AN UNFORTUNATE INCIDENT.

THE OHIO DEMOCRATIC CONVENTION HAS A BRUTAL PRACTICE.

CLEVELAND, July 13.—Governor Campbell will be the nominee of the Democratic convention numberless times. He will be short and decisive, and will be associated with the first ballot. Governor Campbell will receive far more than enough votes to nominate him, and will have a large delegation from that will go on record in opposition to other to prevent a unanimous nomination. Thus, as far as the convention is concerned, it will be a unanimous political compact, and the only question now is, will the anti-Campbell forces carry their grievances to the people?

The most serious and probably warlike in the hotbeds today between Campbell delegates and their democratic opponents, and in several cases delegates seem to such an extent to have been alienated from the party that the threat of the Hamilton county delegates by declaring that Campbell could be nominated and elected without their support has been made. A bystander received one of the bullets, and another was severely injured with more appreciable effect on the contestants. They all received numerous gashes over the head and were bleeding profusely when arrested. The Campbell forces voted at once to restore a more philosophical setting all around. Party leaders of all factions immediately visited the wretched patients against Neal, and both sides were conciliatory and compensated by all a strong attempt is made to restore partial harmony. The full strength of the Campbell forces was mustered to meet the gathering in the city this afternoon.
