning with tomorrow it will make the following first-class eastbound rates: From Portland, Oregon, Butte and Helena to Chicago, $93. To the Missouri river, $35. To St. Louis, $31. Basing the rate for points east of the Missouri river at $25, the same rates as those quoted above will be put into effect from Ogden. In making rates those of the Western Passenger association east of the Missouri river have been cut $1.50. This is likely to lead to a reduction in the association territory.

Fair Notes.

CHICAGO, July 5.—The Exposition finances are fast assuming a satisfactory condition. An evening paper estimates that in the period embraced within the last 120 days of the Fair a sum ranging from $120,000,000 to $150,000,000 will be left in Chicago by visitors. Certain it is that every day shows a gradual increase.

A DENVER man was today appointed for the World's Fair Captive Balloon company.

President Palmer stirred up the World's Fair national commission this afternoon on the Sunday opening question. He urged the adoption of a resolution which has for its purpose the closing of the gates Sunday. After an expression of views by several commissioners, President Palmer spoke, saying:

"I'm sick and tired of the petty evasions that pretend the opening of the gates Sunday is in accordance with law. If the motion to adopt the resolution be lost I shall move its reconsideration and keep it up so long as the commission remains one."

The World's Congress of Musicians today listened to a number of addresses. Among them was "Indian Music," which was technically discussed by Mr. Fillmore of Milwaukee. "Early Phases of American Music," by Louis C. Elson. The Women's Musical Congress heard addresses by Miss Morgan and Madame Louise Cappiani.

Habeas Corpus for Indians.

MUSKOGEE, I. T., July 5.—The ten Choctaw Indians sentenced to be shot Friday at Wilburton for participating in the killing of six Indians of the Jones factions last fall were tonight granted writs of habeas corpus by Judge Stewart. Officers are on the way to serve the writs and some trouble is apprehended. The writs were granted on the ground that the Indians did not have a fair trial.

Cleveland at Buzzards Bay.

BUZZARDS BAY, Mass., July 5.—It is announced that the yacht Oneida with President Cleveland aboard is in Buzzards bay. A heavy thunder storm prevails.

A Runaway Cable Car.

NEW YORK, July 5.—This afternoon a cable car became unmanageable on Broadway near the City Hall Park and started on a jumpage toward the battery. The runaway car crushed into the rear platform of a horse car. Both horses were killed and the horses ran away. With the partly demolished horse car ahead, the still unmanageable cable continued its mad rush and encountered a blockade of horses and wagons. When the cars cut a passage through the blockade seven horses were stretched upon the ground and about five wagons rendered fit for the repair shop, while several drivers were bruised. Somebody finally notified the power house and the cable was stopped.

WOULD ASSASSINATE HIM.

The Governor General of Siberia Not Popular.

NEW YORK, July 5.—Soon after the arrival here last Sunday of General S. M. Dondwinsky, recently appointed governor general of Siberia, with a large party, bound for the World's Fair, the clerk of the Clarendon Hotel, where the party were staying, received a note signed: "A Victim of Siberia." The writer says a certain organization in New York is plotting to kill Dondwinsky. He also says that but for interference the organization would have made an attempt to destroy the Russian man-of-war in the harbor.

A Millionaire's Daughter Missing.

NEW YORK, July 5.—An evening paper says that Miss Edith Drake, the twenty-seven-year-old daughter of James M. Drake, the millionaire banker, has disappeared mysteriously, and her parents and friends are much alarmed. They say her mind is somewhat affected. She is deeply fascinated with Samuel D. Mattlocy, a builder. Mattlocy is said to have made a trip out of town at a time corresponding with her disappearance, but as yet there has been no suggestion that they have taken matters in their own hands and eloped.

Destructive Storm.

READING, Pa., July 5.—This city was visited by a rain and hailstorm this afternoon which, for destructiveness, eclipsed all previous storms of the kind since 1868. The streets of the city were covered with hail and water and the sewers became choked. Hay, corn, oats, flower gardens, grapes and other fruits were stripped off like leaves. The vineyards on Mount Penn were completely ruined. South of Reading the wheat, rye and oat crops were levelled to the ground and many fields were flooded. It is believed that the damage in Schuylkill valley will reach many thousand dollars.

Assassinated and Slain.

LOUISVILLE, Ky., July 5.—Near Caraway this morning, Hattie and Mary Bay, aged 19 and 13 years respectively, daughters of Jno. B. Bay, were brutally outraged and then murdered by an unknown man, their throats being cut. If the culprit is caught he will be lynched.

COMING WEST.

The Chairman of the House Committee on Territories.

NASHVILLE, Tenn., July 5.—Congressman Joseph H. Washington, chairman of the house committee on territorial affairs, left tonight for an extended trip through the territories, in order to familiarize himself with their condition. He will go as far west as California and will be gone until just before the meeting of Congress.

THE SITUATION IN HAWAII.

Threats Against Claus Spreckles and Subsequent Arrests.

The Natives Peaceful and Looking to the United States for a Final Decision.

HONOLULU, June 23.—The developments of the past six days have been that three arrests for conspiracy to overthrow the provisional government, threats against the life of Claus Spreckles, and the organization of a society within the ranks of the annexationists for the purpose of shooting down certain royalists in the event of any open attack upon the present government, have been made. Claus Spreckles found on his gate a few days ago a placard ornamented with a skull and crossbones, and bearing the inscription, "Gold and silver will not stop lead."

The names of the persons arrested for conspiracy are T. B. Walker, Ex. C. Crick and Archibald Livesin. They are all English, and the British consul was disposed to interfere in their behalf, but dropped the matter when informed of the nature of the charges against them. The government claims to have evidence against the men showing that they were forming a plot to blow up the government buildings and then seize the annexationists when they should rush to the rescue.

The government took steps to protect Spreckles from further annoyance and his home is now guarded by stalwart native police. The government looks upon the placing of the placard as the work of a practical joker. In regard to the "Citizens' Guards" the annexationists say they realize the question of the government is a vital one with them; that in the event of the return of royalty to power, their lives, property and families will be in danger. From this fact that their very existence depends on winning the fight, they do not propose to take any chances, and to make doubly sure will kill all who aspire to the throne. It is only fair to say that the provisional government officials have not been consulted in making these wild plans.

With all the talk of conspiracy and murder, there is naturally a possibility of trouble here. The natives are peacefully disposed and are generally of the opinion that the question of government will be settled by the United States and anything they might do will not interfere with that settlement.

Nordhoff, a newspaper correspondent, was commissioned to spread broadcast certain statements alleged to be libelous, and which were published in New York. Minister Stevens refused to allow the correspondent to answer the summons, and notified the government that Nordhoff was under Uncle Sam's protection. Minister Stevens the Cutting case in Mexico as a precedent, but the provisional government took the ground that the Cutting case differed from this one inasmuch as Cutting wrote and published articles in the United States but was arrested and published in Mexico.

A few days ago Spreckles announced that he was going to remain here and support his own flag. Since then the provisional government. The reason for the sudden change in his plans is said to be that his wife and daughter are affrighted over the warning posted on Spreckles's residence, and have insisted that he leave the country with them. Although Spreckles's intention about departing from Honolulu have been kept as secret as possible, the news has become known to many people. Spreckles professes not to be in the least alarmed over the threats against him, and that he is amply able to take care of himself, but those opposed to him in politics assert the contrary.

The English Mine Disaster.

LONDON, July 5.—The work of rescuing the living miners and recovering the bodies of the dead is being pushed as rapidly as possible in Ingram's colliery, Thorncliffe. Late this evening the rescuers brought thirty-eight bodies to the surface. Two men were brought up in an unconscious condition, but are still breathing, and hopes are entertained that they will recover. Six men who escaped unhurt, but were imprisoned behind the doors were dug out this evening. No reason is given for the explosion, but it is conjectured that it was caused by carelessness on the part of one of the miners in opening a lamp.

Eight men and a boy have been rescued from the mine. All hope for the others in the pit is abandoned.

The German Elections.

BERLIN, July 5.—The reichstag by a large majority today elected Herr Von Levetzow, a conservative, president, Baron Von Buol, first vice-president, and Herr Buerklin, a national liberal, second vice-president. The army bill will be introduced on Friday.

Prisoners Liberated.

LONDON, July 5.—The *Daily News* says it is understood that in response to the demands of Lord Rosebery the Sultan of Turkey has ordered the liberation of all persons imprisoned at Asyuta of sedition.

ROYAL WEDDING.

The Duke of York and Princess May.

LONDON, July 5.—The queen arrived at Buckingham Palace today for the purpose of attending the marriage of the duke of York and Princess May, which will take place at 12:30 tomorrow in the chapel of the Royal St. James Palace. The duke of York was today made a knight of the Most Ancient and Most Noble Order of the Thistle, by the queen.

The Paris Riots.

PARIS, July 5.—Rioting was resumed at 9:30 this evening. The mob assumed a threatening attitude and the police charged. The rioters made a determined stand and a hand to hand fight followed. The struggle continued till the police were reinforced by a large force of republican guards, when the rioters dispersed. At 11:30 o'clock there was a sanguinary encounter on the Rue Richelieu. A mob set fire to a tram car and turned it to ashes. The assistant brigadier of police was found drowned near Grenelle Bridge and is supposed to have been thrown into the water by the mob. Two hundred persons were arrested tonight for participating in the disturbances.
