FRAGMENTS.

THE Iowans and Pennsylvanians had an excursion to Calder's Park today.

A WARRANT license has been issued to Omer Westling and Augusta M. Anderson, both of this city.

GEO. DORIN, general manager of the Rio Grande Western, is registered at the Continental Hotel.

Copies of the assessment rolls of the different counties are now in the hands of the notice by the Board of Equalization, in this city.

THE Commercial National bank of this city has declared a dividend of 4 per cent, on its capital stock for six months ending July 15.

WILLIAM H. L. COOKE, a native of England, and a resident of Sanpete county, was admitted to citizenship yesterday afternoon by Judge Zane.

THERE are complaints at the Western Union Telegraph office for A. E. Foote, S. Hustel, M. D., Louis Lehman, Charles Smith, Miss Mary Anderson, M. H. Walls and John Inchy.

A PARTY of Salt Lake City Republicans will leave for Ogden this evening, or will meet at 7:30 on special train, to attend the Republican Territorial Convention. A large band engaged for the occasion will furnish the music.

THE Republican clubs recently organized in South Jordan and Taylorsville have a membership of thirty each, and four in prospect. Henry Harker is president of the Taylorsville club and Louis Bringhurst is secretary and treasurer.

THERE was absolutely nothing doing in the courts this morning, and the chances are that for the next month or so the judges will have no cause for complaint on the score of overwork. Whom, however, the criminal calendar is now starved upon in the Third district there will be plenty to do.

Citizens' Mass Meeting.

We are requested to publish the following:

There will be a mass meeting of citizens in the Salt Lake Theatre tomorrow, Friday evening, July 10th. All who are interested in the prosperity and national advancement of the city, regardless of political affiliation or belief are urged to attend.

A Veteran.

Our esteemed friend Brother W. H. Miles reached the good old age of 81 years yesterday. He is still hale and activated and does a little at his trade of treehmaking, at which he is an adept. He finished a fine specimen of his art yesterday for President Wilford Woodruff. We wish him many more years of health and prosperity.

The Twenty-first Infantry.

A telegram has been received at Fort Douglas from the adjutant of the Twenty-first infantry at Sidney, Neb., stating that Captain Jones's company, the Twenty-first infantry, was ordered to Sidney. Captains Cornman's and Wheeler's companies to Fort Buford, Dakota, and Captain Bradley's company to Fort Duchesne. All these troops are now stationed here. The possibilities are that this is a preliminary step towards consolidating all of the Sixteenth infantry at Fort Douglas. There are now three companies of the Sixteenth at Fort Douglas.

The "Chorister."

The second number of the *Chorister*, edited by Professor Evan Stephens, is now out. It contains some exquisite musical compositions, three of them being the work of Brother Stephens himself, namely, the anthem "A Wife, My Soul," "The Old Schoolhouse," a quartette; and "Mother's Lullaby" (for ladies' voices.) Brinley Richards' charming pathsong "Let the Hills Resound" and "Light and Truth" (a favorite Welsh air), are also included in the number, the price of which is 15 cents only. Copies of the *Chorister* may be obtained at the DESERET NEWS Office.

Twelfth Ward Outing.

The Twelfth warders of this city had an outing at Calder's Park yesterday under the auspices of the officers of the Sunday school. Harmless and recreative sports of various kinds were freely engaged in by old and young alike. An excellent time was had by all. A special feature of the occasion and one that tended to cause good feeling was the contribution of twenty pounds of delicious ice cream by the Tremont Brethren.

The pic-nickers all speak in glowing terms of the courtesy extended them by the Rapid Transit officials.

Information Wanted.

Mr. George W. Lower, of Avoca, Lamoure County, Pennsylvania, writes to a gentleman in this city for information concerning the whereabouts of his grandfather, Amos Lower, who, he says was a member of the "Mormon" Church, in Pennsylvania, many years ago, and that he emigrated from Philadelphia to Nauvoo, where the father of the writer was born. When the "Mormons" were driven from Nauvoo, Amos Lower, the man of whom information is wanted, came west with his contingents. Since that time he has not been heard from by his Pennsylvania relatives.

Any one able to give the inquiring gentleman on the subject will confer a favor on him by communicating at the address named.

Police News.

Tom. Barr and James Kelly, a brace of drunks, were fined $5 each in the Police court today by Justice Laney. In default of money with which to pay their fines, they were sentenced to twenty four hours' imprisonment.

John Marlon, an aggravated drunk, was given ten days at hard labor.

Minnie McDermott, a prostitute, was arrested last night on a charge of disturbing the peace. She left $10 to secure her attendance in court at 10 a.m. today. She failed to put in an appearance, and the money was declared forfeited.

Frank Hamilton and Frank Johnson were on trial today for house breaking. It was expected that the case would be concluded this evening.

Paul Mauzel, a Jewish miner, was arrested by Captain Parker last evening on suspicion of being an all round crook.

STRANGER THAN FICTION.

An Extraordinary Scene Occurs on One of Tacoma's Streets.

The Tacoma World gives the following account of a sensational incident which recently occurred on one of the principal streets of that city, two of the actors having formerly resided in Salt Lake:

"It was a woman's cry uttered on a crowded thoroughfare of this city—'My God, there's my husband!' With the woman, who was very pretty, of medium height and well dressed, was a fine looking large man. The couple were going down the avenue, while he who had been the cause of the woman's cry stood in the opposite direction from the south. A swift glance shot from the eyes of the woman's companion to the man approaching and with such a swift a motion he turned and sped away, soon being lost to sight. A few seconds more the husband saw and recognized his wife, and the man instantaneous was in his arms and weeping plentifully, while the pedestrians looked on and wondered. The old story of a runaway wife with another man and the successful hunt of the deserted husband. A little over a month ago the husband, who is Jule Trumbull, left his home and wife in Salt Lake City to go to San Jose, Cal., on a hunt for a new location for a home. The couple had formerly been residents of California. He was gone about two weeks and when he returned to his Salt Lake City home he found his wife was gone. Their daughter told him that the woman had gone west with a man named O. H. Smith, whom Trumbull alleges is a gambler.

The woman is thirty five years of age, though she does not look to be more than twenty eight. She is very pretty and stately, and, as the husband said, would attract attention anywhere. Her hair is short, black and curly, and her eyes are piercing and black. She returned with her husband. Smith, the man with whom Mrs. Trumbull cast her lot for the past month, remained in Tacoma.

Lyceum Meeting.

The public meeting of the Salt Lake Lyceum, given in the vestry of the Twentieth ward meeting house was well attended Tuesday. The members of the organization all acquitted themselves admirably. The programme consisted of "original" sentiments from the members to answer to the roll call. A few remarks were made by chairman J. F. Smith, Jr., on the objects of the association, viz: to become acquainted with matters pertaining to history, science, art and philosophy; also to gain an increase of knowledge in language, belles lettres, parliamentary usage and to cultivate the art of public speaking. He welcomed all present. The music was sweetly "Araby," by Messrs. Dunbar, James, Watts and Bowring was well received. Mr. O. Hodgson followed with a thirty minutes' lecture on "the moon," which was very interesting and instructive. A vocal duet by Misses Elliot and Duckar was well received. Mr. Dunbar gave an interesting lecture on the Elizabethan period of the world's history. Mr. Barlow's recitation, "Melmotte's apology," was specially well done. The great pleasure received a big round of applause. The chair stated that two members of the programme had failed to materialize, in consequence of which he called upon Mr. Watt to favor the audience with a humorous recitation. The gentleman responded and gave "Patrick O'Sullivan's Alphabet," which created much laughter. This concluded the programme. The most interesting part of the meeting was given over to the report of the critic (Mr. N. Schofield), who reviewed the programme and gave a very unique criticism of what had been done. President Smith announced that another meeting of the society would be given one month from date. A hearty vote of thanks was given the chorister of the ward for the use of the hall.

Why, Indeed!

A very enterprising watchmaker in Main street, a few doors from the City Hall, has in his store window this suggestive and thoughtrifling question, in heavy black letters on a white ground, surmounting a small pile of genuine "Why quarrel with your mother-in-law, when you can purchase one of these watches for $3.50?" This is surely one of the latest phases of advertising!

The proprietor of the above query had better take care of himself, several females whose ages ranged from thirty-five to fifty were observed gazing in at his window today with anything but a kindly disposed look upon their faces.

Political Meetings.

S. A. Kenner was the principal speaker at the Democratic meetings held at Sandy and West Jordan last night. As soon as he had finished his speech at the first named place a buggy was in readiness to convey him to West Jordan, where he arrived about a quarter-past ten. Mr. Kenner was well received, and at both places the audience arose to a high pitch of enthusiasm.

ARTHUR PRATT NOMINATED

At the Citizens' Meeting in the Fourth Precinct Last Night.

The citizens' call for a non-partisan meeting to be held in the Fourth precinct last night was heavily responded to.

J. L. Rawlins was elected chairman and D. L. Murdock secretary. The work of electing a member of the Board of Education to serve two years in place of Judge Pyper, whose term of office is almost expired, and who, it is said, refused to act again, was commenced. Alfales Young (incumbent) nominated Arthur Pratt (Republican). H. C. Richards nominated J. H. Torrens (Democrat). John Hart nominated George W. Heal. Mr. Devine seconded Mr. Pratt's nomination.

The chairman appointed Mr. Pratt, Mr. Torrens (1), Heal (1). Mr. Pratt was declared nominated.

Sunday School Union.

The regular monthly meeting of Sunday school officers and teachers of the Salt Lake Stake was held in the Fourteenth ward meeting house, on Monday evening. Representatives were present from the First, Second, Third, Fourth, Seventh, Sixth, Eighth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth and Twenty-first wards of this city, and from Union, Big Cottonwood, South Cottonwood, East Mill Creek and Sugar House. Supt. T. C. Griggs presided, and the singing exercises were furnished by the Union Ward choir, led by Brother W. E. Cox.

Prof. Wm. M. Stewart, in response to an invitation, delivered an address on the conducting of a Sabbath school. After dwelling briefly upon the importance of Sunday school work, and showing the necessity of teachers preparing themselves for their labors, he gave his idea of how a Sabbath school should be organized and conducted. The most efficient found in our Sabbath schools formed as complete an organization as was necessary. The superintendent and assistants should have system and considerable business tact to properly perform their labors. The secretary should be concise in recording minutes, and state what was done and not, and not his opinion of what a speaker might say, as for example: "Brother So-and-so gave good instruction to the young" or "spoke in a most interesting manner." Music was of much importance in a school—more good could be accomplished by having well rendered singing than without it preventing. For this reason a musical director was a very important officer in the Sabbath school. The speaker presented a number of other suggestions that might be adopted in our schools, if omitted in said officers' conversation; his plan was as follows:

First, calling of school to order promptly at 10 o'clock; opening singing say five minutes, from 10 to 10:05, prayer should be short, three minutes allowed for it, 10:08; then singing again from 10:08 to 10:13; 10:13 to 10:18, roll call and reading of minutes; administering of sacrament ten minutes, and allow ten minutes for the lesson. By trying to keep this schedule of time the opening exercises would occupy but thirty minutes, leaving the remainder of the time for class work. Primary classes should not remain in session after 11:30; older classes might continue to 11:45 and afterwards sing and dismiss with prayer promptly at 12 o'clock. Morality, he said, was the basis of religion, the latter being an expansion of the former. The first work of a teacher was to teach morality. Order and system were prominent factors in doing this. He presented a number of interesting incidents of the pupils, but should be developed from within. The heart should be trained to love the good. To get a person to do good of his willingness should be acquired through the sensibilities of his mind. What a child learns is through the senses. Secretary Roberts, of Union, should be appointed to fill an suitable for class work. Primary classes should not remain in session after 11:30; older classes might continue to 11:45 and afterwards sing and dismiss with prayer promptly at 12 o'clock. Secretary Roberts, of Union, should be appointed to fill the place of assistant secretary. It is not necessary to teach by aid of objects or pictures, rather applicable and suitable pictures were needed for teaching small children in our Sabbath schools, and then better results might be obtained.

A duet was rendered by Misses Nellie Walker and Lillie Morton of the Union Ward school.

The question "What are best incentives to punctual and regular attendance in Sunday schools?" was introduced as a general subject for consideration. Supt. Arthur Stayner, Jr., in response said he gave his idea in part. First as an incentive to attend school parents at home should encourage children and help them to prepare themselves for the lesson; teachers should be comfortable, clean house to meet in. Superintendents and teachers should be early in attendance, set an example and be welcome pupils as they arrive; third, spirited singing by the congregation was a very interesting and attractive feature. Nothing better was above heard had a good effect. Preparation on the part of the teacher also aided in the matter.

J. M. Sjodahl, speaking on the same subject, remarked that teachers should seek to obtain the love of their pupils. This could be done by taking a personal interest in their welfare individually and without prejudice. He should make inquiries about their circumstances, and try to associate with them in their sports and see that they are not keeping bad company or practicing bad habits. By all means retain their confidence, by practicing what you endeavor to teach. It was an excellent plan for teachers to invite their scholars to their homes and hold an entertainment there as often as possible.

After singing and benediction the meeting adjourned for one month.

Resolutions were adopted.

The committee on resolutions reported the following, which was adopted:

The Republicans of Salt Lake county in convention assembled congratulate the people of Utah that the time has come when past conditions can be put behind us, and we, without the interference of the great national parties, they can come forward in the development of the great territory in which they live, and without the restraint of the bitterness that has so marked the past history of this people. We congratulate the Republicans of Utah that the time is come when they can publish their allegiance to the party of progress and liberty, and follow in the footsteps in the numbers, hand that it will be firmly and triumphantly established in this Territory. We are firm in the belief that a majority of the people of Utah will yield allegiance to the Republican party, and we invite them, without any surrender of their political affiliations, to join with us under the standard of the grand old political party ever opposed to slavery and error. With the conviction that with the party that always stood for the elevation of every progressive idea, we pledge our earnest and hearty support.

First—That the general principles of the National Republican party are those best adapted to promote the welfare of our Territory, prosperity of our people, and we therefore pledge ourselves to its principles just because of their merit.

Second—We are unconvincingly in favor of the protective system of protection. The protective system must be maintained, in consideration that we are the future home of a great manufacturing and producing community of the states and the world.

Third—The principle of protection to American products and labor of the Republican inspiration is the vital principle of our Territory. It is of equal importance to our growing mining interests, which formerly depended for a market upon foreign manufacturing in Utah. Will it we say hope or wishes the abolishment of material duties on other articles and compel the labor required to utilize it.

Fourth—We are unanimously in favor of reciprocation with other nations, and the free coinage of silver. We are union from the American product should be protected and will the same when which it is adopted, thinking it one as a medium of exchange under the Republican principle of protection.

Fifth—We also assert and recognize the dignity of labor and the necessity of equal rights of all people in America. The time labor and contractors, who contribute to our public lands, are justly entitled to a lien upon the work they perform, and that Utah work should go to Utah workmen.

Sixth—We are opposed to the disfranchisement of any citizen except for crime of which he shall have been convicted by a jury of his peers, and we favor the free exercise of the power of amnesty in all or some discretionary on account of purposes of prosecution which are in violation of the laws of the United States.

Seventh—The National Republican party was called to a history and achievements unequaled in the history of any political party of the world. Since its first organization it has made the cause of freedom, of equal rights to all citizens, and the leader in all progressive measures which have made nearly a third of a century and make an exact unsurpassed national prosperity.

JOHN T. LYNCH,
JAMES SACKS,
H. G. McMILLAN,
J. J. WILLIAMS.

Major Bradley offered the following resolution, recommending that it be incorporated in the committee's report. Resolved, That in the change and changing condition of political opinion and action in this Territory it is desirable that in the political campaign preceding our Territory and local elections we aim at educational rather than mere partisan appeals and issues, that the admission of Utah as a State in the Union await the deliberate action of the thought of the people.

Considerable discussion ensued, after which it was referred to the committee on resolutions, who retired for a time and offered the following

WHEREAS

which, with the original, was laid on the table:

Resolved, That we insist that the admission of Utah as a State of the Union await the deliberate thought of the whole people of Utah.

THE REPUBLICAN CONVENTION

To be Held at Ogden Tomorrow Will Conclude with a Grand Rally on Saturday.

To the Republicans of Utah Territory:

The organization of the new national party is now in progress. There are in this thousands of voters who have not yet rallied themselves with either of the two great parties, and who are now studying the question of national politics.

Utah is entering upon a period of unprecedented and political progress which marks its manifest destiny, and it is important that every voter should be familiar with the decisions of the Republican party, as necessary to the progress and rapid development of the West.

With a view to the more thorough enlightenment of the Republican party, and the teaching of its doctrines in this Territory, the Republicans of Ogden and Weber county,

First—Invite all Republican clubs that may be then formed, and all other Republicans from each club to a convention of clubs, to meet in Ogden, July 10, 1891, at 10 o'clock, July 10, 1891, for the purpose of organizing a Territorial league.

Second—And further invite all Republicans in the Territory to meet in a grand rally and mass meeting to be held in the Tabernacle in Ogden, at 7 o'clock, or sooner, if it shall be deemed expedient, at 10 o'clock a. m. on Saturday, the 11th day of July, 1891.

SALT LAKE CITY, June 25, 1891.

From Piute County.

We learn from Brother F. W. Young, of Fremont, Piute County, who is on a brief visit to Salt Lake, that the spring has been cold and backward in Sevier valley, but the grain, etc., there seems to be getting used to that sort of thing. On the morning of June 27th, he threw sixteenths of an inch thick ice on a pan of water, while potatoes within sixty feet were not injured in the least. Lucern is looking well, and will be ready for cutting by July 15th. Brother Young says that on his land he gets two crops only in the year.

The Fourth was a "coming" day both at Fremont and Loa. A large quantity of powder was burnt.

The people of the valley propose to begin work on the "Johnson Valley" reservoir during this month. There they hope to stop back the natural flow of the lost tributaries of the Fremont river for several months, and thus increase the supply of water, which is already pretty good.

I am an educated and refined young lady, fond of home and anxious to do good in this world. I am not the favorite of fashion, but the commonest girl you ever knew, and keep house and canvass on many subjects. Hoping this may reach me I find at least a friend, I am very respectfully,

No Arrangement Practicable for Jews to Locate There.

VIENNA, July 8.—At a conference held at Lamberg between a representative of Baron Hirsch, Herr Fresnos, representing the Jews of Berlin and Dr. Kornanda of this city, it was agreed upon that the best direction in which to guide the Jewish emigration was toward the Argentine republic. It was also decided that it was impossible to come to an arrangement by which emigrating Jews could be allowed in Palestine.

The Parnellite Press Despondent.

DUBLIN, July 9.—The Parnellite press is generally downcast over the result of the Carlow election.

Freeman's Journal says there is now no more chance of getting home rule for Ireland than of getting the moon. "Electors," the *Journal* adds, "have abandoned their independence for the British party yoke."

The conservative Dublin *Express* says: "The English will learn from Carlow that the Irish tenant farmer, when not actuated by insane land hunger, is a puppet in the hands of the Roman Catholic priests, and as unfit to be an elector as if he were an infant or a lunatic."

The *Antimoi Press*, McCarthyite organ, is naturally jubilant and says: "Carlow men have dealt a death blow to the faction of Parnell, from which there is no longer any peril."

NEW YORK, July 9.—There was a fine show of yearlings at Tattersall's last night from McGrathiana, Spendthrift, Hermitage and Leonatus stock stals. There were sixty-six head sold and the total sum realized was $65,800, an average of $997 per head.

The Report was Accurate.

BUFFALO, July 9.—Dr. Southwick and Dr. Daniels, two Buffalo witnesses of the electrical execution at Sing Sing, returned this morning. They were interviewed by a reporter. When asked if the Associated Press report of the execution was accurate Dr. Southwick said it was, and added it was. Both doctors thought the system a success in every way.

Continuing Dr. Southwick said these executions demonstrated the method to be humane. When the current was turned on there were no sounds from the condemned, no burning, no odor of burning flesh, nothing whatever that would be revolting to a spectator.
