THE WEEK ON THE EXCHANGE.

It Has Developed Increased Activity in Mining Stock Business.

MARKET IN SPLENDID TONE.

Today's Call Was Spirited and Brought Out Active Trading at Good Figures.

Another record-breaker was recorded on the exchange today, the brokers going at it in pell-mell fashion and refusing to let up until a good percentage of their wants had been satisfied. The result was that 90,224 shares changed hands, the same being represented by a cash value of $22,890.28, which, although not equaling the business of the day before, puts the [illegible] well to the front and [illegible] ordinary records of recent occurrence on the exchange. The week had an auspicious closing and the market remained in a condition to warrant a continuation of active trading.

Opening the call the brokers paid attention to Ajax by doing business at $1.23½ and $1.25, a good number of shares changing hands at the latter figure. Then Bullion-Beck was handled and made transfers between $3.25 and $3.24, after which there was a little trading in Daisy above 62½ cents, and considerable activity in Four Aces at quite a marked advance over yesterday's figure, the stock selling regularly as high as 64 cents and for future delivery at 65 cents. In Geyser-Marion the brokers did business between 51 and 54 cents. Mammoth and Mercur contributed, the former selling at $2 a share and the latter finding a taker at $7.75. A lively run was made on Lower Mammoth in an attempt to bear the stock, but it held up quite well and after selling close to 70 cents closed with a bid of 65¾ as against limited offerings at 67. Northern Light was also active and Sacramento made transfers at from 42 to 45½ cents.

In the unlisted stocks Buckeye was first in the trading with a little business at 5¾ cents. Following this came dealings in Chloride Point, Camp Floyd and Comstock at fairly reasonable figures, while Dalton was handled for 16,[illegible] shares which went at from 3 to 3¾ cents, with the stock registering a closing bid of 3¾. Dexter had recognition in the trading around its customary figures, while Golden Eagle was freely dealt in at the old standard and Homestake did business at 10 cents and above. Joe Bowers continued active on a downward scale, but Bowers Extension showed gradual improvement by finding takers up to 12 cents. The remaining business was done in Showers Consolidated, South Swansea and Valeo, each one being agreeably recognized.

REVIEW OF THE WEEK.

The week just closed has witnessed a gradual returning to old conditions in the pit, with the market showing a steady improvement all along the line. Five calls only were held, Monday being a holiday, but during that time the sales aggregated 267,464 shares, with a selling value of $95,526.42, as against 62,172 shares with a value of $[illegible] for the corresponding period in 1898. Truly conditions have changed as regards mining stock business in Utah, and those who ought to know predict still livelier times as the days advance into the new year.

The closing figures were as follows:

LISTED STOCKS.

Stocks.	Bid.	Asked.
Anchor	60	1.25
Ajax	1.22½	1.25
Alliance	25	
Albion	22	27½
Bullion-Beck	3.20	3.40

Liverpool, England: Wheat closed steady ¼@⅜d lower than yesterday.

NEW YORK MARKETS.

New York, Jan. 7.—The early trading was characterized by resumption of yesterday's selling movement. Pressure was most pronounced against the following specialties, Brooklyn Transit yielding 2¾, Federal Steel a point and People's Gas a sharp fraction. The grangers and Pacifics were also markedly lower.

American steel and wire also received considerable attention from the bears but the general market rallied strongly, opening prices being the lowest. Sugar and Manhattan were buoyant and the leaders of the initial decline recovered fully. Speculative sentiment was favorably influenced by the resumption of strength and activity of the Atchison shares, the preferred moving up over two points. The excellent bank statement induced heavy covering of outstanding short contracts which imparted a buoyant tone to general speculation. Improvements of a point or more over the lowest were common and Colorado Fuel preferred attracted attention by a jump of ten points to par. The closing was strong and active at the best.

MONEY.

New York, Jan. 7.—Money on call steady, 2½@3 per cent; last loan 3. Prime mercantile paper, 3½@4 per cent. Sterling exchange steady with actual business in bankers' bills at 4.84¾@4.85 for demand and at 4.82¼@4.82½ for 60 days; posted rates 4.83½ and 4.85½; commercial bills, 4.80¾@4.81½.

Silver certificates, 59½@60½.
Bar silver, 59¾.
Mexican dollars, 48¾.
State bonds strong.
Railroad bonds irregular.
Government bonds irregular, 3's, 1.07¾; new 4's reg., 1.29; coupon, 1.29¾; 4's reg., 1.11¾; coupon 1.12¾; 2nds reg., 99¾; 5's reg., 1.12¾; coupon, 1.13¾.

New York, Jan. 7.—Sugar, raw, dull, fair refining, 3 11-16; centrifugal, 96 test, 4 5-16; molasses sugar, 3 9-16; refined, quiet; crushed, 5¾; powdered, 5¾; granulated, 5.

WEEKLY BANK STATEMENT.

New York, Jan. 7.—The weekly bank statement shows the following changes:
Surplus reserve, increased, $4,323,800.
Loans, decreased, $8,594,[illegible].
Specie, increased, $3,[illegible].
Legal tenders, increased, $1,724,[illegible].
Deposits, increased, $5,541,[illegible].
Circulation, decreased, $412,[illegible].
The banks now hold $[illegible] in excess of the requirements of the 25 per cent rule.

CHICAGO MARKETS.

PRODUCE.

Chicago, Jan. 7.—May wheat opened at 70¾, advanced to 70¾, dropped back to 69¾.

Lambs—4.25@5.25.

SAN FRANCISCO MARKETS.

San Francisco, Jan. 7.—Wheat firmer, May, 1.18¾; cash, 1.12.
Barley—Firmer, new, 95¾.

LITERARY NOTES.

Music, Song and Story for December has an attractive budget of literature in the way of stories, poems, folklore, fairy-tales, etc., and a folio of new music comprising nine pieces. It should be of interest to the music-loving public.—75 Fifth Avenue, New York.

Frank Leslie's Popular Monthly for January sets a high standard for the coming year. One feature is the complete story of the sinking of the Merrimac at the mouth of Santiago harbor, last June, as told in a straight-forward, dramatic narrative by Lieutenant Hobson's chosen helmsman in that historic exploit—the young Osborn Deignan from Iowa. Portraits of Hobson and his gallant crew are given, together with graphic illustration. The same number contains, in addition to the story of the Merrimac, the first of a series of articles by the war correspondent, Thomas R. Dawley, Jr., recounting his exciting experiences while "Campaigning with Gomez," in the wilds of Cuba; "In a Klondike Cabin," by Joaquin Miller, the Poet of the Sierras, who has recently returned from Alaska; the first part of a new California story by Bret Harte, entitled "Mr. Jack Hamlin's Mediation;" "Women in Politics," by the Marquise Lanza; "Naval Signaling, and Carrier Pigeons," by Joseph C. Groff, and other contributions.—Frank Leslie Publishing House, N. Y.

A feature of the issue of Collier's Weekly for December 31 is "President McKinley in the South." James H. Hare, a staff photographer, has furnished a number of illustrations, including a frontispiece showing the President reviewing the Jubilee Parade on December 15. The double-page for the week, which relates to "The Passing of Spain," is a collection of illustrations, including "The Tomb of Columbus, Havana," "The First American Flag Raised in Havana After the War," "The First North Carolina Volunteers Marching Through Havana," etc. The first installment of a two-part story by Henry James appears in this issue. It is entitled "The Given Case," and the illustrations are by Albert Herter. There are also a page of pictures and text on "Our Naval Station at San Juan," and a Paris letter treating of "The Dreyfus Affair."

The Cosmopolitan for January has an article by Charles R. Flint, the head of the mercantile house of Flint, Eddy & Co., and president of the Rubber trust, in which he endeavors to show the secrets of success in business organizations. Another article in the same publication tells how Mr. Platt organized and conducted the campaign for the election of Roosevelt.

Captain Mahan, in the Engineering Magazine for January, depicts the two great colonial policies of recent times—Spanish extortion, decline, and disaster and British beneficence, development, and strong federation. He draws a lesson as to government of other nations, and the maintenance of the sea power under whose guardianship industry thrives. Mr. Going follows with a personal [illegible] of the pre-eminent interest of the engineer in every problem of economic or national policy. Mr. Warren has a paper on "The Fighting Engineers at Santiago." Mr. Orcutt begins a series of articles comparing the methods, management and products of machine-tool builders in Europe and America. Mr. Hunter contributes a second illustrated paper on the Maritime canal.—The Engineering Magazine, New York.

The January number of the Forum has well written articles on many timely topics. The Army of the United States, by Brig. Gen. H. C. Corbin; the Future Relations of Great Britain and the United States, by Rt. Hon. Sir Charles Dilke; Colonel Waring on the Sanitation of Havana; Liquor Legislation in Norway, and The Upper Regions of the Air, are some of them. In the paper on the United States Army Gen. Corbin takes the view that compared with the immense standing armies of Europe, our army is insignificant in point of numbers, but man for man, in the possession of qualities that go to make the soldier—physique, intelligence and courage—it can safely claim the highest place.

A TRAVELING SALESMAN

Gives Light Praise to the Cook on the Road.

Soon after the Symns Grocer Co. of Atchison, Kans., for whom I travel, got Postum Cereal Food Coffee in stock, I was attracted to it and left off the use of coffee and began using Postum.

Of course, I had trouble to get it properly made, for most cooks make coffee in a slipshod kind of a way, and Postum is good only when it has been boiled a long time, for it don't have the right taste unless it is properly boiled, then any one who knows anything about a good cup of Postum, recognizes its flavor.

I was formerly very seriously troubled with indigestion and frequent attacks of sick headache. I had thought for a long time that the trouble was caused by coffee, but never could exactly bring myself to get away from it. However, the Postum takes its place so beautifully that I never have missed the coffee, but have been very glad to miss the troubles. I am delighted to say I have not had a spell of sick headache since I began using Postum, and have naturally talked it hard to my customers and others whom I meet on the road. L. T. Thompson, Pratt, Kans.

STRIKE IN THE PACIFIC AT TINTIC.

Horn Silver Encountered Running 1,000 Ounces to the Ton.

MERCUR'S MILLING CAPACITY

Two Boards Elected By the Buckeye—Northern Light Shipment—Miscellaneous.

The Pacific at Diamond in the Tintic district, reported this morning with a strike of horn silver running 1,000 ounces to the ton, at a depth of about 75 feet in the shaft. The word was telegraphed in by Judge Given, who was highly elated over it. The judge said the streak was small but the stuff was good and looked as though it might remain permanent. Further particulars will be awaited with considerable interest.

MERCUR'S MILLING CAPACITY.

To be Materially Increased Within the Next Week or Two.

The Mercur mill enlargement is so nearly completed as to warrant the statement by an officer of the company today, that by this time next week the new order will be in commission, and the plant equipped for the handling of 400 tons of ore daily. This increases the capacity of the mill 100 tons, as at present it is treating 300 tons a day and shipping in the neighborhood of $45,000 worth of cyanide bullion monthly. For the present the mill's capacity will not be taxed to its utmost, as it has been decided to treat but 350 tons daily, this enabling the company to utilize some of its additional tanks for longer leaching. To inaugurate the change a shut-down of two or three days will be necessary, but exactly what day next week a halt will be called has not yet been determined.

In a week or ten days the Golden Gate mill will have been equipped for the treatment of 500 tons of ore daily, the improvements on the plant being nearly completed at this writing. It is expected that the change will be witnessed by Captain De La Mar, whose return to this city is expected almost daily. The new order at these two plants will give Mercur an additional milling capacity of 400 tons daily.

TWO BOARDS ELECTED.

Buckeye Stockholders Come Together in Rather Peculiar Style.

The annual stockholders' meeting of the Buckeye Mining company was held at the Company's office in this city today. It was not exactly harmonious in that two factions were represented, and one strived against the other to the extent of two boards being elected.

The first board elected consists of George Romney, G. E. Romney, James E. Jennings, George Crismon and Moses W. Taylor, while the other is made up of John Beck, H. J. Taylor, A. A. Steed, E. R. Critchlow and A. E. Hyde. The former claims to have legally held a majority of the votes and cast them accordingly, while the latter, contending that the former voted stock they had no right to, put in a board of their own as named above. Then the meeting dissolved to settle the matter in the courts if necessary.

That a clash was expected, is evident from the fact that both sides had legal advisers present. The capital stock of the company is 500,000 shares and it required over half of this to carry the election.

Congo Insurgents Win a Battle.

Brussels, Jan. 7.—Official news received from the Congo Free State say that a column of 300 of the state troops commanded by Lieut. Stevens was defeated November 4th by the insurgent tribe of Dainas which captured Mabudet November 18th. Two officers, one sergeant and 200 native troops were killed. Two officers and two sergeants were wounded.

Copper Properties Sold.

The mining properties of the Salt Lake City Copper Manufacturing company were sold at Brigham City yesterday for the sum of $10,300, Messrs. David C. Green and Charles G. Ritger of Milwaukee and George A. Smith of Denver bidding them in for the judgment creditors. The property is said to consist of a veritable mountain of copper-bearing ore lying in Utah and Nevada, and about seven miles from the town of Tecoma. It consists of a group of eighteen claims acquired at a cost of nearly $100,000 and purchased by the Copper company from Joseph Parrose and associates. The creditors are about to work the property.

Northern Light Shipment.

A consignment of about 25 tons of ore, the third since the company commenced shipping, was received from the Northern Light mine this morning, and is now at the sampler. While values are not known, it is expected that the mineral will just about equal former shipments, and net the company a good profit. Meanwhile, stockholders are as sanguine as ever for the early distribution of dividends. The mine, according to reports, continues in splendid condition.

A Solid Foot of Galena.

It was learned today that the Joe Bowers Extension at Tintic was showing a foot of solid galena, ore from which the company expects to make shipments just as soon as its low holdings have been settled. The Fremont ground in the same locality is also said to be looking well, as well as the fact that those working it expect to tap the ore body very shortly. Both these properties promise to add materially to the outlook for the south end of the Tintic district.

MINES AND MINING MEN.

The West Cable of Tintic has been listed on the exchange.

The pit was graced with a number of beautiful women this morning.

The Geyser-Marion will hold its annual meeting in this city on Monday.

Will Griffiths and associates in the Crown Point will go out to Tintic tomorrow.

Manager Joseph of the Lower Mammoth is authority for the statement that the mine will soon be shipping ore.

E. H. Airis, president of the Fremont Mining company, expects to go out to Tintic in a day or two, accompanied by Director Frank V. Taylor, to establish permanent workings on the property.

The Mercur Mercury says that in the tunnel being run at the Little Pittsburg, a cave has been broken into, the sides of which are highly mineralized. The cave is 140 feet from the mouth of the tunnel.

On Tuesday next the Mercur and Bullion-Beck will declare dividends of $25,000 and $10,000 respectively, while the Silver King and Grand Central will distribute the respective sums of $22,500 and $[illegible].

Tooele Transcript: The deed to the Cyanide mining property located at Mercur, and sold to the Mercur Mining company for $150,000, had on it $150 in revenue stamps when it came to the recorder's office to be recorded.

Mercur Mercury: In the Eagle a good showing is being made. Some of the samples from the north drift look precisely like the ore of the Golden Gate, and carries high values, and there is also a large body of oxidized ore in sight, carrying values sufficient for profitable milling.

The Blue Bird Extension Mining company has been incorporated. It has a capital of $80,000 divided into 800,000 shares and owns properties in the Tintic district. B. F. Woodward is president, W. H. Simmons, vice-president; Fred C. Davis, secretary and treasurer, and C. R. Hudson and H. E. Simmons the other directors.

The exchange has already 42 regular members and three honorary members, and the question has now arisen whether or not any further seats can be sold, in view of the fact that its membership is limited to 45. The governing board will solve the problem.

General Manager E. G. [illegible], contractor Charles Ford and Superintendent J. E. Beveridge of the New Mammoth at Brigham visited the property yesterday and witnessed the unloading of the first batch of material for the new mill. The miners are pushing work in the tunnel and the property is reported to be looking well.

Articles of incorporation of the Independence Gold Mining company having claims at Stateline, have been filed with the county clerk. It has a capital of $25,000 in shares of 10 cents each and Leonard F. Harris is president, Charles B. Aley, vice president, and William A. Evans, secretary and treasurer. These, with Robert J. Nugent and Arron Whittemore, constitute the board of directors.

The smallest things may exert the greatest influence. De Witt's Little Early Risers are unequalled for overcoming constipation and liver troubles. Small pill, best pill, safe pill. F. C. Schramm, McCornick Building, corner Main street, First South.

In pulmonary trouble, the direct action of BALLARD'S HOREHOUND SYRUP upon the throat, chest and lungs, immediately arrest the malady by relieving the distress, cutting the phlegm and freeing the vocal and breathing organs. Price 25 and 50 cents. Z. C. M. I. Drug Dept.

Sound Reasoning.

The argument for an active Winter Business this year rests on several antecedents. Among them.

FIRST—The extraordinary opportunities for securing great bargains in worthy goods.

SECOND—After Holidays there is always a quietness that gives you a study of personal needs.

Conscious needs and extraordinary opportunities to meet them ought to produce business, and that explains the splendid opening of our January business.

PRUDENT BUYERS

have purchased from us their wants with a satisfaction that needs no explanation, when you realize the advantage of buying dependable clothing and underwear at a

25 Per Cent Reduction.

SIEGEL'S

GREAT DRESS GOODS CLEARING SALE AT Z. C. M. I.

Week commencing Monday, Jan. 9.

UNCLE SAM'S CHOICE

of railway lines west of the Missouri river for carrying United States mail between the great commercial centers of the East, Utah and Pacific coast points, is the Union Pacific, which is also known as "The People's Favorite," because of its unparalleled record for speed and the general superiority of the service. In addition to the usual equipment of other lines the Union Pacific affords its patrons the luxury of dining car service and a Buffet Smoking and Library Car containing barber shop and a choice collection of books by best authors, the use of which involves no additional charge. Are not these advantages and attractions sufficient to settle the question as to which line you should use when traveling for either business or pleasure? Further information will be cheerfully given at 201 Main street, or by addressing H. M. Clay, general agent, Salt Lake City.

BANNER SACRIFICE SALE OF THE SEASON.

At Z. C. M. I., week commencing Monday, Jan. 9.

A GOOD GROCER

is not made in a day. Years of study and experience are necessary to enable a merchant to anticipate and satisfy the wants of his customers. Neither is the grocer's full duty done when the right sort of food products are procured. To know how to satisfactorily serve all comers is one of the greatest essentials. Our store is one of the satisfying kind in all respects.

Courteous Treatment and Quick Delivery.
