Disagreeably Odorous Perspirations of the feet, which render many persons unfit for appearance in company, and makes them positively intolerable in a close room, can be remedied at once by application of the feet with GLENN'S SULPHUR SOAP. No other application has ever been known to produce that desirable result. Colors are tried in vain, and when the Sulphur Soap can alone be relied on to cure the cause permanently.
Hill's Hair and Whisker Dye, black or brown, 50c.
Consumption Can be Cured.
Schenck's Pulmonic Syrup, Schenck's Sea Weed Tonic, Schenck's Mankake Pills, are the only medicines that will cure Pulmonary Consumption. Frequently medicines that will stop a cough will occasion the death of the patient; they lock up the liver, stop the circulation of the blood, hemorrhage follows, and in fact they clog the action of the very organs that caused the cough. Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many persons complain of a dull pain in the side, constipation, coated tongue, pain in the shoulder blade, feelings of drowsiness and restlessness, the food lying heavily on the stomach, accompanied with acidity and belching up of wind.
These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly checked, will find the stomach and liver clogged, remaining torpid and inactive, and almost before they are aware the lungs are a mass of sores, and ulcerated, the result of which is death.
Schenck's Pulmonic Syrup is an expectorant which does not contain opium or anything calculated to check a cough suddenly.
Schenck's Sea Weed Tonic dissolves the food, mixes with the gastric juices of the stomach, aids digestion, and creates a ravenous appetite.
When the bowels are constipated, skin affections, and the symptoms otherwise of a bilious tendency, Schenck's Mankake Pills are required.
These medicines are prepared only by J. H. SCHENCK & SON, N. E. corner Sixth & Arch Sts., and are for sale by all druggists and dealers.

Corrected daily by Deseret National Bank.
SALT LAKE CITY, October 22, 1897.
Buying at \$102. Selling at \$103.
LOCAL AND OTHER MATTERS.
Thermometer 73 degrees F. in the shade at 1 p.m. to-day. Clear.
Stealing.—A lad named Ernest White was before the police judge this morning, charged with stealing a pistol. He was fined \$5.
Missionaries.—It is expected that most of the missionaries called at the late General Conference to go to Europe, and some who are destined for the eastern states, will start eastward on or about the 1st of November.
Second Crop.—Yesterday Brother Thorpe, of the First Ward, showed us some fine, large specimens of Early Rose potatoes, of the second crop raised this year on the same ground, on his lot.
Expected Home.—Elder John W. Sharp, who has been touring in Tennessee, is expected to reach this city this evening. His return was necessitated by sickness, he having been ill with fever and ague for some time past.
Runaway.—The delivery wagon of Mr. John Cook, butcher, came down West Temple Street this morning at break-neck speed, minus a driver. The runaway also rushed along First South Street, threading dexterously among street cars, wagons and buggies, avoiding a smash, and bringing up directly in front of Mr. Cook's shop, without damage.
Anniversary Ball.—A grand anniversary ball will be given on Friday evening, the 23rd inst., by the Anala Association of this city. The Emporium Hall is engaged for the occasion, Olsen's band will furnish the music and Currie will be the caller. Tickets \$1.50 the couple, and dancing will commence at 8.30 p.m. It is expected to be a very select and enjoyable affair.
The Medal.—To-morrow the members of the Deseret Rifle Club will shoot, on Arsenal Hill range, to decide who shall hold the championship medal of the organization. Mr. McLaughlin has won the temporary possession of the article four times. Should he come off best in to-morrow's contest, according to the rules of the club, he will become its permanent possessor.
In Minnesota.—Elders B. P. Wolfenstein and John Hafen write under date of the 15th inst., that they are laboring with considerable success in various portions of the State of Minnesota. They purpose leaving Minneapolis on the 1st inst., for home, with a small company of Saints, as follows: Margertha Houghton, daughter and child of the latter; P. Nell, wife and five children; Newell Judkins, Martha Young (widow) and four children; and probably a few others.
A few have been baptized recently, and the promises have been fulfilled in the signs following those that believe.
Malice Aforethought.—This morning it was discovered that some person, apparently prompted by an unadulterated spirit of mischief, had poured a quantity of oil into the basin of the public drinking fountain near the Z. C. M. I. building. Several persons drank the water before being aware of this, causing them to be affected with nausea. The fountain was soon afterwards cleaned.
It would be a good thing if the perpetrator of the filthy trick could be discovered and taught a profitable lesson.
The Rifle.—Yesterday, on account of Messrs Milner, Rigby and Greenhill, of the British rifle team being in the city, a match, at 200 yards, off hand, was improvised by the local riflemen, and came off on the Arsenal Hill range. The following is the score:
W. K. Conrad, 22
G. A. Meares, 22
John Greenbeck, 21
Thomas Stone, 20
John Sharp, 20
E. Egli, 20
I. Hanson, 20
J. Heuser, 19
James Sharp, 19
Thomas Cook, 19
J. E. Bamberger, 19
J. K. Miller, 19
Wm. Rigby, 19
C. B. Wallin, 18
H. Denhalter, 16
Wm. Heuser, 14
H. Graves, 13
The prize shot for a Weasoo pocket rifle, was won by Mr. Conrad. Mr. Greenhill did not shoot, and Messrs. Milner and Rigby, being unaccustomed to the off hand style of shooting, as will be seen, only scored 19 apiece.

"Rome."—Mrs. Dr. Ferguson, a lady of liberal education and refined culture, has consented to deliver her lecture, "To Rome and Back in an Hour," at the 20th Ward School-house, on Friday evening, for the benefit of a couple of missionaries residing in that part of the city, who will shortly leave for Europe. The lady has the reputation of being a reliable and entertaining lecturer.
Correction.—In our notice of the improvements on the Weber river, we stated that Bishop John Sharp had the "contract." The facts are that the U. P., C. P. and U. C. companies have agreed to share the expense, and have deputed the Bishop to superintend the whole work. He is not a "contractor" and cannot be, as a Director of the U. P. R. R.
Alleghenians.—Prices are reduced at the Theatre to-night, that all may have the chance to see the unique performance of the Alleghenians. They are always good and on this visit present several novelties. See advertisement.
At the matinee which will take place at 3 p. m. to-morrow, schools will be admitted at 15c. per head; other children 25c., adults 50c. It is a very fine and varied performance. At the Matinee, each child will receive a chromo or other souvenir of the Alleghenians.
Silk and Bees.—C. A. Christenson, of Fountain Green, Sanpete, sends us some particulars regarding his experience in silk and bee culture. Five or six years ago he obtained two ounces of mulberry seed from the late Louis A. Bertrand, with directions about planting, &c. From this small beginning he obtained 2,000 trees, 700 of which, when they were large enough, he re-planted, 3 feet by 6 feet apart. They are doing excellently, producing lots of fruit, and not one percent of the whole have died. He has also raised some silk, and thinks the results he has attained are highly encouraging. Brother Christenson has strong faith that sericulture could be made a prolific source of wealth to Utah.
He has also kept bees for the last five years, and sold many hives to the surrounding settlements. Last spring he had 37 hives and now he has about 100, all free from every kind of disease the bee is "heir to." So far as he is aware there is no foul brood in the entire colony. On account of the dryness of the present season, however, the honey crop has been comparatively light.
Accidental Poisoning.—Yesterday Mrs. Harrison, her daughter and son, of Bountiful, came near being fatally poisoned. The lady had been reading in a medical work about an herb that was highly recommended as a blood purifier. She procured a quantity from this city, made a decoction, took some herself, gave some to her daughter, aged about 15 years, and offered some to her son, about four years old. The little fellow, however, tasted it, and would not take any, saying it was not good.
Shortly after taking the stuff, about noon yesterday, the mother and daughter were seized with peculiar and distressing symptoms, causing their hands to firmly clench and their teeth to set together.
Dr. F. D. Benedict was sent for and antidotes and restoratives were administered, a portion, at least, of the herbs taken being of a poisonous character. The doctor stated that together with the herb named in the medical work, frequently grows another of a deadly poisonous character, whose leaves can scarcely be distinguished from those of the one having curative properties. His theory of the case was that, in gathering the blood purifying herb, some of the leaves of the poisonous one had been inadvertently mixed with it.
We learned to-day, that Mrs. Harrison and her daughter were in a fair way to recovery, but they had a very narrow escape, as it was feared, at one time, that they could not survive.
The Indians.—The various attempts that have been made to drive the few peaceful harmless Indians from the farms they are, with the aid and under the instructions of a number of friendly, philanthropic white men, can only be characterized as brutal, merciless, and wholly unnecessary. The abuse of folly and vindictiveness was reached in this respect by the lately defunct grand jury of the Third District, in their report, which we know, on positive and unimpeachable information, to be full of misrepresentations and unqualified falsehoods. The mananthropic and unscrupulous spirit manifested in the attempt alluded to has, as is generally acknowledged, been the cause of nine-tenths of the Indian troubles that have vexed the country from time to time, and still it is fostered and exhibited. One would have thought the Corinne fiasco would have been sufficient to show the futility of the attempts of the scaremongers to get up a "contractor's war."
We are informed that another attempt is proposed to oust the Indians located in Malad Valley, and also those situated in Thistle Valley, from their possessions. Undesirably that Col. Critchlow, Indian Agent for the Utah Reservation; had received instructions relative to the Indians in Thistle Valley, and that he had been advised, by the Commissioner of Indian Affairs, at Washington, to consult with District Attorney Howard upon the subject, our reported called upon the latter gentleman, from whom he learned that the consultation with the agent had not yet taken place. In answer to an interrogation as to the nature of the instructions issued by the Commissioner, Col. Howard stated that he understood them to be positive as to the removal of the Indians to their respective reservations.
If this be the case it is evident that misrepresentations have been made to the Indian Commissioner, who is evidently unaware of the fact that the Indians referred to do

not belong to any reservation, that they have severed their tribal relations, that they are in peaceful pursuit of their own business and avocations, on their own land, and are therefore as much entitled to the protection of the law and to be let alone as white men.
We have no idea that the Administration will adopt any extreme measures, but should an attempt be made to again drive and rob those comparatively helpless people parties making it may find they have undertaken to split an exceedingly hard knot on a decidedly tough log. The law and the right are both on the side of the Indians in this matter, and the law will surely not be overridden with impunity, even if the intended victims should be a handful of ignorant aborigines.
Men are never so ridiculous from the qualities which really belong to them as from those which they pretend to have.
