

# AGREEMENT ON POSTOFFICE BILL

### Provision for 30 Days' Leave of Absence for First and Second Class P. O. Employees. Out.

### THEY WILL GET FIFTEEN DAYS

### Sundays and Holidays Will be Eliminated from Calculation of Leave.

Washington, May 21.—Complete agreement was reached today by the conference on the postoffice appropriation bill and the report was agreed to in the senate. The most important of the amendments that had been in dispute were settled as follows:

An appropriation of \$221,900 was authorized for the promotion of postoffice clerks from the fifth to the sixth grade; the provision for leaves of absence of 30 days annually to employees of first and second class offices and other offices having city delivery service was dropped, but the house provision eliminating Sundays and holidays from the calculation on 15 days authorized by the existing law was retained. The senate provision in regard to weighing of the mails to determine compensation to be received by the railroads for mail transportation was retained. The average daily weight is to be ascertained by actual weighing of the mails for 25 successive days, to begin at such time as the postmaster general may determine after June 30, next.

The appropriation of \$50,000 for payment of substitute letter carriers, who hold themselves in readiness for calls but are not actually employed was struck out.

The provision for the payment of expenses not to exceed one dollar a day to railway mail clerks while away from the terminals where they reside was eliminated by the fact that it would cost the government \$1,000,000 a year. The conference said they believed this amendment to be just, but the postal deficit was now too great to permit action at this time.

The ocean mail subvention provision was retained, and to carry into effect the appropriation for the transportation of foreign mails was increased from \$3,568,862 to \$4,608,862.

The amendment to prohibit the publication of incendiary or inflammatory articles was further amended by the conference so that the new provision of law will be as follows:

"And the term 'incendiarious' within the intent of this section shall include matter of a character tending to incite arson, murder or assassination."

### COL. STEWART CASE.

Senator Warren Says Talk About It is Semimilitarism Gone Mad.

Washington, May 21.—Senator Rayner today again asked the senate to pass his resolution declaring that Col. William F. Stewart was entitled to have the charges against him investigated, and authorizing and requesting the president to order a court-martial for such investigation. Senator Warren declared that every effort had been made by him as chairman of the committee on military affairs to secure information as a basis for an investigation of the case. This, he said, was a matter of fact relating to the discipline of the army and should not be lightly treated. The resolution of the senator from Maryland, if adopted, he added, would be a rebuke to the president, as

well as to the other army officers who had been involved in the Stewart case. "This talk about punishment," he said, "is more all right than the mad." He characterized Senator Rayner's argument as "simply maudlin."

Mr. Rayner declared that the one issue of his resolution, which was in favor of granting a court of inquiry for Col. Stewart, had been ignored. Mr. Rayner's resolution was placed upon the calendar to be taken up, if again considered, by unanimous consent.

Senator Lodge will reply to Mr. Rayner's statements tomorrow.
