THE DESERET EVENING NEWS.

TRUTH AND LIBERTY.

FORTY-NINTH YEAR. FRIDAY, MARCH 3, 1899, SALT LAKE CITY, UTAH. NUMBER 86.

WILL REPORT ON MONDAY.

The Investigation Committee Will Submit Its Findings Then.

LEGISLATURE TO VISIT LOGAN.

Senate Passes Some Bills and Introduces a Resolution to Honor the Utah Volunteers—Hurrying Business Toward the Close of the Session.

The two houses of the Legislature act in joint assembly today at noon as provided by law. Roll was called, prayer was offered by the chaplain of the House, and Representative Welch announced that he was paired with Representative O'Neill.

Senator Whitney, and Representatives Cummings and Mansfield, Sorenson and Stewart were excused from voting, for reasons stated yesterday.

Senator Cannon and Wright, and Representative O'Neill and Shepard were absent.

COMMITTEE REPORT MONDAY.

Senator Bluthill arose and said: "Mr. President, I desire to announce to the information of the assembly, that the investigating committee will not probably be able to report before Monday noon."

THE BALLOT.

The 123d joint ballot for United States Senator was then taken with the following result: Cannon, 8; King, 1; McCune, 13; Nebeker, 4; Sutherland, 21; Hibson, 1; Total voting 53.

The assembly dissolved till tomorrow at 12 m.

Representative Harris endeavored to get the time of adjournment changed to 11:59 a. m. on account of the fact that the House members and officers will tomorrow afternoon leave for Logan at 2 p. m. to visit the Agricultural College, but the suggestion came too late, and the assembly will meet just before the departure for Logan.

SENATE.

The Senate convened at 11:30 a. m., and took a recess to meet with the House in joint session. Upon reconvening a communication from the Governor was received announcing that Oetner Thomas of Coalville was appointed as coal mine inspector, in place of Thomas Lloyd, resigned.

ART BILL.

Senate Bill No. 46, by Peery, was introduced and referred to the committee on education. It is an act to provide for the creation of a State institute of art, and was introduced by request. It is the bill introduced in the House by Mr. Hoggan.

SCHOOL LANDS.

Joint Memorial No. 5, by Brandon, was passed, asking Congress to amend the law requiring the State to select land in lieu of that heretofore granted in support of the public schools, wherever land so granted has been sold or otherwise disposed of. The act of congress of July 16, 1894, for the admission of Utah and for the reservation of sections two, sixteen, thirty-six and thirty-six in every township for school purposes, may be amended so that the schools may select more valuable lands wherever desirable, and this is the request of the petition.

FISH AND GAME.

The fish and game bill was discussed at some length, and went over for further consideration.

GOVERNOR'S APPOINTEES.

Senator Peery introduced the following resolution: "Resolved that the secretary of State be instructed to furnish the members of the Senate a list of the holdover members of the various State boards and State officers appointed by the Governor, together with the terms of office."

WILL GO TO LOGAN.

The question of the visit to the Agricultural College was reconsidered, and the Senate decided to accompany the House tomorrow at 1 p.m. by the following vote:

Ayes—Hewell, Kinnel, Nebeker, Peery, Rideout, Thomas, Whitney, Mr. President.—8.

Noes—Alder, Bennion, Chambers, Evans, Robison, Rudd, Tanner—7.

TO HONOR VOLUNTEERS.

Senate joint resolution No. 8, was introduced by Whitney, providing that the Governor and secretary of State be authorized and directed to cause to be engrossed upon parchment with suitable ornamentation a sufficient number to present one thereof to each volunteer from this State, who was mustered into the service of the United States in the late war with Spain.

Said testimonials shall be signed by the Governor and the secretary of State and shall read as follows:

To ——————

The State of Utah—

Honoring the faithful services of her sons who formed a part of the land and sea forces of the United States, in giving freedom to the inhabitants of the colonies of Spain in the islands of Cuba and Porto Rico and the Philippine archipelago, has by a resolution of its Legislature passed ——, A. D. 1898, directed the undersigned to present you this testimonial of the people's gratitude of your patriotism.

Referred to committee on military affairs.

The committee adjourned to 2 p.m.

DISGUST OF MR. EVANS.

"I consider that Logan trip under our present conditions as one of the most deliberate of the little outrages ever perpetrated upon this State," said Senator Evans after the Senate session of today. He maintained that the Senate could not spare the time, though it could get out of the session of Saturday afternoon.

S. B. No. 34, by Evans, defining the duties of the State board of health, finally passed the Senate yesterday, Senator Peery voting against it. The bill provides that the Governor shall appoint the board, fixes the area of arid or grazing land that may be leased by any one person, and provides that aliens who have declared their intention of becoming citizens may buy or lease lands; and that mortgage valuation shall be two-thirds of the assessed valuation of the land.

S. B. No. 22, by Smoot, providing for the release of the inchoate rights of intestate wives, passes without division.

S. B. No. ——, by Thomas, appropriating $15 for the purchase of a State bell, passes. Senator Evans alone voting against it.

S. B. No. 25, by Smoot, changing the boundaries of Utah and Jack counties, was passed.

S. B. No. 29, by Rideout, providing that eight hours shall constitute a day's labor in all classes of public work, was passed, as was also House Bill No. 18, providing for the posting of ordinances in cities of the third class.

Kinnel introduced Senate bill No. 48, prohibiting the use of wooden and paper boxes, plates and trays.

SENATOR WHITNEY'S POSITION.

He Was Willing to Act, but Preferred to Retire if Committee Had Any Doubts.

At the conclusion of Mr. Evans' remarks yesterday, Mr. Whitney, to whom he had referred in his speech, said:

"I rise for the purpose of making a proposition that I have more than once contemplated during the progress of this investigation. I am speaking

NICARAGUAN BIG WATERWAY.

Conference on River and Harbor Bill Nearly Ended.

LARGE ITEMS COMPROMISED.

Canal Paragraph Greatly Modified—No Reservoir For Arid Lands—Army Affairs Bill.

Washington, March 3.—The conference on the river and harbor bill have practically reached an agreement. The Nicaragua canal paragraph will be greatly modified and will appropriate a million dollars for an examination of all routes under the direction of the President.

The report of the commission making the examination will be made to Congress and no provision is made for beginning work.

The House items in the bill are related as provided in the Senate and both of the others are compromised.

The House conferees refused absolutely to allow any provision for the reservoir system in the arid lands and the Senate conferees yielded this matter.

Some fear is expressed that this provision may endanger the bill in the Senate.

Senator Morgan has consented to the Nicaragua canal item being in the bill as agreed upon by the conferees.

The conferees have signed the report.

The agreement will be submitted to Congress today.

The agreement upon the New York harbor bill providing that the secretary of war may enter into a contract for the removal of rubbish of the work can be done for $4,000,000, if not, the government is to enter upon the work and expend that amount, thus securing the depth of forty feet. Many of the large items were compromised. The appropriation for improvement of pass of the Mississippi is estimated at $500,000; Newport, Ky., to Brandon, Tex., reduced to $300,000; for the Hudson river at New York reduced to $250,000; for the Delaware river in Pennsylvania and New Jersey to $100,000; for St. John river, Florida, to $250,000 for the present year and a continuing contract authorized.

Two items from Oregon, which were in dispute, upon which there was a meeting until late last night, have been compromised. The Yaquina Bay item has been modified so as to have the project examined by a board of engineers. The House yields on the best outlet of Yaquina Bay so as not to expect the fate for the project, but strikes out the appropriation made by the Senate.

ARMY APPROPRIATION BILL.

The Senate committee on appropriations has reported its consideration of the army appropriation bill. The bill as reported increases the appropriation by the House of $1,300,000, making a total of $80,420,000. The increase is for pay to officers and men.

Steamer Rare Ashore.

New York, March 3.—A dispatch to the Herald from Panama says: The agency of the Pacific Mail Co. is in receipt of news that the Starbuck ran ashore on Point Gregory, between Cortesia and Amapala on Feb. 28. She left Panama on Feb. 22, bound for Champerico and way points.

The Pera has been sent from La Libertad with assistance. The passengers and crew are safe but it is feared that the steamer will be a total loss.

LEGISLATORS JANGLE.

Quay Still Leads the List of Aspirants to West a Term.

Harrisburg, Pa., March 3.—During a wrangle today in the house on a motion to adjourn to Friday Speaker Faris declared the house adjourned and followed by the clerks and many members he left the chamber. Those who remained elected Biles of Delaware, one of the anti-Quay Republican leaders, speaker. As soon as the chaplain had concluded his prayer, a motion was made to dispense with the reading of the journal, but it was vigorously opposed, this being part of an alleged plan of some of Senator Quay's followers to delay proceedings by filibustering and thus prevent the introduction of a resolution by Gen. Koontz Somerset, the anti-Quay member of the anti-lottery committee for the appointment of additional members of the lottery investigating committee, which is inquiring into charges in connection with the vote on the Mr. Carroll jury bill. After a wrangle over whether an adjournment was in force, Mr. Fair stated that this resolution was in force and adjourned the house. He and members and the clerks then left amid great confusion and excitement.

Those remaining elected Mr. Bliss speaker by a viva voce vote, and he called the house to order.

Representative Fox (Dem.) of Philadelphia called the roll and two members acted as clerks. The roll call showed the presence of the less than a quorum, although many members act at their desks and refused to vote.

Mr. Bliss made a statement after the roll call that in his judgment the house was legally in session, but the speaker having left the house and taken with him the officers, the house could not do business. Mr. Stewart of Philadelphia (anti-Quay Rep.) said the speaker adjourned the house because he found that he would right a wrong it had done in allowing him to appoint a committee to investigate charges of lottery.

After adopting a motion authorizing Mr. Bliss to appoint a committee of five to take action on the arbitrary ruling for speaker, the rump house took a recess until the hour fixed for the general session to ballot on the senatorship.

The 29th and 30th ballots for United States senator stand:

Quay, 86; Jenks, 55; Dalzell, 13; Stewart, 7; Huff, 3; Stone, 4; Tubbs, 2; Hiner, 2; Grow, 2; Grier, 1; Black, 1; Markle, 1; Irvin, 2.

Paired or not voting 99.

Marked changed from Quay to Hiner; Yates from Quay to Widener and Herrick from Quay to Huff.

Tragedy in Indiana.

Evansville, Ind., March 3.—There is a strong belief among the farmers living around Poseville, Ind., that **Stephen Gladner did not kill his wife and mother-in-law, Mrs. Elizabeth Kitchen,** as Evans after the Senate session of today. He maintained that the Senate could not spare the time, though it could get out of the session of Saturday afternoon.

S. B. No. 34, by Evans, defining the duties of the State of a board finally passed the Senate yesterday, Senator Peery voting against it. The bill provides that the Governor shall appoint the board, fixes the area of arid or grazing land that may be leased by any one person, and provides that aliens who have declared their intention of becoming citizens may buy or lease lands; and that mortgage valuation shall be two-thirds of the assessed valuation of the land.

S. B. No. 22, by Smoot, providing for the release of the inchoate rights of intestate wives, passes without division.

S. B. No. ——, by Thomas, appropriating $15 for the purchase of a State bell, passes. Senator Evans alone voting against it.

S. B. No. 25, by Smoot, changing the boundaries of Utah and Jack counties, was passed.

S. B. No. 29, by Rideout, providing that eight hours shall constitute a day's labor in all classes of public work, was passed, as was also House Bill No. 18, providing for the posting of ordinances in cities of the third class.

Kinnel introduced Senate bill No. 48, prohibiting the use of wooden and paper boxes, plates and trays.

SENATOR WHITNEY'S POSITION.

He Was Willing to Act, but Preferred to Retire if Committee Had Any Doubts.

At the conclusion of Mr. Evans' remarks yesterday, Mr. Whitney, to whom he had referred in his speech, said:

"I rise for the purpose of making a proposition that I have more than once contemplated during the progress of this investigation. I am speaking

(Continued on page two.)

MONEY FOR UTAH AND WYOMING.

Reimbursement in Utah for Tax Illegally Collected on Notes.

WYOMING PAID FOR PARK.

The Refund by Congress Is $17,125 on Scrip Tax and $7,789 on Yellowstone Park Expenses.

[SPECIAL TO THE NEWS.]

Washington, March 3.—The Senate committee on appropriations has amended the general deficiency bill now being considered in the senate by provisions for payment to persons and corporations of the amount assessed by the commissioner of internal revenue, and collected in the district of Utah, as a tax of ten per cent on alleged scrip issued for circulation and paid out, which have not heretofore been refunded, $17,125.

Another amendment provides for the payment to Wyoming of the actual amount paid in 1891 and 1892 for expenses incurred in preserving the Yellowstone Park as a public pleasuring national reservation, and before the United States troops were placed there for its protection, $7,789.

Seventh Immune at St. Louis.

St. Louis, Mo., March 3.—The Seventh immune have arrived from Manila, Ga. They occupied sixteen coaches and number about 400. Mayor Wells issued a proclamation of welcome to the soldiers at Union Station and accorded them a welcome to the city.

DEWEY A FULL BLOWN ADMIRAL

Naval Commander to Choose His Own Uniform Distinctive of Rank.

New York, March 3.—A dispatch to the Herald from Washington says:

Admiral Dewey will rank Major General Otis and when the army and navy conducts operations in the Philippines his order as the ranking officer will have to be obeyed.

It is believed, however, that there is no danger of friction between Admiral Dewey and General Otis, as the former thoroughly understands the rights of the military and will undoubtedly, when the two services act together, fully consult the military commander as to the course to be pursued. It has already been intimated at the department that **he will defer to Admiral Dewey's position of the kind of uniform will be the one he will wear. After the Spanish war and Farragut were given little privileges, but neither had much opportunity for wearing them. But as Admiral Dewey will remain afloat for some months it is expected that he will immediately take advantage of the opportunity to adorn distinctive of his new grade and yet strictly in accordance in some of its features with the regulation uniform which he has worn all his life. His shoulder straps will be decorated by four stars instead of two, the end staff being embroidered over four anchors, seven-eighths of an inch long. As soon as Admiral Dewey hoists the flag of an admiral, the ships of his squadron will fire a salute of seventeen guns and the drum corps will sound four ruffles and flourishes.**

NAVAL NOMINATIONS.

President Will Send Three Hundred Names to the Senate Tomorrow.

New York, March 3.—A dispatch to the Herald from Washington says:

Admiral Dewey will be made one of many departments to reorganize the services under the compromise army bill and the naval appropriation bill. Under the latter bill the President will send three hundred naval nominations to the Senate tomorrow.

Under the army bill the President is authorized to appoint two major generals and nineteen brigadier generals of volunteers. It is the purpose to confine all those holding the rank of major general in the Philippines to that rank, although some of these in Cuba the regular service holding this rank will be.

The list of major generals of the new establishment, includes officers of the regular service holding this rank will be:

Major General E. S. Otis, military governor of the Philippines.

Major General Henry W. Lawton, on route to Manila.

Major General Thomas M. A. Anderson, commanding first division Eighth army corps, now at Manila.

As a result of the retention of those officers in their present rank it will be necessary for the President to direct the muster out of major generals of Major General Thomas F. Wade, who will return to his rank of brigadier general in the regular army; Major General Joseph Wheeler, Major General James H. Wilson, Major General Fitzhugh Lee, Major General Joseph Wheeler, Major General John C. Bates, and Major General William Ludlow. Some of these officers will be appointed brigadier generals.

This is a partial list of the officers who in all probability will be appointed major generals of volunteers:

In Cuba—William Ludlow, Fitzhugh Lee, James H. Wilson, Leonard Wood, Joseph Wheeler, Adna R. Chaffee, G. W. Davis and E. S. Williston.

In the Philippines—Samuel Ovenshine, Irving Hale, H. G. Otis, Charles King, Robert P. Hughes and C. McDermott.

For the remaining five vacancies there will be a political scramble. It is understood that Senator Hanna is prepared to stand by the President and be willing to accept an appointment as brigadier general.

Mr. Hanna and Mr. Grant will in all probability be mustered out in the spring.

Under the navy personnel law, these nominations for rear admiral will be sent to the Senate tomorrow:

E. F. McNair, J. A. Howell, H. L. Howison, Albert Kautz, George C. Remey, C. H. Fletcher, J. C. Watson, J. W. Philip, H. H. Bateman, W. S. Schley, Silas Casey, Charles Clark, J. J. Read, J. J. Blanchard, H. C. Taylor, H. P. Picking, Frederick Rodgers, Louis Kempf and George W. Sumner.

In the nominations of Commodore Schley all idea of his being dropped from the service as a result of the promotion of Commodore Hirshman will be effectually ended. Of course both Rear Admirals Sampson and Schley will be retained in their positions they now hold on the naval register should the Senate confirm their nominations for advancement for distinguished service. Failure to confirm their nominations for promotion for gallant service will result in placing the name of Rear Admiral Schley ahead of that of Rear Admiral Sampson, according to their standing before the war.

These officers will be nominated to be captains: Chief Engineers W. H. Hubier, T. J. Allen, G. W. Melville, Joseph Tribler, P. S. Derrick, A. H. Able, G. J. Burrau, Charles Andrade, John E. Lowe, Charles J. MacDonald and Lewis W. Robinson. Commanders—C. W. Pigman, John McIlvaine, J. G. Green, C. H. Rockwell, J. M. Forsyth, G. A. Converse, H. H. Bradford, J. E. Craig, C. M. Thomas, A. S. Snow, G. C. Hieber, W. H. Brownson, H. E. Nichols, W. W. Mead, E. S. Houston, and Edwin Longnecker.

GUNBOAT FOR DEWEY.

United States Gunboat Wheeling to Sail for Philippines Today.

Vancouver, B. C., March 3.—The United States Wheeling will sail today for Manila via Honolulu. On arriving at the Philippines her commander will report to Admiral Dewey for duty, she is armed with six guns, carries 120 men, and is a speedy boat of her class.

New Transportation Company.

Charleston, W. Va., March 3.—The Kanawha Transportation company of New York city, has been incorporated here with an authorized capital of one million dollars. The company proposes to do a general transportation business on the Kanawha Valley, to buy and sell material. The incorporators are Russell D. Quarles, John Mabrie, Joseph Brenham of this city, F. J. Lyons of New York, and S. F. Herndon of Chicago.

Supposed to Have Been Poisoned.

Grafton, W. Va., March 3.—Taylor of F. C. Burdette, clerk of the Taylor county court, who died suddenly, are suspicious of foul play, and think he was poisoned. He inherited recently a fortune amounting to $20,000.

Mr. Burdette went to Kingwood Saturday to attend to some business and when his train was approaching Grafton he became suddenly ill and he died soon after reaching it. Search has been sent to a chemist at Baltimore for analysis and some startling developments are expected to follow.

POPE IGNORES DOCTORS.

He is in Good Spirits, but Disinclined to Observe Physicians' Instructions.

Despite Favorable Reports, However, Grave Doubts are Entertained as Some of the Illness.

Rome, March 3, 1 a. m.—The latest news from the Vatican is that the pope's temperature at midnight had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forces great obstacle in the way of prompt recovery. He has run counter to his own strength and does not readily acquiesce in their advice not to move. During the afternoon he insisted upon leaving his bed without assistance and was racked several times during a fever in his temperature, which had given some anxiety, was probably caused in part by this act.

The doctors exclude every body from his apartments except his personal attendants. Only that has been done to eradicate during the evening is reported to the Vatican, if needed, but up to 11 o'clock he had not been called and at that hour he did not expect to be called upon.

The pope said during yesterday: "It is a mixture of God that I am still living." It is said that he shows the church's terrible crisis at the present moment.

At 3 o'clock yesterday afternoon the doctors made a prolonged visit lasting more than an hour, which caused some uneasiness, but no change was reported in the reports. Prof. Mazzoni said the fever was not the least fear that the pleura, bronchial tubes or lungs would be affected. The pope's nephew was stayed also in the corner of the corridor and left the chamber as he passed with his prayers.

Despite these optimistic reports, grave doubts are entertained as to the issue of the illness. His holiness, it seems, is evincing great interest in the matter of his will and has given out as to the best way of preserving the crest, which he has that he intended to be buried here instead of in St. Peter's.

Although the condition of the pontiff is not considered grave, Cardinal Lednchowski, the prefect of the congregation of the Holy Inquisition, consulted yesterday with Cardinal Rampolla, dean of the Sacred college, Cardinals Oreglia, Di Pietro, Macchi, prefect of the congregation of Ceremonial, and Cardinal Mertel, vice chancellor of the church, regarding the first cardinal consistory, which in connection with Cardinal Lednchowski, according to an old custom, will be held in the Vatican, in case of the pope's death.

The pope was in a good humor yesterday. When the doctors proposed applying the clinical thermometer, his holiness said that he would have to do as he had himself first put the fever to the test, disappointed just as he could but the high temperature prior to the operation.

The pope would not allow the wound to be seen so as the doctors had to be content with drawing the sides together in place.

After the wound had been dressed, chatting quietly with Dr. Mazzoni, the pope suddenly said: "I want an order not without any pain and in two days."

The surgeon replied in the same spirit: "Your Holiness must not expect me to perform miracles!"

The hope that the patient will partake only of liquid nourishment, such as soup, egg yolks and watered wine. The doctors positively forbid the use of any dyestuffs or surgery of blood poisoning. They are confident of retaining the health of the pontiff.

Dr. Mazzoni said to a high personage at the Vatican, who asked for confidential information on the subject, that if the pope recovered so he fully expected, there was no reason why he should not live for another ten years, so great is his vitality.

Illinois Bank Goes Under.

Cobden, Ills., March 3.—The bank of Cobden, L. T. Linnell and A. J. Miller, proprietors, has closed its doors. Small assets and liabilities cannot yet be learned.

Mr. Linnell has been in the banking business for twenty-five years and possesses the confidence of the people.

Car Works Close.

Pittsburg, March 3.—The strike of the machinists and riveters at the Allegheny Pressed Steel Co. in Allegheny resulted today in closing the car department. About 1,200 men are idle, but only one are on strike. There is no change in the strike situation at the Pan Steel Car works in this city. The men are still out. Everything is quiet.

WANT REBELS DRIVEN OUT.

So Say Influential Natives of the Islands of Mabate and Ticoa.

JAPS SEIZE 20,000 STANDS OF ARMS

Aguinaldo's Army Is Decidedly Gloomy—Many Insurgent Companies Are Broken Up Because Their Officers Have Too Much Regard for Their Skins to Lead Their Men.

New York, March 3.—A dispatch to the Herald from Manila says:

It is rumored here that a steamer with 20,000 stands of arms and ammunition which were bound for the Philippines has been seized in Japanese waters by the Japanese authorities. Aguinaldo's army is disheartened as the result of the recent actions.

Many companies of the insurgents have retired because their officers skulk and want lead their men.

The latest news from Cebu is good. The natives are returning to the town. The rouges are now willing to work at reasonable rates. The native government they asked doubts pay. Vessels are now trading and business has been resumed.

The influential natives of the islands of Mabate and Ticoa request Gen. Otis to send troops there. They say that 200 men would easily subdue the rebels.

The inhabitants are peaceable. They are disgusted with the extortions of their successive native governors.

The two islands contain 50,000 head of cattle, which constitute the food supply of the rebel army of the south.

HAVE NOT TAKEN A PRISONER.

Washington, March 3.—The following dispatch has been received by Secretary of War Alger in answer to his inquiry respecting the number of American prisoners held by the insurgents:

Manila, March 3.—Secretary of War, Washington: Insurgents have not taken one in their hold a single prisoner of war. They have three prisoners in Malolos picked up in January, who, without permission, went among them near Cavite and Calamba. I am looking after them and providing money. Have captured over 1,500 insurgent soldiers since February 4th, and hold the majority as prisoners of war. Instructed reports which reach the United States are manufactured mostly in Hongkong. Troops here in splendid condition.

CONCORD CAPTURES SCHOONER.

Manila, March 3, 5:30 p.m.—The United States gunboat Concord has arrived here after a week's cruise along the west coast in the island of Luzon. The only incident of her trip was the burning of a schooner loaded with supplies for the rebels at Dagupan, the territory of the railroad. The native fled and abandoned the town when the gunboat anchored in the bay.

BURIED UNDER AN AVALANCHE.

Snowslide Sweeps Down on a Boarding House in Colorado.

SIX PERSONS ARE MISSING.

While Nine Twenty-Five Miles From Gunnison the Scene of the Terrible Catastrophe.

Gunnison, Colo., March 3.—Five men and a woman are buried under an avalanche of snow which came down Grunter Mountain, near the Magna Charta mine at White Pine, twenty-five miles from this place. Six are missing, who are supposed to be dead, are:

Mrs. Margaret Stuart.
Michael Welch.
James Jordan.

Three men, whose names are unknown.

These persons were all in the bunkhouse, kept by Mrs. Stuart, which was crushed by the avalanche, and carried with the snow down the gulch.

CREW OF S. S. MORAVIA.

Government Steamer Aberdeen Arrives at Halifax with All Save One on Board.

Halifax, N. S., March 3.—The government steamer Aberdeen arrived here from Sable island, bringing the crew of the wrecked steamer Moravia which was lost on the Northeast bar off the island last month. Boatswain Brinton is the only one lost of a crew of forty.

Canadian Associated Press correspondent on board the Aberdeen, this morning shows that the Moravia was short of coal and bound for Halifax when the disaster occurred. She had a cargo of lumber and had only 100 tons of coal when compelled to change her course. For several days she was driven about, and was unable to take observations—on the 15th inst. the vessel struck on the Northeast bar.

Signals from the Moravia were seen and answered by the Sable Island life saving crew. Lifeboats were launched and the crew were taken off as fast as possible. The sea was very heavy at the time and the weather was bitter cold.

While being hauled Second Officer Brinton died from exposure. The Moravia broke amidships shortly after the crew left and immediately commenced to settle in the sand.

Much of the cargo has floated ashore and is being picked up by those on the island.

Canadian Fish Company.

Toronto, Ont., March 3.—Application will be made at the coming session of the Dominion parliament for the incorporation of the Dominion Fish company. This will correspond with the one that has been formed in the United States and will control the whole fish business of the Dominion. Over 100 companies or plants of greater or less magnitude are operating on the inner lakes, while a total of 1,000 men are actively employed in fishing. Lord Aberdeen is expected was arrived at between most of them by which the price was to be maintained for the advantage of the fishermen. This is said to have worked well and to have given unanimous consent to the companies to pursue their organization. An arrangement has been already effected between the American and Canadian companies prohibiting under selling.

NEW COUNTY FOR COLORADO.

State House of Representatives Passes the Bill.

OPEN CHARGES OF BRIBERY

Exciting Scenes—Members, Sergeant-at-Arms and Three Policemen Quash a Free Fight.

Denver, Colo., March 3.—After a heated discussion, lasting nearly all night, the house of representatives passed a bill for the division of Elpaso county on second reading at 5 o'clock this morning, by a vote of 33 to 27. Several members of the minority had left before the final vote was taken, and the house really stands 34 to 31 in favor of the measure. The bill, which has already passed the senate, creates a new county to be known as Teller county, with its seat at Cripple Creek, the mining district. The division of El paso county has been vigorously opposed by the people of Colorado Springs, and it is openly charged that a large fund was raised to buy votes against the measure.

Representative Smith of Chaffee county declared on the floor of the house that he was offered $500 to vote against the new county. At 4 o'clock this morning Speaker Smith, who is opposed to the bill, and Representative Montgomery of Cripple Creek, who helped to engineer the measure, came to blows. A fight was prevented only by the prompt action of sergeant-at-arms and members had to interfere to keep their belligerent in order on the floor of the house and in the antechamber.

Pennsylvania and Michigan to Debate.

Ann Arbor, Mich., March 3.—The students of the University of Pennsylvania and Michigan will meet in Pittsburg next June to discuss the question, "Feasibility or Disadvantage of Annexation."

Special importance attaches to the contest. It will be the first meeting of the west and east in this debate and arrangements have been made for a return representative debate, August last week. Pennsylvania attempts have been made to secure the Pacific coast and western college debaters, but as yet have failed, so that it will be definitely settled this year that Michigan is the best Pennsylvania. In 1896 Yale of Detroit offered as a contingent fund to be so to the Pacific coast for a representative Michigan.

The Ann Arbor will represent Pennsylvania and James W. Little Jr., Philadelphia, Samuel S. Morris, Pittsburg, and Wilmer Hulme, Minneapolis. The team to have charge of the debate is composed of L. A. Wilson, Lawrence; Frederick Ellis, Grand Rapids, and F. H. Gardner, Detroit.

The judges will be Edward S. Ordway, Chicago, Judge Henry Clay Caldwell, Little Rock, and Judge William H. Wilson, Buffalo. The president elect has not been chosen.

Another Iron Purchaser Paper Plant.

Milwaukee, Wis., March 3.—Marshall, Hunt, Carter & Co., of London, England, have purchased the Lake Paper plant of the Western Paper Co. of this city. The London company, it is said, is making an effort to unify the iron branch of the paper trade of this country. The company is capitalized for $2,000,000. It controls the Eastern paper plant in this city. It will remove some of the machinery to Lower City, which is still operating, and will be the largest manufacturer of iron paper in this country.
