MINING, BUSINESS AND STOCKS

LION HILL MINE IS NOW LISTED

Consolidated Properties Have Stock Added to Mining Echange List.

TREASURY IS IN GOOD SHAPE.

Takes in Old Claims of Northern Light, Chloride Point, and Columbia Properties at Ophir.

With the listing of the Lion Hill Consolidated Mining and Milling company stock on the local mining exchange today, the first authentic information relative to the property was given. The figures given by the company in its application for listing show some interesting features. The consolidated properties are incorporated for $1,000,000 with shares at $1 each. Of this amount 525,000 shares were placed in the treasury and only 46,000 shares have been sold. At present the company has $2,400 cash on hand. Its indebtedness amounts to $20,000, due in two years and four months.

The property is located in the Ophir mining district, on Lion Hill, in Tooele county. The property consists of 40 claims, covering approximately 500 acres. Fourteen of the claims are patented. The claims taken in under the consolidation are the Northern Light group of 12 claims, the Chloride Point group of 16 claims and the Columbia group of five claims. There are no bonds or claims against the property and no litigation. The amount of work done amounts to 40,000 feet of shafts, tunnels, winzes, raises and crosscuts.

At present seven men are employed on the property under Manager St. Clair. The properties have shipped ore for the past 26 years and have produced $2,000,000 in lead, silver and gold.

HAS GOOD EQUIPMENT.

The property is fairly well equipped with a boarding house, ore houses, blacksmith shop and all the necessary mine tools. The property is three miles from a railroad.

At present the company has in sight about 5,000 tons of high grade stoping ore and low grade milling ore. The last shipment made from the property was 17½ tons shipping on Dec. 21, 1908, which netted the company $1,745.

The president of the company is E. W. Clark and Edward Home is the secretary. The treasurer is the Salt Lake Security and Trust company.

STOCKS ARE MUCH SLOWER.

Only Few Securities Attract Attention On Local Mining Exchange.

Stocks had a bad day on the local exchange today. Buyers were scarce and sellers were equally scarce. The volume of business dropped pitifully low at the morning session and only 63,585 shares changed hands and the amount of each represented was $75,611.85.

Ohio Copper attracted more attention than usual and climbed up from $7.35 to $7.45 at the close and was selling strong at that price. There seems to be considerable speculation in this stock and only one cash sale of this security was made on the regular board. Iron Blossom was weak today and Colorado showed but slight change. East Tintic Development showed a little spurt of activity and sold slightly higher. Tintic Central was weak but showed some signs of moving higher.

On the curb market but two stocks made their appearance. A bid of 32½ cents was made for Bingham Central Standard and East Tintic Gold King received a bid of 1½ cent.

DISCOVER LARGE BODY OF IRON ORE

Former Salt Laker is One of Original Owners of Immense Deposits.

IS EASILY BESSEMERIZED

Body Extends for Miles and Varies in Width from 500 to 100 Feet.

What may prove to be one of the greatest and most valuable discoveries in the western metalliferous field has just come to light through a communication received in this city today, relative to an immense deposit of iron ore in a territory tributary to this section. The letter says: "An immense deposit of iron ore has been discovered in the Fort Sage range of mountains near the California-Nevada line, within about four miles of the Western Pacific railroad. The iron has been tested by experts and found to be of superior quality for the manufacture of Bessemer iron, containing 68 per cent iron, 1 per cent silica and 7-1000 of 1 per cent of phosphorous, with no sulphur.

The deposit is in the shape of a dyke 400 to 1,000 feet wide, which has been located for a distance of five miles. Electric power may be generated on the Feather river within 30 miles, and with the electric smelting of iron ore a demonstrative success, western Nevada may soon become an iron manufacturing district. The principal owners of the deposit are W. H. Paul of Salt Lake City, John S. Phillips and Orlando McNabb, Nevada mining men. Since the iron mines of Michigan, Minnesota and Wyoming are rapidly becoming exhausted, this discovery is one of great importance."

OPENS NEW FIELDS.

Mr. Paul was formerly claim agent of the Denver & Rio Grande. Since the Colorado Fuel & Iron company gobbled up the southern Utah mines and shut them out of the market, it was supposed here that this cornerer the entire western iron ore production for the benefit of the Colorado monopoly. But the opening up of this new source of supply of raw material, leads to the hope that the ore may be brought to this city for smelting and manufacturing, or smelted at the mines and the pig iron shipped to Salt Lake for manufacturing. Such an opportunity would enable Salt Lake founders and manufacturers to turn out structural steel here of all kinds and thus obviate the necessity for building interests here sending to Pueblo or far eastern manufacturing points for material and paying heavy freight rates on the same.

BIG DEAL PENDING.

A deal whereby all the treasury stock of the Bingham Amalgamated Copper company is to be sold is now pending and will probably go through, declares one of the officials of the company. This property has been on the verge of being sold a number of times, but at present it is believed that the deal pending will go through. The company is incorporated for $1,000,000 with shares at $1 each. The deal contemplates the sale of the 220,000 shares of treasury stock at something between 30 and 35 cents.

The property consists of 26 claims in Bingham canyon. The property has shipped some ore and is fairly well advanced in the prospective stage.

The Sightly Places

Gradually come into their own. It is natural for the early settler to locate in the places where water and grass and shade are nearby. But later the higher and more sightly lands are sought. That is why the finest residences gravitate to our benches. The Northeast Bench is closely built. The East Bench is fast being occupied. And prices of desirable property in both places are up and will go still higher.

For those who wish such sightly lots at BOTTOM PRICES there remains the south East Bench—the fairest of all the table lands.

We will have something to offer you there in a few days. And the prices and terms will be of the best.

KNIGHT COMPANIES REPORT.

The Knight interests have issued the following statement relative to the condition of the various companies in which they own the control. The report up to March 1, is as follows:

Colorado—Cash on hand, $108,724.55. A dividend of 8 cents a share, payable March 20, and books closing March 15.

Iron Blossom—Accounts payable, $21,-282.87; treasury stock, 100,000 shares. A stock dividend of 90,000 shares has been posted, distribution taking place March 1.

Beck Tunnel—Accounts payable, $47,-525.56.

Crown Point—Cash on hand, $12,-308.68; treasury stock, 122,000 shares.

East Tintic Con.—$2,632.99; treasury stock, 113,000 shares.

Indian Queen—$2,150.05 cash on hand.

Uintah Treasure Hill—Cash on hand, $2,727.20.

Ibex Gold Mining company—Accounts payable, $5,348.64; treasury stock, 53,-050 shares.

Mountain Lake— Cash on hand $4,936.66; treasury stock, 114,429 shares.

King David — Accounts payable, $4,436.47; treasury stock, 248,307 shares.

Mineral Flat—Accounts payable, $12,-544.75. An assessment of 1 cent a share has been levied on this stock becoming delinquent April 14.

Plutus—Accounts payable, $1,373.97.

Opex Con.—Cash on hand, $14,817.48.

Black Jack—Accounts payable, $42,-737.75. The increase in the accounts payable in this property was caused through purchase of the Elgin Amended group and the Ajax-Mammoth Extension. These expenditures were made necessary in order that the Black Jack company might have the title to this ground perfected. An assessment of 1 cent a share has been levied, to become delinquent April 15.

ORDERING NEW MACHINERY.

Ohio Copper is Preparing to Open Mill and Mine in Few Months.

General Manager Colin McIntosh of the Ohio Copper company is busy preparing plans, specifications and estimates for the additional machinery to complete the Ohio Copper company mill at Dalton & Larkin. The orders for the machinery will be rushed through in order to have the mill ready at the earliest possible date. Most of the machinery is now on the ground and is being installed as fast as it can be taken care of. It is estimated that it will take between three and four months to complete the mill. When completed it will handle in the neighborhood of 2,500 tons a day. That will only be half of the mills as it is the intention to have the capacity double this amount.

Work in the mine will be pushed at the same time. The levels have yet to be run out and connected up and the crosscuts run to make up the system of caving that will be used in the mine. Ore bins will have to be built and other work finished which will keep production back for from three to four months. At the same time considerable ore will be taken out in performing this work.

DECLARES USUAL DIVIDEND.

The Utah Consolidated Mining company today declared its usual dividend. James A. Pollock & Co., received the following message over its private wire from Boston this morning:

Utah Consolidated Mining company declared its usual quarterly dividend of 50 cents a share, payable April 15 on stock of record March 30. Books close for dividend and close also for annual meeting of company, which is to be held April 20 at 3 p. m. and re-open April 21.

SILVER KING DIVIDEND.

At a meeting of the directors of the Silver King Coalition Mines company scheduled for this afternoon, a dividend of 15 cents a share, will undoubtedly be posted. This is the usual quarterly dividend and means the distribution of $187,500. For some time it has been rumored that the quarterly dividend was shortly to be declared, but it was only this morning that the date was definitely set.

President David Keith and General Manager Thomas Kearns are here to attend the meeting. Whether there will be anything besides the usual routine of business transacted at the meeting was not made known today.

CONCENTRATES.

A. W. Scott, president of the Scott Mines company, has returned from a trip to the new camp of Bouse, Arizona.

On account of the lack of water, through the freezing up of the lakes above Bonanza flat, the milling plant of the Daly West Mining company at Park City has been closed down.

According to Lew Humphries, consulting engineer for the Copper Mines company and the Cumberland Ely company at Ely, the month of March will show a production of 2,500,000 pounds of copper from that district.

G. O. Bradley, general manager of the Pittsburg Silver Peak Mining company, operating a low grade gold mine at Silver Peak, was in the city yesterday, accompanied by William Flinn of Pittsburg, one of the heavy stockholders of the company.

Llewelyn Humphries, consulting engineer for the Mason Valley company at Yerington, has just returned. He declares that the company has secured options that will give it plenty of water and a 1,500 acre site for the smelter. Work has already been started on the smelter site.

It is understood that all the details for the building of the new road to the Deep Creek mines have been finished and that the building of the road will be but a matter of a short time. It is understood that the owners of the mines interested have agreed to put up 10 per cent of the required money.

Snow, Edwards & Co., and Clark Whitney have taken over from J. B. Wheeler and associates of Pioche, a group of five claims laying midway between the Mendha mine and Manhattan property of the Nevada-Utah. The property will be incorporated under the name of the West Mendha Pioche Mining company.

TODAY'S MONEY MARKET.

New York, March 12—Close: Prime mercantile paper, 3¼@4 per cent.

Sterling exchange steady with actual busines in bankers' bills at 4.86@4.86.10 for 60 day bills and at 4.88.10 for demand.

Commercial bills, 4.85⅝@⅞.

Bar silver, 50⅛.

Mexican dollars, 44 cents.

Government bonds easy; railroad bonds steady.

Money on call easy 1¾@2 per cent; ruling rate and closing bid 1¾@, offered at 2.

Time loans dull and slightly firmer; 60 day, 2½ per cent; 90 days 2½@⅝; six months 3.

MARKET STILL LACKS DEFINITENESS

New York, March 12.—The opening stock market today showed no decided tone. Dealings were too small to cause any large changes. Illinois Central preferred declined 1¾ and Great Northern Ore Certificates 1. Elsewhere there was little change of consequence, but the tone was perceptibly firmer until Erie began to react when the active list yielded in sympathy. Rocking Coal and Erie rose 1⅝, and the first preferred, Bethlehem Steel and American Malting preferred 1. United States Reduction broke 3 points.

Reading rose 1⅝ following reports of a threatened break in the coal wage conference. The whole market hardened moderately. American Malting preferred gained 2⅝, Louisville & Nashville and Tennessee Copper 1⅝. Atlantic Coast Line 1½ and Union Pacific, Norfolk & Western, Erie second preferred, Wisconsin Central, National Lead and Pacific Mail 1. International pump and Detroit United Railway declined 1.

Bonds were steady.

The demand of the forenoon was not continued, the market falling into stagnation again.

Prices, however, were maintained.

There was very little stock offered at current prices despite the lack of demand and buyers had to advance bids to get stock. This resulted in Reading getting up 2⅝, Atlantic Coast Line 2, American Ice 1⅝, Union Pacific 1⅝ and New York Central and National Biscuit 1. Third Avenue fell 1⅝.

The market closed heavy and lifeless. There was a rise in Colorado Southern first preferred of 2, and the second preferred, of 1⅝. The general tendency of prices was to droop. Western Maryland lost 1.

LIVESTOCK.

CHICAGO.

Chicago, March 12.—Cattle—Receipts, estimated at 2,000; market steady. Beeves, 4.90@7.20; Texas steers, 4.50@5.40; western steers, 4.90@5.60; stockers and feeders, 3.50@5.50; cows and heifers, 1.90@5.75; calves, 6.00@8.50.
