MINING, BUSINESS AND STOCKS.

SACRAMENTO WAS STRONGER.

Declaration of Dividend Sends the Stock to 43 Today.

AJAX WAS LITTLE WEAKER

Star Con. Declined—Boss Tweed Active—Yankee Con. Not Quite So Firm—Bullion-Beck Sells.

Business was quite brisk on the mining exchange today though the market was generally a little softer that it was yesterday afternoon. At that time Ajax advanced to better than $1.24, but it sold to $1.17½ on the exchange today. A slight reaction set in at the close, however, when it moved up to $1.20¼. Bullion Beck found a market for 100 shares at $3.70 while Daly dropped 100 shares at $1.82. Galena opened at 20½ and weakened to 19. Lower Mammoth softened to $4.42½. May Day sold up to 87. Sacramento was a little stronger on news of the declaration of a dividend. Sales were made today between 41¾ and 43. South Swansea dropped 600 shares at 68. A decided softening was seen in the Star Con which opened at 55 and declined to 50 on the closing sale. Boss Tweed was unusually active between 19⅝ and 21. Yankee Con. also did considerable business between $2.85 and $2.75. Tetro was traded in between 12½ and 13 while Joe Bowers climbed to 4¾. Martha Washington hung around 5¼ while West Morning Glory moved up to 4½, with the sale of 10,500 shares.

NO CHANGES IN PRESENT PLANS.

Director Antone Ellers of the A. S. & R. Co. Talks of New Smelter.

PYRITIC PLANT IS DOUBTFUL

Strike in Old Susan—Option on Uncle Sam—Alaska Meeting—Dexter Shipment.

Director Antone Ellers of the American Smelting and Refining company reached the city yesterday and immediately went out to the company's next plant at Murray, returning last evening. Mr. Ellers is also a member of the executive committee, which renders final decision in all the various matters connected with the company's projects. Under this committee is the operating department of the great concern, of which Mr. Ellers is also a member. The gentleman is accompanied by the company's advisory engineer, Mr. Cyrus Robinson and Mr. August Raht, who has charge of the new smelter now in course of construction in this valley. Mr. Ellers' visit at this time was for the purpose of deciding upon any changes in the general plan of the smelter. The outline as submitted by Mr. Raht has been found so complete and perfect that Mr. Ellers says that excepting a few minor details no changes will be made. Special attention is being given, Mr. Ellers says, to labor saving devices. Everything is being done with the view of cheapening the cost of reduction. The company hopes by this means to encourage the mining of lower grade ores throughout the vast territory covered by its plants. It is stated that the benefits of the new methods will in this way be shared with the miners, upon whom the company depends for the maintenance of its smelter fires.

PYRITIC PLANT DOUBTFUL.

Regarding the rumored changes to be made at the old Germania smelter when the new plant is put in commission Mr. Ellers said it was not decided what would be done. From the conversation this morning the "News" reporter concluded that the installation of a pyritic plant is improbable. Mr. Ellers says he is very doubtful whether it would prove economical for the company to handle copper ores in that way. It is necessary to handle the stuff three times. First of all the ore is concentrated to matte. It is then reduced to blister copper and last of all the various metals are separated in the refinery. The pyritic process in Mr. Ellers' opinion is specially adapted to saving transportation charges when a plant can be built at the mine. While it is possible that the A. S. & R. company may put in a couple of pyritic furnaces the question has not been decided. Mr. Ellers expects to leave for Denver tomorrow.

DAVID EVAN'S OPTION.

Is Considering Taking it Up and Forming a Big Company.

Regarding the fate of his option on the Uncle Sam, Richmond Anaconda and other properties bonded from Jesse Knight, David Evans said today that he will probably decide to take up the option within the next two weeks. Mr. Evans is considering the proposition of forming a big company to operate the valuable ground covered by the option. Mr. Evans considers it the most important mineral deposit in Tintic, and there is no doubt that a fine record would be made in dividends by such a company. The group will take in the Richmond Anaconda claims, thus forming a group of nine or ten claims.

Dexter Output for April.

The April output of the Dexter-Tuscarora Mining company reached the city yesterday in the shape of a bar of bullion valued at $8,700, and a lot of cyanides weighing 196 pounds and valued at $15 per pound, or $2,740. The total value of the clean up is about $11,500, which compares favorably with the output of the past few months. A material increase is looked for later in the year, or as soon as the Tuscarora vein is tapped. The ore there is said to be very rich and by mixing it with the lower grade Dexter ore, the management expects to produce an average that will pay dividends.

Alaska May Secure Greater Depth.

A meeting of the directors of the Alaska Mining company was scheduled for this afternoon for the purpose of considering a change in the plan of development work. For some time past the company has been drifting north and south from the 450 level with encouraging results. The faces of both drifts are said to look good, but no paying bodies of ore have been encountered. Mr. Jake Bamberger was at the mine Sunday last for the purpose of examining the work done, and it is said that both he and Mr. Kirby, who went out with him, have decided that greater depth is all that is necessary to make a mine out of the Alaska. It is quite probable that it will be decided at the meeting this afternoon to sink deeper.

Mining Deed from H. B. Cole.

Special Correspondence.

Provo, May 14.—A mining deed has been filed for record from H. B. Cole and Alice D. Cole to the Oddie Mining company for the following mining claims situated in Tintic mining district: Juniata, Minnie, Argentines, Golden Treasure, and Annie Hurley. The consideration named is $647.

Twelve petroleum claims under the names of Anna No. 11 to Anna No. 22, both inclusive, have been located by W. H. Hendrickson et al. The claims are situated about one-half mile north of the Colton R. G. W. railway depot.

Sacramento Dividend Declared.

As foretold in last evening's "News" a dividend of $5,000, or ½ cent per share, was declared at the meeting of the Sacramento Mining company yesterday afternoon. Payment will be made June 1st the books to close on the 28th inst.

The following officers and directors were elected to serve for the ensuing year: Glen R. Bothwell, president; R. A. Deal of Springville, vice president, and R. E. McConaughy, secretary and treasurer. These, with Fred J. Leonard and G. S. Hanna of Bloomington, Ill., constitute the board of directors.

Strike in Old Susan.

Arrivals from Tintic report a great improvement in the Old Susan property during the past week. At last report about fourteen inches of lead ore was encountered in an upraise from the tunnel level. The company is said on good authority, to have between three and four feet of lead ore in sight. The property lies south of the Buckeye property at Diamond and adjoins the Fissure company's claims.

Injunction Was Dismissed.

A dispatch from Trenton, N. J., states that argument was heard by Judges Gray and Kirkpatrick in the United States circuit court yesterday on the application to make permanent the injunction restraining the American Smelting and Refining company from turning over to M. Guggenheim's Sons the $45,000,000 of stock which was to be paid for the Guggenheim plant.

The smelting company interposed as a defense lack of jurisdiction, also contending that the transfer of the property having already been made by the Guggenheims, it was too late to enjoin the transfer of stock and the consummation of the contract.

It is probable that the court will decide the question of jurisdiction before considering on its merits the application for an injunction.

Judges Kirkpatrick and Gray, after hearing argument of counsel, dismissed the injunction against the American Smelting and Refining company, holding that the court was without jurisdiction.

Items from La Sals.

The Moab Times says the flow of water has increased greatly the past week in the incline of the Big Indian mine. A large flow of water is quite as acceptable to the owners as more ore.

Wm. H. Hayes and son and John Wade came in from Mancon Tuesday and started today for the Hayes cabins at Mill Creek. Mr. Hayes will proceed with the development of his mining property. His eastern partners in the property, Frank Stang & Co. of Sandusky, Ohio, are expected here in June, when plans for the working of the property will be perfected.

Robt. C. Clark, accompanied by E. Hammond, started Wednesday for Gold Basin where they will proceed with development work on the Clark mining property. John H. Clark is expected in soon. A company has been organized by Iowa parties to operate this property and some extensive development work is assured.

The shaft being driven on the Grand View property on Horse Mountain, above Pinhot is now down 125 feet with a good showing of ore.

A trail has been shoveled into Miners' Basin and the mail route re-established.

MINING NOTES.

A car of ore was reported today from the Utah Queen.

The Galena King of Stockton marketed a car of ore today.

Two cars of ore were reported today from the Bullion Beck of Tintic.

The Ophir Hill had twenty-eight cars of concentrate on the market today.

P. L. Kimberley is expected to reach Salt Lake the latter part of the week.

Two cars of ore reached the market today from the Silver Shield of Bingham.

A small body of mixed galena ore is reported to have been tapped in the Petro.

Engineer J. C. Dick, who is employed by the Con. Mercur company, is in town for a few days.

Small lots of ore were on the market today from the Primrose and Silver Bow properties in Tintic.

The Mammoth of Tintic had 3 cars of concentrates and 1 car of crude ore on the market today.

The Stockton Gold Mining company had a car of ore on the market today from its Stockton property.

Over 700 shares of Horn Silver stock changed hands last week on the New York exchange.

Manager Thomas H. Benton went out to Stockton today to look over the Cygnet company's property.

The annual meeting of the Annie Laurie Mining company was scheduled to take place in Chicago today.

M. M. Miller expects to go to Texas shortly to examine some interests he owns near the oil fields of that State.

Fred Mitchell has returned from the New Pass gold mines in Nevada, which are being operated by Mr. Philo T. Farnsworth and himself.

Manager Smith of the West Morning Glory is considering the purchase of the Dragon Iron mine plant for the West Morning Glory property at Tintic.

The Boise Statesman says one of the heaviest shipments of gold ever made from the Boise assay office went out last Saturday. It amounted to over $90,000.

About 20 inches of ore has now been opened up in the Galena of Fish Springs which assays as high as 144 ounces silver and 69.5 per cent lead per ton. It has been followed some 30 feet in a winze from the 600 level.

A car of ore from the Utah of Fish Springs was sold today on controls showing 100 ounces silver and 51 per cent lead per ton. The lot brought almost $2,000. Another car is on the way to market.

Director Wm. Bayley of the Bingham Copper & Gold company was closeted today with Smelter Supt. W. H. Nutting, Manager Duncan McVichie and Col. H. G. Heffron, considering the company's operations during the past few weeks.

Boise News: D. D. McDonald, the Owyhee freighter, familiarly known as "Little Mac," is at the Capitol from Democrat. He says a large tonnage of freight is being handled for the Owyhee mines this season and that business is good generally.

George H. Wyman has resigned his position as superintendent of the Checkmate mine at Pearl, Idaho. The principal owners of the mine are Salt Lake railroad men. Mr. Wyman says the April output was the largest in the history of the mine.

A "News" correspondent writing from Leeds, Washington county, says that new strikes are being made at Silver Reef and the mill is reported to be making a very successful run. Prospectors are said to be quite numerous and some very good prospects are being found.

Sevier Valley Echo: Allen Gorr went up to Gold Mountain Thursday to commence work in the Tribune group of mines. He expects to employ eight men. Mr. Gorr will sink a shaft 80 feet deep in the ledge and will also run a 70 feet tunnel to strike this ledge at about the same depth as the bottom of the shaft. There is a six foot vein on this property that assays as high as $4 in gold and silver at the surface. This property is owned by Castle Gate people, the same crowd that sold the Annie Laura about two years ago.

UNION PACIFIC FELL 12¼ POINTS

The Stock Led in the Downward Movement.

INTERNATIONALS LOWER.

London Sent Sharp Declines for Americans—Almost All Railroads Lost—Bonds Moderately Active.

New York, May 14.—London sent sharp declines for American stocks this morning, extending to between 1 and 2 points in some cases. The opening here was lower for the internationals also, a number of those stocks falling a point. The United States Steel stocks shared in the depression. Gains in a number of industrials gave the opening a slight irregularity. Smelting rose 1½. Trading was depressed and hesitating and operators appeared reluctant to speculate until Union Pacific displays more stability. After 11 o'clock prices broke sharply all around, led by Union Pacific, the common falling 7 points from the top price and the preferred 5. Missouri Pacific lost 6, St. Paul 5¼, Rock Island and General Electric, American Smelting 4, Atchison 3⅞, Amalgamated Copper, Sugar, Illinois Central 3½, and many others from 1 to 3. The market became very dull on the rally, which ran from one to two points generally and reached over 3 in Missouri Pacific and Rock Island.

Bonds were moderately active and irregular.

Amalgamated Copper recovered to 116⅝, but fell again to 115. Union Pacific touched 115¾ and then fell back to 113½. The lack of inside support encouraged the bears to sell the list generally and prices worked downward to the lowest of the day in many instances. Offerings were small, trading almost ceasing at times, but liberal concessions had to be made to find a buyer. Among the stocks weakest in the early afternoon were Union Pacific, Manhattan, St. Paul, Northern Pacific, Atchison, Rock Island, Steel and Missouri Pacific which were anywhere from 2 to 8½ points below the high prices of the morning. Union Pacific fell on extreme 12¼ by intervals of a point between sales.

In the final hour's dip Union Pacific was carried 15 points under last night's closing level. In St. Paul the decline below yesterday's level was 9⅝; in Consolidated Gas and Missouri Pacific, 8; in Lackawanna, 7¾; in Delaware and Hudson, 8; in Manhattan and Amalgamated Copper, 6½; in Rock Island, 6, and in the other principal active stocks between 3 and 6 points. Northern Pacific sold at 150. There were spasmodic rallies extending to 3⅝ in Union Pacific and 1 to 2 in some other stocks, but they were not well held. The closing was moderately active and weak at about the lowest all around.

Eggs, 11

New York, May 13.—Butter—Receipts, 9,612 packages. Market firm. Creamery, 15@19; facotry, 11@14.

Eggs—Receipts, 24,166 packages. Market weak. Western regular packed, 12½@13¼; western storage, 13½@14.

Elgin, Ills., May 13.—On the board of trade today 350 tubs of butter were offered. No sales were made. The market was quoted steady at 18½c.

LONDON STOCK MARKET.

London, May 14.—According to present plans, J. Pierpont Morgan will not go to America just now.

The situation on the stock exchange today was the most remarkable known, as far as Americans were concerned. There was absolutely no trading, the arbitrage people not dealing, and quotations were entirely nominal.

The optimistism with which yesterday's settlement of Northern Pacific was hailed disappeared in the general realization that it was only temporary. Steps are being taken to form an arbitration committee to relieve stock brokers of their difficulties in connection with the Northern Pacific affair.

A representative of one of the largest houses, said:

"Unless the Morgans and Kuhn, Loeb & Co. accept some such arbitration nothing can save the London market from a serious smash. The temporary arrangement, it is believed, may overrun the next settlement, but not much longer. It is thought the arbitrators might set a fixed price. That would prevent failures and meet the views of Mr. Morgan and Kuhn, Loeb & Co."

LONDON WOOL AUCTION.

London, May 13.—The wool auction sales today showed 13,050 bales offered. A good selection was presented. Merino and cross-breds were in good supply and sold freely. Several lots were taken by America. Cape of Good Hope and Natal scoured wools were in better demand and there were several withdrawals. Victorias were in strong demand and competition was brisk. The sales will close on May 21.

It now transpires that the Manhattan Fire Insurance company, which went into the hands of a deputy sheriff a few days ago, in New York, as announced in the "News" of Saturday, had an office in Salt Lake. Its agents were Stout and Sorenson. It carried between fifty and sixty policies. These will doubtless be reinsured with other companies.

It was stated this afternoon, on reliable authority, that Beardsley's Tavern would reopen about June 1st. Mr. Beardsley, it is understood, will go to San Francisco to see the people with whom he was to become associated there and make arrangements to return to Salt Lake. Mr. Beardsley has been assured all necessary support, by his friends, both financial and otherwise. "The reopening of the tavern" said one of his friends this afternoon "is an absolute certainty in my opinion."

PEOPLE WHO ARE PASSING

Maj.-Gen. James R. Carnahan and Brigadier and Adjt.-Gen. Geo. W. Powell of the uniform rank of the Knights of Pythias, arrived in the city yesterday afternoon. They were met at the station by Grand Representatives S. H. Farnsworth and E. W. Duncan, who escorted them to the Knutsford for luncheon, after which they were driven around the city. Upon their return to the hotel a consultation was held with prominent members of the order, and at 6 o'clock they were escorted to the residence of S. H. Farnsworth, where an elegant dinner was served. At 8:30 exercises were held at Castle Hall in their honor. An address of welcome was given by Grand Chancellor Jennings and responded to by Gen. Carnahan. The gentlemen left this morning for the coast where they go to arrange for the gathering to be held there in August, 1902 of all the orders of the Knights. Supreme Chancellor Fethers was not with the gentlemen as he received word at Kansas City of illness in his family and returned immediately to Wisconsin.
