TELEGRAPHIC.

CHINA AND MEXICO.

A Treaty Recently Prepared Between the Two Countries.

CELESTIALS FIND AN ASYLUM.

They May Become Citizens and are Promised All the Privileges of Naturalized Strangers.

SAN FRANCISCO, June 15. — Lai Tong Yew, the consul general of this city, is in receipt from the Tsung Li Yamen, the foreign office of the emperor of China, a copy of his appointment as ambassador, with full powers to notify the treaty between China and the United Mexican states. Upon the arrival of a representative of the Chinese minister, Tung Yue, who is to accompany the party, the embassador and his suite will proceed to Mexico. This is expected to occur during the next day. The treaty in question was prepared by a San Francisco lawyer and has already been submitted to both parties.

It is now certain that the ratification of the treaty by both nations is only a matter of form, and within a short time it will be in full force and effect.

It is understood that Lai Tong Yew, who will negotiate the treaty, with, upon its ratification, receive his appointment of Minister to Mexico, and will at once enter upon the duties of his office, making his headquarters at the Mexican capital. It was for this purpose that he has remained in this city since the arrival of his successor, Chuang, the present consul general at this port.

The treaty provides that the Chinese subjects of Mexico shall have the right of becoming naturalized citizens, with all the rights which belong to the native citizens.

There will be no laws of registration or exclusion of Chinese laborers, but on the contrary the doors will be opened wide open and a cordial welcome extended to the Mongolians to come and go as their business or pleasure may require.

In all matters of commerce the Chinese will be permitted to enjoy the same privileges granted to all other foreign nations, in fact in all things they are to be treated alike. For the return of all these favors to be enjoyed by the Chinese who settle in Mexico the Chinese government will extend the same privileges and courtesies to the citizens of Mexico who may go to Chinese or engage in commerce in that country. The treaty is liberal in every respect and no favored nation could ask for more.

It is reported that the adoption of the treaty will result in a large exodus from San Francisco's Chinatown to Mexico and that Chinese of this city are preparing to take advantage of their opportunities to Mexico. There sails of an Asiatic steamship line from Mexico.

FOR THE FLOODED DISTRICT.

Indignation Over the Furious Exaggerated Reports.

VANCOUVER, B. C., June 15.—The indignation over the exaggerated reports sent out concerning the floods is very great. A deputation of leading citizens has requested Mayor Andersen to prosecute the persons who sent out these reports and also some provincial newspapers publishing sensational and unfounded opinions. One correspondent is already being prosecuted by the Canadian Pacific railway for sending out false reports of the wreck of a Raymond excursion party.

Reports from the interior state that the river is still falling rapidly. At New Westminster the mills are now able to resume operations though the lower portion of the city is not entirely free from water. It is reported that the Fraser makes some considerable changes in its course. Soundings will have to be carefully taken all along the river. At Chilliwack, the water has fallen four feet. Farmers will soon be able to take stock and estimate losses.

The freshet has washed away a large amount of land at the mouth of the river. Lulu Island is washing fast. On Sunday the Fraser river fishery gave home took a slide into the river and sailed into the gulf of Georgia. Wednesday morning part of the cannery went, and a large number of cans and salmon boxes were lost.

Today the Great Northern will resume regular service between South Westminster and Seattle. The Canadian Pacific will dispatch a train tomorrow at 5 o'clock.

Wind Populists Demand.

MITCHELL, S. D., June 14.—The Populist convention closed its session today. The ticket nominated is as follows:

Governor, Isaac Howe, of Spink; lieutenant governor, S. H. Brunson, of Miner; secretary of state, J. E. Johnson, of Davison; auditor, E. R. Reed, of Pennington; treasurer, S. B. Wynn, of Beadle; superintendent of public instruction, Fulling, of Hand; commissioner of public lands, H. P. Smith, of Lake.

The convention endorsed women suffrage and adopted a platform reaffirming allegiance to the Ocala platform, including that the government of the time of no more coal lands, but by the direct of extension domain, take possession of all coal lands within its boundaries, paying the true value for such lands as the present owners may have acquired and that the mines be operated by the government in the interest of the people.

THE SUGAR TRUST.

Mr. Searles's Interview With Senator Jones on the Tariff.

WASHINGTON, June 14.—The committee resumed the sugar trust investigation today. Mr. Searles told the committee the circumstances under which he met Senator Jones and the Senator told him how the sugar schedule of the tariff bill, Mr. Searles's position was that at 2½ cents as the price of 96 test sugar, a tax of 1 cent a pound, or 40 per cent, the present rate, was excessive. But on fixed sugar, he argued, the tax should be $1.00 per hundred instead of $1.40.

"Did it occur," he quoted the senator as saying, "that our committee will not give more than $1.40 per hundred. Take cheaper to do so. The committee will not tax refined sugar above $1.40.

"I said," continued the witness, "the only other thing to do is to begin with 96 degrees and tax that sugar at eight tenths of a cent. That will bring you $1.40 on refined sugar."

Senator Jones replied:

"Yes, but the Louisiana sugars will not take eight tenths of a cent for 96 degree sugar. They want a cent. They have put in a jog at 96 degrees a cent per pound. The committee have put another on refined at $1.45, and there we are."

"Very well, I said, if that is the case, you are simply guilty of uniting before the Senate a schedule which is intelligentive according to your own admission, and it does not seem to me right that a great industry like the sugar refinery industry should be put in any such position as that, and with that our interview ended."

Mr. Searles further stated that he preferred the McCauley bill to the pending tariff bill.

S. O. Depot a Fact.

CHICAGO, June 14.—The Western Passenger association lines have decided to extend the Lake Erie & Western, but whether the branch will ever amount to anything is another matter. A formal notice was sent this afternoon to General Passenger Agent Daly, of the Lake Erie & Western that after June 15th no tickets of his line will be honored by any line in the association.

Justice Coleridge Dead.

LONDON, June 14.—Lord Chief Justice Coleridge died today.

Lord Coleridge was unconscious for a few hours before his death. His death was painless. His son Bernard will succeed him in the peerage.

John Duke Coleridge was the son of Sir John Taylor Coleridge, a distinguished English jurist, and nephew of Samuel Taylor Coleridge, poet. He was born in Devonshire in 1821, and was educated at Eton and Oxford, receiving the degree of M. A. W. in 1845.

He entered Parliament in 1865 as a liberal member from Exeter. In 1869, on the death of Sir Alexander Cockburn, he became Lord Chief Justice of England. He conducted the defense of the Tichborne trial and his speech required a month in delivery.

It is announced Baron Russell will succeed Lord Coleridge as lord chief justice and that Sir John Rigby will become lord chief justice of appeals in place of Baron Russell.

Crispi's Way Out of the Trouble.

ROME, June 14.—Premier Crispi, in the Chamber of Deputies today announced the solution of the cotton crisis. The government had resolved the financial problem and decided to propose a modification of the budget, and with this object in view, the government abandoned the proposed increase of the land tax, substituting the tax in rent and giving pledges of economies in all the public services, including the army, to the extent of 20,000,000 lire.

Signor Crispi concluded with the remark: "The solution of all of Italy's troubles depends upon the settlement of the financial difficulties."

WILL MARRY AGAIN.

Nellie Sartoris Proves a Husband as a Fortune.

NEW YORK, June 14.—The report of the engagement of Mrs. Nellie Sartoris and General Drouhet, of Maryland, is duly confirmed by friends of General Douglass now in this city. From good authority it is learned Mrs. Sartoris will forfeit her estate bequeathed to her by her religious father-in-law if she marries again or takes up her permanent home in America.

Populists and Republicans Fuse.

NASHVILLE, Tenn., June 14.—The Republican state convention today nominated William N. Randolph, G. N. Tillman, Lewis D. Shepard and John R. Walker for judges of the supreme court, and endorsed the Populist nominees for the fifth place, indicating a fusion between Republicans and Populists.

A Lawyer Killed.

HUNTON, Kan., June 14.—Charles R. Hamilton, a prominent lawyer of this city, was shot and instantly killed this evening by Clinton Osborne, a soldier, also of this city. Hamilton and his mother were met and halted on the street by Osborne, who was armed with a double-barreled shotgun. It is stated that Osborne accused Hamilton of betraying his daughter, who has for some time past been working in Hamilton's office. Hamilton denied the charge and prepared to prove his innocence.

Died of Dropsy.

LOS ANGELES, Cal., June 14.—Chas. W. Mead, a well known realtor and business man, died suddenly of dropsy today. He was formerly general superintendent of the Northern Pacific Railroad and one of the proprietors of the Omaha smelting works. He left a care dating he anticipated death from dropsy.

THE INDUSTRIALISTS.

Kelly Demands Aid.—The Pilgrims at Jeffersonville Disbanded.

HARRISBURG, Ky., June 14.—Kelly's army, numbering 1,200 landed just down the city at noon today. Kelly called on Mayor Johnson and demanded aid, saying that if it was refused he would turn the entire band loose. The mayor told him to do so he liked, also adding that they would be controlled by the city authorities.

WHERE ARE DEMANDING.

JULESBURG, Colo., June 14.—The Coxeyite army squatter which the United States marshals were ordered out are disbanding. One hundred will walk to Cheyenne, Neb., 200 will attempt to capture the first train through and the remainder will wait for the first coming down the river. General Adams goes with the Cheyenne party.

THOUSANDS MARCHING ON DENVER.

DENVER, Colo., June 14.—Herbert George's Coxeyite splinter, today said there are 2,000 commonwealers on their way to this city. They are traveling in squads, most of the large bodies being on the road. They say in which this vast army of men shall be disposed of is worrying both the city and county officials.

SANDERS' ARMY.

LEAVENWORTH, Kan., June 14.—The trial of General Sanders's army was begun before a jury in the United States circuit court this morning. A verdict is not expected before tomorrow.

A People's Party Candidate.

MACON, Ill., June 14.—The People's party Congressional convention has nominated J. M. Grief, of Schuyler county, for Congress by acclamation. Mr. Grief was the nominee of the same party two years ago.

THE CARNEGIE FAKE WORK.

The Story Told by Mr. Sill Before the Committee.

The Workmen, He Says, Had No Motive of Interest in the Investigation.

WASHINGTON, June 14.—Charles Edgar Sill, a former Carnegie workman, was before the congressional investigating committee today. Mr. Sill said he had kept tab on the alterations of the report made by Kline, and he had his notes with him. Kline changed dates, so that the government inspectors could not detect that the work reported was not within the capacity of the mill. The books as kept by Kline showed the actual work to have ran and the alterations as submitted to the government officers were in red ink.

"What was the percentage of this false work?" asked Mr. Cummings.

"From 15 to 50 per cent was false work. I think that would be a fair average."

Mr. Sill related how Superintendent Kline had given orders for re-treating ends of plates to cover up defects. The order was written and verbal and by diagram. He showed a rough diagram which substituted one of the others. The diagram, which was simply continued by the committee, Mr. Sill said was made by Kline, and the working on it was in Kline's handwriting. Witness had a bundle of these diagrams.

"Do you mean to say," asked Representative Dolliver, "that these diagrams were for the purpose of defeating false returns on the government?"

"I do."

"And he left the evidence of his rogue work in your hands?"

"He did."

"How much did you get from the government as informer?" asked Mr. Dolliver.

"Five thousand dollars," answered Sill.

In response to close questioning, Sill said he and the stenographer had raked over the amount to be derived from the government. He and other informers had first hoped that they could get government positions. Sill said on further cross-examination that the workmen had no motive of interest in the irregularities. They were led on and were not benefited by a larger output. The company and superintendents were the ones that got the benefit.

If the government officers had known the actual condition of the work they would have rejected 75 per cent of such work as was accepted.

Mr. Cummings asked what had become of the books which showed the real work done. Sill said he had seen Superintendent Kline burn two of the books. The other three had disappeared after the information was given to the department. He had seen Mr. Frick about the plant occasionally. He did not know that Frick knew about the books which had been burned.

Wilson's Defense.

NEW YORK, June 14.—The testimony for the defense in the case of Wilson, on trial for forgery, was closed this afternoon. The defendant himself was on the stand most of the time, and made many admissions under cross-examination of the repeated use of letters belonging to R. G. Dun & Co.

There were called overtimes by the witness, and he produced a letter written by himself to Dun January 14, 1893, in which letter Wilson explained his financial condition at length, and informed Dun that if he had had 25 per cent of the profits in January, 1892, instead of 17 per cent, the additional increase to him would have covered the overdrafts. It was January 1, 1893, that the agreement between Dun, Wilson, King and Douglas was made, in accordance with which Mr. Wilson was to get 17 per cent of the yearly profits, instead of the 25 per cent he had hitherto received.

The letter was introduced to show more clearly that Dun knew all about Wilson's over-drafts. General Tracy tried to show that Dun by arresting Wilson prevented a financial move on Wilson's part which would have helped to extricate him from his difficulties.

Judge Ingraham ruled out all the questions, saying that they had no bearing on the alleged forged check in suit.

Mr. Dun was called to the stand. Wilson, he said, had overdrawn his accounts for the last two or three years, but never suspected that the amount involved was so large. Mr. Dun denied that the prosecution was prompted by any fear of Wilson, as intimated by Mr. Boardman in his opening address to the jury.

"When the time comes to charge the jury," said Justice Ingraham, "I shall tell those that Mr. Dun wants not have anything only as a client had for his money in the prosecution of Mr. Wilson."

At this point court was adjourned until tomorrow. Justice Ingraham said he should instruct each side to merely remember in their addresses to the jury, adding: "The case must go to the jury before night."

Ice Not Safe in Texas.

FORT WORTH, Texas, June 14.—Rains are almost continuous over northern and western Texas. The Pecos valley railroad and the Denver road are the only one suffering much from high water, the Denver road being compelled to transfer. All trains are late.

ESCAPED FROM JAIL.

The Jailer's Daughter Elopes With a Prisoner.

CLARKSVILLE, Tenn., June 14.—Several days ago Alexander Driscoll, who has been confined in the Cadiz jail on the charge of horse stealing, effected his escape with the aid of the 17-year-old daughter of the jailer. The girl then slipped with Driscoll and they were found in this county and arrested.

Jackson Said to Be Fired.

ASHLAND, Wis., June 15.—The jury is sifting out in the case of County Clerk Jensen, whose accounts, according to expert examination, were found to be $10,000 short. The jury has now been deliberating on the case thirty-six hours. There are rumors that jurymen have been fired, and it is claimed the ballot stood 10 for conviction and 2 acquittal.

The district attorney says he will make arrests on the disclosures of the jury.

HAVE YOU A DOUBT

AS TO WHO ARE SALT LAKE'S LEADING SPECIALISTS, IF YOU HAVE READ THE EVIDENCE OF YOUR FRIENDS AND NEIGHBORS.

If you have been a regular reader of this paper for the past few months and have noticed the evidence published by Shores & Shores and the wind specialists, you will see that Drs. Shores & Shores have such work given the public one or more new testimonials or patients who have been cured by their new treatment, while our would-be competitors have given you not, or without statements of people who have suffered their former withdrawal, but these minor doctors don't care a pellet to see people with their treatment, as the results of the newspapers will prove, so they resort to all kinds of schemes to deceive the public.

Drs. Shores & Shores live on their own reputation. They use their own system of treatment. They do not advertise one man's system and use another. Drs. Shores & Shores' reputation for the past six years in the Territory of Utah is a guarantee of honest and skillful treatment.

Drs. Shores & Shores are having the pictures made of patients who have been "galled" by these night doctors, and so soon as they are ready for publication you will receive some more history as to the healing and methods of treatment used by Drs. world-be specialists.

This week Drs. Shores & Shores present the testimony of two of the oldest residents of the territory. Read what they say, go interview them, and they will tell you the difference between the real and the imitation.

MRS. BERTHA CHRISTIANSEN,
Residence 151 Second South and Fourth East Streets City.

COULD NOT SWALLOW.

The Alarming Condition of Mrs Christiansen—She is Cured in One Month by Drs. Shores & Shores' New Treatment.

To say Mrs. Christiansen was a sufferer is putting it mild. When she placed herself under the care of Drs. Shores & Shores, it was doubtful if she could ever be made well, her case had run so long that the search had thoroughly undermined her entire system; her tissue was so raw and irritable that it was with the greatest difficulty that she could eat enough to keep her alive. Here is her signed statement word for word:

SALT LAKE CITY, Utah, May 31, '94.

To Whom it May Concern:

This is to certify that I came to Drs. Shores & Shores a wrecked sufferer with catarrh of the head and stomach. I was so very bad that I could not even take a drink of water or food in any shape without the greatest pain, and I can now truthfully state that after one month's treatment I am a well woman.

There are the cases of trouble Drs. Shores & Shores cure daily. This is the class of troubles that have made them famous over the country, and this is the class of trouble that the might doctors try to treat, sell and then advertise they are doctors.

Drs. Shores & Shores.

Specialists,

Zion Medical and Surgical Institute

34 E. Second South Street.
