TELEGRAPHIC.

A BLOODY TRAGEDY.

Two Young Ladies Assassinated by Their Cousin.

REJECTED LOVE AND VENGEANCE.

The Murderer Captured and Placed in Jail After Wounding a Citizen With a Knife.

ATLANTA, Ga., June 24.—Lillie and Laura Moore, sisters, daughters of a farmer in the mountains of Rabun county, Georgia, were killed yesterday by their cousin, Seymour Keener. Four years ago Keener fell in love with his cousin, Lillie Myers. The girl spurned Keener's advances. For two years he endeavored to pay her attention, but finally she made him desist. Ever since he has been threatening her life.

Yesterday afternoon the two sisters, two young ladies of 19 and 17 respectively, started from their home in Tallulah valley, to visit a neighbor living a few miles away. They drove past Keener's house going and Seymour saw them. Shortly after he jailed two pistols, took Zoe which he fell in the house, made his little sisters guilty and started off.

Halfway between his own house and that of the neighbor whom his sisters were visiting, Keener hid in the bushes by the mountain road. In the course of an hour the young ladies approached, returning to their home. Seymour fired out upon them with his revolvers drawn. Miss Laura, observing her sister's danger, rushed between her and Keener. She pleaded for her sister's life and, throwing her arms around Lillie's body, declared that she would die before Lillie should be harmed.

Keener tried to tear Laura away, but failing in this placed the muzzle of a pistol to the brave girl's head and shot her dead. Then he turned his weapon on the older sister, Lillie, and fired several bullets into her body. The firing attracted the attention of persons living near. They soon found the ladies and parents was quickly notified. Keener was soon overtaken. His carbines were confiscated, but he fought with a knife and cut James Dickerson seriously. Keener says that twice Laura by accident. He is now in jail at Clayton, in the heart of the mountains of Rabun county.

Gresham's Will.

CHICAGO, June 24.—The will of General Walter Q. Gresham, late secretary of state, was admitted to probate today by Judge Kohlsaat. Mrs. Gresham appeared in court, accompanied by her son, Otto Gresham, Judge Henry W. Blodgett and George E. Kemp of the United States circuit court, the witnesses to the will were also present.

The will is very simple. It is written in Judge Gresham's own handwriting upon one sheet of paper, and dated December 18, 1893. It is as follows:

"I, Walter Q. Gresham, do hereby make this my last will and testament.

"I give, devise and bequeath to my wife, Matilda Gresham, all my estate, property and effects, real and personal, of every kind and description, and wherever situated, to have and hold absolutely. I appoint my wife sole executrix.

"Witness my hand this 18th day of December, 1893."

The schedule of property owned by General Gresham shows that he was worth $51,000 at the time of his death.

Fitzsimmons's Trial.

SYRACUSE, N. Y., June 24.—Bob Fitzsimmons appeared in the court of sessions today to answer to the indictment charging him with the killing of Con Riordan, the sparring partner, in the course of an exhibition given in this city last winter.

At 3 o'clock but four jurors had been selected. When court adjourned tonight nine jurors had been accepted, subject to peremptory challenge. One of the attorneys in the case expressed an opinion after court adjourned that only two of these would finally be accepted. It was learned tonight that the prosecution intended to show that Fitzsimmons struck a malicious blow and a knockout to teach Riordan that he should not become intoxicated, as he was on the night the fatality occurred.

Anarchist Soldiers Shot.

LINZ, Austria, June 24.—A court martial was held at Przemysl, Galicia, which tried twenty-six hussars for the murder of a sergeant. Three non-commissioned officers and ten privates, who were chosen by lot to do the deed, were sentenced to death and the remainder to imprisonment for life. The condemned men have already been shot.

What makes the food so delicious? Dr. Price's Cream Baking Powder, the best of leavening agents.

Good Opinion of Salisbury.

LOUISVILLE, Ky., June 24.—Hon. James H. McCreary, chairman of the house committee on foreign affairs, is in this city to attend the Democratic state convention, and is running against Senator Blackburn for chairman of the committee on resolutions. Mr. McCreary was a member of the international monetary conference which met at Brussels in 1892.

When seen today by a representative of the Associated Press, Mr. McCreary stated that his experiences with the English members of that conference gives him assurance that the advent of the Salisbury ministry will be in the interest of bimetallism, as Lord Salisbury, Balfour and others are more favorable than Rosebery and his associates were for such a conference. Mr. McCreary said he was more hopeful now for such international action as would settle the ratio between the metals.

Mr. McCreary regarded Salisbury as better equipped every way than Rosebery for a more liberal and more enlightened policy, which would extend to Nicaragua, Venezuela and other American countries in which the United States are interested. He thought England was paying very little attention to Hawaii, and the United States were paying entirely too much attention to those little islands. Mr. McCreary said he was strongly opposed to any subsidy for a cable from San Francisco to Honolulu. There were fourteen submarine telegraphic lines in operation, and all one been built by private capital. If any such enterprises were needed the capital would be found for them.

Columbia Won the Race.

POUGHKEEPSIE, N. Y., June 24.—The Seventy-second Hudson river regatta (Poughkeepsie) has been called an interesting one owing to the expected which was won straight by Columbia's eight over those of Cornell and Pennsylvania. Cornell was beaten by about six lengths. While the race was being won, Pennsylvania remained within three-quarters of a mile of the finish, where, sitting in their shell water deep in the water, they were waiting to be picked up by an approaching tug.

The Jonathan Bell Case.

DETROIT, June 24.—Dr. Dennis J. Scanlan was put on trial in the coroner's court this afternoon. He is charged with committing a criminal operation on Emily Hall, January 25th last, from the effects of which she died Saturday 3d. The specific charge is manslaughter.

This is the case in which such sensational disclosures were made against the Rev. Jonathan Bell of Bloomfield, Birmingham, England, and an account of which has appeared after the publication of the facts regarding his having brought Miss Hall to America from England and placed her in the lying-in hospital where she afterwards died.

Mrs. Alice Lane, keeper of the lying-in hospital, who was charged with the same crime as Dr. Scanlan, will be tried separately. The afternoon was occupied in securing a jury.

Chinese Ports Opened.

WASHINGTON, June 24.—Consul Jernigan at Shanghai has sent to the state department another report of the commercial advantages of the treaty between China and Japan. Former treaties contained no special nation clause, while the new treaty contains concessions unofficial to and expansive of all Asiatic commerce. The concessions to Japan have given to the world new ports and avenues of trade. Now twenty-eight ports are open, and countries who have the "favored nation" clause in their treaties have equal privileges with Japan. Japan was under restrictions as to the interior trade, which have now been removed.

Cuban Sugar Planters Relieved.

WASHINGTON, June 24.—Consul Baker, at Sagua Grand, Cuba, under date of June 12th, reports to the state department upon the sugar crop. He says:

The sugar crop of 1894-95 having been marketed, leaves no doubt of a material decrease from the yields of the previous year. This, together with the very low price realized by the planters, for the advance came too late to benefit the producer, leaves the sugar-growers of Cuba in a most helpless condition.

The Gold Reserve.

WASHINGTON, D. C., June 24.—Although the books of the treasury department do not show it, the gold reserve is practically above the $100,000,000 mark today, for the first time since last December, when it was forced to that point as a result of an issue of gold bonds. According to the treasurer's statement today, the gold balance is $99,817,285, but this statement does not include a consignment of $1,125,000 in bar gold brought to New York by the Campania on Saturday for August Belmont & Co., on account of the government syndicate.

Precious Stones.

WASHINGTON, June 24.—The report of the geological survey on precious stones for the United States, for the calendar year 1894, compiled by Special Agent George J. Kunz, of New York, was made public today. The principal events of the year are summarized as follows:

The finding of a 17½ karat diamond at Dowsie, Michigan, developing of a new ruby mine near Franklin, N. C., finding of emeralds at Mitchell county, and near Fair's station, North Carolina.

Engine Reports of Battles.

WASHINGTON, June 24.—Minister Dupuy de Lome of Spain says that the report of the killing of Captain Campos, said to be the son of Captain General Campos, is without foundation, as is also the report coming via Tampa that a battle was fought on the 15th, in which many were killed.

"I am surprised," said he, "at the systematic manner in which the propagandists of misinformation is sent out from the centers of Cuban sympathy, Tampa, Key West, Jacksonville, Gainesville and Nassau, Bermuda. Here is a great public question on which the facts, if known, would permit the public to form their judgment. But these centers keep furnishing reports of bloody battles and the killing of generals, though no such battles or casualties occur. The reports show on their face that they have been manufactured."

SITS TO FOOL THE PUBLIC.

The condemning of alum as an unwholesome ingredient in baking powders by the government authorities as well as by physicians generally, has not deterred manufacturers of such powders from foisting them on an unsuspecting public. Following is a partial list of the alum powders found in the stores:

"Calumet," "Chicago Yeast," "Kenton," "Cream of Tartar," "Good Luck," "Tea for a One Spoon," "Climax," "Snow Puff," "Snow Ball," "Giant," "Milk," "Crown," "Unrivaled," "Silver Star," "Dove," O. K.," "Forest City," "Monarch," "R. C.," "Royal," "Makhtan," "Crystal," "Hatchet," "Home," "Eden," "Perfection," "Rocket," "Twin Tack," "Vienna," "Willie Rose," etc.

It is safe to reject all brands sold with a prize. All powders sold at twenty-five cents or less a pound are sure to be made of alum. Dr. Wiley, the Government Chemist, in his official examination of baking powders at the World's Fair, threw out all "alum powders," classing them as unwholesome.

The Manitoba Difficulty.

OTTAWA, Ont., June 24.—Excitement over the crisis concerning the settlement of the Manitoba difficulty still continues. Tomorrow Protestant ministerials will hold a concio, and will pass resolutions warning the government that Canada outside of Quebec province will not tolerate interference. Sir MacKenzie Bowell, who a few days ago promised the French conservatives that remedial legislation would be granted, believes to the contrary. There is now a plot on foot in the cabinet to compel Bowell to resign, and to place Hon. C. H. Tupper, of New Brunswick, minister of finance, in the premier's chair.

AFTER PIERRE'S FRIGATE.

Orders Issued for Another U. S. Vessel to Proceed to Cuban Waters.

NEW YORK, 25.—A special to a local paper from Washington, D. C., says:

Secretary Dupuy de Lome, the Spanish minister, was greatly pleased when he learned that orders had been issued for another vessel to sail at once for Cuban waters for the purpose of actively engaging in the business of preventing filibustering parties from leaving American waters and apprehending them, if they were successful in such attempts. The Raleigh, which was coal south two weeks ago, has left Key West and put to sea. She has been going about from one port to another, and her movements were easily traced by those interested in watching her. By going to sea she will be able to keep her movements and her whereabouts secret, and be more able to transport her present undertaking.

The administration, however, believes that the Raleigh will not be able to cope alone with the numerous and actively recently employed by those who sympathize with the insurrectionists, and orders have been issued to the Atlanta to proceed to Cuban waters. This cruiser will go at once to Hayti, which will be her ostensible destination. Her main object, however, is to keep a look-out for filibusters and overhaul all suspicious craft from the United States that enter the waters about the island of Cuba.

She will be able to sail for three weeks without a new supply of coal, so at the end of that time her bunkers will have to be replenished. When that time comes the Atlanta has orders to proceed to Santiago de Cuba for coaling. This seems to be a very good coaling station, and the appearance of the cruiser at this port, the home of the insurrectionists, is believed to be for the purpose of telling filibusters (now that the country has decided to put out a strong hand to prevent such expeditions) that the cruiser is the way of men of mountains of war. During the time the Atlanta is on sea her movements will be kept secret by the department, and such craft as may be found for the island on errands of violation of the neutrality laws will be likely to find a fleet of men-of-war to draw a full length. I would not every a word without reading. My husband induced me to try

Dr. Miles' Heart Cure

and am happy to say it has cured me. I now have a regular appetite and sleep well. His pills are very beneficial.

HEART DISEASE.

Fluttering, No Appetite, Could not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered all the time, so I could not lie on the left side and could not sleep. I would be suddenly startled up in fear and fright as if some one meant me harm. I had no appetite, was troubled with wind on my stomach, and was so nervous that I was almost a wreck. I could not walk a block without stopping to rest. I was so weak I could not do my housework. I was advised to try Dr. Miles' Heart Cure. I took two bottles and it has made me well and strong. I can now do my housework, walk two miles at a time, and I can sleep all night. I cannot say too much for Dr. Miles' Heart Cure."

MRS. ANNIE SPENCER, Ashland, Ohio.

LOOK OUT FOR BREAKERS AHEAD

when pimples, eruptions, boils, and other manifestations of impure blood appear. They warn you of foul blood. Soon pain and lost vigor follow in the train of bad conditions. They warn you what some good medicine should do. Pick out Golden Medical Discovery.

It makes healthy blood. It makes all blood healthy by invigorating the entire system. Now a word about Scrofula, or Scrofulous Humor, which, in its worst form, causes the most horrible and cruel suffering. It is an unequaled remedy.

SCROFULOUS ABSCESSES.

MRS. SPENCER.

Mrs. Hiram Spencer, of Fort Allen, Clay Co., writes: "I had had a very bad case of scrofula for years. Everything you described I had suffered with and more. I could not walk without crutches. My mother insisted that I should try your Golden Medical Discovery, with the 'Pellets,' and I am now on the second bottle, and need nothing else after I begin using your medicines."
