A ROYAL VISITOR.

Prince Francis Joseph of Battenberg and Party Here.

This morning's Union Pacific train from Ogden and the West brought in this city Prince Francis Joseph of Battenberg, accompanied by Colonel F. Townsend, of the 1st Guards, and a number of others. Arriving at the depot the party were met by Mr. Kimball, where they took breakfast, after which they proceeded to take in sights of the city. They will leave for the city until Saturday morning, when they will resume their journey eastward.

The prince and party are returning to Europe from Australia and Australian colonies. They will spend about two weeks in America, having landed at Tacoma last week. The prince is from London in the year 1862 and was born in the island of Malta, and hence is a native, where he spent his boyhood, passing many happy days in sailing about from there he went to Oxford, then to Australia and New Zealand, and thence to Honolulu and San Francisco, to the upper Harbors. The prince expects to return to his country in September to resume his travels and duties.

Prince Francis Joseph of Battenberg is a grandson of Prince Henry of Hesse-Darmstadt, who married the Princess Beatrice, the youngest daughter of Queen Victoria. He is a nephew of the Czarina of Russia. He is thirty years of age and unmarried.

Fight the Green Aphis.

SALT LAKE CITY, UTAH,
May 10, 1895.

Editor Deseret News:

I wish through the columns of your valuable paper to ask the fruit growers to examine their trees closely for a few days in certain sections that the green aphis are very numerous. They will follow the last curling and upon opening will find a number of small green insects. The only way to combat to overcome them is to use the kerosene emulsion. Any horticultural work will tell anyone how to mix that formula. Anyone who has two sufficient fruit to spare can will make a note by calling on at my office 40 city and county building.

A large percentage of our people imagine that Pain great or London purple is a panacea for all the ills their trees suffer from, but I want them to understand that neither of these will not hurt a aspectical, in which case green aphis, mealy aphis, red spider, thrips mite, etc. follow.

Respectfully,
FRED W. PECK
Entomologist.

P. S.—Deputy Inspectors will be at my office every Saturday at 2 o'clock in basement of new city and county building. The great increase of green aphis and their ravages on the peach trees and their destruction was considered last Saturday. F.

Gabriel Discharged.

James Gabriel, who was charged with wilfully refusing to deliver a house and lot, the property of the United States in the custody of the U. S. G., was called for trial in the police court this morning. The evidence went to show that it was purely a case of neglect, and the court ordered the defendant discharged.

The case of Ah Sing, the Chinaman arrested for peddling in the prohibited district, was continued for a couple of days.

W. H. Hahn forfeited $5 for violating the city ordinance.
