MINING, BUSINESS AND STOCKS

STAR CON. STOCK TAKES A TUMBLE

Drops to 16½ With Very Little To be Had at This Figure.

BECK TUNNEL CON. IN DEMAND

Active Trading in New York, Which Sells Close to 20—Lower Mammoth Weak.

Star Con., whose sudden spurt was the sensation of yesterday's calls on the exchange, fell from grace today and dropped to 16½, where a total of 600 shares changed hands. At this figure the stock was in good demand, but holders preferred to wait awhile, or long enough at least to learn the true status of the mine's affairs.

The morning call was one of the best for some time, the business done amounting to 11,550 shares, with a selling value of $4,534.50. As usual, Lower Mammoth was active, although at a slight decline from the figures of the day before. The stock started at 37, but before the close it had sagged to 36, at which price it sold on the open board. May Day was dealt in at 7⅞, while Butler-Liberal dropped 200 shares at 5½ and New York was active in the trading at figures ranging from 26¾ to 28½. A feature of the call was the unexpected demand for Beck Tunnel, the stock selling at 8, assessment on, with limited offerings at 9½.

RED TOP SHOWING.

Estimated That Mine Has in Sight Ore Worth Over a Million.

Discussing the recent strike in the Red Top, the Goldfield correspondent of the Tonopah Miner says an immense shoot of phenomenally rich ore has just been opened up on the 100-foot level in the company's workings. This ledge was recently encountered on the 50-foot level, where the ore-shoot proved to be six feet wide, with average values of $700 to $800 a ton. The shaft was sunk another 50 feet, from which point a crosscut was run to the ledge, which was reached a few days ago. The first three feet of ore showed about the same values as those found on the 50-foot level, and 700 sacks of this ore is now on the dumps ready for shipment. Thursday the crosscut was pushed three feet farther into the ledge, with the most astonishing results. Careful sampling indicates that this new shoot runs from $2,000 to $10,000 a ton, and it is undoubtedly the greatest strike ever made in the district. W. E. Hughey, auditor of the Jumbo Mining company and the owner of a tenth interest in the Red Top, who took samples of the new shoot, asserts that the entire ledge, including the first three feet, or six feet in all, will average $2,000 a ton. The foreman of the Red Top estimates that the new shoot for three feet will average $7,800, and Captain Menardi, who owns a lease on the Red Top and is a large stockholder in the company, estimates the average values at $6,000. Taking the lowest estimate as approximately correct, there is at least $1,200,000 worth of ore now "in sight" between the 50 and 100-foot levels. A raise has been started from the 100-foot level to connect with the 50-foot level, and in the course of the next eight or ten days the extent and value of the new shoot will be definitely determined.

As a result of this great strike there is very active demand for Red Top stock, sales having been made in San Francisco yesterday afternoon at prices ranging from 65 to 70 cents, a gain of 20 points this week.

MINES OF SILVER BOW.

Not a Few Have Ore Running from $200 To $800 Per Ton.

W. L. McGonagill, who came in from the Silver Bow district this week, reports that the camp is progressing most satisfactorily, says the Miner of Tonopah. At the Wiley and Robb lease the shaft is now 45 feet deep, with 18 inches of ore that assays as high as $500 a ton. On the adjoining lease, owned by McCarthy and Kernan, eight men are at work and the shaft is 30 feet deep on the vein. Two and a half feet of this is of milling grade and 18 inches assays from $200 to $500 a ton, the best assay showing $1,066 a ton, and there is about eight tons of ore on the dump averaging over $200 a ton.

Five other leasers on the McGonagill group are working in stringers of shipping ore. One lease on the Blazier property is in shipping ore, and there are also nine sets of leasers working on the Catlin group, four of whom are in ore. There are four leasers on the Lucky Boy Extension, two of whom are sinking on a stringer of ore assaying over $200 a ton.

BECK TUNNEL CHANGE.

Reported That This Tintic Mine Shows Some Improvement.

It was reported in mining circles today that an important change had occurred in the workings of the Beck Tunnel, although it was not possible to learn particulars before press time. This property is under the management of Jesse Knight, whose painstaking efforts have done much to develop Tintic. The stock is now burdened with an assessment, but despite this it took a sudden spurt forward today and was readily wanted at 8 cents, although holders were loth to relinquish below 10. The mine has its location in the heart of Tintic's productive region, and it would not surprise those who have been watching developments to hear of a strike of some magnitude before long.

BIG STRIKE IN THE EXTENSION.

That at Bullfrog Shows Breast of Ore Averaging $381 to The Ton.

ARMED GUARDS PATROL MINE.

Strike Was Made Close to the Spot Where Seam of Rich Tellurium Was Found.

Special Correspondence.

Bullfrog, Nev., Sept. 25.—In an upraise from the tunnel that is now being made at the top of the 40-foot ledge in the Bullfrog Extension mine, a breast of ore has been broken into that averages $381 per ton. Four samples taken give the following returns: $167, $235, $82, $940. The strike was made within 17 feet of the spot where the narrow seam of rich tellurium, assaying 82 per cent gold, was uncovered two weeks ago. Armed guards patrol the property day and night.

Three shifts of eight men each are at work. Ore is being sacked from the upraise as fast as it is broken, and no attempt is being made to sort it. Twenty-five hundred empty sacks were received at the mine yesterday, and Supt. Tridell says a shipment will be made within a fortnight. The development work on the Bullfrog Extension property is being watched with feverish interest by the entire community. Mining engineers who returned from an inspection of the mine today say the near future will probably disclose even a more sensational showing than has yet been reported. The formation in which the rich ore is being found indicates an enormous deposit of great depth and permanency.

CONCENTRATES.

The Taylor-Brunton sampler reported today six cars of ore from Tintic and three from Bingham.

The day's receipts at the Pioneer sampler amounted to three cars of ore from Alta, two from Bingham and one from Stockton.

"Mining Profits" is the title of an eight-page sheet now published in New York and devoted to the interests of eastern investors.

Yesterday's ore and bullion settlements amounted to $73,500, divided as follows: Bullion, $48,000; gold, silver, lead and copper ores, $25,500.

The party of wealthy Englishmen who yesterday spent the day at Bingham, left last night for the coast after a careful inspection of the Utah-Apex in which they are interested.

Supt. E. J. Raddatz of the Black Diamond at Stockton, is in the city. He says the mine is now loading another carload of high-grade shipping ore and that the property never looked better than it does today.

Reports have it that the Lanyon Zinc company, operating at Iola, Kan., has absorbed the Western Ore Purchasing company of this city and that F. H. Quimby becomes general western agent, with offices in the Atlas block.

The ore shipments over the Tonopah railroad for the past week were as follows: Tonopah Mining company, 695 tons; Montana-Tonopah, 120 tons; Belmont, 125 tons; Midway, 30 tons; Tonopah Extension, 495 tons; Columbia Sampling Ore company, 377 tons.

The Carrie Mack Mining company has increased its capital stock from 100,000 $1 shares to 200,000 shares of the same par value, an amendment to its articles of incorporation being filed with the county clerk. President C. O. Ellis and Secretary Gideon Snyder certified to the amendment. Payment for the additional stock, which is to be placed in the treasury and sold under the direction of the board, is made by the transfer to the company of seven mining claims in Tooele county.

BUSINESS NOTES.

Today's local bank clearings amounted to $653,188.05, as against $405,689.90 for the same day last year.

MARKET OPENED RATHER LOWER.

Willingness to Take All Southern Pacific Offered Gave That Stock an Advance.

RISE IN CALL MONEY RATE.

This Weakened Everything and Killed Activity—Bonds Heavy and Dull.

New York, Sept. 28.—A few stocks showed small opening gains, but the majority of prices were lower. The recent speculative favorites led the decline. Indications of a willingness to take all of the Southern Pacific offered around the opening prices prompted an active inquiry by the traders for the stock and it advanced ⅝, but the movement did little more for the general market than to carry it back to yesterday's closing level. Business generally was small. Norfolk & Western, Illinois Central and Chicago Union Traction preferred gained 1 and Lead preferred 3½.

The market weakened on the rise in the call money rate and this also killed the activity. Special stocks fell sharply, but the average decline was moderate. The losses were about a point for St. Paul, Canadian Pacific, Great Northern preferred, Delaware & Hudson and Erie second preferred.

Bonds were dull and heavy at noon.

Desultory selling relieved the market of its stagnation but although sales were very small concessions had to be made to market the stock. U. P., L. & N. and U. S. Rubber got off 1 and Anaconda 3/4. Leading stocks were steady at 1 o'clock.

LONDON.

London, Sept. 27.—The fifth series of wool auction sales closed today. During the sales Queensland new clip was prominent. Prices at the close showed a general advance of 5 per cent over the July average. Merinos gradually hardened throughout and closed at the highest point, especially good combing, which was in keen demand for the continent and England. Fine and medium greasy cross-breds attracted fair American competition and advanced 5 per cent. Scoureds formed a large proportion of the sales.

Cape of Good Hope and national wool was in better demand and superfine whites realized exceptionally high prices. The sales closed firm and active. Of the 52,000 bales brought forward, 14,000 were sold to the home trade 36,000 to the continent, 3,000 to America and 3,000 were held over.

Today 7,290 bales were offered.

PRODUCE.

CHICAGO.

Chicago, Sept. 28.—Notwithstanding higher prices for wheat at Liverpool, the market here had an easier undertone today. Influenced by clear weather in the northwest pit traders were moderate sellers. December opened unchanged to ⅛ higher at 86 to 86¼ and sold off to 85¾@85⅞.

Minneapolis, Duluth and Chicago reported receipts of 1,034 cars against 887 a year ago.

Sentiment in the corn market was bearish, owing to favorable condition. December opened unchanged to ¼ lower at 41⅝ to 42.

Oats were firm but the volume of trading was small. December opened unchanged to a shade higher at 28⅜ to 28⅜@28¾, and sold at 28¾.

Provisions were firm on covering by shorts. Lard was up 2½@5 cents at 6.82½.

The market was steady during the last half of the session. Demand for cash wheat was quite urgent and this tended to support options. December touched 85⅝, but [illegible] steady with December off ⅛@¼ at 85¾@85⅞.

Corn—[illegible] May by a leading bull held the market steady the remainder of the session. The market closed steady with December off ⅛ at 41⅞.

LOCAL MARKETS.

Two cars of grapes were received this week from California, for sale in this city, and prices have fallen for the poorer stock, but remain steady with the better varieties. Lemons have at last begun to fall in price, and $7.50 per box is now the maximum figure. The old stock of bananas has been cleared up, and a fresh stock has just been received. Only the yellow skin bananas reach this market, and local dealers say that planters are abandoning the red skin variety, as it is more on the order of the plantain and the tree produces only moderately sized bunches where the yellow banana tree grows three and four times as many bananas in each bunch, and it is therefore more economical to cultivate the latter variety.

The general run of vegetables are plenty and cheap, with heavy shipments of local cauliflower. Apples are improving in quality, as well as in quantity. Oysters, fish and poultry are in plenty, and this is the first time in the season that the poultry supply has been equal to the demand. Oysters and fish are in plenty; halibut, salmon, flounders and soles being the present staples in this line. Western crabs and crawfish are being received. The crawfish are from the Pacific ocean and are like the Atlantic lobster except that it has no claws, and costs much less.

There is a further cut of 20 cents in flours, which will be very gratifying to the housekeeper, and is due to sharp competition. Eggs are getting scarcer, and are up 25 and 50 cents per case. German prunes are in the market. The prices obtaining today are as follows:

WESTERN MARKET LETTER

Special Correspondence.

Kansas City, Mo., Monday, Sept. 25, 1905.—Although cattle receipts fell off 25 per cent last week as compared with either of the two preceding weeks, prices did not make any gain, but instead barely steady; cows were an exception, and gained 10 to 20 cents. Buyers knew that heavy runs would come as soon as railroads could handle the business and acted accordingly. Eastern markets had large supplies, another bad feature. The supply today is 25,000 cattle, market steady to 10 lower. Most of the run today is from Kansas and Oklahoma, supply from the Panhandle and Colorado extremely small considering the liberal run. Some Lockhart steers, from Rocky Ford, 1,050 pounds, sold today at 5.60 and a train of Nevada cattle are here, but not being shown to day; will be on tomorrow's market. Seventeen cars of Seiber Cattle company steers, Westwater, Utah, sold Friday at 3.25, 1,052 pounds, with a cut of two loads, 1,244 pounds at 3.50. Common Colorado steers, from La Junta sold at 2.85 and 2.90. Most of the Panhandle stuff lately has been cows and calves. Cows mainly at 2.35 to 2.65, calves 3.25 to 4.30 for heavy weights, although light ones bring up to 6.00, being very scarce. Some nice yearlings sold at 3.50, medium stockers and feeders, 2.75 to 3.35, a train of Knorpp and Rugbee killing steers from Clarendon, 1,120 pounds, at 5.60. Canners sold strong at 1.75 to 2.25.

Sheep and lamb receipts have been heavy in the last few days, but very light before that for some time. Supply today is 20,000 head, market 10 to 15 lower, and about a quarter lower than a week ago, possibly more on lambs. Utah lambs, 66 pounds, sold today at 6.50, some a little better than those Friday at 6.75. Arizona lambs, 67 pounds, today at 5.65, Colorado lambs, 58 pounds, today at 6.60. Feeding lambs are selling at 5.50 to 6.00, and do not show as much decline as killing lambs. Utah and Idaho wethers and yearlings sold at 4.50 and 4.75 today, and 5.15 would be about the limit on best yearlings. Ewes sold at 4.15 to 4.25 today for slaughter, and choice breeding ewes bring about the same figure. Feeding wethers and yearlings 4.25 to 4.40. Prospects seem to favor still lower prices in the near future, but it will depend on the supply; the demand can absorb almost any supply likely to come, and it is only a question of how much competition buyers are forced into.
