CIRCULAR.

To all the Ladies of the Female Relief Societies in Utah.

DEARLY BELOVED SISTERS:

God through His servants, has conferred on us the right of franchise, for a wise purpose. This privilege has been granted without our solicitation; and in this, as well as in very many other respects, we realize that woman in Utah possesses advantages greatly superior to woman elsewhere.

In the States, a few women have for years been battling the usages, prejudices and policy of our nation, and have not yet succeeded in obtaining for themselves and their sisters, what has been freely conferred upon us.

Let us bear in mind that every additional right which enlarges our sphere of usefulness, brings an increase of responsibility. We are now, each and all of us, held accountable to God and our country for the wise and proper exercise of this important political function. It has not, like honorary titles, been bestowed as a compliment—a mere matter of ceremony. By the passage of the bill conferring the right of suffrage on the women of Utah, we are called upon to act; and in order to act intelligently and to the purpose, it is necessary that we understand our position and its requirements.

In no other way can we fully testify our appreciation of the magnanimity of those noble minded men who were instrumental in investing us with this high prerogative. Let us prove ourselves worthy of the trust reposed.

The right of franchise opens to us a new field of duty—one in which, as yet, we have but little experience, and we think that it would be wisdom to adopt such measures as would produce a concert of action, or at least, such as would prompt every sister to do her duty at the coming election. To this end, we would suggest to all the Presidents, officers and leading members of the Female Relief Societies throughout the Territory to take immediate action on this subject, by appointing committees whose duty shall be to visit in person every legal voter, and if need be, awaken her to the importance of the occasion; and furthermore let those committees faithfully instruct with regard to the necessity of each woman, critically examining the ticket she places in the ballot box, so as not to be imposed upon by unprincipled office-seekers. It is a notorious fact that there are those in our midst who are conniving to destroy the peace of society, and obliterate our constitutional rights—who condescend to the meanest frauds to turn the ballot in favor of heartless demagogues.

Our sisters should be well informed in these matters, that they may act in wisdom. It is well known that in previous elections, names of prominent, good men have been fraudulently inserted on tickets, as a cover, in order to palm off others who are a disgrace and a nuisance in society.

So far as is practicable, let every one be informed respecting the character of each person for whom she votes. Let every sister whose right it is to vote, be notified of the day of election; and in going to the polls, let us be so guarded as to give no occasion for reproach, but carefully observe that dignity and circumspection of deportment which become high minded, intelligent ladies, and more especially women of God.

Your sisters and fellow-laborers in the great work for the promotion of good.

REMEDY FOR BEE STING.—The following, which may be worth remembering, is from the *American Rural Home*:

"A remedy for the stings of wasps bees, etc., that often proves effectual, is simply to hold a chest key or any hollow key over the place stung, press it hard into the flesh for a minute or so, and when taken off the poison will be on the surface of the flesh and do no harm. A thimble with a tight top will do, but not quite so well."

RETURNED.—Professor Wallace returned yesterday from his trip through Cache. He says he had a pleasant time and visited every settlement in the county. The grasshoppers had done immense damage to vegetation almost over the entire valley, having destroyed the greater portion of the crops.
