TELEGRAPHIC.

FAVOR INCOME TAX.

Got the Money But Cannot Use All of It.

A MYSTERIOUS DISAPPEARANCE.

Minister and Organist Elope.—He Leaves a Wife and Five Children.—Hawaiian Matters.

WASHINGTON, D. C., Nov. 15.—The full democratic membership of the ways and means committee has been called to meet tomorrow morning. The members of the committee who have been favoring a provision for an income tax feel confident that the result of the series of conferences to begin tomorrow will prove that a majority of the committee favor such a plan.

The free ore and coal schedules will be discussed and the question of placing these articles on the free list probably settled in the affirmative. The tobacco, beer and whisky schedules are also expected to be considered, and there now appears little doubt but there will be a material increase of the tax on whisky and other distilled liquors. A proposition for an increase of five cents a gallon on whisky is now being informally discussed and some mention the increase as high as 10 cents a gallon.

Among the importers there is much complaint against the classification clause of the administrative act, and a committee of New York importers, consisting of P. B. Worrall and Donald McKelvey, today presented their views on the subject to Chairman Wilson and the treasury officials. They suggested that the classification question be taken out of the hands of the general appraisers, leaving them to act as appraisers on questions of value only.

SILVER COIN

Congress Will Have to Solve the Financial Difficulty.

WASHINGTON, D. C., Nov. 15.—The excess of the expenditures over the receipts has reduced the available balance in the treasury to a point lower than it has ever been in the recollection of treasury officials. The available balance tonight is $89,088,974, of which $54,994,476 is gold reserve. The officials of the department state that the government will meet its obligations without resort to any extraordinary steps raising the revenue.

The greatest embarrassment is the $12,088,659 currency balance, of which $12,000,000 is in subsidiary silver coin, a legal tender to a very limited extent, and the department cannot make use of it in meeting necessary payments.

In view of the anticipated gold importations the treasury department at one time contemplated changing the coinage of gold from smaller to larger denominations, but it was authoritatively stated today at the treasury department that no such change would be made. It is believed Congress will be called upon to solve the financial difficulty.

A BRUTE.

A Methodist Minister Elopes With his Organist.

BALTIMORE, Nov. 15.—The congregation of the Carvey Methodist Episcopal church were shocked today to learn that their popular pastor, C. M. Bragg, had eloped on Monday with Miss Lucille Phelps, the organist of the church. Bragg, 42 years old, deserts a wife and family of five children. Mrs. Bragg, who is in delicate health, was under the impression that her husband was in the country until she happened to find a note on the study table with these words: "I am a ruined man; I am going away and will not return. Tell the children I am dead."

Miss Phelps sent a postal card to her father, saying she had gone with the clergyman.

A Women of Letters Disappears.

NEW YORK, Nov. 15.—Mrs. Elizabeth A. Thompkins, the well known turf writer on the staff of the Commercial Advertiser, with a five-year old son, disappeared a month ago, after a visit to her mother at St. Louis. She left New York early in October with the intention of going to California to write up the stock farms there and attend the fall and winter race meetings on the Pacific coast. Her husband, H. R. Thompkins, the turf writer of Washington, D. C., is so prostrated by the shock of his wife's disappearance that he is now suffering a stroke of paralysis.

Patrons of Husbandry.

RYE BEACH, N. Y., Nov. 15.—The twenty-seventh annual session of the national grange, patrons of husbandry, opened today. Eight hundred delegates from various states were present and more are expected tomorrow. In his annual address Worthy Master J. H. Kingsbury said in some respects there are large additions and in others small losses to the order. The master urged that the farmers should insist upon their rights and a fair share of the profits. He said the present secretary of agriculture was a disappointment to the farmers, member for his position.

STILL FRIENDLY.

Why Thurston Visited Secretary Gresham.

WASHINGTON, D. C., Nov. 15.—Minister Thurston has not denounced his opponents. His relations with this country are still, to all appearances at least, most friendly. The fact that the news, after the conference he had with Gresham yesterday, is considered significant. The relations between the Hawaiian legation and the state department remain the same. The Hawaiian government, however, will stand on its rights as an independent sovereignty, and its policy will be to regard as an act of war any movement looking to a restoration of the queen.

A leading one but remain in a country that has declared war against its government. Its natural course would be to demand its passports and get without the limits of the hostile country. Minister Thurston, indeed, has no official information that this country has declared war on his government. Gresham's published letter, addressed to the President, contains much information, it is true, but under the punctilious requirements of ordinary it is not a sufficient basis for Minister Thurston to act upon, because it has not been officially addressed to him. It is, however, a sufficient basis for him to make a requisition on the secretary for information as to the United States government's attitude towards his government. That we understandingly, too purpose of his visit to Gresham. This visit was satisfactory, as assuring the present friendly status of the department and the Hawaiian legation. It is naturally possible that orders have been given to restore the queen by force while the department of state is still seeking to maintain friendly relations with the legation.

ROYALTY'S RELATIONS.

Details of Ancestry, Occupations and General Appearance.

WASHINGTON, D. C., Nov. 15.—The original name of Queen Lilioukalani to the throne was by marriage of her mother Kalakua. The Hawaiian constitution provides for this mode of succession. When the monarch failed to provide a successor the choice reverted to the upper house of the legislature. When Lunalilo died in 1874, after a brief reign, he had failed to nominate a successor. The house of nobles chose David Kalakua. He had been a prominent lawyer in Honolulu and a player of the banjo of dances for a consideration. His wife, Kaiolani, had been the widow of a Scotch doctor named Macondy. At the time she married she engaged her husband by wagering chickens. Kalakua's mother was of the blood of the low chiefs, as was his reputed father. It is notorious, however, that Kalakua's real father was a negro barber. Queen Kaiolani, his mother, Lilioukalani, show a wide divergence from the Hawaiian facial type. Their noses are flatter, their hair kinky and their lips much thicker than the pure native type. The late princess, her half sister, Princess Kaiulani, a half sister to Lilioukalani, was of pure native blood, and her appearance was in marked contrast to that of her brother and sister.

Fire Records.

PITTSBURG, Nov. 15.—The National Reform association's recent session has a large attendance. The business consisted of the reading and adoption of papers covering politics, labor, Chinese exclusion, divorce, Sunday observation, the liquor traffic and a number of other topics.

An Assignment.

LOUISVILLE, KY., Nov. 15.—The Kentucky Mining company of this city made an assignment today to the Germania Safety Vault & Trust company. The assets are stated to be over $300,000 and the liabilities between $170,000 and $180,000. The creditors have taken no decisive action. They hope to resume at an early day.

Criminal Neglect.

CHICAGO, Nov. 15.—The coroner's jury investigating the Rock Island wreck at Seventy-first street, November 9, today returned a verdict holding the company responsible for criminal neglect. Conductor Freeman, Flagman Orton and Conductor Potter of the wrecked train are held by the central criminal court for negligence.

Upsetting the Coon Tables.

CHICAGO, Nov. 15.—Beginning Sunday, the Michigan Central & Lake Shore will run from New York to Chicago in twenty-six hours, one hour longer than at present. This will enable their connections with Western trains and therefore a complete of continental time tables. It is not known what action will result, but the Vanderbilt hold on a change and the Western roads equally opposed to it.

All the Western roads announced their intention of meeting the action of the Union Pacific in paying commissions on round trip tickets from California points.

President Dole and Minister Willis.

WASHINGTON, Nov. 15.—The chief interest in the Hawaiian situation now surrounds the instructions given Minister Willis and the contents of the cipher message which was received after the arrival of the Claus.

To President Dole it is understood Minister Willis has been instructed to say the President felt it necessary to decide the matter as if the dispute had been referred to him, and in requesting the queen the President hopes to have the freely co-operation of the Dole administration. After having righted the wrong done by this government the United States would resume its policy of non-interference.

The belief is growing that Minister Willis's instructions did not include the employment of force. The rather cordial reception accorded yesterday by Secretary Gresham to Minister Thurston's official call and the usual acknowledgment of mutual courtesies to wear the legation and the government makes it incredible that the instructions have been given to land marines in Honolulu for the purpose of aggression upon the government which Mr. Thurston represents.

Going—Some Have Gone.

CHICAGO, Nov. 15.—The chief attractions of the Midway Plaisance are already gone or preparing to go to San Francisco to lend their aid in making the Mid-winter Fair a bowling success, and if they don't we hardly see how. In the Midway there is not the slightest doubt of the moral fulfilment of their purpose in making the journey to the Pacific coast. Probably without exception the most "pecuniary" feature of the entire Midway was Cairo street. Its Oriental and Egyptian camel, who attended attention to their wares by singing "Tarara-boom-de-ays," gathered in Arabs together and left for San Francisco tonight.

TROUBLE IN MEXICO.

Reported that the Mormons Have Been Ordered to Leave.

KANSAS CITY, Mo., Nov. 15.—A special to the Journal from Silver City, N. M., says: Two hundred Mormons in possession of Palomas, Mexico. They have taken the custom house and driven everybody off. A messenger arrived in the Mexican Central at Deming, N. M., asking for assistance. The colonel telegraphed the Mexican authorities for troops. Governor Thornton of New Mexico is requested to ask the war department for troops to aid in the protection of Americans. Serious trouble is anticipated.

DALLAS, TEX., Nov. 15.—The News' El Paso, Texas, special says: The Mexican revolutionists, instead of attacking Ciudad Juarez, as it has been only expected, have evaded the federal troops from Chihuahua and Casa Grande and taken Ascension and Corralitos. Americans who were ordered out of Ascension by the revolutionists are working safely at Deming, N. M. At Dos, the Mormon colonists, besides our Lost Patrons, are across the border, have been ordered to abandon their homes.

Attempted Bank Robbery.

CHICAGO, Nov. 15.—The police were investigating about the attempt of McCormick Tuesday evening shooting with pistol all day and evening they say he confessed that the shot was made by to cover the loss of money which was missing every time he came to work. He was arrested. The sheriff of Will county, Ind., only attached Mr. Cornell's shooting outfit under an unpaid chattel mortgage, and he is in custody. It is are fairly tangled up.

A Murderous Dutchman.

DALLAS, TEX., Nov. 15.—Sunday night, Oct. 29, F. M. Langston's prominent business man, was murdered near his gate by a negro armed with a rifle, as gaspers. The negro, John Harris, was brought here last night and made a full confession, stating that William to Parish, the murderer man's partner in business, had employed him to commit the murder. Parish was arrested and jailed. About midnight he attempted to murder by cutting his throat against the iron bars of his cell. It is believed he will recover. He had a $10,000 policy on Langston's life. Further evidence of Parish's guilt is conclusive. On day last week Parish cashed a conversion bank and drew two thousand dollars and mailed them to John Harris.

Conversion Convention.

KANSAS CITY, MO., Nov. 15.—The Live Stock Sanitary boards of several western and southern states assembled at Live Stock Exchange hall at the Stockyards this morning to hold a convention for the purpose of which are likely to be important to the stock growing interest of the West. The Live Stock Sanitary boards of Missouri, Kansas, Colorado, Montana, Illinois, Indiana, Texas and Wyoming were present. Secretary Morton of the department of agriculture was represented by Albert Dean, inspector cattle inspector at the Yards.

A resolution was adopted recommending to the secretary of agriculture that the letter line be changed by adding out the counties of Iron, Tom Green, Reading, Rockwall and Fulton, and by taking in the counties of Hardeman, Foss, Knox, Haskell, Stonewall and Fisher in Texas, and by making the state line between Missouri and Arkansas the letter line between these states.

A. J. Kinberg of Texas, Dr. Trasgower of Illinois and J. B. White of Kansas were appointed a committee to correspond with the secretary of agriculture in regard to experiments with a view of showing that Texas cattle can be disinfected by combing them of ticks.

Was Lost and is Found.

NEW YORK, Nov. 15.—This evening the Herald says: President Cleveland has unexpectedly arrived here. Early this morning he drove to the Victoria hotel and at 1:30 a. m. he came alone and took breakfast in his room. The object of the visit is a mystery. He had not appeared at any down town place where he might be expected to visit up to the time this afternoon.

A FEW FOREIGN ITEMS.

More About the Bomb Throwers in Barcelona.

Rumors Adverse to the Bank of England—French Wine Duties.—The Anarchists.

BARCELONA, Nov. 15.—It is stated that Judge Dumonceh has in his possession the names of all persons who are connected with the bomb outrage at the Liceo theater, and the culprits are already in custody. The plan was one which, if successfully carried out, would have involved wholesale destruction of life. All of the plotters were to carry bombs into the theater and station themselves in different parts of the gallery. One of the number was deputed to turn out the lights and at this signal the bombs were to be thrown. The man who was to put out the lights failed to find the meter and one of his companions, growing impatient waiting for the darkness, threw his bombs.

Investigating Irregularities.

LONDON, Nov. 15.—The Times this morning, referring to rumors adverse to the bank of England, says: "An investigation of certain irregularities with regard to advances on securities, is proceeding, but it is possible the losses will to much less than has been alleged, and the reports of the retirement of the directors is premature. While it is difficult to fix the blame upon individual directors, we are of the opinion that there must be some serious fault in the system under which the irregularities occurred. It appears to us that on the present occasion the bank will be well advised to depart from its customary and proper practice of ignoring such rumors and publish the facts, which concern the public, in advance of the half yearly meeting. While the bank is a private corporation, it is also a national institution, and therefore right to reassure the public when uneasiness has been created by false rumors."

Retaliation Wine.

PARIS, Nov. 15.—Adolphe Turrel, deputy from the department of Aude, has written to the minister of commerce, representing that a reduction in American duties on French wines is to be obtained if it could be proved that the wines exported were the wines of France but wines for export consumption. Turrel adds that the prosecution excludes all but high-class wines, and if the American duties were reduced, the ordinary wines would be exported as French. He says there are millions of hectoliters of excellent wine in France which wait 15 to 20 francs per hectoliter.

Crushed to Bits.

LONDON, Nov. 15.—The scientific discussion yesterday in the Commons created a dreadful row. The Times referring to the remarks of Baron Rothschild relative to the wisdom of a reserve at Chicago deserve careful study upon the part of the American people sympathizing with the demand for the issues of our economic dynamiters."

WATCH THE CHILDREN

Are the Warning Words of Dr. Mansfield and Blood.—The Story Best of Miss Miller, Given Below, Should Cautious Parents to Now Closely Watch Their Little Ones.

"I am in good health now and cannot give more I can recommend," said Miss Miller to the news.

MARY MILLER, 60 Mt. Street.

Concerning the case, "I suffered very much from bad blood, and nothing in the form of medicine, or to give me relief, had I tried to no avail. My mother had read of Dr. Mansfield's Blood Pills, and I decided to try them. I took two boxes and they did me good. I then took two more, and I feel that I am cured. I recommend the Dr. Mansfield's Blood Pills to all who are in need of a good blood purifier."

Sold by druggists at $1 a box. Sent on receipt of price. Apply now, before the severe and weather.

TREATMENT BY MAIL.

No Necessity of Coming to the City for Treatment.

Blood poison may exist many years before the symptoms appear. Mercury and potash are the old time remedies, and have been used by the medical profession for years. Mercury ruins the system, and potash only drives the poison from the blood to some other part of the system, where it lies in ambush, to be aroused by the slightest cause, to run its course of misery and ruin. Neither mercury nor potash can cure blood poison. S. S. S. is the only remedy that can reach the disease, because it is the only blood purifier powerful enough to force the poison out of the blood. Its action is entirely vegetable, and it is the only blood purifier guaranteed to be free from mercury and potash. Write us about your case, and our physicians will give you their advice and direct you how to cure yourself at home. Address, Swift Specific Co., Atlanta, Ga.

Zion Medical Institute

Located permanently at Rooms 303, 305, 307, Jennings Building (P. O. Building), Salt Lake City, Utah.
