MAMMOTH MAKES ADVANCE

Considerable Trading in Price at Above Yesterday's Figures—Looker in Demand at Higher Prices.

TODAY'S METALS:
SILVER 57¾
LEAD $4.40
CASTING COPPER 17.

Trading was light again at this morning's call, and there was no special feature. There was considerable selling in a price at about the closing prices of yesterday, and at one time it looked as though there would be a reaction and the stock advance. It closed fairly strong.

Mammoth was again active and advanced to $1.32.

Grand Central on the other hand was very quiet, not a sale being recorded. Four Aces took a drop, going to 10¼, and closed weak.

Anchoria, on the call at 45 cents and there was little demand for it.

Yesterday picked up something like 1,000 gross of our friends at 18¼, which being the strongest issue.

The closing quotations were as follows:

WEAKNESS IN INDUSTRIALS

Railroad Stocks Exhibited an Increased Activity Today.

But the Market was Dull and Irregular—Also Stock Steady—Produce Weak.

New York, Oct. 19.—Changes in prices were small at the opening and subsequent mixed. The majority showed gains, but there were important exceptions among the specialties. Pacific Coast showed decided selling. Tobacco declined by the industrials and Lead railroad properties, rather more concerted in one a night union. A break covering movement in copper advanced it 2 points. Sugar also improved the list, and many other issues were advanced a point or fractions. Yet gainers, you 2½, and New York ad 1½. Pullman exceeded its low to a point and this brought a point. The improvement in prices attracted covering and short sales. Time which the operation forced Sugar, A. Smelter, Northern Pacific some and the entire list responded. The bulge gained a point, and Pullman, after touching 124 rebounded to 126. There was rather more doing in railroad stocks, the demand indicating many interests in the market. The bond market showed several gains.

Sharp concessions were made on gains during the last hour, the earlier rise being soon affected. Offerings were light at the decline and the bears were inclined to cover. The tone was feverish and the closing was dull and heavy, nearly at net losses except in a few cases.

THE JULIA DEAN IN COPPER ORE.

Strike in the Bingham Property Reported Today.

NEWHOUSE PARTY DELAYED

Will Not Arrive Until After Five o'clock This Afternoon—Harry Joseph Returns from Nevada.

A few strike has been made in the Julia Dean, at Bingham, and the first reports that it has cut copper, which is said to be reported by people who saw the mineral has finished with copper now in hand.

The Julia Dean is on a line with the Bay State, and owners of the latter are naturally much encouraged over the Julia Dean strike.

BACK FROM NEVADA.

Harry Joseph Tells the Johnson-Fitzsimmons Story.

Harry Joseph has just returned from Lincoln county, Nevada, where he went through the fight made by owners of the Johnson mines company. This property is situated 200 miles south of Salt Lake and 100 miles south of the Salt Lake market and is in the rattlesnake. Mr. Joseph says he viewed a remarkable fighting in this property. While running a tunnel on somewhat rare the opening was caused, 400 feet deep, at the rate of 40 feet a month, going down at an inclined of 45 degrees. The ore shows a regular wall of quartz, and the ledge is said to be wide. In fact, Mr. Joseph is inclined to believe that the opening is an old fissure vein.

THE NEWHOUSE PARTY

Will Arrive in Salt Lake late this Afternoon.

The Newhouse party, consisting of Samuel Newhouse, Mr. Hoffman, Mr. Hardenbrook, and two or three others, will arrive here from Colorado about five o'clock this afternoon.

A BIG PLUMER DEAL.

Boston Men Effect Large Plant on Granite Creek.

One of the most important mining deals that has been made in this section for a long time is just going to be closed up. It is a joint deal and involves the sale of the Plumer property, who are supposing for the proposition in Boston and are. Hardenbrook is expected to get through and they may materialize.

The property is situated 20 miles south of Ibapah, and is known as the Granite Creek, adjoining the Ibapah Gold Mines, Quartzite, Ibapah and Ibapah Mines. Parties are interested in the deal, but the negotiations have been between Mr. Hardenbrook and the Plumer and Mr. Hardenbrook, on the other, the latter having secured bonds covering the entire plant.

It is understood the consideration is $125,000. No payment has been made yet, but bonds have been given, the negotiations have progressed to the point of an agreement for substantial payment in cash. Mr. Hardenbrook, C. P. Dale, William Hope and C. L. Wilson of Boston have just returned from a visit to the property, and the latter left yesterday for Boston. Mr. Dale remained.

Mr. Hardenbrook of the Boston people is not one to make decisions on the property in case the deal goes through.—Boston Herald.

IN THE RIDGE MOUNTAINS.

Arthur Gardner and Others Have Good Properties There.

Hugh O'Brien, whom mention as a prominent miner in Nevada, is said to be one of the talked gents interested in a Texas member of his record. With Mr. Gardner, Mr. Hugh Dale, Mr. Hugh James, Hugh and Homer Forbes have right quartz claims in Horse Basin of Ibapah district, Tooele county. On the quartz claims, from 11 assays, they received returns of from $5 to $67.50 per ton, and they are now at work on the property and are more than satisfactory to all their partners. I would mention that Arthur Gardner is one of the principals in North Creek in the same district, which are known Nevada, and Hugh Dale is of whom I have spoken, and is most competent to be a judge of the mines in that section of the state, which
