DESERET EVENING NEWS.

Tuesday, June 16, 1896.

FIRST LAND PATENT.

It Was Issued Today by the Governor and Land Board.

The first land patent issued under the State laws was completed this morning. It is to James L. Payne, of Trenton, Cache county. The patent is to "the northwest quarter of the northwest quarter of section three of township thirteen north, of range one west of the Salt Lake meridian, in the county of Cache and State of Utah, containing forty and 40.100 acres, and further certifies as to four of said section three." The consideration is $1[illegible]. The paper is signed by Governor Wells, Secretary of State Hammond and Wesley K. Walker, secretary of the State land board.

Another patent was also issued to Aaron J. Hill for eighty and eighty one-hundredths acres in Cache county, the consideration being $[illegible].

No. 3 is to Isaac D. Winder of Burrville Sevier county, for forty and twenty-two one-hundredths acres in the above named county, the consideration being $[illegible].

The Knights.

This morning the local Judges of the Knights of Pythias, headed by the First Division band, met at the Rio Grande Western depot, visiting delegates from all over the State who have come to town to attend the grand lodge, which will be in session here three days. A banquet will be held at the Templeton this evening and on Thursday the members of the order will celebrate the close of the session at Saltair, where there will be a grand concert by the First Division band which will appear in the new full dress uniform just received. The procession this morning was an imposing one.

CLAIMS AGAINST THE COUNTY.

How They are Audited—Particulars Obtainable at Any Time.

Section 34 of the county government bill, passed by the last Legislature, in regard to claims against the county, reads as follows:

"The board of county commissioners shall not hear or consider any claim in favor of any person, corporation, company or association against the county, nor shall the board credit or allow any claim or bill against the county, unless the same be itemized, giving names, dates, and particulars sufficiently detailed, sufficiency of process served, upon whom, number of days engaged, materials furnished, to whom, and correctly and fairly put thereon, duly verified by the claimant or an authorized agent of the claimant as to its correctness, and that the account claimed is justly due, is presented and filed with the clerk of the board within a year after the last item of account or claim accrues. If in case of a jury claim which requires deliberation, the board does not hear or consider the same because it is not itemized, they shall cause notice to be given to the claimant, or his attorney, of that fact, and give time to have the account itemized and properly filed."

In accordance with the above provision, County Auditor Fisher has instituted a new system of auditing claims. The blank voucher which he has had printed contains first the order of the commissioners that the bill is correct, then the certification of the county clerk. Then there is a blank for the signature of the person or committee to whom the bill was referred for investigation, and one for the signature of the county commissioner who approved the claim, and lastly a blank for the certification of the auditor, with information as to the source of authority for payment, giving date, book and page.

By this means it will be possible to ascertain at any time after payment a full history of the claim. Heretofore it has been possible, by reference to the books, to discover only that a claim was paid on a certain date, the particulars being in most cases unascertainable. The new system will prove very beneficial in ascertaining the history of a claim against the county and will be a source of satisfaction to taxpayers.

THE JULY CARNIVAL.

The Rosest Queen Contest—A Goddess of Liberty and a Floral Queen To Be Appointed.

The very satisfactory manner in which the voting contest for Carnival queen ended has pleased everybody and as a result there are no factions to mar the good cheer and feeling which will attend Utah's great celebration. Word received at headquarters from the several counties Western voting contests have been connected to to the effect that the greatest enthusiasm has been created by them and that in consequence all of Utah's best counties will be represented.

The selection of a Goddess of Liberty and a Floral Queen is now the most important work before the executive committee. That a descendant of Brigham Young should be the Goddess is the unanimous opinion of the committee, who of all the fair daughters of Utah the name of Mrs. James Dredge, a granddaughter of the great Pioneer, is most often spoken. For Floral Queen a prominent young society woman will be selected.

SUNDAY SCHOOL UNION.

An Interesting and Well Attended Meeting of Sabbath School Workers.

Nearly all the city Sabbath schools were well represented in the Union meeting held last night, June 15, in the Fourteenth ward assembly rooms. The following county schools were also largely represented—Cannon ward, Farmers, both schools of Big Cottonwood, East Mill Creek, East Jordan, Union, South Cottonwood, Brighton, Taylorsville and Sandy.

Excellent singing exercises were rendered by the Taylorsville school, directed by Brother A. Frame Jr.

Opening prayer was offered by Elder D. H. McAllister.

Prof. Willard Done, in an opening address, explained the program intended to be carried out in the various departments of the meetings. The first half hour, he said, would be devoted to the giving of a lecture upon some general principle of Sunday school work, followed by questions and discussion upon the same. This would be followed by a half hour on "miscellaneous" subjects, the answering of questions, and the removing of difficulties that may have arisen in the school work. These exercises were to be made entirely practical, as class exercises would be made a part of the work of the meetings, and outlines of general work would be laid out for the guidance of Sunday school workers from month to month.

The Sunday School Treasure, lately published by the Deseret Sunday School Union, would form the basis of the work done in each department.

Continuously, the speaker said, general lectures and exercises would be presented before the meeting as a whole, but the greater part of the work would be made up of experiments, corresponding with the four departments of the general Sunday school.

Dr. Karl G. Maeser, assistant general superintendent of Sunday schools, made a few explanatory remarks. Deprecating the practice too often indulged in of discussing pro and con on principle and doctrine, he stated the correct rule to follow was to appeal to scripture to settle all misunderstandings, and if no scripture could be referred to, an appeal should be made to headquarters. In the Sunday schools no distinction should be recognized between "professional" and "non-professional" teachers. A love for the work, the testimony of Jesus, and the spirit of the Gospel were the prerequisites that every teacher should possess. The Sunday school teacher has not the time to see as much of the executive methods of teaching as the day school teachers can practice so successfully. More direct methods should always be used in the Sabbath school.

The teaching of abstract principles and Scripture lessons was not enough to teach. In the Sabbath school. Habits of prayer and right acting, and the implanting of correct motives, and the obtaining of a testimony of the Gospel, demanded the attention of all teachers.

Prof. Willard Done, principal of the L. D. S. College, offered the use of the College building for the Sunday school union, as suitable rooms, with blackboards, etc., were conveniently situated. The offer was accepted, and a motion prevailed that when this meeting adjourn it do so to meet in the Latter-day Saints College building, in Salt Lake city, 135 west First North, half a block east of the Utah University and half a block from the Warm Springs car line.

East Mill Creek will furnish the music at the next meeting.

Benediction was offered by Dr. Maeser.

J. H. PARRY,
Secretary.

Examination of Teachers.

The examination of candidates for positions in the city schools commenced at the High School building this morning, and will continue through today and tomorrow. There are thirty applications for certificates of the primary grade, and twenty-nine for those of the grammar grade, besides eighteen who appear for examination in some one study, for the purpose of raising the standing in that branch to comply with the regulations made by the board of education. The board of examiners are superintendent Milispaugh, Principal W. B. Maloney, Prof. C. A. Kenneth, Prof. H. J. Cooley and Miss M. Adelaide Holton.

Salt Lake Temple.

The Salt Lake Temple will close on Friday, June 26th, and reopen on Monday, August 31, 1896.

LORENZO SNOW, President.

OPINIONS OF OUR LEADING MEN.

President Angus M. Cannon says of the Keeley treatment.

"I thought it impossible for one man to do what Dr. Keeley has done scientifically in counteracting the terrible evils of intemperance. His treatment strengthens men physically, mentally and morally. Under these circumstances they are given another opportunity to become men amongst men. Is there a man who loves his fellow enough that can fail to say, I view Dr. Keeley as engaged in a most commendable work? I trust his good work may continue."

ANGUS M. CANNON,
President Salt Lake Stake.

Call at the Keeley Institute, 103 west Second North, or address Lock Box 459, Salt Lake, for full information and literature. All inquiries are strictly confidential.

You will be disappointed if you wait. For a few days only you can buy lots in Saltair Cottage City at $2.50 each.
