A TALE OF HORROR.

Thousands of Armenians Massacred by Turkish Soldiers.

MEN, WOMEN AND CHILDREN SLAIN

By Direct Order, It Is Stated, From Constantinople—Official Version of the Affair.

LONDON, Nov. 16.—The chairman of the Armenian parliamentary association, Mr. Hanapian, has sent the following letter received from an Armenian whose name is not given because it would imperil his life, to the Earl of Kimberley, secretary of state for foreign affairs. The letter is accompanied by one from Hanapian, to which he says: "I have no reason to doubt the authenticity of the details. They will be borne out by fuller official reports which have been, or would, will soon be received from the British agents in Armenia."

The letter of the Armenian then presented is dated Hills, October 9th. The writer says:

"The so-called rebellion of the Armenians in 1893 was a group affair, for the repression of which the other neighbors got a description.

"This year the Kurds carried off Armenian cows and the Armenians' appeal for the restoration was refused. A fight ensued, two Kurds were killed and three were wounded.

"The Kurds immediately carried their dead before the governor, declaring the Armenian villages had attacked the town, killing and plundering the Kurds.

"Troops installed a garrison, troops from the same area, commanded by a pasha and a musical, were hurried to the district.

"The pasha is said to have hung from his house, a few months, it is his custom, an order from Constantinople to call the Armenian up, cut off heads, and adjusting them to so as if they loved their king and government.

"Nearly all of these things were related here and there by soldiers who took part in the horrible outrage. Some of these were Nizip.

"It is said that 100 fell to each of them to dispose of. No compassion was shown to age or sex, even by the regular soldiers, but even when the victims fell implored at their feet.

"In a town in Sasoun, between seven and ten were burned alive. A Turkish officer, for the women and tender babes might, at least, have had a chance for a life of misery, while their mothers was told a military guide the road that ended in slavery by shelling. Women to death with the Bashi Bazouks while tender babes were impaled with the same weapon on their own mothers' breasts, or perhaps sided by the head by their heels dashed off with the sword.

"In one place 200 of 300 women, after being forced to serve the purposes by the unknown soldiery, were hacked to pieces by sword and bayonet in the valley below.

"In another place some 200 weeping and wailing women begged for compassion, fearing at the commander's feet, but the unwilling wretch, after crossing their question, directed his officers to dispatch them in a similar way.

"In another place some sixty young brides and the more attractive girls were crowded into a church and after violation were slaughtered and women gore was seen flowing from the church door.

"At another place a large company, lower the ownership of their power, fell down to live them begging for compassion, and evening they had nothing to do with the captives. But all to no purpose. All were killed in one place and the priest of the place was sent to several of the most attractive women to change their faith, in which event their lives were to be spared. They said 'Why should we deny Christ? We are no more to them than, pointing to the mangled corpse of their husbands and children, 'Can us lost,' and they died.

"But why prolong the sickening list? There must be a God in heaven who will do right in all these matters, or some of his world have failed."

Another letter says some of the regular soldiers themselves admit they killed 100 persons each in a fiendish manner, and that rape was followed by the bayonet. Twenty or thirty Armenian villages, it would seem, have been wholly destroyed, and some persons were put to death with fearfulness in their own houses.

TURKISH VERSION.

CONSTANTINOPLE, Nov. 16.—The following official account of the Armenian troubles was issued today:

Some Armenian brigands, provided with some of foreign arms, joined an insurgent Kurd tribe for the purpose of committing excesses. They burned and destroyed several Mussulman villages. As an instance of the severity of the Armenians, it is reported they burned over a Mussulman. Regular troops were sent to Sasoun to protect peaceable inhabitants against these depredations.

The Christian troops not only pillaged and repeated the unmerciful portion of the population and the women and children, but they treated indeed under no circumstances. It is now that the Kurds seized the opportunity, effected a union of the regiment, Armenians. The latter took refuge in the mountains before revolting.

The Armenians, women at present, with the Kurds belong to the Kurds of the Mussulman sides in their own accord with their Kurdish in the insurgent Kurds. Regarding the village alleged to have been destroyed, it was the Armenians who carried off all their belongings before becoming brigands.

CONFIRMATION OF THE STORY.

LONDON, Nov. 16.—A dispatch to the Standard from Tiflis, Russian, says that despite the Turkish government's silence, it does seem to have been a massacre in Sasoun. Some occurred on a scale of unusual severity. Nearly all the Armenian villages in the district were burned. Bodies, which were a third of half-burnt, lay in the streets. Many Armenians in the pay, in the pay, probably were burned, that the Russian Kurdish raids were imported and destroyed.

In the meantime, the governor of Bitlis reported to the Porte that serious revolts had broken out, and obedient patriotism is now at an available time on the case. Marshal Zeki Pasha, commander of the Turkish army corps, stationed at Erzerum, was ordered to proceed thither. Before this imposing array of regulars the Armenians would be overcome.

Now comes the horrible part of the story. The government has resolved to make an example in order to prevent a repetition of the revolt. It ordered the troops to fire on the defenseless people. The order was executed, and the soldiers only returned from their labors when twenty-five villages were destroyed and thousands of their inhabitants killed.

Mr. Hanapian, the British consul at Varna, presented to the United States their grievances to the British ambassador, who presented to the Porte. The subject is now better understood in this country.

The report from Mr. Hanapian, which appears to have originally reached the government of Bitlis. The letter is at hand, and as a result of obtaining revenge, the government, the government, Mr. Hanapian's letter to the Armenians to return. This is being investigated by Bitlis officials.

The increase was almost entirely due to the production of the Hetherington mine, the ores of the Salem mine being worked more cheaply than any other silver ores on the Pacific coast. The gold output was practically the same in both years. The year only thousands mines, which have been productive for years, are again being operated.
