MINING, BUSINESS AND STOCKS

STOCKS WERE SOME WEAKER.

Only $3,015.25 Worth Brought Out During Forenoon Calls of Mining Exchange.

COLUMBUS CON. BOUGHT.

A Small Lot Disposed of on the Open Board—May Day Steady at Yesterday's Prices.

For $3,316.25, 10,800 shares of mining stocks were transferred on the floor of the mining exchange during the forenoon calls. Daly-West, the first stock to record a sale, was bought at 12.00, while Silver Shield found takers around 16 cents a share. Carisa was not in as good tone as it was yesterday; it was absolutely in no demand; however, a bid of 14¼ cents was made for it. New York Bonanza and Wabash were both weaker, while Victor Con. was let out at 4 cents.

A lot of Columbus Con. was brought out on the open board at 1.24½, while a bid of 22½ cents induced Uncle Sam Con., and 500 shares were taken at that price.

The closing quotations and sales were as follows:

UNCLE SAM ORE.

Tintic Producer at Samplers Today With A Lot of Crude.

The Uncle Sam Consolidated mine of Tintic has two cars of crude ore in the market today.

An official of the company gave out the information today that work of driving the crosscut to the east through the dyke crossing the property to intercept an extension of the vein encountered in the May Day will be undertaken at an early date.

WILL SEE ALTA.

C. H. Moss, of Michigan, Arrives to Inspect Columbus Con.

C. H. Moss, a prominent Michigan capitalist and a large shareholder of Columbus Con., arrived in the city today and left during the afternoon for that Alta mine, accompanied by Manager Tony Jacobson.

This is the first visit of Mr. Moss to these parts for some time, and no doubt he will take note that some very important changes have taken place during the past year. With the mill adjusted to the ores and working with two shifts, the visitor will have opportunity to see what kind of a concentrate product the property is capable of producing. At the same time he will have a chance to inspect the mine and see the vast bodies of ore blocked out there; which will be immediately available as soon as the connections between the Howland and Columbus tunnels are made next week.

Mr. Moss has been a staunch supporter of Columbus Con. in the past, when some people undertook to speak of it discountedly.

GOLDFIELD MINES.

Owners of the Jumbo Seem Determined To Get Into Litigation.

At a meeting of the directors of the Jumbo Mining company Manager Taylor was directed to bring proceedings to obtain an injunction against the extension of time on the McDonald-Fuller and Bowes-Kernick lease. For the sake of the camp, as well as the parties directly concerned it is to be hoped that the disessions among the owners will be speedily and satisfactorily settled and the mine once more take its place as one of the big gold producers of the world.

Martin Sullivan, an old time miner of Colorado, who made his first fortune in Leadville, and T. C. Lewis of Denver, have taken an option to lease 300 feet on the Mary, which adjoins the Blue Bull on the south and the Kaiser on the east. Sullivan and Lewis will have 30 days in which to prospect the claim and then will select the portion they wish to lease. Ore showing free gold has been found on the Mary and with intelligent prospecting it is believed the pay shoot will soon be opened up. The Mary is owned by John Merhin, James F. O'Brien and J. P. Loftus.

E. L. Mims and associates last Wednesday took over the interests of Will Marsh and Harry Stimler in the Columbia mountain, Sandstorm, Kendall, May Queen and Nevada Boy groups. These are all valuable properties and the consideration, while not made public, is known to be a large one. Stimler and Marsh were the original discoverers in that district and for that reason, if for no other, it is gratifying to know they have cleaned up a nice bunch of money.

Capt. John A. Hassell, who recently bought the Independence group, lying about three miles southeast of the Jumbo, has started prospecting and is meeting with flattering results. The group consists of six claims—the Piute, Alvarado, Lincoln, Rose, Reliance and Independence, and on all good values have been found. On the Piute, Alvarado and Independence values ranging as high as $96 per ton have been found, but have averaged between $12 and $30, which, however, are very good for surface values. On the Rose claim float has been found going over $2,000 per ton. The mountain on which this claim is partly located adjoins the Cache Gold company's property on which float assaying $4,040 per ton was previously found. The country to the southeast has been neglected but since Capt. Hassell's entry into the field and his quick success, more attention will be paid thereto and it is highly probable that the region of pay mines will soon be extended a distance of several miles to the southeast.—Goldfield News.

MAKING THE TESTS.

Power Plant Equipment About to be Accepted at Newhouse.

The representatives of the firms which supplied the engines and boilers for the power plant at the Newhouse mill in Beaver county, are on the ground for the purpose of making the final tests preparatory to turning them over to the officials of the company, who took the train for the south last night.

Gradually, the big plant is getting along towards completion. Nearly all the buildings are under cover and the machinery is being installed just as rapidly as possible under the direction of Supt. W. C. Thomas.

CONCENTRATES.

Joseph Dederich is in Beaver county today.

A. H. Godbe has returned from a trip east of several weeks' duration.

Assistant Manager H.H. Green of the Bingham Con., is in Bingham today.

Samuel Newhouse departed for the east yesterday on a brief business trip.

The Honerine drain tunnel is completed to the length of about 7,000 feet.

Jack Creen, the Park City mining man, has returned from a trip to the east.

Lorin Morrison will depart for the Indian Queen mine in Beaver county tonight.

The original Tonopah reported at the sampler today with four carloads of ore.

Three car loads of ore from the Mammoth mine reached the local market today.

A shipment of slag and concentrates has arrived from the Bamberger-De Lamar properties.

A. J. Bettles and M. M. Johnson of the Newhouse staff departed for Beaver county last night.

J. E. Spurr, the eminent geologist connected with the geological survey, has arrived at Goldfield, Nev.

E. J. Raddatz, general superintendent of the Honerine mine at Stockton, departed for camp again this morning.

Twenty-four lots of concentrates from the Utah Copper company's mill at Bingham were marketed during October.

J. V. Brooks, superintendent of the Empire Con. properties at Freiberg, Nev., will depart for camp again tonight.

Walter Fitch, the new manager of the United States Mining company, is looking over that corporation's Tintic mining interests.

The Buhl ore chute, recently encountered on the 900-foot level of the Honerine mine has been opened up to the extent of 35 feet.

The Silver King shareholders received their dividend checks aggregating $100,000, today, making the total for the year so far $1,100,000.

J. H. McCrystal, O. H. Bossert, A. K. Tiernan and Col. W. M. Rank are a group of Salt Lake's solid mining men who arrived Thursday.—Goldfield News.

The Deer Lodge Gold Mining & Milling company yesterday filed articles of incorporation with the county clerk. The officers are: President, Edwin D. Trenam; vice president, J. J. Trenam; secretary and treasurer, R. Garrett Andrews. The capital stock is $500,000 with shares at $1 each. The company owns several claims in the Eagle Valley Mining district in Lincoln county, Nev.

FIGURES ON BOSTON CON.

Company is Now Making One Thousand Dollars a Day, Net.

SHIPPING 250 TONS OF ORE

Every Twenty-four Hours—General Manager Newhouse Places Reserves At 1,700,000 Tons.

A letter sent out by a Boston firm states that while the recent death of one of the largest stockholders in the Boston Consolidated company may have placed a sentimental damper upon speculation in Boston Consolidated stock, the company, however, is now free from debt and is earning over $1,000 net per day, owing to the increased price for copper, upon an output of 250 tons of ore per day shipped to the Bingham smelter. An advance of 1½ cents per pound in the metal makes a difference of $225 per day to the Boston company upon this output, or $6,750 per month and brings net earnings up to over $25,000 per month—pretty good earnings upon a small output of 250 tons a day.

It is understood it will be the policy of the Boston Consolidated management to continue a small output until they have demonstrated the existence in their property of very much larger ore reserves than at present, although General Manager Newhouse places present reserves at 1,700,000 tons, but the larger part of this ore tonnage is quite low grade. The company is having no difficulty at present in meeting the requirements of its Bingham smelter contract to deliver 250 tons of ore per day, containing no less than 3 per cent copper, or 60 pounds to the ton.

GOLD CRATER STRIKE.

Some Rich Ore Found on the Peacock Claim Recently.

On the Peacock claim, which adjoins Sanders & Inman's Hub at Gold Crater, ore was opened up on Tuesday and from pannings it is believed that the average values of a good sized streak will go $400 or $500 per ton, says the Goldfield News. The strike was made about 1,000 feet from the place where Sanders & Inman are sacking rich ore, and it is supposed to be the same ledge. The Peacock is owned by Wright, Ward and Callow and they naturally feel much elated.

On the No Savvy claim, Griswold and Moss have done 100 feet of work in shafts, drifts and crosscuts and have ore in three places. Assays from the ledge in place go as high as $75 per ton.

Water from a living spring has been struck six miles from Gold Crater and water is now delivered for $3 a barrel.

Ward and Morrison, with some assistance, are building a new road, which is the only feasible one to the camp. The gentlemen deserve great credit for their enterprise in this matter and should receive every assistance from all interested.

IS HARDLY PROBABLE.

What Manager Madsen Says of Century Assessment.

Manager P. W. Madsen of the Century Gold Mining company, was asked today by a "News" representative if it was the intention of the company to levy an assessment in the near future.

Mr. Madsen replied that while there is no doubt but that the company would be required to meet the outstanding judgments, the directors had not discussed the matter of assessments. While such a thing is possible, declared Mr. Madsen, it is hardly probable. "If we can borrow the money, and I believe the company ought to be able to get all its needs for this purpose, there certainly will be no assessment."

MICHIGAN'S COPPER.

Production of Past Ten Months Exceeds All of Year 1903.

According to recently compiled figures, the copper mines of Michigan have produced 199,580,1000 pounds of the bronze metal during the past 10 months. This is more than was produced during the entire year of 1903, when the output was 192,223,855 pounds.

GREAT SALES OF SOUTHERN PACIFIC

New York, Nov. 10.—The features of the opening dealings in stocks today were Southern Pacific, Rock Island and the M. K. & T. stocks. There were 11,000 shares of Southern Pacific sold at the opening at 65½ and 65⅝, compared with 64⅞ last night and 6,500 shares of Rock Island at 36½ and 36¾, compared with 36¼ last night. M. K. & T. rose a point and the preferred 1¼. Amalgamated Copper was in large demand at an extreme advance of a half. Otherwise the dealings were on rather a moderate scale and the advances were restricted to within ½, except for St. Louis and San Francisco second preferred which rose 2¼. Pacific Mail 1½ and Mexican Central and Realty large fractions. United States Steel opened up at ¼, but immediately lost it. Republic Steel declined a ¼ and Sugar ran off after a small opening gain.

Very large profit taking went on after the opening, especially in stocks most active on the rise yesterday, and some others were pulled back below last night. Other stocks were pushed forward to support the realizing, notably Southern Railway, which met enormous blocks at 36, one sale of 12,800 shares being recorded at that figure.

Heavy selling was renewed after 12 o'clock with the principal pressure directed against the United States Steel stocks. The common stock dropped to near 26 and St. Paul, Southern Pacific, Union and Rock Island touched their lowest prices. The market made a slight rally, in the course of which Realty rose 3¾. Pacific Mail 6¼ and Delaware & Hudson 2. Prices then ran off to a lower point than before, Erie, Union Pacific, Canadian Pacific, Louisville & Nashville and Lead preferred fell a point or more below last night and Southern Pacific reacted 1⅝ from the best.

LIVESTOCK.

NEW YORK PRODUCE.

New York, Nov. 10.—Butter, firm. Creamery held, comon to extra, 18@23; official prices renovated, common to extra, 12½@18½.

Cheese—Unchanged.

Eggs—Firm.

LOCAL MARKETS.

Comparatively few changes have occurred in the local markets this week. Those of any note are in fish, red snappers, barracuda and sturgeon being entirely out of reach. Then black bass and lobsters are scarce, as very few are being received. There is a slight fall in the wholesale prices of hens and spring chickens, and there are no changes in immediate prospect in the flour or grain marts. Crabs are expected in shortly, but turkeys continue rather scarce. The prices obtaining today, are as follows:

RETAIL.

Corn, per cwt	$ 1.55
Corn, cracked, per cwt	1.65
Wheat, per bu	1.10@1.20
Oats	1.65
Barley, rolled, per cwt	1.50
