HOLMES'S NEW IDEA.

Its Plan for Coining the Blue of Former Friends into Money.

OFFICERS OF THE LAW SURPRISED.

He Promises Writes a Book to Sell but Is Detailing all Precautions of his Keepers.

NEW YORK, Sept. 3.—A special to the World from Philadelphia says: H. H. Holmes who is charged with wholesale murder in Chicago and with several murders and is now awaiting trial for the killing of B. F. Pietzel, has not lost his nerve. Although a prisoner in the Philadelphia county prison. He has engaged what is certainly a cunning scheme. Although deprived of writing materials he is quite aware of every precaution taken to prevent the possibility of his writing anything, and he is now writing what purports to be a book of his life, which he calls "The Prison Diary." The law officers of the various wealth have been approached by the publication of the proposed story and the announcement that a book written by Holmes in the midst of misery so far in the solitude of the cell will follow shortly. They will be astonished further when they read for the first time in this dispatch that the volume is the outcome of a new idea entirely in the mind of the prisoner which is all ready for working. In the best authorities being the appointment of a local man.

THE "NEW WOMAN."

Address on the Subject by Mrs. Bellington Smith.

NEW YORK, Sept. 2.—An address of Mrs. Bellington Smith before the Salvation Army, now encamped at Prospect park, Staten Island, on the "New Woman," is attracting considerable attention here.

Mrs. Smith said last night in part: "The revolting creature, grossly so-called, is man's creation, fostered of energy, nourished with the tonic, whether man's masculinity, hatred and scorn of man, is not my time to tell you. The new woman, according to the popular conception, hates children as "kids," says they are ugly and nightmare her, and so she leaves all her savings some ugly little pickaninny, which she carries in one of her spacious pockets. She is also a man-hater, she is going forth to seek employment and a worldwide war for her sex she declares it to be her mission to drive men terrible him. As a religion, it is too simple for her sloppy mind. She is entirely indifferent as to a free thinker.

"If you were to ask me what the Salvation Army would do with the new woman," continued Mrs. Smith, "we would find a lot of old lasses, old and young, in the slums, in the dives and crannies of the city, in the ragged children of the slums, and other females wing by her side. I believe in women, we would go to the men to whom they belong, the husbands, filled with resolution themselves, we would bring in the Rescuing with her cigarettes and chewing gum, and after that, I think we would have a strong-minded, enlightened woman, who would tell her that there is a nothing to honor in the other sex.

"It is now in the attempt women, I believe she is capable of making good money and we as women are not ashamed to take the platform or how willed but to the bar. Let the association of women go on, only while you are attempting to do, do not forget of saving the lost."

One question which the general brought to the attention of Secretary Lamont and Commissioner Browning was the advisability of annexing Jackson's Hole country to Yellowstone National park. He suggested that action would solve the problem by preventing all parties from hunting and fishing in that section and said as the country is not densely settled he thought there would be comparatively little difficulty in making the change.

Commissioner Browning said that, in the first place, it would be a matter for secretary Smith and then for Congress, adding that he did not know how the people of Wyoming would regard it, as it would deprive that state of territory.

General Coppinger's report on the Indian affairs has been turned over to Secretary Lamont. The general declined to say whether he made any recommendations for the continuance of troops in Jackson's Hole country or for the punishment of the parties guilty in the trouble.

DON'T SHOOT DUCKS

Till After October 1, If You Would Obey the Law.

TODAY'S LESSON FOR SPORTSMEN

In Commissioner Pratt's Court—An Arrest for Rape—Sustaining a Nuisance—Housebreaking.

Two duck hunters came to grief in U. S. Commissioner Pratt's court today. They gave their names as George Lunn and John H. Brown. The information against them was that they had been unlawfully killing wild game, to wit, duck and snipe. The killing complained of took place on Sunday, the 1st instant, on one of the lakes west of the Jordan. The defendants pleaded that they were not aware they were breaking the Territorial game law, although they were fully cognizant of the fact that they were breaking the sabbath day; yet the breach did not appear to disturb their conscienceless greatly, since they were not under arrest thereafter. They claimed that they supposed the duck shooting season opened September 1st, whereas the law fixes the date as the first of October. One witness testified for the defendants by the state was the testimony of Witnesses that they shot a duck on Friday last, August 30, at 4 o'clock. Friday last, August 30, at 4 o'clock and on that day, September 1st was the date, they did not shoot ducks in the previous month. The accused the commissioner to the conclusion that the alleged murder in the time of opening the shooting season was Mr. Lunn will be fined $10 and costs, which amount, partly $20.50, which he called the case in the preliminary examination.

U. S. Commissioner Pratt intends to give a free tomorrow morning when in a Chinaman, Ah Jim, is to be tried for housebreaking. The crime occurred several days ago and was noted at the time. The Mongolian insists that he is innocent of the charge against him, contrary the prosecution will have to prove the case to secure the commitment to the grand jury.

Joseph Harper, who claims his residence in Tooele county, was before U. S. Commissioner Sumner this afternoon, charged with a heinous offense. He is accused of having attempted on Monday evening, a criminal assault upon Mrs. Margaret Harrison, 60 years of age. By her order the lady patient of twenty, and Turpin was caught by Deputy Sheriff Gulbrie in his cabin. Mrs. Harrison lives at 440 W. Second South street, and was on her way home, near the corner of First South and West Temple street, when the assault was made. Turpin's interview with Commissioner Sumner began at 2 o'clock today.

By agreement of the prosecution, Turpin was allowed to plead guilty of simple assault, the more serious charge being allowed to drop because of the defendant's intoxicated condition. Judge Sumner sentenced Turpin to sixty days in the county jail and to pay the costs of prosecution.

At 10 a.m. tomorrow J. S. Mortensen, who keeps a pigeon on Eleventh South street, will answer to U. S. Commissioner Sumner on the charge of maintaining a public nuisance. He is out on $50 bail.

A SCHEME TO ESCAPE.

Signed in the Bed by Jailer Kimball.

In the cell at William Lynch and Rob Fetzner at the city jail, tools were found this morning by which, with suitable help, they would have attempted escape tonight. In making his daily search through the cells, Jailer Kimball spied on a high little window a suspicious looking package. He opened it and to his surprise found a number of suspicious looking tools. They were three small saws, which could be used to saw either wood or iron, a long, curved chisel and a screwdriver. Around the chisel it was wound a long piece of twine, with two balls at the ends.

The plan of the two men was to wait until all was quiet and then, with the chisel, pry the iron bars from the iron of the window in opening the window bars. Then with the saws they intended to saw a hole in the ceiling of their cell, which is on the ground floor, and with the help of Smith, Jordan and Reed, the last four men who are serving a term of twenty-five days for vagrancy, they would get into the outskirts and escape from the window. They intended to use the string to draw up anything from those outside who which would be needed in getting down.

Fetzner is serving a term of several months for petit larceny; Lynch, an elderly man, is being held on a charge of a serious charge, but there is reason for to connect him with the "holdup" of W. P. Smith for something near $1,000 by "Gallagher's gang," and his bail by his bonds strengthens the suspicion of his guilt.
