TELEGRAPHIC.

LEE MANTLE'S CASE.

A Vote Results in Declaring Him Not Entitled to a Seat.

A MOTION MADE TO RECONSIDER.

In the House Causes of Illinois Speaks Against Repeal of the Sherman Law.

WASHINGTON, D. C., Aug. 23.—Pasco, Dem., of Florida, gave notice in the Senate today of a substitute to Vest's minority bill for silver coinage at a ratio of 20 to 1. The substitute proposes a commission of three citizens of the United States, to be appointed by the President, to ascertain and determine by the 1st of January the just ratio between the actual intrinsic value of silver and gold as a basis for the free coinage of silver. After the result is reported to the secretary of the treasury, the weight of pure and standard silver to be contained in the dollar, half-eagle, quarter and dimes is to be fixed and determined by him, and silver is to be coined.

When the hour of 2 o'clock arrived Hoar called up the National bank bill, and made an argument against Butler's amendment repealing the 10 per cent tax on state bank circulation.

At the close of Hoar's remarks the National bank circulating bill was laid aside without action, and the report of the committee on privileges and elections, in favor of seating Lee Mantle as senator from Montana, was taken up. Arguments against the adoption of the report and the admission of Mantle were made by Gallinger and Platt. Turpie and Chandler replied to some of Platt's points, and Pasco replied to Chandler's. Hawley argued in favor of the resolution. The debate was closed by Hoar in favor of the majority report.

Then, at 5:12, a vote was taken on the substitute offered by Vance, declaring Mantle not entitled to a seat. The vote resulted—yeas, 36; nays, 32; so the substitute was agreed to.

Following was the vote in detail:

YEAS.

Berry, Blackburn, Caffery, Cockrell, Colquitt, Dubois, Faulkner, Gallinger, George, Gibson, Gray, Harris, Kyle, Lindsay, McMillan, McPherson, Manderson, Mills, Mitchell (Or.), Mitchell (Wis.), Murphy, Palmer, Pasco, Pefferson, Platt, Pugh, Ransom, Smith, Stockbridge, Vance, Vest, Vilas, Washburn, Wolcott (Col.), Wolcott (Ia.)—36.

NAYS.

Bate, Butler, Carey, Cameron, Daniel, Davis, Dolph, Frye, Hansbrough, Hawley, Higgins, Hill, Hoar, Hunter, Irby, Jones (Ark.), Jones (Nev.), Lodge, Martin, Perkins, Power, Pugh, Roach, Shoup, Squire, Stewart, Teller, Turpie, Walthall, Wolcott—32.

Manderson, who had changed his vote from nay to yea in order to make a motion to reconsider, made that motion.

A motion to lay the motion to reconsider on the table was made by Vance, but without action on it the Senate adjourned till tomorrow, leaving the Lee Mantle case still open.

THE HOUSE.

WASHINGTON, D. C., Aug. 23.—As the close of the debate on the financial issue in the House drew near, it is apparent that the silver men have been outwitted to a slight extent by revising their forces in the matter of allotment.

C. W. Stone, Duluth, Turner and Cumming today spoke in favor of the repeal of the Sherman law, but not one said that act responsible for the present business depression.

Covey favored the restoration of silver.

Hatch, in speaking in favor of free coinage, advocated a course of the Democrats of the House and Senate to interpret the Chicago platform, every man of whom should pledge "his life, fortune and his sacred honor" to abide by the decision.

Taylor of Tennessee announced himself in favor of free coinage. The safest position for the Republicans to occupy in this emergency is to stand by the Republican platform.

Cannon of Illinois created a surprise by speaking against the repeal of the Sherman law. The country was in a bad condition, but he did not think the case had been properly diagnosed. Under the Sherman act and the Bland act there has gone into the currency $55,000,000 of silver, so-called gold, redeemable in gold and circulating side by side with gold. He wanted both metals and he wanted both to be kept on a parity. He would let the purchasing clause of the Sherman law stand until the Democratic side of the House would meet the Republican side and would enact a measure that would utilize all the silver in the treasury as its commercial value. He believed this could be done. His judgment was against the Wilson bill and he would vote against it. Money had been, was now, and always would be one of the money metals of the world. (Applause.)

Walker addressed the House in favor of the Wilson bill and in advocacy of unconditional repeal of the purchasing clause.

Maguire spoke in opposition to an unconditional repeal of the Sherman law and protested against hasty action.

Bell favored bimetalism and the free coinage of silver.

Hicks, while advocating the Wilson bill, attributed the present depression to the fear of Democrats tinkering with the tariff.

The house then took a recess till 8 o'clock.

At the evening session Hunter, Dem., of Illinois said he would vote for the Wilson bill as an alternate, but would prefer the Bland substitute.

Dunn, Dem., of New Jersey advocated the repeal of the purchasing clause. Hall, Dem., of Minnesota spoke in a similar vein.

Dorsheimer, Dem., of Tennessee paid a high tribute to the patriotism and fidelity of the President, but regretted that in this instance he was unable to follow his lead and must vote against the Wilson bill.

Harris, Pop-Dem., of Kansas and Bell, Pop., of Colorado spoke for free silver and the House adjourned.

ABOUT HAWAII.

No Information as to Blount's Mission Given to the Public.

WASHINGTON, Aug. 23.—Minister Blount had another conference with Secretary Gresham on the same subject once today in regard to Hawaiian affairs. Nothing will be given out for publication at present. Blount has concluded his business with the state department and will leave for his home in Georgia. The result of the negotiations for a new treaty with Hawaii will not be known officially until the President communicates it to the Senate in the form of a special message.

ALMOST AN APOLOGY.

Gresham Regrets the Expulsion of Italians from Cripple Creek.

WASHINGTON, Aug. 23.—There has been a noticeable correspondence exceeding the entire exclusion of Italian miners from Cripple Creek, Colo., between Secretary Gresham, Governor Waite and Baron Fava, Italian minister at Washington. Minister Fava wrote Secretary Gresham and Governor Waite, secretary Gresham wrote Baron Fava that the action was not due to race prejudice, but to a feeling against cheap labor. Gresham expressed regret for the occurrence and hoped it would not disturb the friendly relations between the two countries.

Gamblers Indicted.

CHICAGO, Aug. 23.—The grand jury today returned indictments against a number of the most prominent gambling-house keepers in Chicago. The subject matter of the state's attorney's office is said to have been caused by the large number of complaints preferred by strangers who came to visit the Fair, that they have been robbed in gambling houses.

The Yellow Fever.

SAVANNAH, Ga., Aug. 23.—One new case of yellow fever at Brunswick, Ga., is officially reported, the patient being Mrs. Cox. There are no other suspicious cases. The desertion of the town by the engaging class, the closing of stores, factories, etc., works extreme hardship upon the laboring classes.

A Lady Missing.

ST. LOUIS, Aug. 23.—A surprise was sprung in the afternoon in the appointment of Joseph P. Maple, receiver for the Common Sense Building and Loan association; capital $500,000. The secretary, Mrs. E. C. Hoar, is missing from the city and her office was found in a state of confusion, with every paper that could throw light on the affairs missing.

The Corbett Trial.

SAN FRANCISCO, Aug. 23.—In the trial of Acker, B. B. Curtis for the murder of Fulbrook Grant, Joseph Hess, treasurer of the Tivoli theater, identified the photograph and death's body as one which was brought to him a few days before Grant's death by a theater employe, who saw it drop out of Curtis's pocket as he lay asleep on a lounge in the theater office.

This evidence is regarded as important, as a strong point of Curtis' defense was that he never owned a black handled pistol like the one found.

The Fallen Dared.

NEW YORK, Aug. 23.—Anarchists and policemen came in violent contact again today. A meeting was in progress and the usual speeches were being made, until one of the speakers, working himself into a frenzy, shouted: "The police dare not come in here! If they show themselves in here the scene at Wellmahk will be repeated." The policemen promptly accepted the dare and cleared the hall in two minutes.

A Strike Ended.

PITTSBURG, KAN., Aug. 23.—General Manager Devlins of the Santa Fe coal mines at Frontenac and Chicopee has effected a settlement of the strike. The mines at those two places are running with a full force.

Laborers Noticed.

MILWAUKEE, Aug. 23.—Another demonstration by unemployed workmen occurred today. A large number of Poles attacked a party of laborers at work on a street contract and demanded that they desist work. A lively encounter ensued. The police soon dispersed the mob.

Cleveland's Condition.

WASHINGTON, Aug. 23.—Private Secretary Thurber and Colonel Lamont report President Cleveland in good health and say the stories to the contrary are false.

Strikers Attack Italians.

NEW YORK, Aug. 23.—The longshoremen strikers today assumed a threatening attitude towards the Italians who are being used to fill their places. Rinaldo Gasaba, an applicant for work to whom the English threats of the strikers were unintelligible, was roughly handled, but not before he created a pathway with the inevitable stiletto and had left for some distance an swelling chase, in which over 200 strikers participated. Later a party of six Italians leaving the wharf of the Clyde line were attacked by a number of longshoremen. In the general melee which followed several were wounded by the paving stones and clubs that flew through the air. Knives were freely used and three Italians were badly hurt.

THE IOWA STATE CONVENTION.

Governor Boies Renominated and a Platform Adopted.

DES MOINES, IOWA, Aug. 23.—When the convention ressembled Governor Boies was renominated by acclamation, and Governor Larrabee, Lieutenant Governor Barlow also received renomination.

THE PLATFORM.

The report of the committee on platform was read and adopted. The resolutions declare confidence in the administration of President Cleveland. The present unfortunate financial stringency is laid to the door of the Republican administration, and Congress urged to give the country tariff relief. The Sherman act is denounced as a severely noticeable, which has brought the present financial panic upon the country. The immediate repeal of the silver purchase clause thereof is demanded and the use of gold and silver as the money of the country, on an equal basis, is favored. It is demanded that all paper currency shall be kept at par with and redeemable in such coin. Just and liberal pensions to deserving veterans are favored.

In the interest of the workingmen the passage in favored of a national eight-hour law law, which shall provide for the freedom of laborers of votes of the people of the different parts of the state. "As a partial reparation for the unjust confiscation of private property caused by the indemnity law, we favor such legislation as will protect the manufacturer of spirituous, vinous and malt liquors within the state, thereby giving to our own people at least equal rights in this respect with manufacturers of other states."

Nominating speeches then followed. John Cummins of Mason City was nominated for judge of the supreme court, Congressman Tom Brown of Council Bluffs for railroad commissioner, and J. B. Knoeffler was renominated for superintendent of state instruction.

An adjournment was taken, after speeches of the nominees.

THE REAL CAUSE.

General Weaver Explains the Matter to the Farmers.

MOUNT VERNON, PA., Aug. 23.—The largest crowd ever there saw the opening of the annual encampment of the Farmers' Alliance assembled today in the main auditorium. Weaver, General Weaver of Iowa rose to deliver his address. This afternoon there were probably 20,000 people on the ground. He said the situation of today was not caused by the election of a Democratic congressman. That administration is administering legislation laws and interpreting the laws the same as the Harrisons. Such a curse could not be brought upon the country by a mere change of administration. Nor is it the result of the Sherman law. The law has been violated. The Republican secretary of the treasury and the Democratic secretary of the treasury and not comply with the law. They paid out gold and the secretary of the treasury asked the foreign speculators when he had it in his power to prevent this panic. This is the real cause of these hard times.

At the close of the late war the people were comparatively free from debt. There was more prosperity than among the farmers of the South, in spite of the use of these near-and-far-off times, than there had ever been since. The reason for this prosperity and good living was because there was an immense volume of paper currency in circulation. A financial system which encouraged the currency to depreciate is the loss of thousands of homes, innumerable suicides and corruption of the morals of the people. As a result of that crime, exemplified on our people from 1873 to '78, Rothschild and his class came in and got control of the industries, railroads and finances. Money is what is the matter. When the farmers come into power, and they are going this power, they will give them money. The laborers will make a dollar and will stay at home. They don't want money that will go abroad. That is what is the matter with gold.

NEWS FROM FOREIGN LANDS

Bismarck Comments on the Policy of the German Government.

France Violates the Treaty With Siam—Argentine Revolt—Napier Cab Drivers Strike.

LONDON, Aug. 23.—Prince Bismarck made another speech, this time at Kissingen, to a party of admirers who went there to see him. He made some rather caustic comments on the policy of the government and said he observed that at a recent conference of the Bismarck admirers of the several states at Frankfurt the president's chair was occupied by the secretary of the imperial treasury, who is a subordinate personage. This, he declared, was unconstitutional. The emperor and chancellor are the only executive officers of the government and ministers, and neither of them has a right to attempt more than the laws enacted by those bodies. The constitution cost hard work, and it made him anxious to see it meddled with.

The Times published a dispatch from Berlin, severely commenting upon what it terms Bismarck's attempt to excite feeling against the new regime, and admonishes Bismarck's enthusiasts to the bitter jealousy he feels in finding that Germany does so well without him.

France Takes a Town.

LONDON, Aug. 23.—A Reuter's dispatch to the Times says the French have violated the Franco-Siamese treaty by occupying the town of Chantibun without any pretext whatever.

Rebels Victorious.

BUENOS AYRES, Aug. 23.—The rebels captured the town of Carrizotes without a blow, the garrison retiring to join Colonel Acosta's forces. The rebels afterwards left the town and attacked and defeated Acosta, after a six hours' battle.

A Strike at Naples.

NAPLES, Aug. 23.—The cab drivers of this city today went on a strike and considerable rioting followed their attempts to induce the drivers of other vehicles to join. A number of kiosks and cabs were burned. Five strikers and four policemen were seriously injured.

Fears for the Sarnia.

MONTREAL, Aug. 23.—The Dominion line steamship sailed for Liverpool twenty-six days ago, but no news has since been received from her. It is feared something serious has happened.
