The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 230. FRIDAY, SEPTEMBER 1, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

CHOLERA SPREADING

Inhabitants of Austrian Galicia in a State of Panic.

THE PLAGUE IN HUNGARY.

Facts Suppressed in Holland.—Germany Stricken.—Jeddah Pilgrims Dying.

VIENNA, Sept. 1.—Twenty-eight deaths from cholera occurred at Dolzlyn, Austrian Galicia. The disease is rapidly spreading in that vicinity. The custom house at Dolzlyn is closed and all intercourse with the building forbidden, as several officers who have quarters in it have been stricken with the malady. The law courts are also closed. Business is town is at a standstill. The inhabitants are in a state of panic and all who are able are hurrying from the place. Advices from Smyrnla report a similar state of affairs there.

ALARMING REPORTS.

LONDON, Sept. 1.—Seven deaths from cholera occurred at Naples yesterday.

Reports from Hungary continue alarming. In sixteen counties of northern Hungary 139 new cases and 47 deaths were reported yesterday.

Private advices from Rotterdam say the real extent of the cholera in the city is being suppressed by the authorities. The situation is much worse than admitted.

Six cases were reported to the Berlin authorities from various parts of Germany during the past three days. In a large number of places along the Rhine surveillance has been established to prevent the introduction of cholera. It is reported from Tangiers that cholera has broken out among the Jeddah pilgrims on an island off the city of Mogador.

ASKING FOR PROTECTION

Serious Trouble Anticipated on a Railroad.

NEWPORT, Ky., Sept. 1.—Officials of the Louisville and Nashville railway have asked the sheriff for protection for the new men to take the places of the strikers. Should the old men go out today, serious trouble is anticipated.

NO ADVICES YET.

CINCINNATI, Ohio, Sept. 1.—Up to noon the officers of the Louisville and Nashville railroad had no advices of a strike at any point between this city and New Orleans. The chief of the railway employes organizations are in session at Louisville and the orders to strike, when issued, will emanate from there.

BOND HANDS STRIKE.

NASHVILLE, Tenn., Sept. 1.—Six hundred Louisville and Nashville shop hands at Decatur, Ala., struck at midnight. The trainmen are still at work.

STILL CONSULTING.

LOUISVILLE, Ky., Sept. 1.—The chiefs of the railway men's orders and the officials of the Louisville and Nashville railroad are still in consultation, having reached no agreement. It looks like a general strike.

LOUISVILLE, Sept. 1.—The trainmen's conference closed this afternoon. It was decided to remand a modification of the order reducing the pay of the men ten per cent. What the modification is, is not learned. It probably calls for fixing a definite period for the operation of the cut. The grand chiefs will lay the proposition before the officials of the road later this afternoon.

A PLAN FOR FARMERS.

How to Hold the Wheat till the Price Improves.

TACOMA, Sept. 1.—The business agent of the Farmers' Alliance has proposed, as a means of enabling the farmers to carry wheat until the price improves, that the bank of the city be started and mortgaged for about 25 cents a bushel.

A Missing Steamer.

QUEENSTOWN, Sept. 1.—The long overdue steamer Boruia arrived this morning in tow of the steamship Mantorrodan. Sarnia's shaft broke on Aug. 4th and the vessel struggled against adverse winds till the 25th, when it was taken in tow. All well.

A Young Lady Killed.

Special Dispatch to the News.

CHEYENNE, Wyo., Aug. 30.—Miss Mary Driscoll, aged 16 years, residing at Willard, twenty miles southeast of Cheyenne, was killed yesterday afternoon by the accidental discharge of a gun. Miss Driscoll was packing her trunk preparatory to a visit to Sterling, Colorado, when in some manner a gun that was standing in the corner of the room was knocked down and discharged. The shot struck the young lady in the breast, killing her instantly.

CLEVELAND GETS BACK.

He is Said to Look Strong and Vigorous.

WASHINGTON, Sept. 1.—President Cleveland and family arrived at 8 o'clock this morning.

The party remained in the sleeper till 9 o'clock and then drove to the White House in a drenching rain. Private Secretary Thurber says the President is in excellent spirits. His eye is bright, complexion clear, and he looks vigorous and strong.

After breakfast the President went to the office and for two hours worked very hard, disposing of accumulated public business. Then he took part in the cabinet meeting till 1 o'clock.

The silver question was discussed with reference to the chances of repeal by the Senate. The President expressed the belief that the repeal measure would be carried out. The cabinet also considered the condition of the treasury. No definite plan of relief was decided on.

To Receive the Veterans

INDIANAPOLIS, Sept. 1.—Preparations for the Grand Army encampment are going rapidly forward and all be completed in ample time for assembling. The downpour descending here as the hand over seen in this city and the residences are rapidly taking on colors.

The naval parade under command of Rear Admiral Ordering takes place tomorrow morning. Other parades are set for Tuesday and Thursday.

AT THE FAIR.

Opening of a Series of Splendid Water Pageants.

CHICAGO, Sept. 1.—The weather was bright and cool, and judging by late morning's attendance at the World's Fair, the gates attendance promises to be very large.

The Morgan horses and Devon cattle will be judged in the live stock ring today.

The water pageant tonight will be the commencement of a series on a scale of grandeur never before approached in this country. The finale tonight will be a floating island surrounded by war canoes, Arab and American, followed by Indian war canoes and a float bearing a band of Pawnee Indians; then Columbus before the court of Spain; then American Independence and then Washington crossing the Delaware.

THE TROUBLE WITH MEXICO

Armed Forces to the Border, All for the Sake of a Few Sheep.

Carlos Sam Say Must an Explanation of His Neighbor to the South.

WASHINGTON, D. C., Sept. 1.—The trouble on the Mexican border over the attempt of Mexican officers to drive a flock of sheep from a tract of land on the Rio Grande claimed by both Mexicans and citizens of the United States owing to a change in the course of the river, has taken a serious aspect. The war department has received a telegram from General Wheaton, commanding the department of Texas, saying that two troops of the Fifth cavalry would leave Fort Ringgold at noon for the scene of the trouble to support the twenty men under Captain Forbush, who have the Mexican officers and sheep in charge. The telegram also says unofficial information has been received that Colonel Mistral of the Mexican army is moving to that point with a force of men. It is discovered that the sheep belong to the Mexicans, the removal will be allowed, if it is found otherwise the state department will demand an explanation from Mexico for sending an armed force to make seizure on United States soil.

CONGRESS AT WORK.

Senator Vance Speaks in Favor of Free Coinage.

WASHINGTON, Sept. 1.—The Senate took up the House bill to repeal the silver purchase clause of the Sherman act, with Voorhees's bill as a substitute.

VANCE, N.C., one of the minority members of the finance committee, spoke in opposition to the bill and in favor of free coinage. A large portion of his speech was devoted to showing the inconsistencies of the friends of repeal, both being partisan, in view of the financial declarations of both national platforms. He argued from these, commencing to an identical strain on the way in which the pledges were being fulfilled.

He said, they seemed to think the only way to maintain the parity between gold and silver was to first strike silver a death blow. Unconditional repeal would be the death blow, for it was well known that Cleveland would veto any silver repeal bill. The effect on the condition of mankind following the destruction of half the currency of the world aggregating seven and a half billion dollars would be impossible to describe accurately.

He gave the history of the democratic position of silver and declared that every government which demonetized the white metal did so when it was at a premium, when coinage stopped in India. The effort to have it stopped in the United States began soon after the influence of the monopoly power of all the world and our own government. If the coinage was stopped here silver would cease to live throughout the commercial nations of the earth. The fall in price would be greater than that following the stoppage of coinage. Repeal without a substitute meant the end of silver as money for this generation, unless a revolution of the people should redeem it as after the fraudulent demonetization of 1873. Let no man doubt that the proposed repeal was the result of a conspiracy among the money holders of the world. He declared the Sherman law did not drive out gold, nor was it the gold return with it still in force. The Democratic platform, he said, denounced the Sherman act as a cowardly makeshift; yet this bill for its repeal, striking silver a hard blow, was more cowardly and more of a makeshift. He closed with a declaration for free coinage of silver.

After discussion as to the relative parliamentary status of the silver repeal bill and the substitute, unanimous consent was asked for the adoption of the substitute, pro forma, and to have all amendments treated as amendments to the substitute.

Corkhill objected on the ground that the House bill was preferable to the substitute.

The discussion is still progressing.

THE HOUSE.

WASHINGTON, Sept. 1.—The House resumed consideration of the new rules.

Bonaker's amendment providing for cloture was rejected, 90 to 131.

Grosvenor, O., offered an amendment to prevent the coinage and currency committee from reporting at any time a bill to repeal the tax on state bank circulation. He did after it became evident that it would be victoriously opposed to withdraw it.

Springer offered an amendment which gave cloture powers to the committees which have the right to report at any time, voted down without division.

Hepburn, Iowa, offered an amendment requiring the speaker to recognize any member who first addresses him on any subject. Lost.

THE CHESTER DISORDER.

More Details of the Disastrous Railroad Accident.

SPRINGFIELD, Sept. 1.—Fourteen dead, one dying, two missing, and twenty fifty injured is the sum total of the casualties of yesterday. As far as learned it is believed that several of bodies are yet under the wreck. Workmen who joined Hoff was among the injured makes his morning the 1st of the discovery of his left arm, and already bears 10 Kilowatt. All, however, look forlorn. It will be several days before the wreck is entirely cleared away.

Wool Growers Protest.

COLUMBUS, O., Sept. 1.—The State Wool Growers' association adopted resolutions protesting against the removal of duty on wool. The resolutions urge wool growers of the United states to attend a mass meeting of growers and dealers, cotton planters, farmers and grangers' organizations at the World's Fair, Chicago, September 29th and 30th. National Woolgrowers' association at the same place October 5th.

The Bar Association.

MILWAUKEE, Sept. 1.—Judge Thos. M. Cooley, Mich., was elected president of the American Bar association today.

THE TIDE OF GOLD.

Thousands of Pounds Coming This Way.

NEW YORK, Sept. 1.—The steamer Germanic arrived today and had £75,000 in gold and the Augusta Victoria £40,000.

Receiver Appointed.

NEW YORK, Sept. 1.—Receivers were appointed today for the Equitable Mortgage company of Missouri with offices in this city. It has a capital of $500,000. The affair is owing to the stringency of the market. The appointment of a receiver was on the application of the New York Security and Trust company. The latter company has interest payment to come between now and December 1st, amounting to nearly $250,000. It built largely in municipal bonds and real estate mortgages.

MORE LIGHT.

Oil Men Will Get Their Product to the Market.

Special Dispatch to the News.

CASPER, Wyo., Sept. 1.—The gentlemen interested in the oil fields of Natrona county have never been able to obtain rates from the Northwestern railroad company that would enable them to ship their oil. This has greatly retarded the development of this important industry. The Burlington has recently sent an agent here and it is expected that the company will make a rate that will enable the oil men to get their product on the market.

IT IS GENUINE CHOLERA.

Victims of the Asiatic Scourge in New Jersey.

NEW YORK, Sept. 1.—Dr. Edison of the health department having made examination as to the deaths in Jersey City pronounces them genuine Asiatic cholera.

Nominated by Cleveland.

WASHINGTON, Sept. 1.—The President has sent to the Senate the following nominations:

Lorion Miles, New Mexico, secretary of New Mexico.

Beal Gaither, Oregon, Indian agent at Siletz agency, Oregon.

Frank Dale, Oklahoma, chief justice of the supreme court of Oklahoma.

Henry Gantt, Oklahoma, associate justice of the supreme court, Oklahoma.

APPROVED BY CLEVELAND.

The Bill in Aid of the California Exposition.

WASHINGTON, Sept. 1.—The President has approved the bill in aid of the California Midwinter International exposition.

Street Car Men Strike.

DULUTH, Minn., Sept. 1.—All the street car employes are on strike against a reduction of 20 per cent in their wages. They offer to accept 10 per cent reduction. Not a car is moving. The sympathy of the people is with the strikers.

SUNDAY SCHOOL CONVENTION.

The Delegates Report Progress and Raise Funds.

ST LOUIS, Sept. 1.—After devotional exercises the work of the International Sunday school convention continued with the report of Superintendent W. M. Reynolds, on the work of the past three years, showing systematic advancement. The present great good, it said, was the systematic financial supply of money for the needed pressing work. The convention then took up the question of finances and soon raised over $22,000 for the next three years. The nominating committee then reported the names for members of the international executive committee from each state and territory, with J. C. Jacobs, Ills., as chairman of the board.

Another Strike.

BRAZIL, Indiana, Sept. 1.—The men employed on the Chicago and Indiana coal road struck this morning against a cut of 16 per cent in wages.

Again Bereaved.

The sincere sympathy of the community will go out to Mrs. Cecelia D. Hamel and family in their second bereavement, the death of the baby, Orson D., notice of which appears in another column. It is only a short time since a sudden blow removed the husband and father, the late John H. Hamel Jr., and now, with the sweetness of that crushing sorrow still in their hearts, the destroyer again invades the stricken household. May God in His great mercy give the comfort in this dark hour which human and cannot supply!

THE POLITICAL POT.

The Anti-Amorites Resolution Not Yet Received.

THEY WONDER WHERE IT IS.

The Burglars May be Given an Opportunity to Face the Grand Jury.—Paragraphs.

Councilman Waterhouse stated to a News reporter today that the committee appointed by the City Council on Tuesday night had but not yet received Moran's anti-Amorite resolutions and consequently as chairman he had not called the committee together yet. He did not know why there was so much delay in the matter as the papers in the case had had ample time to come from the recorder.

Another doubtful member of the Council said with a sarcastic curl of his heavily mustached lip: "The recorder has not had sufficient time in a case of this kind. It will take a week or two to get around."

AFTER THE RIFLES.

President Jackson of the Amorites informed a News reporter last evening that after their meeting on Wednesday night burglars scaled the walls of the building by means of the fire escape, broke through a third story window and forced open a desk which it was supposed contained the rifles of the society but which in fact was filled with papers belonging to the Daughters of Rebekah.

Mr. Jackson, it is said, is of the opinion that the job was executed by men who had spoken of an unemployed policeman. But in this instance he was not, neither did he seek.

Mr. Jackson said further: "I have got some arrangements entirely and if I am not very much mistaken, I will have a couple of midnight prowlers turned over to the grand jury."

POLITICAL PARAGRAPHS.

The meeting at the Walker House tonight promises to be a very large and earnest one.

The Utah Democratic club will meet in the McCornick block tomorrow night.

Two hundred applications were filed with the Amorites committee on membership yesterday and today and one of the officers this afternoon.

Judge Powers is coming down from the mountains this evening, it is said, to attend the citizens' meeting at the Walker house, or at least to be within reach by telephone.

The earthstone politician always attends the council meetings. When the city fathers fail on each others necks and weep they wink, pass back and laugh. Tonight this element is expected to be out in force.

Councilman Waterhouse expressed himself as follows today: "I don't want any more political notoriety. I am full up. Any capable, self-sacrificing First precinct patriot who is proud of his country and who can take my place in the next council is welcome to, so far as I am concerned."

President Jackson of the Amorites requests the News to state this evening that the Amorites will not meet tonight. From another source, however, it is learned the same identical message is sent, a positive assurance that there would be a session this evening.

Liberal politicians and diplomats are hard at work on a scheme whereby they hope to win back the erring Amorites. Negotiations for a compromise are already pending. The only condition on which the anti-Cain faction would be willing to have the offices—and some of the best ones too—is divided with them. One of the fundamental principles of the society is: "What you want and don't or can't see, ask for." The Amorites are taking and asking hard.

The news of the expose of the Amorites was communicated to Chief Stanton at Chicago remarkably quick and that official immediately telegraphed to his political sponsor and friend Councilman Moran that he and the organization were strangers to such a thing. The dusky, say certain gentlemen who claim to be in a position to speak authoritatively is unconvertable. The only explanation that is ventured is that he didn't want to lose his job.

At a meeting of ward politicians a couple of nights ago one of the speakers referred to Editor C. C. O. Beckwith, editor of the Tribune, who is now in Washington making a fight at lighting for silver, would never return to Utah if he could arrange his affairs here in a manner that would warrant him settling in the west. It was further stated that the paper which bears his name at the head of the editorial column has no longer support both Cain and Colonel Nelson, and that it had been decided to retain the cheaper man.

An Amorite who can probably lay claim to more years and a longer political experience than any of the above trifles associates said to a News reporter and a member of the Chamber of Commerce on Wednesday in a fellow regarding yet trivial line: "Without being unprejudiced to any class of religionists, I will say I have lived in Utah a long time and have only just discovered that the Tribune is the official organ of the Catholic church, in this Territory. Henceforth the Deseret News will have an ambitious contemporary in the field with it."

Said a Citizens' ticket movement man of heavy property interests last night: "I expect good work from the business men who are to meet with citizens at the Walker House tonight and discuss the political situation. A change must come. I will welcome it gladly. That which is founded on evil and sustained on corruption has had its day in this city. The municipal treasury today is evidence of this. A magnificent surplus has been chemically and recklessly, yes, criminally squandered. Locally speaking all governmental wheels are blocked and disgrace is upon us. It will take a score of years to replace that which the leaders have taken away. I say let every honest man, regardless of politics, assist in turning the rascals out."

Two prominent gentlemen who have approached dangerously close to the personal and bitter line on divers occasions of late met in front of a down town saloon last night. One of them had been patronizing the bar to a thoroughly exuberant-like manner during the day. He was feeling pretty good and was apparently anxious to improve that fact on the mind of his associate, who, by the way, is accused of strongly sympathizing with the Amorites. Speaking of the organization he said: "Every man connected with the institution is a bill beater, cheat and a scoundrel." "Better be a scoundrel than a demi-John" promptly replied gentleman No. 2 as he turned on his heel and walked away leaving his bibulous colleague to ponder on his remarks.

A U. P. Special to Chicago.

The Union Pacific officials also anticipate running a special passenger train to Chicago from this city in time to be at the World's Fair on Utah day. The train will leave here on Monday next.

Weather and Crop Report.

The weather and crop report for the past is reviewed as follows by Acting Director Maxwell:

NORTHERN SECTION.

Week dry. Frosts occurred in several counties, damaging potatoes, wheat and beans in places. Grasshoppers numerous, but crops sustaining but little injury. Threshing generally completed. Crops about an average.

MIDDLE SECTION.

Weather very favorable for crops. General rains reported. In some places very heavy, but little damage. Cloud burst in Emery county, considerable damage done to irrigation canal. Frosts in Millard and Sanpete counties injuring crops to little. Grain and beets generally good crops, fruit fair, sugar beets in good condition.

SOUTHERN SECTION.

Favorable week. Harvesting almost ended. Fall crops. Frosts in Wayne county but not general.

HIPWELL PARDONED.

It Was a Case in Which Executive Clemency Was Justified.

One of the first acts of Governor West after his return from the east today was to sign a pardon granting the release of John Hipwell, a penitentiary inmate, who was convicted of grand larceny in the Fourth district court at Ogden on March 11th, 1890, and sentenced to two years' imprisonment. The petition was numerously signed by residents of Ogden, who bore testimony to the defendant's good character up to the time of the offense for which he was punished. There appeared to be some doubt, indeed, as to Hipwell's guilt, and his conviction by the jury was a surprise to many persons. The Governor has had the matter under careful consideration for a couple of months past, and after weighing all the circumstances arrived at the conclusion that he would be justified in granting the parole his liberty.

Doing Nicely.

Joseph Patrick the unfortunate young man who met with an accident at Saltair which resulted in the loss of his left foot, is reported by Doctors Beatty and Best as progressing nicely. He is feeling quite well and considering the calamity that has befallen him is very cheerful. He was not informed until yesterday of the amputation. It was thought the news would cause a great shock to him but he received it with remarkable fortitude.

The Governor Going.

Governor West is surrounding himself with a party of prominent business men who will leave for Chicago over the Union Pacific on Tuesday morning next.

The tall wing other persons will also go to the Fair on the same train: Dr. Fowler, Mrs. Rawlins and family, Mrs. Kenna, Mrs. E. C. Williams, Mrs. Miller and Mrs. Colonel Woodruff.

For One Day Only.

The Union Pacific has made a round trip rate of $15.50 to Chicago for one day only—Tuesday next—to allow people to visit the World's Fair on Utah Day as cheaply as possible.

A DESPERATE TRAMP.

He Draws a Revolver on Mrs. Henry Hodgson and Compels Her to Get Him Something to Eat.

Shortly after 12 o'clock this afternoon a dirty and slightly dressed tramp called at the residence of Mr. Henry Hodgson at the corner of Emerson avenue and Twelfth East street and demanded something to eat. Her husband being absent, Mrs. Hodgson informed him that she would be pleased to satisfy his wants if he would wait until she had baked some cream, which was in the oven at that time.

The fellow became insolent and declared that he must be provided for instanter. Mrs. Hodgson became frightened and he drew a revolver, at the point of which he compelled her to get something for him without delay. Filling his pockets and hands he then started down the street at a lively gait and soon disappeared.

That part of the city is sparsely settled and immediate assistance could not be had. A few minutes after the tramp left Deputy Constables Dinto and Abler called at the Hodgson residence, and to them the story was related as chronicled.

Fire at a Jewelry Store.

The fire department responded to a call about 11 o'clock today from Lyons & McCann's jewelry store, where a small blaze started in the ceiling from an electric wire. The chemical engine was got into operation and the fire extinguished before doing much damage.

THE SUPREME COURT.

The Nelson, Whitmore, and Jones Cases.—An Adjournment Taken Until September 25th.

The Alfred H. Nelson habeas corpus case, mentioned in yesterday's News, was signed on behalf of the defendant by Judge Lawman of Ogden toward the close of the afternoon's session. U. S. District Attorney Judd demurred to the petition, and the demurrer was sustained. Nelson is awaiting trial for embezzlement at Ogden. The writ was applied for on the grounds that Nelson should have been committed to the custody of the sheriff of Weber county instead of the custody of the United States marshal.

THE JONES CHARGES.

In the matter of charges preferred against Attorney R. H. Jones of Logan in June last, by D. P. Tarpey, the defendant filed a demurrer and answer yesterday afternoon. The court referred the case to Clerk J. P. Hanna to take testimony and report.

THE WHITMORE CONTEMPT.

The George C. Williams habeas corpus matter having been argued by Attorney Varian for the plaintiff and Attorney Arthur Brown for the defense, the court took it under advisement.

Their Honors adjourned till September 25th.

The Bond Signed.

Jerome B. Williams and John Green went before Commissioner Pratt late yesterday afternoon, and signed the $1000 bond of John W. Scott, who is charged with attempted arson at Silver City. Scott has been in the Juab county jail since his preliminary trial on July 20th. The sheriff has been instructed to release him.

For Shooting.

A warrant has been issued by United States Commissioner Pratt on the complaint of Ry K. Higson for the arrest of L. Pilcs charged with shooting with intent to murder Higson on August 28th.

BACK FROM CALIFORNIA.

Governor West Reached Salt Lake This Morning From Monterey.

Governor West arrived in the city at 7 o'clock this morning, upon his return from California. The journey was one of pleasure, and the Governor says he has had an excellent time. He spent almost the entire holiday at Monterey, the country around which place he describes as one of the most lovely spots he has ever visited. The weather was delightfully cool there. As to San Francisco—where the Governor made but a brief call—he states there is more general activity there than he had expected to find in these depressed times. The trip occupied just eleven days.

What Mr. Burley Says.

The following was received from General Passenger Agent Burley of the Union Pacific last evening, sent from Junction City, Kansas:

"We met Henry Irving special at this point. Held train twenty minutes while chief mate voices extended the Irving special. Standing room only last night at Denver, and about five hundred turned away."

Mr. Burley is acting as general railway director for the stock and will accompany them to Chicago.

Whitmore Will Rest Easy.

Banker Whitmore will have his liberty between now and the time when the Territorial Supreme court meets, on the 25th inst., the court having consented to the defendant going forth upon depositing with his attorneys (Brown and Judge Judson) sufficient money to cover the fine and costs imposed for the contempt, pending their honors' decision. Mr. Whitmore will not, therefore, be handed to the internal by Sheriffs, U. S. Marshals, or their deputies.

Today's Probate.

Estate and guardianship of Parales K. and Wm. H. Pitts, minors. Hearing on account of guardian and order made allowing same.

Estate of Joseph Shaw, deceased. Hearing on return of sale of real estate and order made confirming sale.

Estate of Herman Hyde, deceased. Matter continued till Tuesday, Sept. 11th.

From a Mission.

Elder James E. Taylor, of New Harmony, Washington county, Utah, has just returned from a mission to the Southern states. He left home on April 30th, 1891, and has been laboring in the West Virginia conference during the entire period. Elder Taylor gives a satisfactory account of his journey. He says he and his fellow missionaries were well treated by the people among whom they went, and but little of opposition was offered. The mission, he states, is in a generous condition at this time.

IN JACKSON COUNTY!

The Choir and Party Right Royally Welcomed.

TEMPLE SQUARE VISITED.

A Most Joyable Trip, with Scores and Enthusiasm Everywhere.—Back to Kansas City.

Special Dispatch to the News.

INDEPENDENCE, Mo., Sept. 1.—The Mormon party arrived at Kansas City late last evening, passed the night on the cars and at 9 o'clock this morning the train was met by a committee of Independence citizens including the mayor and city council and escorted to the famed county seat of Jackson county, where there had been a mass meeting held previously to organize committees for a suitable reception.

The whole town was in holiday attire. Fifty carriages met the party at the depot and were at once filled to overflowing. The remainder of the party walked up the slight ascent, through a beautiful shaded street to the well-remembered Temple Square, where several thousand people had congregated. President Woodruff, Cannon and Smith were escorted to the platform and here a rousing song was sung and greatly appreciated. At the invitation of Mayor Shaver the whole gathering then adjourned to the handsome gray stone chapel of the Josephites, who number about eight hundred here.

At the door of the building a cordon was overthrown. The chair is singing, the audience applauding, and cried remarks are being made by Mayor Shaver and Presidents Woodruff and Cannon. The choir was immediately applauded, especially Kenna's rendition of "On My Father."

Later the party returned to Kansas City as soon, having passed a most enjoyable but very fatal time at Independence. The welcome was very hearty. No indicate was made either on the part of visitors or citizens to the alcohol question except in the fact that today which pleasantly leads to the conclusion illustrated either "this time a friendly one." The whole party enthused over the Independence reception and almost enjoyed the lives of Indian, gathering memorabilia of the visit.

THE CHEROKEE STRIP.

Information of Interest to the Salt Lakers Going to Locate Land.—Reservations that are Withheld.

There will be a meeting at the Real Estate Exchange tomorrow night for the purpose of organizing a party of Cherokee land seekers as outlined in the News several days ago. It is expected the party will leave here on the 10th inst. to be present at the opening for location and settlement at noon on the 16th. About fifty men have already signified their intention of going and it is believed the number will be swelled to at least one hundred.

The following dispatch from Arkansas city, Kansas, will furnish valuable information to members of the party:

Yesterday U. S. Bolton telegraphed Secretary Smith asking if settlers would be allowed to make the run from the Cheyenne, Osage and Pawnee reservations. This morning he received a telegram which settles the question of points from which the run can legally be made. The Indian reservations of the Pawnee and Osage are all part of the Cherokee strip and many people had made preparations to make the run from their boundaries. The north boundary of the Osage reservation is only two miles from the county seat and land office between Perry and Wharton, and hundreds of Guthrieites intended going to Perry on the train on the morning of the opening and walking into the new county seat, claim the richest town site, arriving ahead of the horsemen from the Oklahoma line. In the same manner many intended going from Arkansas City to the Kaws, Nez Perces and Pawnee reservations and make the run to Hilton Creek, Pond Creek and other important projected town sites. The telegram received from the commissioner follows:

"President's proclamation reserves Chilocco, Osage and Pawnee reservations from lands to be opened. I have no authority to grant parties permission to go thereon."

This is a great disappointment to many schemers, who wanted to be in Oklahoma in their method of entry as they honestly could. The greater part of the boomers are unsophisticated people, who know of no means of entry except to make a run in the old-fashioned way, and pitted against them in the race for the best portions of the strip are a large body of schemers who are "on to" every advantage to be gained by any interpretation of the proclamation or of the rules of the interior department. There are a number of other points yet to be settled by the department before it will be in the home-seeker's fair chance to get a home.

Captain Johnson, commanding troop A, Third cavalry, who has been stationed here for several weeks, received orders to proceed at once to the land office near Perry, and broke camp here this morning. One troop of the Fifth cavalry left Fort Reno yesterday for Pond Creek on the Rock Island. Other troops are expected here within a day or two to take the place of troop A.

Mayor Newman has received a letter from S. F. Spencer, of Salt Lake City, stating he is going to bring a large party of settlers with him to the opening from Utah point. He says there will be a large number of people from Utah and Colorado to settle in the strip.

The Salt Lake News and *Mining Journal* ceased issue last evening as a daily and will appear as a weekly sheet.
