HOLIDAY PLEASURES

Where and How Thousands Will Spend Pioneer Day.

GRAND RUSH TO THE RESORTS.

Saltair, Garfield, Calder's, Eden and Other Parks and the Canyons Will be Filled With Humanity.

Tomorrow is Pioneer Day, the forty-seventh anniversary of the settling of this Territory—a day that has had many patriotic celebrations in the past but which will not be characterized by any great public demonstration in the year of grace 1894. As on the Fourth there has been no organized effort in the direction indicated and the day will be given up to one of pleasure and rest according to the individual desires of those concerned.

There will doubtless be the usual rush to the lake. The parks, gardens and canyons, too, will be filled with humanity out for a day's pleasure while thousands will enjoy the quiet, peaceful repose afforded by their own homes preferring the society of their families to that offered beyond their sacred circles.

At Saltair.

Of all the resorts of pleasure and places of recreation accessible to Salt Lake—but there are many—Saltair at any and all times stands without a peer. Nowhere else are so many attractions to be found in the same area. A pavilion that is so grand as to challenge the admiration of the world's best as regards size, finished in modern of pleasure and rest from for a near and a place simply large to accommodate all who may use themselves to the cool salt breeze that gently creep through it shady nooks and cozy corners. Then as to bathing, water can be found from ankle depth at the eastern terminus of the new arm which extends hundreds of feet onward, to any depth the bather might desire to the west of the great pavilion. The temperature was never more large also than now and the bottom of the lake is covered with the whitest and softest of clean and beautiful sand.

Tomorrow an enlarged orchestra will render delightful strains of music and the best local vocalists will entertain with their finest efforts the thousands who will throng thither. An excellent train service with cars departing and arriving at least as often as once an hour is assured.

The Saltair management today issued a contract with Miss Annie Abbott, the "Little Georgia Magnet," who has been pronounced by scholars and scientific men the greatest phenomenon of strength ever known, in a week's performance. The lady begins her performance on the big pavilion tomorrow.

Garfield Beach.

At Garfield Beach preparations are being made for a goodly portion of public patronage tomorrow. There will be football, baseball, races and general athletic and field sports with a big display of fireworks at night. Trains will run every hour during the day.

At Calder's Park.

For days past George Wallace Williams, the hustling excursion agent who is now owner of the lease of Calder's Park, has been preparing for a big rush of people on Pioneer Day. There will be music by Reed's band, all day, a Wild West show during the afternoon with genuine cowboys and Shoshone Indians, and a mask ball and a plentiful display of fireworks at night.

Eden Park.

Eden Park, at Bountiful, will be thrown open to the general public and an interesting program rendered. There will be a number of prizes given away for various competitive efforts.

AMUSEMENTS.

CARL GARDNER has given Salt Lake the "go by,"—that is, his company line. Individually Mr. Gardner is here, but his company is "tied up" on the Southern Pacific. Mr. O'Malley is out and injured the bill posting, and is not in a very compliant frame of mind in consequence. Gardner is heavily in arrears to lithographing houses and a firm of attorneys in this city had orders to attach his receipts as soon as they came into the box office, which explains the reason for Mr. Gardner's sudden move. Mr. O'Malley's stock company will produce the drama of Forgiven this week.

THE EMPIRE THEATER COMPANY will arrive Monday next and open that evening in Sowing the Wind. The sale will open Saturday and a big rush is looked for. Henry Miller, W. H. Thompson, Viola Allen, Isabel Irving and Mary Hampton are all decided favorites in this city and all are in the cast of this play.

Bicycle Races Tomorrow.

The bicycle races at National park tomorrow afternoon, beginning at two o'clock, are expected to be hotly contested. They will be under the management of the Fourth of July, and so far as known now will be the last of the season.

Lantern Parade.

There will be a big lantern parade of wheelmen this evening. The starting place is at the Knutsford hotel, and the time 8 o'clock. A general invitation is extended to riders of bicycles to provide themselves with Chinese lanterns and join the ranks of the procession.

FATHERLESS IN A BIG CITY.

A Strange Case of a Little Girl Now in Salt Lake.

The police today partially unearthed a case of rather strange appearance, and are now at work endeavoring to unravel the threads of mystery which are wound about it.

So far this much has been learned: A few days ago a 15 year old girl at Evanston, Wyoming received a letter from her father in this city, whose name she says is Isaac Shaw, telling her to be here on Saturday night, and that he would meet her at the Union Pacific depot. She came but failed to find her parent. Fortunately she was taken in and cared for by a kind hearted family for the night. Yesterday afternoon she started back for Evanston on the train but at Farmington was put off by the conductor and made her way back here and is now stopping at the residence of Harry Tribe, near the corner of First West and South Temple streets. Nothing has been heard from her father.

TWO ASSIGNMENTS TODAY.

The Scandinavian Mercantile Company and a Liquor House go to the Wall.

The Scandinavian Mercantile Co., carrying on business on east First South street, filed its assignment papers today with County Recorder Lippman, naming Joseph W. Haynes as assignee.

N. J. Grunfeld was president of the concern and John A. Haynes vice president.

The list of creditors is given as follows:
