

## LOCAL AND OTHER MATTERS.

NEWS FROM SOUTH.—We have received the following dispatches per Deseret Telegraph Line:

ST. GEORGE, Dec. 18.  
Ten inches of snow fell at Dameron Valley, ten miles from St. George; eight inches in Grass Valley, thirty-five miles from St. George, north; and ten inches twenty miles south-west of St. George. The mountains to the north are covered with snow a few flakes fall in St. George, but not enough to measure. The thermometer stood at 27 at 9 o'clock this morning. President Young is well. The morning meeting was addressed by Elder B. Young, Jan., and this afternoon by Mr. Smith. The congregation was large and the weather fine.

ST. GEORGE, Dec. 19.  
The Salt Lake mail arrived here last evening, containing the Deseret News of the 19th and the Herald of the 11th, seven days from Salt Lake. Schedule time four and a half days. Elder Brigham Young, jun., preached in the 3rd Ward School House last night and John H. Smith in the 4th Ward School House.

THEATRICAL.—There was a pretty good house on Saturday evening to see "Americans in Paris" and "Simpson & Co.," performed by the Langrishe Troupe. Both pieces went off well. The playing of Mr. and Mrs. Langrishe was unexceptionable. A splendid bill is provided for to night. The great equestrian drama of "Lochinvar."

SABBATH MEETINGS.—Yesterday morning the time was occupied by Elder Ralph Thompson, who has just returned from a mission to England. He was followed, for a few moments, by Elder George Q. Cannon.

Elder Thompson said: Brothers and Sisters, I feel grateful for the privilege or opportunity of presenting myself before you this morning. I have been absent a short time, a few short months; I have been on a visit to my native land. It is thirty years since I first emigrated to this country, I being one of the first that embraced the gospel in Great Britain, and I think I was one of the first that emigrated to this land in the year 1840. Since that time I have associated with the Saints of God, with the exception of these few months. I was appointed to labor in that district that gave me birth. I found the Saints as a general thing poor, very poor indeed; yet notwithstanding all this I can truly say that I never went without a meal's victuals, though I never hunted at such a thing. The people in the country where I labored had not received the gospel's revelation, and I am sorry to say, although I am ashamed to do it, there is degradation, misery and prostitution, where were once happiness and prosperity. While there I went to my brother's house and bore my testimony to him; he told me that if I would stay with my family he would give me the means, and he wished me to stay with him. I replied, "I came out here to bear my testimony and it is the kingdom of God, or nothing for me." Well, this reply stopped him for a moment, but he said things were more prosperous now than they were in former days. I told him that when I lived there I could barely earn enough to keep out of debt and not a shilling to spare; while, in the valleys of the mountains, I could earn enough to keep me in good circumstances. They had a great idea of President Young. I told them that President Young was not the person he is represented to be; and gave them one anecdote in illustration, in my own experience. I was going home with some friends from a mill, and was going up a steep hill. I could hardly draw the lead. I saw President Young and Kimball coming towards me in a buggy. President Young, not knowing me at that time, said, "Brother, your load is heavy; go into that house and try to borrow a rope." I went in, but they did not have any rope. I told him and he said, "never mind, we will help you anyway, so get hold of this buggy and we will pull you." There are numerous other instances which could relate of the sympathy of President Young; one, however, I will relate concerning Brother Green, one among many others whom the President helped to Nauvoo. Brother Young said to these brethren, "I want you to repay the means to me that I have given to help you to Zion." Brother Green owned a lot on which he had built a good little house, and he also had a cow. The thought of what Bro. Young had said reminded him of his duty, and he went to the President and said: "President Young, I have a house, a lot and a cow, and if you want anything to pay what I owe you, you are welcome to it." The President replied: "Brother Green, did you say you have a house? Is it a good house?" Brother Green answered that it was good enough for him and his family. "Well then, Brother Green," said Brother Young, "keep it yourself, and when you get well enough off to pay me without distressing yourself you can do so." The President added that Bro. Green was the first man who had ever gone to him and acknowledged his indebtedness. Well, brethren and sisters, I feel to bear my testimony to the truth of the work we are engaged in, and I constantly pray that the Lord will keep us in the straight and narrow path, in the name of Jesus, Amen.

ARRIVALS AND APPOINTMENTS.—We extract the following from the *Millennial Star*, of November 29th:

Elders John I. Hart and Wm. L. Payne left Ogden Nov. 7th, and New York per steamship *Europa* Nov. 12th, arriving at Greenock Nov. 26th and Liverpool the next day. They were in good health and spirits. Elder Charles Lambert has been appointed to labor as traveling Elder in the Leeds Conference.

Elder John I. Hart has been appointed traveling Elder in the Durham and Newcastle Conference.

Elder Wm. L. Payne has been appointed traveling Elder in the Liverpool Conference.

Elder E. M. Caste left Liverpool, Nov. 24th, for Copenhagen, via Hull and Hamburg, on his mission to Sweden.

BOB-SLEDS.—We saw, to-day, some new bob-sleds, which were made at the Utah Manufacturing Company's work shops. They are constructed so as to be specially adapted for hauling ore from the mines; combining strength and durability with elegance of finish. The work turned out at the above factory reflects credit on the enterprising Superintendent, Col. J. C. Little.

A USEFUL ARTICLE.—We were shown, this morning, by Brother D. R. Huntington, a specimen of a "clothes horse." It is

so constructed that, although occupying a very limited space, it is capable of sustaining fourteen rods of clothing. When not in use, being jointed, it can be shut up into a very small compass. The article is made by Brother Huntington, at his residence, 18th Ward, where he is prepared to receive orders.

GENERAL DE TROBRIAND.—An exchange says that General De Trobriand, (Commander of the Military post at Camp Douglas,) sailed from New York on the 28th ult. It is reported that he goes direct to Brussels to participate in a meeting of the military partisans of the Orleans dynasty.

DESERET UNIVERSITY.—An examination of the Pupils of this Institution will commence at the University Rooms, (Council House) to-morrow at one p. m. and continue daily until Friday noon, the 23d inst. Besides the Chancellor and Regents, the parents of the pupils, their friends and all interested in the cause of education are cordially invited to attend. IN THE CITY.—G. B. Utter, Esq., publisher of the *Narragansett Weekly*, and *Sabbath Recorder*, Westbury, R. I., called upon us this morning. He, and his brother, chief engineer on the Hudson River Railroad, are en route to California, and are remaining a day or two at this stage of their journey to see the metropolis of Utah. Mr. Utter expresses great surprise at seeing such a complete printing establishment as the *Deseret News* so far from the Atlantic and Pacific slopes.

PUBLIC DOCUMENT.—We are indebted to E. B. Ellet, Esq., Chief of the Bureau of Statistics, Treasury Department, Washington, for the Report of the Department on Commerce and Navigation, for the eight months ending August 31st, 1870.

DIED, at Ollerton, Nottinghamshire, England, Nov. 1st, 1870, Elizabeth, wife of John Scatcherd, aged 73 years, 3 months and 9 days.—*Millennial Star*.

INFORMATION WANTED, of David Selby, who emigrated from London about twelve years since. Address, Henry Selby, Duke of Richmond, Earl's Court, Old Brompton, London.—*M.L. Star*, Nov. 29th.

THE LATE DISCOVERY OF MARBLE.—We have received the following note relating to the marble discoveries near American Fork:

"AMERICAN FORK, Dec. 17, 1870.  
EDITOR NEWS:—In your issue of the 15th, of the *Daily News*, you give information to the public that Mr. Arza Adams had discovered three varieties of marble. All you publish is correct excepting about Mr. Adams being the discoverer. Mr. Josiah Nichols and Mr. Robert Cunningham were the discoverers, and Mr. Adams has never been within five miles of it, and makes no pretensions to being the discoverer. Please publish this, and oblige.  
JOSIAH NICHOLS,  
ROBT. CUNNINGHAM."

The gentleman who informed us with regard to the discovery, as published in our issue of the 15th, gave, among a number of others, the name of Mr. Arza Adams. His name was the most prominently mentioned, hence we stated that Mr. Adams, in connection with several others had made the discovery. The names of Messrs. Nichols and Cunningham were included by our informant, but were omitted by us. We cheerfully give place to the correction sent us by those gentlemen.

IN TOWN.—Brother David P. Kimball, of Paris, Rich Co., arrived in this city Friday night. He left home Sunday 18th, and went over the mountains from Laketown to Evanston, and from the latter place by train to this city. The road he traveled is good, the snow being only six or eight inches deep. The route from Paris to this city, by the Logan road, and also by Huntsville is pretty well blocked with snow, too much so to be safe for travel. The health of the people in Bear Lake is generally good.

FOUND HANGING.—The *Helena Daily Gazette*, of the 13th inst., says the body of a Chinaman was found hanging from a tree on the side of a mountain, just south of that city, on Sunday, the 11th inst.

The body was completely dried, the skin tanned to the color of dry hide, and having the appearance of a mummy. It was thought that the deceased had been hanging from three to five months, and that he had been executed by his countrymen for some violation of their social regulations.

WINE GROWERS CONVENTION.—We received by mail this morning, a circular which contains the following notice:

"A general wine and fruit growers' convention will be held in St. George, on Thursday, December 29th, to which all interested in Wine and Fruit growing are invited. It is desired that samples of wine and fruit both fresh and cured should be present. Questions of vital importance to the fruit interests will be presented and discussed, and it is hoped a general attendance will be given.  
By order of the R. M. Pomological Society and St. George Vine Growers' Club.  
J. E. JOHNSON, President.  
M. P. ROSEMARY, Secretary."

THE CALIFORNIA HORTICULTURIST.—We have received No. 2 Vol. 1 of the "California, Horticulturist and Floral Magazine," published by T. A. Miller & Co., San Francisco. It is issued monthly at four dollars a year, and is devoted to the cultivation of trees, flowers, fruits and vegetables, and to landscape, ornamental and market gardening. The present number contains articles on the history and varieties of the rose; ornamental and landscape gardening; popular botany; the cedar, oil plant; shade trees; the sugar beet, &c., &c. It is a work, we should think, that would be useful to all interested in the various branches of horticulture.

## PARKER &amp; WATSON'S SERIES.

The lower numbers of the read 'n' series are remarkable for the "word-building system," the high order of the illustrations and the interesting but strictly progressive character of the reading lessons. The higher volumes challenge comparison in accuracy of their selection of treatises and the noble range of selection from standard literature.

The series consists of a Primer and five Readers. The fifth is universally pronounced literary gem, and by many bought to enrich their libraries.

## CLARK'S GRAMMAR

Will eventually supersede all others. No other system makes the study so pre-eminently interesting. It combines the diagram system, taught by Dr. Park at the University, and the interesting object lesson as illustrated by Miss Ida I. Cook at the Teachers' Association, Salt Lake City. It makes the study of Grammar a pleasure instead of a bore.

## DAVIES' MATHEMATICS

Are justly called the National Standard. They are used in the great National Schools at Annapolis and West Point, in the Public Schools of the National Capital, have received the qualified endorsement of the National Congress, and are sold more largely and are more popular in every section of the national boundary than any other series.
