MINING, BUSINESS AND STOCKS.

ONTARIO WAS THE FEATURE.

Stock is in Good Demand Today Around $10.25.

VICTOR CLIMBING AGAIN.

Ajax and May Day a Little Weaker—Eagle & Blue Bell Advancing—Ben Butler Weak.

Business was quite brisk on the mining exchange this morning and an improvement is noticed in prices with few exceptions. Ontario was the feature of the call. Over 1,000 shares changed hands at prices ranging from $10.17½ to $10.25. Victor was also in good demand at from 30 to 32¾. The stock closed strong. Tetro hung around 37 while Ajax weakened to $1.62 after opening at $1.66. May day was active between $1.65 and $1.62. Star, Con. sold up to 41¾. Tesora today was firmer, sales being made from 89½ up to 90½. Uncle Sam released 1,000 shares between $1.95½ and $1.94½. Ben Butler slumped to 15 after opening at 16½. Con. Mercur dropped 200 at $2.76 and $2.78. Daly West sold at $39.35. Eagle and Blue Bell advanced to $1.12 on news of a new strike. Galena was traded in at 31. Mammoth let go 50 at $2.17½. Joe Bowers sold up to 7¼. West Morning Glory was traded in at 6.

SUSPICIOUS CIRCUMSTANCE.

Young Man Wears a Pair of Pantaloons Claimed by Another.

When H. S. Buckley, an ex-Utah batteryman, awoke in his room in the Leadville house this morning he found that his pants were numbered among the missing. Upon opening his door he espied a young man in the wash room who was wearing a pair that bore a striking resemblance to his missing trousers. Explanations were in order, but those forthcoming were not entirely satisfactory. The matter ended with the proprietor of the rooming house escorting the young man over to police headquarters with Officer Sperry in the rear to keep cases on the affair.

At the station the young man gave the name of Joe Marks and stated that his occupation was that of a junk peddler and further that he had bought the pants in question some months ago from a saloon keeper. As the disputed articles of attire were to all intents and purposes new and furthermore Buckley had identified them as being his property, Marks was locked up on the charge of housebreaking.

NEW COMPANY FOR PARK VALLEY

W. H. Weyher Will Incorporate 10 Claims on Rover Vein.

STAR CON. TO SINK FROM 600

Looking Good on 400—Dexter Shipment—Change in R. G. W. Group.

W. H. Weyher, one of the owners of the Planetary group at Park Valley, came down from that camp last evening for the purpose of organizing the Standard Mining company to operate a large group of ten claims adjoining the Planetary property. The claims are located on what is known as the Rover vein, which runs through the country some distance north of the Planetary vein. Very little work has been done on this vein but the prospects for a mine are said to be very good as rock carrying from $4 to $8 in gold has been found in a number of places on the big ledge. The company will be capitalized for 250,000 shares, 100,000 of which will go into the treasury as working capital.

Of the Planetary group, which has been bonded to the Planet Mining company, Mr. Weyher says that a fine showing is in sight on the 150 level, where the vein has been crosscut. A streak of ore is said to be in sight on that level which assays better than $100 per ton. The vein is about five feet wide at this point, and Mr. Weyher says he is certain the ore will average close to $30 per ton for a width of 5 feet. Mr. Weyher is in charge of the work and is engaged crosscutting to the vein on the 200 level.

TO SINK DEEPER.

Milan Packard Says the Star Con. Shaft will be put Down Deeper.

Manager Milan Packard of the Star Con. came up from the South today to confer with Willard F. Snyder on business which is believed to have something to do with the Star Con. Speaking on the property today Mr. Packard said the bins are being filled with ore and another shipment of good copper-gold ore will shortly be made. This ore is being taken mainly from the 400 level. The 200 and 300 are said to be looking very much as usual. Mr. Packard is impressed with the idea of sinking below the 600 level. The experience of the Mammoth, Lower Mammoth and other companies leads him to believe that another 200 or 300 feet of depth is all that is needed to bring the Star Con. into the front ranks. Mr. Packard says the work of putting the shaft down to the 1,000 level will be started this fall.

DEXTER SHIPMENT.

Runs a Little Lower than was Expected—Valued at About $13,000.

The August output of the Dexter-Tuscarora property at Tuscarora, Nev., reached the city today in the shape of 325 pounds of cyanide dust and 4 bars of bullion. The cyanide product is valued at from $2,500 to $4,000, while the bullion is worth $9,032. The total value is thus placed at about $13,000. The shipment is less than the sanguine ones expected, but it compares very favorably with the monthly output during the past twelve months. It was hoped that the tapping of the Tuscarora vein would materially increase the output as the vein is said to be richer than the Dexter vein. However, the ore is now being extracted from this vein, and while the values run higher they do not go so far as to insure dividends just yet.

New Ore Body Found.

Supt. James Larson of the Grand Gulch Mining company writes that the new gasoline hoist is working perfectly. Sinking has been resumed in the shaft which was down about 270 feet when sinking was stopped. Mr. Larson says a new body of very high grade copper ore has been tapped about 10 feet above the 200 level. Copper is also entering the bottom of the shaft, which, it is expected to shortly break into another body of ore. Regular shipments are being made from the mine and another car of ore carrying from 40 to 45 per cent copper is on the way to market.

Returns from Lower Mammoth.

James Chipman returned yesterday from an inspection of the Lower Mammoth, the physical condition of which is said to be very good. A hoist is being installed on the 900 level with which to extract ore from the winze which is being sunk 200 feet below that level on the Hungarian vein. The winze is now down 70 feet in good ore. The west fissure is not greatly changed though the drift on the 900 appeared to be breaking into a good body of ore.

Change in R. G. W. Group.

A very encouraging change is reported at the R. G. W. group at Tintic. For the past 120 feet Foreman Green has been driving in the direction where George Wilson's electric ore locator indicated the presence of an ore body. The drift is now within a few feet of the place indicated and the owners of the R. G. W. were very much pleased to learn from Mr. Green this morning that the black lime had suddenly given place of magnesia lime, which is spotted with quartz and heavily mineralized. The appearance of this lime is taken to be a sure premonitor of ore.

West Morning Glory to Ship.

Manager Smith of the West Morning Glory announces the cutting of the vein on the 300 level of that Tintic property. It has proved to be barren at the point of the intersection though it is said to be about 4 feet wide and filled with fine looking quartz. Drifting on the vein is now in progress. The water flow has increased to about 5,000 gallons per day. Mr. Smith says some two or three carloads of ore will be mined and marketed during the next week or two.

Returns From Tonapah.

Judge W. H. Dickson returned yesterday afternoon from the Tonapah gold field, Nevada. He was greatly surprised at the amount of work being done there. The deepest workings are down about 120 feet and ore running several hundred dollars per ton is being mined at that depth. The Tonapah Mining company, which owns a great many of the richest claims, have 14 sets of leasers working, the leases of which expire December 31st. It is said the O'Meara lease has produced about $100,000 to date. The Mispah ledge has been opened up for nearly one-fourth of a mile. Some fourteen veins have been discovered and the prospects of the camp turning out well are much better than ever before. About 700 people are in the camp.

Majority Shareholders Dissatisfied.

The Union Trust company of Boston has issued circular letters to the stockholders of the Centennial Eureka Mining company in which it says:

A majority of this stock is now claimed to be owned by the United States Mining company, whose interest may not hereafter be identical with those holding solely stock in the Centennial Eureka Mining company.

We have reason to believe that the latter is now earning and could readily pay $4 per share a year in dividends, and that, beginning in 1902, its dividend capacity will increase to at least $6 per share.

If you desire to participate in this movement, will you kindly answer at your early convenience; first the number of shares held by you; second, do you desire to sell them, and, if so, at what price per share? Third, do you wish to join in the movement to combine the interests of the minority stockholders by pooling your stock (1) with a view to securing a voice in the management and in any contracts made with the United States Mining company, and (2), in case of sale, to secure an equitable and uniform price for all stock so pooled?

The letters reached local shareholders yesterday afternoon. It is said that the vast majority of the stock is in favor of the union of the Centennial and Eureka Mining companies.

MINING NOTES.

The May Day of Tintic marketed 2 cars of ore today.

Supt. Craig of the Yampa of Bingham was in town today.

The City Rocks of Alta had a car of ore on the market today.

The Shawmut of Bingham reached the market today with 2 cars of concentrates.

Dr. A. N. Heard has returned from the coast after an absence of several weeks.

Thirty carloads of concentrates were on the market today from Senator Clark's Ophir Hill mine at Ophir.

Reports from the Ajax this morning were to the effect that the ore body was looking good with no special change.

David Evans returned yesterday from the inspection of some mining property in Bingham, the name of which he did not care to disclose.

The Taylor-Brunton sampler reported 5 cars of ore from Bingham, 30 from Stockton, 25 from Tintic and 1 from Alta today.

Three cars of ore were on the market today from the Consolidated California and Virginia company's property near Reno, Nevada.

F. E. Wilson, who has returned from Bingham, says work has been started at the Ben Butler No. 3. A tunnel is to be pushed in on the vein.

D. C. Jackling passed through the city yesterday on his way to Denver. Mr. Jackling was formerly on Capt. De Lamar's staff, but for some time past has been engaged in Spokane, Washington.

Cashier Raybould of the Utah National bank returned last evening from the Uncle Sam and Lower Mammoth mines. He expressed himself as being very much pleased with the appearance of the latter property.

Owing to an absence of a quorum this morning the monthly meeting of the directors of the Daly West Mining company was adjourned until the 5th inst., at which time the regular monthly dividend of $52,500 will be declared.

A telephone message from Tintic conveyed the news today of an important change on the 200 level of the Eagle & Blue Bell. After driving a drift in low grade quartz for some time past, it was stated that a fine body of high grade ore had been encountered. The news was not verified by Secretary Wallace, who expected to talk with the mine during the afternoon.

White Pine News: It now appears that the bond on the Pilot Knob and Brooks will be taken up on Saturday of this week, the fact being that the money for this purpose has been deposited in the bank for a month past, and would have been paid before, but the owners of the properties refused to make any concessions, even so far as to deduct the interest on the money on anticipated payments.

RIO GRANDE IN DEMAND.

Rise in the London Market Assisted the Opening in New York.

Fears of a Tightening in Money Rates Discouraged Long Buying—Short Selling Prevailed.

New York, Sept. 3.—The rise in the London market over the holidays helped prices of stock here at the opening. There was a notable demand for the Denver & Rio Grande stocks, the common selling three and the preferred 3½ points over Friday's price. A thousand shares of steel sold at 45⅝ to 45⅞, compared with 45¾ on Friday. Otherwise changes were fractional with gains predominating but not up to the London parity. Profit taking in the Denver & Rio Grande issues and selling of the Atchisons, St. Paul and Amalgamated Copper lowered them a point and caused general selling elsewhere. Prominent stocks fell below Friday's close on quite liberal offerings of the western, Pacific and coal stocks. Fears of a tightening of money rates, in consequence of the large shrinkage in cash reserves of banks, discouraged long buying. Prices worked downward steadily, the absence of inside support encouraging short selling, which forced out stop loss orders in many stocks. Losses ran from 1½ to 2¾ in the active division with St. Paul and Missouri Pacific the chief sufferers.

Bonds were irregular with the speculative issues generally lower.

Sugar fell 3 points on account of disappointment of speculators who had expected an increase in the dividend. The general market sagged in sympathy, some stocks getting back to the lowest.

Trading became very dull and as the market showed no inclination to harden on the decreased offerings traders put out large short lines in the Pacifics, Atchisons, St. Paul and Amalgamated Copper. The resultant declines in these stocks at from 2 to 3 points below the opening had a depressing effect all around and the entire market was under considerable pressure at 2 o'clock.

MONEY AND BONDS.

New York, Sept. 3.—Noon.—Money on call firm at 3 per cent.

Prime mercantile paper, 4½ per cent.

Sterling exchange firm with actual business in bankers' bills at $4.86@¼ for demand and 4.84 for sixty days; posted rates 4.84½@4.85 and 4.87@½; commercial bills 4.83¾@¾.

Bar silver, 58½.

Mexican dollars, 45½.

Government bonds steady; refunding 2s registered and coupon 107⅝; 3s registered and coupon 108⅝; new 4s registered and coupon 137; old 4s registered and coupon, 113; 5s registered and coupon, 107¾.

SUGAR.

New York, Sept. 3.—Sugar—Raw, steady; fair refining, 3 5-16; centrifugal, 96 test, 3 13-16; molasses sugar, 3 1-16. Refined, steady; crushed, 5.75; powdered, 5.35; granulated, 5.25.

CHICAGO LIVESTOCK.

Chicago, Sept. 3.—Cattle—Receipts, 6,500. Good to choice, steady, others slow. Good to prime steers 5.40@6.30; poor to medium 4.50@5.25; stockers and feeders 2.25@4.25; cows 2.80@4.60; heifers, 2.25@4.90; canners 1.60@2.60; bulls 2.25@4.40; calves 3.00@5.50; Texas fed steers 4.00@5.00; Texas grass steers 3.40@4.00; western steers 3.75@5.10.

Hogs—Receipts today 24,000; tomorrow 29,000; left over 3,450. 5@10c lower, top 6.80. Mixed and butchers' 5.95@6.17½; good to choice heavy 6.40@6.80; rough heavy 5.90@6.30; light 5.90@6.50; bulk of sales 6.10@6.35.

Sheep—Receipts, 20,000. Weak. Lambs 10 to 25c lower. Good to choice wethers 3.75@4.00; fair to choice mixed 3.50@3.70; western sheep 3.25@3.75; native lambs 3.00@5.00; western lambs 4.25@4.75.

OMAHA LIVESTOCK.

Omaha, Neb., Sept. 3.—Cattle—Receipts, 3,500. Steady for best, others slow. Native beef steers, 4.25@6.00; western steers, 3.60@4.70; Texas steers, 3.25@5.30; cows and heifers, strong, 2.70@3.85; canners, 1.00@2.50; stockers and feeders, slow, 2.50@4.00; calves, 3.00@5.00; bulls, stags, etc., 2.00@3.80.

Hogs—Receipts, 6,000. 5c lower, closed strong. Heavy, 6.07½@6.40; mixed, 6.05@6.07½; light, 5.90@6.05; pigs, 5.50@5.90; bulk of sales, 6.05@6.07½.

Sheep—Receipts 14,000. Slow, lower. Wethers, 3.25@3.50; ewes, 2.50@3.10; common and stock sheep, 2.25@3.30; lambs, 2.75@4.25.

KANSAS CITY LIVESTOCK.

Kansas City, Mo., Sept. 3.—Cattle—Receipts, 16,000. Generally steady. Native beef steers, 4.65@5.80; Texas and Indian steers, 2.70@4.65; Texas cows, 2.25@3.00; native cows and heifers, 2.50@5.00; stockers and feeders, 2.70@4.00; bulls, 2.25@4.50; calves, 3.50@5.25.

Hogs—Receipts, 9,000. 5c lower. Bulk of sales, 6.10@6.35; heavy, 6.35@6.45; 6.35@6.45; packers, 5.65@6.35; mixed, 6.10@6.35; light, 5.75@6.20; yorkers, 5.65@6.10; pigs, 4.50@5.65.

Sheep—Receipts, 5,000. Steady. Muttons, 3.00@3.65; lambs, 4.00@4.74; range wethers, 3.00@3.50; ewes, 2.75@3.15; feeders, 2.75@3.25; stock sheep, 2.00@2.75.

CHICAGO.

Chicago, Sept. 3.—Cash: Wheat—No. 2, red, 70½; No. 3, red, 68¾@69½; No. 2, hard winter, 68¾@69; No. 3, do 68½@68¾; No. 1, northern spring, 70@72. No. 2, do, 68½@71; No. 3, spring, 66@70.

Corn—No. 2, 55@55½; No. 3, 54¾@55.

Oats—No. 2, 34@34*; No. 3, 34.

Chicago, Sept. 3.—December wheat opened at 71⅝ to 71¾, declined to 71¼, rallied to 71⅝@71½, declined to 71. Close:

Wheat—Sept. 68⅝; Oct., 69½; Dec., 71@71½; May, 74⅞@75.

Corn—Sept., 54⅝; Dec., 56⅝@56¾.

Oats—Sept., 33; Dec., 35.

Pork—Sept., 14.30; Jan., 15.52½@15.55.

Lard—Sept., 8.97½; Jan., 8.85.

Ribs—Sept., 8.40; Jan., 7.97½.

Flax—Cash, northwest, 1.43.

Barley—Cash, 52@62.

Rye—Sept., 52½.

Timothy—Sept., 5.40.

SAN FANCISCO GRAIN.

San Francisco, Sept. 3.—Wheat—Dull; Dec., 100¼; spot dull, 96¼.

Barley—No sales.

ST. LOUIS WOOL.

St. Louis, Sept. 3.—Wool—Strong; territory and western medium, 14@16; fine, 11@15; coarse, 12@14½.

BOSTON WOOL.

Boston, Sept. 3.—The buying of large lines of wool fell off somewhat here during the past week, but smaller operators are in evidence, and they are picking up considerable wool. The market continues to show an absence of speculative feeling and manufacturers are not inclined to pile up wool because they think it is cheap. Territory wools continue to lead in the business transacted and sales are made on the basis of former prices. Fleece wools are quite with prices about the same.

Crop Conditions.

Washington, Sept. 3.—The weather bureau's general summary of crop conditions is as follows:

While the weather conditions of the week ending September 2, 1901, have been generally favorable in a majority of districts, heavy rains (in some places excessive), have injured crops and retarded work in portions of the South Atlantic and Gulf states, and dry, hot weather has been unfavorable in the Missouri and upper Mississippi valleys and on the North Pacific coast. Extreme heat and drouth in localities of Oklahoma and Texas have also been very detrimental to crops. Cool weather has retarded the maturing and drying of fruit in California and light frosts occurred in Nevada.

Late corn continues to show improvement, although it was injured by drouth and heat in portions of Kansas; has suffered further decline in Missouri and needs rain in Nebraska.

Spring wheat threshing continues with generally satisfactory yields except in North Dakota, where they are light and of poor quality, the berry being shrunken and bleached.

Very favorable reports concerning tobacco are received from all sections except Maryland, where it is not curing satisfactorily and Virginia, where the yield is variable. Cutting is general.

The condition of apples still continues unpromising in nearly all sections. Some improvement is reported from Kansas and fair to good crops are indicated in portions of Arkansas, Illinois, Indiana and West Virginia; elsewhere apples are scarce and generally of poor quality.

Soil conditions are favorable for plowing and seeding, which are in progress and usually well advanced in all districts, except in Missouri, Nebraska and Oklahoma, where the work has been retarded by drouth and in portions of Virginia, where it was interfered with by wet weather.

Mint Statement.

Washington, Sept. 3.—The monthly statement of the director of the mint shows that the total coinage executed at the mints during August was $10,140,310 as follows: Gold, $6,780,000; silver, $3,141,000; minor coins, $219,310.

Currency Statement.

Washington, Sept. 3.—The monthly circulation statement of the comptroller of the currency shows that at the close of business August 31, 1901, the total circulation of national bank notes was $357,419,155, an increase for the year of $33,114,830, and an increase for the month of $1,266,252. The circulation based on United States bonds is $328,408,351, an increase for the year of $37,764,994, and for the month $1,366,978. The circulation secured by lawful money amounted to $29,012,804, a decrease for the year of $4,650,164, and a decrease for the month of $100,762.

The amount of U. S. registered bonds on deposit to secure circulating notes was $330,279,950 and to secure public deposits $106,480,550.

EASTERN SHEEP MARKETS.

Unusually Active Last Week for Fat Sheep and Lambs at Advanced Prices.

Report of Large Sales of Utah, Idaho and Colorado Sheep and Lambs.

The Mallory Commission company of Chicago, Kansas City, St. Joseph and South Omaha, report an active and higher market last week for all grades of fat sheep and lambs. Several export orders have been filled which is something unusual at this season of the year. They report a fair supply of good to choice range stock from nearly all of the states and a little improvement in the demand for feeders. Prices on both sheep and lambs show an advance of 20@35c on fat stock and 10@15c on others. This company look for larger receipts during September, but for average prices.

Their principal sales of western sheep and lambs at the different markets given below furnish a better barometer of the trade than anything that could be written:

MONDAY'S SALES.

At Chicago—T. Smead, 243 Wyoming wethers, average 85 lbs., at $3.35; 260 do. feeders, average 80 lbs., at $2.75; Deseret Live Stock Co., 393 Utah wethers, average 107 lbs., 3.80; do. 77 Utah ewes, average 116 lbs., at 3.40; C. A. Buckley, 435 Oregon lambs, average 68 lbs., 4.90; do. 214 Oregon feeding lambs, average 56 lbs., 4.12½; do. 299 Oregon ewes, average 100 lbs., at 3.25; W. Condition of Cotton.

Washington, Sept. 3.—The monthly report of the statistician of the department of agriculture, shows the average condition of cotton on August 24 to have been 71.4 as compared with 77.2 on the 25th of the preceding month, 68.2 on September 1, 1900, and a ten year average of 74.9.

There was an impairment of conditions during August amounting to 18 points in Texas. A condition below the ten year average is reported in a majority of the states.

AMUSEMENTS.

The Salt Palace profited immenselу by the holiday last night and by the absence of any other form of amusement in town. The house was thoroughly filled and the audience found great entertainment in the bill of fare presented. It was stated that the house was the largest of any opening night since the first week of the Wilber-Kerwin company. The notable features of the evening were the new chorus, "When the Band Begins to Play," the tramp act and the opera burlesque between Mr. Kohnie and Miss Kirwin. Mr. Huff's song of "Only" was also heartily applauded.

* * *

At Calder's Park the child wonder, Master Nero, and "The Ride for Life into the Lake" are attracting good crowds.

TEACHERS.

Dr. Talmage's new book, "The Great Salt Lake, Present and Past," should be in the hands of every educator. The amount of information it contains relating to the great saline sea, makes it an invaluable work for reference or

WHITE'S CREAM VERMIFUGE is essentially the child's tonic. It improves the digestion and assimilation of food, strengthening the nervous system and restoring them to the health vigor and elasticity of spirits natural to childhood. Price, 25 cents. Z.C.M.I.
