Sold Down to $4.66 Today—Sunbeam Active—May Day in Better Form—Daisy Sells.

TODAY'S METALS:

SILVER 63¾

LEAD, $4.00

CASTING COPPER 15¾

The best day's business of the week was transacted today when 27,526 shares of stock sold on the exchange for $12,797.03. The feature of the day was Star Consolidated, which started out at 83¾, and reached 92½ before the close of call. Over 10,000 shares were sold at prices varying between the above limits. The prediction that it would go to $1 per share will doubtless be more than fulfilled.

May Day also sold today at better prices. From 39, the price of the first sale, the stock climbed up to 40½ on the last sale.

Sacramento also showed more strength today advancing to 33¾.

Mammoth was sold at $2.22½ ex-dividend, while Con. Mercur was allowed to drop to $4.66 per share.

Daisy sold up to 1¾. Ingot went at 3, and Little Pittsburg was transferred at ¼.

Yankee Consolidated sold from 19 up to 19¾. Upwards of 6,000 shares were sold today between those figures.

Tetro brought 4 cents per share, while Ajax was held at 48 with 43 bid.

Lower Mammoth continues to decline, while Dalton has jumped to 4¾ bid on rumors of a new strike.

EXCURSION RATES for CONFERENCE AND STATE FAIR.

The Rio Grande Western Railway announces a series of very low excursion rates October 1st to 6th to Salt Lake City for the State Fair and Conference. Its train service and equipment is the very best, and the traveling public makes no mistake in patronizing the R. G. W. It has four fast and comfortable trains each way between Ogden and Salt Lake; also five trains between Salt Lake and Provo, etc.; 20 to 40 minutes faster than any other line. The Tintic, Sanpete and Marysvale trains are quick and commodious. Inquire of nearest R. G. W. agent for rates, etc.

STAR CON. WAS SOARING TODAY.

New Strike on the 400 Causes the Stock to Take a Jump.

THE CON. MERCUR OUTPUT.

Will be Lower During This Month—Important Strike in the Red Wing Extension—Alta Shipment.

The appearance of Mr. Milan Packard on the streets today after a short trip to his Marysvale property, was the signal for another big jump in the price of Star Con. stock. On the exchange this morning it sold up to 92½, but shortly after noon today, it was selling on the curb at 97½ per share. The advance is due to important disclosures on the 400 level of the mine, the knowledge of which was given out today by Mr. Packard. To the big ore body being worked on the 200 level—ore from which assays from 1.5 to 14.5 ounces in gold per ton by the carload—has been added a most promising reserve on the 300 level, and, last but not least, a body of good ore on the 400 level. All this has been accomplished in a few weeks, in which time the stock has moved rapidly up from 12 cents per share to its present price. A shipment of several cars of ore will shortly be on the market and with its high grade of ore and constantly increasing ore reserves, the company's stock bids fair to go to $1.50 per share. It is estimated by some mining men that the company is reasonably certain of at least $300,000 worth of ore from the new strikes.

AT THE CON. MERCUR.

Certain Circumstances Cause a Diminished Production This Month.

Treasurer George H. Dern of the Consolidated Mercur Mining company, was at his desk today, after spending the past two or three days at the mine. The tonnage handled by the mill will not be as great this month as it was during August owing to delays from light, power and interruptions from other sources. When the power was light the skips have not been filled with ore and an accident to a crusher caused some delay. Added to the above is the effects of the recent storm which delayed operations on the tramway, by which the ore is hauled from the old Mercur property. This tramway is now being covered so that in the future the snow will not interfere. The mill is reported to be handling about 900 tons of ore per day. Of this quantity something over one-half comes from the old Mercur. The values run the same as last month and the reserves of base ore in the Mercur property are being added to by a long drift which is being run into the base ore bodies of the mine, which have hitherto been left undisturbed. Connection was made yesterday between the Resolute and Electric tunnels and Mr. Dern expects to see ore being dropped to the latter tunnel through the three winzes about October 1st. The 1st dividend will in all probability be announced about the 1st of October.

RED WING EXTENSION.

Ed McCarrick Reports Seven Feet of Ore in the Property.

Mr. Ed. McCarrick was in Bingham yesterday looking over his interests. A most gratifying sight is reported in the Red Wing Extension, where, it will be remembered, the discovery of a 3-foot body of ore was reported last week. Mr. McCarrick says that the ore body as it lies between well defined walls, is 7 feet wide. Some of this ore is milling ore, but Dan McCloud, who has charge of the work, is convinced that at no great depth the whole body will be solid ore. Mr. McCloud's opinion has some weight, as he has done yeoman service in the development of the Old Jordan property.

About a month ago the management encountered a fissure which crossed the bedded vein, and at the same time streaks of ore were found. These streaks were followed some distance, when sinking was decided on. The present discovery was made at a depth of less than 20 feet from the tunnel, which is in about 300 feet. A lower tunnel is now being run to open up the new ore body.

ALTA SHIPMENT.

Small Lot of Gold Ore Sold from the Harrison Claim.

A small shipment from the Harrison claim at Alta was sold today on controls which showed 12 per cent copper, 20 ounces silver, 6 per cent lead and 0.3 of an ounce or $6 in gold per ton. Messrs. McKee and Kissell, who made the shipment, report that 4 feet of similar ore is in sight in the property, which belongs to the Regulator group. The lessees pay a 35-per-cent royalty on the ore extracted.

PONY GOLD MINES.

Deal for the Boss Tweed by the Amalgamated Co. Now Declared Off.

The Butte Miner says: It is announced that the Amalgamated company and Messrs. Elling & Morris of Pony, were unable to come to terms, relative to the sale of the Boss Tweed and Clipper group of mines and negotiations between the parties have fallen through. Messrs. Elling & Morris fully realize the value of their property and both being large capitalists, are in a position to set their price and stay with it. Their Pony mines are recognized as presenting at the present time probably the best gold proposition that can be found in the northwest. There have been a number of mining men trying to get a bond or option upon the mines. Whenever a deal is made the consideration will reach very close to seven figures.

As soon as the Amalgamated people and the owners were unable to agree British Columbia mining men stepped in and are now out at Pony examining the property with a view to purchasing. These Canadian parties are associates of General Charles S. Warren, formerly of Butte, but now of Spokane. The general is at present in the city, and is hopeful of making a deal for the property.

Dalton & Lark Meeting.

The meeting of the Dalton and Lark stockholders convened today according to schedule and passed the amendment to the articles of incorporation, which empowers the directors to sell the whole or any part of the mine.

MINING NOTES.

The Conklin sampler reported seven cars of ore from Tintic today.

Four cars of ore from the Ajax of Tintic were reported today.

The Swansea of Tintic was on the market today with seven cars of ore.

Receiver A. T. Moon of the Daisy of West Dip, left for that property today.

Three cars of high grade ore were reported today from the Carisa of Tintic.

It is reported that Joe Dederich will make his home in Spokane in the future.

Dr. J. S. Sharp has returned from Nome with encouraging reports of its riches.

Three cars of concentrates were reported today from the Horn Silver of Frisco.

Three cars of ore from the Mammoth of Tintic will be sold on tomorrow's market.

R. G Wilson returned from Park City last evening, where he went to examine some mining property.

The Taylor-Brunton sampler reported ten cars of ore from Tintic and three from Frisco today.

Judge Bartch, W. H. Child and Steve Baldwin of Denver expect to leave for Bingham in the morning.

Engineer R. C. Gemmell has gone to Alpine county, California, to examine a mining property for English capitalists.

W. E. Travis is back from the Buffalo Hump district, (Ida.) and is much pleased with the increased gold values disclosed in the lower levels of the Big Buffalo.

W. G. Filer came up from the Annie Laurie at Gold Mountain last evening and reports work being pushed on tunnels Nos. 4 and 5 besides on the mill building which is being roofed.

A Hanaure Jr. has been elected president of the Phoenix Mining Co. of Big Cottonwood, J. B. Timmony is vice president, Ferd Rehrman, secretary, and William Schade, treasurer.

A meeting of the Lower Mammoth directors was scheduled for this afternoon to consider the levying of an assessment. Some of the directors favor the assessment, while others are opposed to it until it is demonstrated what the mine can do.

CHICAGO SHEEP MARKET.

A Decline in Older Stock and Lambs Over Last Week's Figures.

What Idaho and Utah Men Sold and What They Got for Their Animals—Montana Sales.

Special Correspondence.

Chicago, Sept. 24.—Clay Robinson & Company writes: This week opened with a heavy run of sheep and lambs, today (Monday), receipts being estimated at 25,000. The market was quite active at 10 to 15 cents decline on sheep, while lambs sold steady to 10 cents lower than the close of last week. The market dropped off a little every day last week on lambs, and present prices are generally $1.00 per hundred pounds lower than a week ago, except on feeding lambs, which continue in good demand at prices within 10 to 15 cents of the high point of the season. The bulk of the good western sheep sold here today at $3.90 to $4.00, with an occasional bunch of choice yearlings at $4.10 to $4.25. The very best lambs sold at $5.00 to $5.10, with bulk of the sales at $4.80 to $4.90; and feeding lambs $4.40 to $4.60. The receipts are very heavy both in the East and at all the Western markets, and prospects do not look very favorable for the next few days. As soon as supplies let up a little, however, the market will doubtless react and prices show considerable improvement. We mention some of our principal sales of Western sheep and lambs today: For A. P. Driggs (Idaho), 241 wethers, 111 pounds, $4.10; 501 lambs, 67 pounds, $4.90; Jos. Woodland (Idaho), 304 sheep, 100 pounds, $4.00; 231 lambs, 67 pounds, $4.90; 194 lambs, 66 pounds, $4.80; E. Taylor (Idaho), 470 lambs, 67 pounds, $4.90; J. W. Daily (Idaho), 369 sheep, 92 pounds, $4.00; C. R. Evans (Idaho), 319 sheep, 93 pounds, $4.00; 308 lambs, 62 pounds, $4.80; H. S. Woodland (Idaho), 125 lambs, 64 pounds, $4.80; F. H. Rudy (Utah), 122 wethers, 90 pounds, $3.90; 666 lambs, 63 pounds, $4.75; William Pritchard (Montana), 419 sheep, 119 pounds, $3.90; L. B. Stark (Montana), 440 sheep, 101 pounds, $3.80; R. J. Tobin (Wyoming), 667 sheep, 105 pounds, $3.90, and Eugene McCarthy (Wyoming), 458 sheep, 101 pounds, $3.90.

SHORTS BECAME ALARMED

Wall Street Shows Lively Business and Higher Prices.

Market Then Relapses Into Dullness—Live Stock Strong—Produce Slightly Lower.

New York, Sept. 27.—The disproval of yesterday's rumor of a settlement of the coal miners' strike, which caused a rout of the bears in the last fifteen minutes of trading, resulted in vigorous selling for short account in the opening dealings this morning. The shorts became alarmed at the resistance of prices and covered heavily all around, gains of one or two points being made by many shares. The demand slackened before 11 o'clock and there was some yielding. The market became very dull. Renewed demand from the short interest shoved prices upward with sugar, Tennessee coal, Reading first preferred and tobacco most in demand. The high prices of the morning were reached all around at advances of from 1 to 3¼ from the lowest, the latter Tennessee coal. C. C. & St. L. was conspicuous for a gain of ⅝, the preferred 2 and rubber preferred 3¼.

Bonds generally improved in prices.

ST. LOUIS WOOL MARKET.

St. Louis, Sept. 27.—Wool—Dull and weak.

REVIEW OF WOOL MARKET.

Boston, Sept. 26.—The American Wool and Cotton Reporter will say tomorrow: "While consumers of wool have manifested most interest in the market since our last report, their buying is still of the hand-to-mouth character. They are very particular to keep in close touch with the market, being evidently aware that their necessities may at any time be such as to compel them to buy more liberally, and they are anxious to know just what they can do. Prices are pretty steadily held although now and then slight concessions are heard of. In the West there is no evidence of any concession among holders of wool, and in consequence very little wool is moving from the interior.

"The sales of the week in Boston amounted to 1,342,000 pounds domestic and 49,5000 pounds foreign, making a total of 1,391,500 against a total of 1,795,500 for the previous week, and a total of 9,765,000 for the corresponding week last year. Sales since January 1st amount to 96,038,000 pounds against 219,611,100 pounds for the corresponding time last year."
