TELEGRAPHIC.

TRANSVAAL RISING.

Dangers Appear for Arms to Protect Themselves.

BULWAYO SITUATION SERIOUS.

A Native Killed for Carrying Information to His Friends About the Settlers.

CAPETOWN, April 14.—News has been received here that the natives are preparing to rise along the Transvaal border. A rising in northern Transvaal itself is also reported to be imminent. There is something of a panic manifest among the burghers, who have appealed for arms with which to protect themselves. The increased spread of the disturbances along the Transvaal border makes the situation at Bulawayo and Matabele much more serious. The authorities have fed the Bulawayo men necessary aids of the food supply should hole out, but the danger has been that the Matabele would stop the wagon trains through the Matopo hills to the south, and thus prevent supplies from getting through from Mafeking.

It is believed that the white settlers outlying through Matabeleland are in great dread by the time, in boats ways or tipoys, and the natives have not least that they intend use from the native in which they are known, in such force might be danger from strange wandering bands.

Only a part of the bill relinquishing designed for Bulwayo have been received from Mafeking, the united cable available for that purpose. It takes far more hard traveling by ox wagons to reach Bulwayo from there, and it is said the journey cannot be done in that time except with very light loads. Transportation of supplies of commodities, which are not at the time in Matabeleland, now, time for the cable, and the last advices made in the situation threaten to cut off, or at least, to interrupt, communication between Bulwayo and the port source by which it can look for a transport to the border.

BULWAYO, April 14.—It has been discovered that each of the Matabele who are employed by settlers have been acting as spies and carrying information of the movements of the settlers to their friends in outlying districts. One of these informers was shot yesterday.

TILLMAN'S PITCHFORK.

Presented to Him by Admirers and Friends in Denver.

DENVER, April 14.—Senator Tillman, who arrived in Denver yesterday morning, spent most of the day with members of the Democratic committee. Tonight he was tendered a reception at the Brown Palace hotel. After being welcomed by Mayor McMorrey he was presented with a pitchfork made from gold and silver taken from the mines of Colorado.

Hon. E. B. Hogan, who made the presentation speech, said: "Take this pitchfork to the United States Senate and dig up the corpse of Senator Hackman and then dig down into the history of John G. Carlisle." The reference was received with great enthusiasm and applause by the large assemblage that had gathered to welcome the honorable from South Carolina.

Mr. Tillman concluded his address by stating he believed, as did I, one is that you stand by South Carolina."

After the senator and Mrs. Tillman were long calls for Hon. T. M. Patterson, who addressed the assemblage briefly.

After the speech-making Senator Tillman shook hands with several thousand people. The principal speech he will make this evening at the Broadway theatre.

NEW CUBAN CONSUL.

His Appointment a Time Stroke at Molonoy.

NEW YORK, April 14.—A special to the World from Havana says: At the palace the doings of the coming of Gen. Fitzhugh Lee, as consul general, were received with marked favor. Advices had already reached here from good authority in the United States as the subject. The general belief in official circles is that the appointment of an distinguished a soldier means more than a filling of a consulate. It has been understood here that President Cleveland has commended the subject of a commander, but that he has not publicly mentioned the matter, the understanding being that, regardless of how the Spanish government might view the subject, it would not be agreeable to the American people. President Cleveland has avoided the unpleasant question in a successful and diplomatic manner by selecting a little-tried and popular soldier, which as Lee is known to be, and sending him to Havana under circumstances that cannot effect public resentiblies.

The Troubles at Phoenix, Arizona.

DENVER, Colo., April 14.—A special to the Republican from Phoenix, Ariz., says:

There is a strong probability that two companies will go to St. Louis from Arizona. The trouble has in Phoenix and in the country, Maricopa. The national Republican convention, April 21st, will be composed of eighty delegates. Twenty-seven will come from Phoenix, and in the opinion of those, the largest block of votes, the fight has become hotter and has extended to several other counties, and in various places both Republicans organized and contending delegations will Rio over a majority of the seats. The trouble is over McKinley. A few weeks ago the Pilots had led supporters in this territory, but recent successes have brought him many friends.

San Francisco Republicans.

SAN FRANCISCO, April 14.—The letters from the regular Republican organization to the Fourth congressional district, issued at the Republican congressional convention, call upon voters for the election of delegates to the Republican state convention. The delegates elected are pledged to McKinley.

The committee recognized by the Republican state central committee in this city, and by the Republicans, who are at odds with the regular organization, are to meet to elect delegates to Atlanta.

The Armed Industry Bill.

WASHINGTON, April 14.—The subcommittee on agriculture today authorized Senator Warren to make a favorable report upon the armed industry bill. The bill as reconstituted of the existing laws leaving upon the subject of armed and meat inspection, with numerous important additions. Among the additions are provisions calling the inspection of meat products and live stock, the extirpation of contagious and infectious diseases and the regulation and transportation of live stock, and the prevention of the adulteration of imposition of diseased meat, or the cruel usage of the horses of animal industry.

CONFIRMATION OF THE CZAR.

The United States Naval Representative Has.

WASHINGTON, April 14.—The United States navy will be represented at the ceremonies attending the coronation of the czar of the little seven-masted Minneapolis, the cruiser Scott, is the navy. The vessel has been docked and put in order at the Big Bonne navy yard at Toledo, and the waiting orders from that place for Vapiro. At the same time the President, Admiral Selfridge's flagship anchored from the Phoenix of Naples and the vessels will meet there. The admiral will hoist his flag on the Minneapolis.

Allen for President.

OMAHA, Neb., April 14.—Nebraska Populists to the number of several hundred met in Omaha today and formed an organization looking to the promotion of the interests of Senator W. A. Allen to the presidential campaign. It is proposed to send a Nebraska delegation to St. Louis instructed for him, if possible. The probability is that the delegation will receive no opposition votes from Senator Allen himself, who has already announced that he was better that he would afford to be a candidate.

BLAND ENDORSED.

He Consents to Become a Candidate for the Presidency.

ST. LOUIS, April 14.—A Republican special from Dallas, Mo., says: At a late hour tonight friends of ex-Congressman Richard P. Bland decided to offer a resolution tomorrow instructing the delegates to the Democratic convention for the presidency. J. W. Ferris, the state central committeeman from Mr. Bland's county, and his closest political adviser, authorized the publication of the following:

"Mr. Bland is not a candidate, and does not ask the indorsement of this or any other state for the presidency. But if the Democratic convention of Missouri should see fit to do him the honor, it is a compliment that any man should be proud of. If they have given expression to the Chicago convention, Mr. Bland would not decline the nomination if it were tendered to him. He would, however, be unable to make the fight for the presidency, without being regarded as an applicant for office."

Congressman Bland's candidacy for the Presidency has been quietly watched among the delegates, and friend, who is now, is sure to be carried to home. He is said, however, not to have any instructions for himself, but to be in the state he has expressed his preference for a different slate of laws for the presidential nomination. But nothing definite in the shape of a formal instruction is known.

The committee decides to hold the state convention in Sedalia also Bland at Jefferson City on August 5th.

SEDALIA, Mo., April 14.—After informal conference, ex-Congressman R. P. Bland issued a statement tonight that he would be a candidate for the Presidential nomination. The Sedalia Democratic Bland will be instructed at Saturday's state convention, but Congressman Bland will make a speech and vote the delegation to adopt the Sedalia resolution.

Cuban Troops Defeated.

HAVANA, April 14.—The columns of the insurgents in Guantanamo, Vuelta, Lavakarta and Cin. Dental, have been defeated by the Alfonso XIII battalion, all Maceo at the capture of Pinar del Rio, by the Spanish troops. The military has taken the province of Pinar del Rio, by the Spanish troops. The Alfonso XIII battalion, the insurgent vanguard, consisting of 200 cavalry. The latter retreated and were followed by the troops. Suddenly the insurgents appeared on the neighboring heights, but were driven from them by the bands. Near Lonsdale a battle ensued and insurgents essential to surrender the Alfonso XIII battalion, and the latter was compelled to retreat. The insurgent loss is not known, but it is reported that the insurgents lost more than the regulars, in the hours they opened the meeting times at Sabi Lonsdale, and another Independent with the winner the promotion of the history.

GAS OR INSANE?

A Man Kills His Family and Himself in Two Hours from Work.

CHICAGO, April 14.—Upon leaving home one hour ago that his family would suffer from Gas, John Lehman this evening shot and killed his three children. After committing this act he went to his place of employment and worked his 10 hours, returning to his home in the evening, and killed himself. It is said he was discharged yesterday and was in the habit of coming home drunk and abusive to his family. Lehman has been in the employ of the West Chicago street railway company, and during the present year he has been employed as a driver on the Chicago avenue line. Lehman had varied jobs. The money is supposed to be the family funds. The family have lived comfortably and seemed for nothing. Notwithstanding that fact, Lehman worked a grievance. He had a row last night on his wife, in which he was drunk and the family would become separated on charity.

SPAIN'S POLICY.

The Ultimate Claim of the Spanish at the Present.

NEW YORK, April 14.—A special to the World from Madrid says: The Spaniards are in much anger and indignant that the rebels have captured Gen. Pilsugh Lee as second general to Havana.

At Inquisitor alone, in a telegram from Washington, challenges calculating of the situation of such a representative by President Cleveland. Spanish Spaniards that there will be no ultimate claim of the Spanish government, unless the Spanish minister at Washington Boss (Spain) is asked to act independently. The colonial authorities in Cuba will also afford General Lee all the facilities in early greeting to his foreign, come within customary limits of land supplies and duties. General Weyler alone can determine how far the new American consul general may be allowed to go over Cuba or report on the situation. In any event General Lee will probably not be allowed to visit the captured Maceo. His predecessor, Consul Williams, has been often unfairly criticised in the Madrid press for having assisted the Bethelites of the American government to claim immunities for American citizens and to have them set aside in favor of the insurgents. It was, it is said, freely stipulated that Americans should never be tried by court martials but always by the civil courts with the assistance of civil counsel, even for alleged conspiracy in the present war. Many Madrid papers asked that the Cuban and Puerto Rico elections be suspended, but the government is not in the least likely to listen to it.

The liberals and republicans and the industrial press again deny that President Cleveland offered Cuba any aid, or, by sale or otherwise, to cause the Spanish government about Cuba.
