POLITICAL MATTERS.

Democratic Judicial Committee Issues an Address to Voters.

WEBER COUNTY REPUBLICANS.

The Big Parade on Saturday Night—Democratic City Convention Called For October 14.

The Democratic judicial district committee, consisting of Judge C. C. Bird, Judge H. Merle, J. C. De La Mare, John R. Boyden, Heber Bennion and R. W. Darke, issued an address to the voters of this district today.

In it they define the district as embraced in the counties of Salt Lake, Summit and Tooele, describe its commercial, financial and mining interests, declare that "it contains exclusive of mines about one half of the wealth of the state and one-third of the population of Utah and that its courts will determine more than one half of the litigation of the forthcoming State."

One reason for issuing the address is that rumors have come both from within and without the ranks of the Democratic party to the effect that unless a candidate of its judicial nomination from this district would not accept the honor conferred upon them. And in order that all doubt on this point may be effectually settled in the contrary, letters of unqualified acceptance are thrown from each of the three gentlemen—Agnew, Hiles, A. J. Howe—all and behind Young—are appended to the address, which refers to them as established, "recommended solely by reason of their special fitness, long experience and superior qualifications for the high trust imposed upon them."

WEST CACHE REPUBLICANS.

The permanent officers elected by the Republican county convention yesterday were as follows: Seth L. Hubbard, Provo, president; John H. Blunder, American Fork, secretary; Lillie Morgan, Spring Ville, and Mrs. Melvina J. Brown, Lehi, assistant secretaries; F. C. Gillespie, Springville, reporting; Herman Shaw, Provo, sergeant-at-arms. The following candidates were nominated: For State senator, J. E. Booth, of Provo, and T. R. Cutler, of Lehi; for representatives, James T. Thorne, of Provo, and Hyrum C. Graham, of Springville; Grant G. Simons, of Provo, and John C. Graham, of Provo, for county superintendent of schools, George H. Brimhall, of Provo. A county central committee, consisting of one lady and one gentleman from each precinct, was elected. John A. Graham and R. Robinson were retained as president and secretary respectively, to continue till January 1st, when new officers will be elected, the object being not to change officers during the campaign.

In the evening a rally was held in the opera house, attended by a large and enthusiastic audience. The house was filled to its utmost capacity, many remaining standing during almost the entire meeting. The speakers were James Chipman, Heber M. Wells, Frank J. Cannon, Clarence E. Allen, Rev. E. Rich and J. E. Booth. The Provo quartette furnished music for the occasion which was highly appreciated, each number being encored.

FOR CHARITY.

Glasses Will Evaporate Tonight Under Newspaper Direction.

After last night's exhibition, Prof. Gleason, the horse trainer, announced that the show would be repeated for tonight would not take place unless he could get some gentlemen in the audience to guarantee the presence at the ring of some spirited horses—animals that would give him a chance to show the extent of his powers over wild untame. Immediately several gentlemen spoke up and offered to furnish some of the most vicious beasts in the land for exhibition, and in a few minutes, a sufficient number were received to appear tonight. The gentlemen then announced that his services would be given free and the proceeds of the exhibition should go to some charitable purpose, the News, the Herald and the Tribune to name the institution to which the money was to be donated. The News names George Carpenter, the Herald, H. G. Tarpey, and the Tribune, E. G. Traughber as their representative.

Last night's exhibition included the handling of the outlaw Denny Ryan. The professor successfully broke him of a bad habit of biting and had the most unruly animal under the most absolute control. The horses for tonight are guaranteed to be ungovernable and the horse trainer will be given an opportunity to show his skill.

IN FALL MONTHS

Neuralgia, Rheumatism, Can Now BeCured.

Old Time Obstinate Diseases are Easily Curable.

PAINE'S CELERY COMPOUND IS THE GREAT SPECIFIC!

It Restores the Neglected, Enfeebled Nerve Parts.

It Replaces Worn-out Tissue With New, Vigorous Ones

Paine's celery compound is the old approved remedy for rheumatism and nervous ailments that is every day accomplishing all that physicians claim for it.

Both these and other chronic diseases are being speedily and permanently cured by Prof. Edward E. Phelps' great prescription.

Neuralgia and rheumatism are mostly cases for a certain remedy, one of the nervous tissue. As to its cause are, they do not much differ from nervous debility, headaches, dyspepsia and sleeplessness.

The demand is the same in every case, a nervous exertion, a tonic of the and sufficiency for a nervous exertion and weak digestion. The cure for all these is likely to be the same thing, namely, Paine's celery compound, the success to their actual condition with Paine's celery compound.

It is the service of the other physicians everywhere.

As soon as all the nutritive nerve centers and fibers have been made strong and sound, not only rheumatism and neuralgia, but low spirits, kidney troubles, constipation, liver and bowel complaints cease without a thought, and the cure that their presence was not all a manifestation.

Paine's celery compound can be counted on to do its work in a simple, straightforward way. It was at first thought to be a tonic, but it is not a tonic, it is a nerve food, the blood, and building up the body for a fight against disease.

Now spirits seize their power when the system feels the necessity of receiving the nerve food, and it is only taking Paine's celery compound. The rapid gain in weight that follows is one of a reasonable indication of the strengthening processes that are going on among the vital organs.

Many men and women who recommend Paine's celery compound do so in what, to others, may sometimes seem extravagant words. But Paine's celery compound has made them well!
