# BIG SLUMP IN GRAND CENTRAL

Stock Sells Today on the Exchange at $7.02.

## DALY-WEST IS IN DEMAND

Northern Light Lostiy Strength—Ontario Falls Back—Little Chief Active.

**TODAY'S METALS:**
SILVER 59¾
LEAD, $4.35
CASTING COPPER 11.

The number of shares sold on the exchange today did not run high, but the transfer of some high priced stocks made the amount run as to a pretty big point. Prices were generally depressed. Grand Central's day came as a surprise to some who had received assurance from Press concerning the mine's condition. This morning sold down to $7.02. Northern Light went down to 59¾ and for Horsers changes hands at 41. Yankee Girl, was weaker selling for 16¼, while Ontario Extension was traded in at 74. Little Chief was active at 78¼. Golden Eagle sold at 4¾. Ontario Polar went at 8 and Alice was traded in at 85. Sales totalled at 6 and South Swansea at $1.75. Closing quotations were as follows:

# STOCKS SHOWED LOSSES.

With Few Exceptions This Was the Rule at the Opening of the Market.

### Heavy Covered Short Contracts in Heather Closing Was Quick and Irregular in Most Stocks.

New York, Sept. 2.—With few exceptions stocks showed losses at the opening, but there were no particularly heavy transactions. Sugar, Tobacco and Rubber in Texas preferred, where, had a good rush.

Considering the second hour the market was very dull, but showed a decidedly tendency. The bulls mustered considerable courage in afternoon and those who had sold for the decline, covered their contracts to realize. Prices advanced a fraction throughout the day. The closing was quiet and irregular at net gains in most stocks.

SUGAR.

The produce exchange is closed today.

# SHIPMENT IN FROM BLAINE.

The Torbanehill Group Sends in a Car of Very Good Ore.

## GREAT ACTIVITY IN UINTAH

Basic Limits Option Not Yet Expired—Helvetia Developments—Tie-Up Threatened.

A car of very good ore has been received from the Torbanehill group of claims in Eastern Blaine county, about twenty miles from Tintic, Utah. The samples show above ounces of gold per ton, copper, 11, ounce silver and an ounce in gold. The group consists of six claims which are owned by David Moore, and R. M. Smith of this city and Will Cannon of Eureka. As yet only enough has been done on the property to let it be seen that the most encouraging prospects in the mine from which the shipment was taken will come in contact with the ore on the ground from their point. The Comet is so near to about thirty feet and a drift on this has been started which will be for because the walls. For a width of upwards of four feet the rich ores are of the same grade as the shipment. Large outcroppings are found all of the claims and these dissolved ores are water bodies. The work that has been done on the Comet shows a decided improvement in the ore. Present indications point not only to richer ore but also to the rich ore being in walls. It is quite possible that a conspicuous one be found to be located fully among the promising property which has caused a boom of activity in the south of the parties interested.

### ASSIC LAUNIE OPTION.

Statement is Made that it Has Not Yet Lapsed.

The Annie Laurie Bond has not yet been formally declared off, although it has been that time it was in the hands of the owners of the option. The Vivian Gold and Copper company, of which Will Cannon is president and Robert Moore, M.D., is the principal stockholder, has expended more than $1,000 in the Annie Laurie property. It is said that the company will be ready to take up the option and let eighty feet a few days longer. This being so there is yet a possibility of the bond being consummated.

### NEW ORGANIZATION.

The Lincoln Gold Mining and Milling Company Files Articles of Incorporation.

The Lincoln Gold Mining and Milling company executed and filed articles of incorporation in the county clerk's office yesterday. The capital stock is one million dollars, divided into 100,000 shares of the par value of 1 cents each. The officers are: Wm. C. Dunbar, president; James C. Wade, vice president; and Fenlon Hancock, secretary and treasurer. The directors are as follows: Of the above officers with Thomas Kane and William A. Hancock. The company's property consists of the Lincoln, Dexter, Alice and Bryan lode claims in the Stockton district. Tooele county.

### Utah Looked Upon Favorably.

Col. George W. E. Dorsey, who is interested in the Alaska, Rome and other properties of Rock Springs, is expected to arrive in the Utah. The colonel is now in the western country and has turned out more than Utah's looked upon very favorably as a safe place for investment. The Alaska and Rome properties are in good condition and the prospects of the mine are continued great, and a good deal of capitalists are looking for a good mine to invest in. Some of this money is expected within the new year or two.

### MILLARD COUNTY MINERALS.

Very Fair Indications for Mines are Found in the County.

Hyrum E. Booth has returned to the city from a trip to Millard county. Mr. Booth and others have a few men at work in that district and report very fair indications for mines. Great by work that is being done the indications are considered quite favorable. A ledge of copper has been brought to town which will be assayed and may form a basis for an energetic campaign. Mr. Booth has two or three prospects in that district, both silver, and not copper values have been discovered. He is of the belief that the new camp will suffer to show up some mining possibilities in that county.

### IN THE COTTONWOODS.

The Giger Hole will Soon be Incorporated—Good Results Expected.

Some very nice cotton samples of ore have been brought in from the Cottonwoods of the Giger Hole. Samples of this ore showed from 8 to 12 ounces of silver, 40 to 60 per cent lead and a trace of copper. The property, which is located in the Cottonwoods, is owned by Dan Lee and associates, who are making preparations to put in a small plant for the reduction of the ore. Some of the ore will be shipped. About 4,000 has already been taken out of the ground and over 200 tons of it is now on the dump. The ground and shaft work, the Dan Lee and Fitzgerald mines is now about 300 feet from the surface. The Giger Hole adjoins the claims. The Giger Hole claims from which, it is said, the ore is taken, are located in the Cottonwoods and are known as the Lucky Boy and the Jackson. The Giger Hole claims
