The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 229. FRIDAY, AUGUST 21, 1896, SALT LAKE CITY, UTAH. VOL. XXIX

ANDREE'S JOURNEY.

General Greeley Thinks It a Dangerous Undertaking

AND SO DOES THE EXPLORER.

The Plan Originated With Two French Aeronauts Who Did Not Care to Try It.

ARMSBURY, Mass., Aug. 21.—General Greeley, the Arctic explorer and chief of the United States weather bureau, who is summering near here, in an interview on the Andree balloon expedition to the north pole said:

"I met Andree at the Geographical convention in London last summer and he then gave me a detailed account of his proposed expedition. I got out then that his chances of ever reaching his destination with the balloon were very good and I am of the same opinion now. It is a very hazardous undertaking. Andree told me at a previous time that he was contemplating such a dangerous one and that he might never return.

"His retreat from Spitzbergen, 700 miles in the pole, and he hopes to make the journey in some fifty hours. The balloon will be kept inflated for a month. He expects to go up with a strong wind and also return with that wind down the north coast of America. I pointed out to him that, in my opinion, that was impossible, as it would return it would be with a north wind and that he would land on the Asiatic coast. His expedition is a private one, although the King of Sweden, I think, subscribed 10,000 toward the undertaking, and the Swedish minister to Russia and other countries have contributed to help on the enterprise. Andree told me of the system of guide ropes and sails, now in readiness, intending so as to drag one on land or water, and by coiling them round the bearing ring at the mouth it turns to that proportion. Andree appeared to be very honest in his undertaking. At that time he had selected one companion, Dr. Ekholm. He made observations for the International exhibition in 1882 and this said to a mutual friend of mine, I am of the opinion that when he returns the far north he will be confined and not know what direction to take to return. Dr. Ekholm's name was connected ten years ago by two French aeronauts, who, however, have never made a start.

"Andree, who is a man of about 28 years of age, explained his proposed expedition to the geographical society in London with the greatest detail. It did not seem to many present as a feasible one. I also made some remarks on the subject at the time, Dr. Ekholm, who is accompanying Andree, is an experienced mariner and a considerably older man. At my London meeting with Andree I explained to him that he should make some experiments in the air over a civilized country for experiment previous to starting for the pole. I explained further to him the dangers of the proposed voyage in the air. He appeared to appreciate them, but like many men was still willing to make it."

BRYAN VINDICATED.

He Believes New York Democrats will Remain Loyal.

GLEN ELLS HOUSE, N.Y., Aug. 21.—Congressman Bryan warmed all morning on his letter of acceptance and said, the will regard the sentiments as a very gratifying result. After reading the newspaper account of the already cordial support of the ticket by New York democracy, he said he did not believe the situation had been exaggerated and he always believed New York democrats would be true to the party nominees. From Syracuse, Buffalo, Rochester and Albany, Mr. Bryan has received assurances that the congressmen for his district at those localities are entirely in charge of the democratic county committees.

After his attention was called to the report of Cleveland's endorsement of the ticket, he said he was gratified to find so many Eastern Democrats would fall in line and added that before the campaign closed he expected the cooperation of all Democrats except those whose pecuniary interest might be endangered by the gold standard. It is see that Dan Jackson of New York gave Bryan an intimation that Croker would be with him. Jenkins is a brother-in-law of the former Tammany chief.

NEBRASKA GOLD DEMOCRATS.

The Central Committee to Favor a Third Ticket.

OMAHA, Aug. 21.—The meeting of the state central committee of the gold wing of the Democratic party in Nebraska did not break up until midnight.

Members stated that there was perfect unanimity on the question of sending delegates to the convention at Indianapolis. The general opinion favored a third ticket. The opinion was freely expressed that a full state ticket should be nominated, and that these three presidential preferences of those present was not discussed and the delegates who would go to Indianapolis have not as the situation there should warrant.

They denied that the delegation will present the name of J. Sterling Morton, but some delegates say among the most intimate personal and political friends of Morton.

DEMOCRATIC HEADQUARTERS.

Chairman Jones Has Changed His Mind as to Its Location.

CHICAGO, Aug. 21.—Chairman Jones of the national Democratic executive committee has changed his mind as to the location of headquarters. The Democratic national campaign will be conducted from the Auditorium annex. Jones said there is too much noise from street traffic in the rooms selected at Illinois.

The battle of the two great parties will be therefore directed from the same location, practically conducted under the same roof.

The state central committee will continue to work at the old stand at Sherman house.

Up to noon today Jones had made but few appointments, the principal ones being Carl Howell of Omaha as chief of the literary bureau; F. C. (Gridley) Adams as his chief assistant, and Daniel McGinnis of Ohio chairman of the speakers' bureau.

IRISH PRISONERS.

Subjected to Indignities in Her Majesty's Prisons.

LONDON, Aug. 21.—P. T. O'Connor this today publishes a column unsoundness account of the condition of John Daly, the Irish political prisoner, released from Portland prison yesterday afternoon. It says: "Without forestalling what Daly will eventually divulge relative to his treatment, it is certain that he will be able to prove that Irish prisoners have been subjected to indignities and punishment that the vilest criminals of her majesty's prisons have escaped."

Killed in An Explosion.

PARRY SOUND, Ont., Aug. 21.—Wells men were blasting rock not near here today a heavy charge of dynamite prematurely exploded. Two men named Smith and Hillman were instantly killed, John Olsen was fatally injured and others seriously hurt.

The Peru Bank Trouble.

SPRINGFIELD, Ill., Aug. 21.—Last week Edward E. Gore, head of the banking department of the auditor's office, was called to Peru by a telegram stating that the State Bank of Peru had closed its doors. He returned last night and declares upon investigation he had found the bank solvent and that it had resumed business. The trouble arose from the earlier banking the bank's books to irresponsible parties, often encroaching on the reserve fund. A new cashier was appointed.

Loaded Bales of Hay.

NEW ORLEANS, Aug. 21.—Information has been received here by the Mallory Steamship company, whose ships ply between here and Central America ports that a consignment of hay on the last trip of the steamship Wanderer, contained contraband goods. They learned that twelve bales of hay, which had been shipped by a Cincinnati firm to E. L. Catlowe, an American in Port Barrios, upon being opened up by the custom officials had been found to contain Eight rifles and other munitions of war. It was also then discovered that two similar shipments had been made to Caldwell and H. C. Park, at Port Barrios.

It is not known whether the munitions of war were intended for Cuba or for an uprising in Guatemala. Caldwell has been arrested and the state department will be notified.

The Third Ticket.

WASHINGTON, Aug. 21.—Charles J. Canada, treasurer, and Robt. G. Mason, secretary of the executive committee of the national association of Democratic clubs, have resigned the membership of the organization, because it is engaged in supporting Bryan and Sewall. These gentlemen are interested in a third ticket movement.

Bee Association Officers.

SARATOGA, Aug. 21.—The American Bee association elected the following officers today:

President, James M. Walworth, Omaha; secretary, John Hinkley, Bellmont; treasurer, Francis Rawle, Philadelphia.

Executive committee: Alfred Honeywell, Boston; Chas. Chifin Allen, St. Louis; William M. Hawe, New Orleans.

A vice president for every state in the Union and a local council in each state were also chosen.

At the close of the session followed the presentation of a resolution to establish a section of insurance. It was lost.

WALL STREET UNEASY.

Losses of Distress Among Merchants and Need of Relief.

NEW YORK, Aug. 21.—Considerable uneasiness prevailed in Wall street today on account of the report of distress among merchants and the urgent need of financial relief. The estimated reduction of from three to five million dollars in tomorrow's reserve in the bank statement and a corresponding upward shifting of the loan expectations and the expectation of an early issue of clearing house certificates by the banks. It was reported that a meeting of the clearing house committee had been called to take action. A careful canvass of the leading bank officials elicited the unanimous expression of the opinion that there was no need for the issue of certificates at present and that such issue will be made in the case of extreme necessity. No meeting has been called to consider the issue of certificates.

A banker in close touch with the monetary situation says undoubtedly some relief will be necessary, but most of the large institutions passed off all right at the first of the month and most of the weaker concerns already have been weeded out. A limited market is reported today for choice grades of mercantile paper at 6 per cent. Time money is in small quantity at 6 per cent and commission.

A Bank Robbery.

KANSAS CITY, Aug. 21.—In Kansas City, Kansas, today, a man who is unknown thief entered a branch of the American National bank during the momentary absence of the cashier and laying open a desk, secured $1,000 in currency, or more, and escaped.

The Price of Gold.

NEW YORK, Aug. 21.—A private cable reports an advance of 4 to 7d 1-16 in the price of gold bullion in London and the Bank of England has sold for shipment to the United States $200,000 of American eagles at 76s. 7d. Messrs Freres say they have engaged in all $2,500,000 in gold for import to this country. All gold comes from France. A million was shipped on the Normania which sailed yesterday. Every dollar of it will remain in New York.

Hanna's Callers.

NEW YORK, Aug. 21.—Chairman Hanna's callers at Republican national headquarters today included ex-Congressman Hamilton, Washington; W. H. Parry, city controller, Seattle, Washington; Congressmen F. H. Gillett, Mass. and William P. Wharton, of the American protective tariff association. Hanna had just made a tour of New England where he found, he said Hanna, the tariff and silver issues generally with the Republicans on the currency issue and will vote for McKinley and Hobart.

In Favor of Cretan.

CHICAGO, Aug. 21.—The Tribune today says: The decision of the army board, so far as said to be learned, seems to be in favor of Colonel Crofton. It is tacitly admitted that he will be permitted to remain in the army, but no one about army headquarters in the Pullman building will say so plainly or consent to discuss the case. The department at Washington, it was said, has the final action in the matter and no one here was presumed to know anything about the matter until it was reported in the regular way. It was noticeable that every friend of Colonel Crofton about headquarters was pleased.

One of Sewall's Ships Lost.

RIO JANEIRO, Aug. 21.—A dispatch from Santa Catherina says the American ship Willis Sewall, Captain Dunphy, which sailed from New York, April 23rd for San Francisco, recently encountered 400 miles from the coast. Part of crew landed safely at Santa Catherina, but further are missing. The Willis Sewall was owned by Arthur Sewall & Co. of Bath, Maine, now which port the sailed.

Cod Fishing a Failure.

ST. JOHNS, N. F., Aug. 21.—The Labrador cod fishery, in which thirty thousand New Foundlanders are engaged every year, is complete failure, according to the latest reports brought by the mail steamer, the Labrador coast having been blockaded with ice until the end of July. Business men are very apprehensive concerning the commercial situation likely to result from this unfortunate condition of affairs.

INSURGENT FLAG.

Cretans Hoist an Emblem of Union with Greece.

LONDON, Aug. 21.—A dispatch from Athens to the Telegraph says that the insurgent Cretans have raised a flag at Epsomiti, emblematic of the union of Crete with Greece.

ALBANIAN KILL TURKS.

LONDON, Aug. 21.—A dispatch to the Times from Vienna says that it is announced that the Albanians have murdered the Turkish consuls at Vranja, Serria, near the Macedonia frontier. Though this statement is not yet verified, no denial of the official have been received.

A Boisterous Politician.

COLUMBUS, Ohio, Aug. 21.—A curb stone discussion of the coinage question here led to a shooting affray early this morning in Joseph Hith, a retired manufacturer and advocate of free coinage, engaged in a warm argument with Horace Wayman, an Englishman, who reported that Hith got a revolver, and when Wayman returned he fired three shots at him, one striking him in the right arm, splintering the bone. As Wayman is an old man, the injury will prove serious. Wayman is a cousin of the English novelist, Stanley Wayman.

THE WAR IN CUBA.

Insurgents Captured and a Railroad Destroyed.

HAVANA, Aug. 21.—The gunboat Agnil, while sailing a river on the east of the province of Pinar del Rio captured a number of insurgents concealed on a sloop. It is supposed they were hovering near the coast for the purpose of exchanging contraband dispatches between some of the insurgent leaders.

According to official advices received here Captain Leon Delmonte, one of the insurgent leaders in the province of Matanzas, has surrendered to the Spanish authorities.

Americans connected with the insurgent army recently destroyed the railroad at the landing places of the village of Duaes. This is a port from which the people of Holguin obtain a considerable portion of their supplies. An engine was turned and a number of cars as well as the baggage stored in them was destroyed. A majority of the inhabitants are abandoning the village and taking refuge in the seaport town of Gibraro.

Guayo, a naturalized American citizen, alleges to be an insurgent leader of considerable prominence, has been served with papers by the Spanish authorities which will result in his transfer for trial to the Santa Clara criminal court. He will be sent at once accordingly to Santa Clara jail, where he will remain until the charge against him can be heard by the Santa Clara Judges.

Jail-Delivery Killed.

DEADWOOD, S. D., Aug. 21.—Ray Sewall was shot and killed this morning by Fred Willard. Sewall was under indictment for cattle stealing and broke jail. He went to Willard's butcher shop, where he picked up a gun. From there he went to a livery stable and selected from it a saddle horse. The livery man being unarmed he proceeded to obey. While the horse was being saddled, Sewall went down the street and met the city marshal, who ordered him to surrender, but not being armed was unable to take him. Willard, who had obtained a gun, came up and told Sewall to drop his gun, but instead he pulled it on Willard and both men fired at once, Sewall's ball passing over Willard's head and lodging in the wall of the opposite building. Willard's bullet struck Sewall in the neck, severing the jugular vein and he dropped dead.

The coroner's jury has exonerated Willard.

Bad Carriers Strike.

CHICAGO, Aug. 21.—Seven thousand union mail carriers and union layers' helpers were represented in a mass meeting at the headquarters of the Buildings Trades Council last night. As a result of the meeting work on every building in course of construction in the city where the contractors have not granted the hours 8 cents an hour, is expected to stop by noon today.

WHAT IS SUNSTROKE

Recent Investigations Prove It to Be Blood Poisoning.

AN EXPLANATION NOW OFFERED.

The Importance of the Body Affected by Atmospheric Conditions of Hot Weather.

NEW YORK, Aug. 21.—The cause of sunstroke, a subject until these days, has at length been definitely discovered according to the chief of the officers of the state pathological institute. The have made investigations which show that, instead of the only rays being the direct cause of sunstroke, as has all along been believed by the medical profession, the internal chemistry of the body and its secretions are so modified by atmospheric conditions of excessive hot weather, that some of these secretions become absorbed, either in quality or quantity and are absorbed by the blood and act as virulent poisons.

On the first day of the recent heat pingue, Dr. Gn. L. Vanderbeck, director of the state pathological institute, assisted by two physicians began investigations. The conditions were counted fortunate for the discovery of the prevention of their work. A record was kept of all cases and experiments were made on some cases. Animals treated with an injection of blood from living cases, just after they had been stricken by the sun, and numerous within an hour and a half subsequently. The results of these experiments that sunstroke is really blood poisoning.

PARLIAMENT OF CANADA.

Opened by Lord Aberdeen—His Speech From the Throne.

OTTAWA, Ont., Aug. 21.—The formal opening of the eighth Parliament of Canada took place this evening, when his excellency, Lord Aberdeen, governor general, delivered the following speech from the throne:

Honorable gentlemen of the Senate and gentlemen of the House of Commons:

The necessity of making provision for the public service has compelled me to summon you together at an unusual interval of recess. It is impossible to lay before you at this session the public accounts for the last year, as the audit of the expires usually submitted to Parliament.

Under these circumstances and in view of the fact that you will be required to consider the tariff in the ensuing year, it does not appear expedient to invite your attention to any measure beyond the passage of the supplies.

The operation of the tariff will be made the subject of careful inquiry during the recess with a view to the preparation of such a measure as may, without doing any injustice to any interest, materially lighten the burden of the people.

Immediate steps will be taken to effect a settlement of the Manitoba school question and I have every confidence that when parliament next assembles, this important controversy will have been adjusted satisfactorily. The estimates for the current year will be laid before you forthwith. I hope that when you have given the necessary attention to the consideration of the year's supplies, I may be able to release you for the first time since the attendance at the session of parliament.

On request of Sir Charles Tupper, acting leader of the opposition, the debate on the address in reply to the governor's speech was postponed until next session. After transacting merely routine business, both houses adjourned.

Outbreak of Texas Fever.

NASHVILLE, Tenn., Aug. 21.—A destructive outbreak of Texas fever has developed at the county hospital near this city, northern cows having died and eight others have been found to be affected. The state veterinary secretary has a strict quarantine and all efforts will be made to prevent the fever spreading. A searching investigation will be instituted as to the cause.

A Gigantic Oil Deal.

CHICAGO, Aug. 21.—The Times-Herald says: Michael and John Cudahy, wealthy packers of this city, have entered into an oil deal of enormous proportions. If their present plans materialize, Chicago is to have a new industry, a rival of the great plant of the Standard Oil company at Whiting, and the first pipe line from the oil fields to enter its limits.

The Cudahys have purchased in Wells and Adams counties, Indiana, the entire holdings of the Northern Indiana Oil company. What price was paid is not known, but the purchase was made more than a year ago and with last has only field been put in the commercial circles of the city.

Following their purchases they have this week placed with the National Tube and Pipe company of Pittsburg, a $600,000 order for six inch oil pipes. How big the order is may be appreciated when it is known that it covers pipes for an underground oil line one hundred and seventy miles in length and extending from the oil fields to Chicago. With the tankage which they will erect in Indiana and the refining plant and tanks needed at the Chicago end it is estimated that their investment, aside from the original purchase price, will represent $1,000,000.

ORDERED OUT BACK.

A French Fencing Master and His Lady Companion.

NEW YORK, Aug. 21.—Leander Chaine, the French fencing master, who is detained at Ellis island while Mate Cutcoigny, for having eloped with her from their home in France, has been ordered deported by the special board of inquiry. The girl also will be sent back. They will leave on La Gascogne on Saturday. The French consul here has sent a letter to Ringmaster Cutting that Chaine is well known in Paris and was, so far as he knows, a respectable and industrious man. The board, however, took the ground that in view of the fact that he and Mate Chaine might not be able to make enough money to support the girl and to keep on the same side, determined to send both of them.

Chaine has hired a lawyer and will fight the immigration officials. He said: "I will not submit to the outrage. I will appeal to your courts, to the courts of appeals, to Mr. Cleveland even, before I will land alone and without the companionship and indispensable assistance of my companion, who shall not be deported simply because she happens to be both beautiful and loving."

The Coinage Question.

CHICAGO, Aug. 21.—Professor E. A. Rose of the Lowell Students' University of California last night delivered an address on the coinage question to a number of the students of Chicago University. Prof. Rose spoke for free silver.

Take species is, perhaps, the necessary of money which yet is to be given of the University on both sides of the question.

Miners on a Strike.

COLUMBUS, O., Aug. 21.—Twelve hundred miners have struck at Corning, Hocking, and Nelsonville, in the employment of railroads adopted by the miners' convention.

IDAHO IN JULY.

Report of Irwin, Walker and Associated Meters of Interest.

Idaho section, climate and crop service weather bureau, monthly report for July, 1896. Jas. F. McCallum, section director, Idaho Falls, Idaho:

The weather during the month was generally clear and warm with very little precipitation until the 11th, 12th, and 13th, upon which dates unusually heavy thunderstorms occurred in all parts of the state; in a few places in the southern section the storms of the 12th were the most severe on record; thunderstorms occurred also among mountains on the 21st, and 22nd, and these storms the remainder of the month was confined to a few light showers in various parts of the state. As a whole precipitation was most seasonable, weather was experienced, though light frost occurred at one station in the southwestern section on the 19th and 20th. The atmosphere over the greater part of the state was quite smoky during nearly the entire month.

Notes of observers. Idaho City: The thunderstorm of the 14th was the heaviest ever known here. Idaho Falls: Two thunderstorms about so hard spell occurred on the afternoon of the 12th; the second was quite severe and followed by the oldest residents to have been the heaviest ever experienced in this section; the thunder was terrific and the sky for about twenty minutes was to almost a continual roar of lightning; it is estimated that about half an inch of rain fell in Rexburg, two miles to the vicinity of station was killed by lightning; no additional damage except to hay cut but hay. Rexburg: At 8:30 p.m. of the 12th commenced the heaviest rain and thunderstorm for years, lasting one hour; a house and rider were killed by lightning 12 miles northwest of here. Paris: Two distinct shocks of earthquake on the morning of the 5th.

Summary: The mean temperature for the state was 71.0 degrees, 4.5 degrees warmer than July of last year; the highest month of mean temperature was 82.1 degrees at Minidoka, and the lowest, 63.1 at Chesterfield; the highest temperature recorded during the month was 107 degrees at Paris and Pocatello on the 5th, and the lowest, 31 at Chesterfield on the 24th, making an absolute range of 76 degrees; the greatest local monthly range of 40 degrees was at Payette and Pocatello, 42 degrees, and the least, 23 at Hornelle. The average precipitation was 0.75 inch, an excess of .12 inch over July, 1895; the greatest amount was at Idaho City, 1.65 inches, and the least, 0 at Minidoka; the greatest in any 24 hour period was 1.33 inches at Idaho City on the 14th. Average number of rainy days, 4. Average number of clear days, 16; prevailing direction of wind, southwest; average hourly velocity (from records at Grangeville and Lochsa Falls), 6.6 miles; maximum velocity (at Grangeville), 42 miles an hour from the southwest on the 19th.

Miscellaneous Phenomena: Aurorae, 2; fogs, 10th, 11th, 12th, 18th, 19th, 20th, 21st; hail, 12th; frost (light), 24th; dew, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st; thunderstorms, 12th, 13th, 14th, 21st; Coeur d'Alene, 13th; Cotral, 8th, 12th, 13th; Dairy, 10th, 14th, 15th, 16th, 21st, 22nd, 23rd; Downey, 2nd, 3rd, 4th, 5th, 6th, 12th; Gimlet, 1st, 8th, 9th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 17th, 18th, 19th, 20th, 21st; Grangeville, 5th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st; Idaho Falls, 12th; Junction, 1st, 2nd, 4th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st; Lewiston, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st; Nampa, 10th, 11th, 12th, 14th, 15th; Paris, 12th, 17th, 18th; Pocatello, 12th; Rexburg, 12th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st; Salmon, 12th, 13th; Salmon, 1st, 6th, 8th, 9th, 10th, 11th, 20th, 21st; Soldier, 7th, 12th; Warren, 10th, 11th, 12th, 20th.

Feeding the Dogs.

Feeding a hundred dogs would seem quite a task to a person who suddenly found himself assigned to that position but the gentlemen who is required to serve the meals to Prof. Geary's valuable canines does not think it anything out of the ordinary. The pretty dogs who have annexed the enclosure here this week are kept in a stable where they have plenty of room and are fed but once a day, but they are allowed to eat all they want at that one meal. It requires nearly a barrel of meat scraps to satisfy the entire number. The food is heated and in winter is poured upon the floor and the dogs are called up one by one, getting their fill. The dogs are fed on the floor and continuing until all of them are busy at the feed. They are not permitted during the meal and never fight. It is quite a novelty to see so many dogs eating at once and not even barking. The night of the dog eating their supper or whatever meal it is called, would no doubt make so big a hit in the performance as some of the acts do. The largest elephant of the herd was in attendance last night. There will be a matinee tomorrow afternoon at 2:30.

A MURDEROUS ASSAULT.

H. J. Crandall, an Employe at Hosler's Mill, Shot by Robbers.

H. J. Crandall, an employe at Hosler's flour mill, between three and four miles south of the city, was the victim of a murderous assault by robbers, in his own home near the mill last evening.

Mr. Crandall is unmarried and lives in the house alone, and it appears that about 10 o'clock, two masked cowpokes rushed in upon him and ordered him to throw up his hands. This he did promptly, but not before one of the men had shot him, it feeling a wound in the fleshy part of the leg near the hip. The murderous six hands then robbed him of all the cash he had—ten dollars—and a gold watch, and made their escape.

The wounded man shortly afterwards came to town and reported to Dr. Parmiter's where his wounds were dressed, and he was made as comfortable as could be. While his wounds are painful, they are not necessarily dangerous.

Mr. Crandall describes his assailants as being short and rather roughly dressed. They are being trailed by Deputy Sheriff Little and Steele, who set out after them shortly after midnight.

THE GREEN BAG.

Mayor Glendinning has approved the ordinance allowing a 5 per cent discount on water rates paid in cash before September 20.

The People's Saving and Loan association, by J. H. Bishop, assignee, is suing Charles F. and Augusta D. Mitchell for $503.70 on a promissory note.

The man Ellis, who was yesterday examined by Judge Bilhide as to his sanity, will be furnished a ticket by the county to Denver, where he has friends.

State Auditor Richards is busy this afternoon signing the warrants covering a big batch of claims passed upon by the board of examiners yesterday but late yesterday.

There are 600 electric lamps placed in the city and county building. A shortage of forty lamps in a shipment of 500 from the General Electric company's supply house at Denver is reported.

James H. Bishop, assignee of the People's Saving & Loan association, has commenced suit against Arthur Davis and others to recover $503.70 loaned the defendant. The amount is secured by mortgage.

Joe. M. Lapsley, Stephen A. Stadtlander, Edward H. Hoch, H. H. Davis, H. H. Cheney and C. D. Hersch today filed with the clerk of the Third district court a petition for the appointment of a receiver for the Western Pumping and Heating company, and Judge Street thereupon appointed J. J. Shell as such receiver, with bonds fixed at $1,000.

The Supreme court yesterday handed down an opinion affirming the judgment of the Third district court in the case of the Brigham and North Point Irrigation company against Charles C. Little et al. The action grew out of an old contract for water from a certain ditch for irrigating purposes. It appears that in the year of 1869 Ferminer Lindsewood secured through which he was irrigating from the Jordan river about 200 acres of land. Land owners below Little's farm later on organized a corporation known as the Jordan River Irrigation company. In 1885 Little transferred to this company his own and canal and the right of way through his land in consideration of the company agreeing to furnish him as much water as he was using for the irrigation of his 200 acres. The company was also given the right to connect a house of his to a waste weir company in straightening the canal, for which he was to be paid $1,000. The company took possession of the canal and then, in 1892 the old corporation was succeeded by the North Point Irrigation company. Little made some improvements and paid $200 on the $1,000 for removing the house. In 1892 the people in charge of the Little farm cut the water of the ditch and refused to give water as to injure the supply of the people further down the canal. Suit was instituted in the Third district court and decided in favor of Little. The contract showed that the Little people were entitled to use all water necessary for the irrigation of the 200 acres, but there was no specification as to the quantity necessary for this, but the court decided that the contract in this respect had not been violated by Little.

President Clark Here.

President S. H. H. Clark of the Union Pacific arrived in Salt Lake last evening accompanied by Mr. Bancroft. The latter stated today that they had been motoring in the wilds of Idaho for the last couple of weeks; that they had thoroughly enjoyed themselves and that the visit here now has no business significance. Mr. Clark will remain for two or three days.

Three New Cases.

SUPER, Aug. 20th, 1896.—I have to report three new cases since last report, though upon the whole we are quite well. We have not had a death since the 3rd inst. Have eight cases of sickness, two of which only are at all serious. THOMAS YATES.

UNCERTAIN POLITICS.

State Conventions May Bring Forth Numerous Surprises.

AND THE ELECTION MANY MORE.

Men Who Now Talk of "Our Things" Will Be Made to Feel the Smart of Political Disappointment.

The field of politics is always more or less uncertain. This year it is unusually so. Like the sage covered prairies of the west it is full of holes and hummocks burrowed out by the gophers, ground dogs and badgers of professional politics. Into these hidden hollows and excavations office hunting chiefs will plunge with a suddenness and violence that will unhorse them as sure as the world. Some will rise safely over, and, dismounting when the battle is ended, step into the harness of public officialdom. But who will they be? In Utah the silver forces claim to win an air of apparently well placed confidence that they will sweep the field. Their opponents, however, seem to have taken on new hope and promise a lively contest.

Just now, interest is centering largely upon the approaching State conventions. The present prospects are that there will be some surprises in store for the followers of each; that certain straggling chieftains who are counting on a "sure thing" will find their fondest anticipations dissipated into thin air. And then the election. As to that "things are far from settled" so to make conclusive prognostications an impossibility. Only one thing seems sure and that is—more surprises.

SENATOR DUBOIS'S DEFEAT.

Causes Sorrow Among the Silver Men and Is Joined in the Banks of the McKinley Enlisters.

The news of the apparently complete and thorough fiasco of Democrats and Populists in Idaho was the chief topic of political conversation in this city today. By silver Republicans and some Democrats, too, the information was received and discussed with expressions of regret. While they were not all favorable to Senator Dubois personally yet they unanimously concede that he had been a power of strength to Idaho also in the chief chamber of national legislation when friends were not so numerous as they are today and when victory was by no means so certain. That being true they would have liked very much to have seen such a valiant of the friends of silver in Idaho as would have resulted in his return to the senate next year. Now they regard that as impossible and their only consolation is the assurance that as staunch a champion of the white metal as himself will don his senatorial toga.

As to the McKinley gold men, there is no sadness or regret among them over the Democrat-Populist fiasco. On the contrary they consider that it has put them in high feather. Said an unincumbering member of the Republican state committee today: "The defeat of Dubois in Idaho—for that is how I interpret the Democratic and Populist fusion—is going to help us a great deal in Utah. It will mean a great many votes."

"But how about Idaho?" asked the News man.

"O, that is lost to us this year beyond hope of recovery. The party is split wide open there. We must reconcile ourselves to that. The legislature of that state will not be in the hands of the Republicans next time. Democrats and Populists will control and will name a senator of their own selection. All what we must do is to prevent a disruption of the party in Utah. That, I think, will be easier now than at any time previous to the Idaho development."

Political Pointers.

A McKinley club has been organized at Mt. Pleasant.

Ogden will have a McKinley ratification tomorrow night.

It is announced that Judge Henderson will do service for the silver cause among the farmers of Michigan.

Harry McCallum says that he is not going east to see McKinley and Hobart, but he adds that he hopes all those gentlemen must come to Utah to see him.

Hon. C. H. McBride of Tooele came in from Stokes county last evening. He says that the followers of McKinley are showing surprising strength in that section.

The Republican county committee has opened headquarters in the Central block on Second South street and will commence active operations for the approaching campaign.

The Old Soldiers' Sixteen to One Silver club will meet at 60 West Second South street tomorrow at 8 o'clock to elect officers and transact other business. A silver gun club will be present.

Lehi Banner: It begins to be a question which wing of the Republican party of the State will be in the majority at the State convention. The McKinley forces are reported growing in numbers daily.

J. L. Wrathall of Grantsville, commenting on Representative Rudger's statement to the effect that all Republicans in Grantsville are for Bryan, said today: "The fact is there is only one Bryan or silver Republican in the town." Somebody is mistaken.

Ephraim Enterprise: The way the Democrats, Populists and silver Republicans are uniting together in the doubtful states is cheering to the friends of silver. Their combined
