MINING, BUSINESS AND STOCKS

BANNER WEEK ON STOCK EXCHANGE

Figures Show Heavy Increase Over the Same Week in Last Year.

REVIEW OF MONTH'S BUSINESS

Many Stocks Show Substantial Increase In Price With Market Uniformly Strong and Prospects Excellent.

Business on the floor of the local exchange opened up well this morning. The bidding was brisk and prices well sustained. No less than 16,000 shares of New York changed hands at prices ranging from 34 to 35 cents during the regular call, with no sales on the open board. The total business for the morning was well ahead of the average morning session while the totals for the week show an advance of something like $150,000 over the totals for the same week last year. The same is true with regard to the month's business, which for August this year reached the magnificent total of 1,010,112 shares, representing a worth of $727,534.63, as against 489,229 shares, representing a worth of $122,993.94 for the same month last year.

Not only has business been good both week and month, but prices have held up in a manner almost beyond expectation. Nevada stocks in particular have proved a feature of the market, most of them recording a substantial advance in price. Utah stocks have also done quite well, one or two showing excellent gains. Daly Judge at $11.50 is 50 cents higher than it was on Aug. 1, Lower Mammoth is 17 cents higher and New York is 3 cents higher. Of the Nevada stocks, Mohawk was offered at $1.70 Aug. 1, since when it has been several times better than $4 and today $3.87 is asked for it. Montgomery Mountain has moved from 38 cents at the first of the month to 50 cents bid and 52 asked at this time. Both Jumping Jack and Silver Pick are almost double what they were 30 days ago, and dozens of other cases of substantial gains exist.

With the approach of cold weather an even stronger market is looked for and it is not unlikely that a veritable boom in stocks will be the result. The business of the week in particular is a matter for congratulation and will do more than all other causes combined to revive the interest of the public in stocks of all classes. The prosperity evidenced by these figures is shared by nearly every other line in the state, and the prospects of a heavy fall business money easy, and collections good, were perhaps never better.

IN BLACKHORSE DISTRICT.

White Jack Mining Co. Organized by Prominent Salt Lakers.

Salt Lakers are generally conceded the honor of having been first in the Blackhorse mining district of Nevada, and certain it is that they are the most prominent operators engaged on that section of the country just at his time. But still efforts are being made looking to the furtherance of Salt Lake interests and as a part of the plans the White Jack Mining company has been formed.

The group which the new company will take over was located by Fred L. Schrott early in the Blackhorse rush and adjoins the well known Mabel ground which has done so much towards makinf Schrott famous. What is known as the Blackhorse group also adjoins the new company's property. The Mabel claims are crossed by a vein running the entire length of the property which vein continues on and also traverses the new property and ore of a high quality has been already taken out. The property is undoubtedly well located and in the opinion of mining men who have visited it will in all likelihood turn out as well as any other in this wonderful district.

NEW MAINE CORPORATION.

To Conduct General Mining Business On Capital of Five Million.

Boston, Mass., Aug. 31.—The Nevada Copper Mining and Smelting company was organized at Augusta, Me., today to conduct a general mining business in the United States, Mexico and other foreign countries.

The authorized capitalization is $5,000,000, divided into common stock with a par value of $5 a share. R. H. Stewart and W. E. Mitchell of New York are among the incorporators, and Miss I. L. Fairbanks of this city is named as president and treasurer.

RECEIVER APPOINTED.

Taylor Park Mining Co. of Boston Said To be Hopelessly Insolvent.

Boston, Aug. 31.—The Taylor Park Mining company, a Colorado corporation, capitalized for $5,000,000, was placed in the hands of a receiver today. The receivership is the result of charges made by Clarence H. Knight of this city, creditor for $5,000, who alleged that the company is hopelessly insolvent and owes $213,000.

The company is engaged in mining gold at Dorchester, Colo. It has offices at Colorado Springs and Boston. Thomas W. Goodale of this city was named as receiver.

The receiver was asked for in order that the property might be held together and administered as a whole. The company did not oppose the appointment of the receiver, who immediately assumed charge.

WORK ON MOUNT BALDY.

Gold Development Co. to Institute Vigorous Campaign of Development.

"If we find conditions at the properties of the Gold Development company one-half as flattering as we have been led to believe they are, you may rest assured that nothing will be lacking to push the development of operations to an issue," is the remark made to the Richfield Reaper by one of the party of eastern capitalists who recently visited the company's holdings in the Marysvale section. The Reaper did not meet the gentleman on their return from their trip, but judging from recent developments at the camp, the visitors were more than satisfied with the outlook.

Last week 12 men were put to work under command of Lorenzo Nielson, and in a couple of weeks more this force will be augmented to 18 or 20. The tunnel has been cleaned out, the machine plant overhauled and started up and drills will be put in the face of the tunnel this week to force the opening in its attack upon an immense ore body which underlies extensive mineral croppings on the surface.

There is no guesswork about this lead. It has been developed by runnels and shafts and it is only a question of time until another of the mother lodes of the Mt. Baldy belt will be exposed.

Men are being engaged for timber work, and it is expected to get in a supply of logs and wood before deep snows come to last throughout the winter.

The property is well supplied with buildings for the machine shops and cabins for the accommodation of the employes.

Renewal of activities upon this property evidently is the beginning of permanent operations and is already reviving drooping spirits in that section.

ZINC IN UTAH.

Some Talk of Building Zinc Works Just North of Ogden.

The zinc ore product of the Park City district in Utah fell off heavily in 1906 through the caving in of the Ontario drain tunnel, says Mr. Charles Kirchoff of the United States geological survey, in a forthcoming report on the production of zinc. A mill equipped with the Blake-Morscher electrostatic separators was put into commission during 1905 at Salt Lake City. At Frisco the Horn Silver company shipped a considerable tonnage of zinc ore to the Iola works. There has been some talk of building zinc works at Bonneville, 12 miles north of Ogden.

PREVIOUS RECORD IS DISCOUNTED

Bingham Consolidated Has One Of Best Months in History.

IMMENSE TONNAGE HANDLED.

Figures Include Output of Eagle and Blue Bell Mine—Arrangements to be Made for Output of More Mines.

The record of the Bingham Consolidated company during the month of August is something to be proud of, and constitutes one of the banner months of its existence so far. A total of 16,000 tons of ore was handled by this coupany during the month from all sources, including the output of the Eagle & Blue Bell mine. While detailed figures of the precise tonnage handled are not yet available, the above figures are approximately correct, and if anything are under rather than over the exact amount. The record of this company since the Heinze interests came into control is in every respect one of the greatest ever made, and from all accounts will be surpassed in the future efforts which are to be put forth. The properties of the company are reported all in the best of condition and the expiring of a number of leases in the near future is expected to make it possible for them to gain control of still larger tonnages. Prospects for the future were perhaps never better.

WILL MEET WEDNESDAY.

Question of Freight Rates on Ore From Tintic to be Again Discussed.

Sept. 5 has been set for the meeting of the special committee representing the mining interests of the Tintic district and the San Pedro and Rio Grande railroads in order to again discuss the points involved in the question of a graduated freight rate on ores from the district. The work of the committees up to now has been characterized by the very friendliest relations, and it is generally felt that some good will result from the coming meeting.

MAKE IMPORTANT FIND.

Heavy Deposits of Antimony Explored In Garfield County.

According to recent reports, Utah, in addition to her enormous deposits of the more common metals, is also the repository for one of the richest and greatest deposits of antimony in the world. The find is located in what is known as Coyote canyon, about 45 miles south of Marysvale, and has just been thoroughly examined by Thompson Campbell and J. V. Keeley, experts in this line.

According to these gentlemen the only other deposit in the world that can in any manner compare with it, is in Japan, and the quality of the American product is the equal if not the superior of the Japanese. There is a strong demand for the metal at all times, London being perhaps the greatest market. The price of the finished product is twenty-five to thirty cents per pound, which should permit of a substantial margin of profit.

CONCENTRATES.

The Scranton Mining company has opened offices in the Herald block in charage of R. J. Dighton.

William M. Wantland has returned from Ely, Nevada, where he is interested in several valuable mining claims.

General Manager M. L. Requa of the Nevada Northern railroad and the Nevada Consolidated Mining company will leave for Ely tonight.

The Taylor & Brunton ore sampler today released the following cars of ore: Four California, seven Nevada, five Idaho and one Colorado.

Avery Woodward, connected with the Homestake Mining company, left today for his home in Dakota after a stay of some days in the city.

H. L. Trew left for Idaho last evening for the purpose of making an examination of a number of mining properties which have been brought to his attention.

General Manager Hanchett of the Newhouse interests left last night for Colorado on account of the death of a sister. Much sympathy is felt for Mr. Hanchett in local mining circles.

John R. Howard and family of Cherry Creek, Nev., are in Salt Lake for a three days' visit with friends, after which they will depart for the east. Mr. Howard is a mining man and goes to New York to interest eastern capital in the development of copper properties owned by him in Elko county, Nev.

The Lexington Gold & Silver Mining company of Spanish Fork filed articles of incorporation with the secretary of state Friday. The company has a capital stock of $1,000,000 divided into shares of the par value of $1 each. The officers are A. B. Rockhill, president; W. A. Miles, vice president; T. A. Rockhill, secretary and treasurer. Fred L. Schrott, A. J. Shores, F. O. McFall, O. C. Thurber and the officers compose the board of directors.

BUSINESS NOTES.

The commercial stock and bond market has been on the quiet order during the calendar week ending today, with bank stocks particularly firm and strong. As the time approaches for the opening of the sugar factories for the 1906 run, and the prospect for an enormous crop of beets becomes more widely known, there are more and more inquiries for small blocks of sugar stocks, with the result that the prices of the same are advancing all along the line.

During the month the Deseret Savings bank will pay its quarterly dividend of 2 per cent with a likelihood of an extra thrown in. Utah Sugar preferred will also pay 1¾ per cent at the end of the month. The semi-annual interest of 3 per cent on Utah Sugar company's bonds was paid today by the Zion's Savings bank. Another concern that is scheduled to pay a semi-annual dividend of 3 per cent during the month, is the Utah Savings & Trust company. Following are the latest quotations:

AUTOMOBILE TRIPS.

Remarkably Swift Traveling—Delightful Views of Plain and Mountain.

An enjoyable run through the grain fields of Tooele county by automobile was experienced by a party of Salt Lakers on Wednesday of this week. The party consisted of C. S. Burton, cashier of the State Bank, Manager Geo. T. Odell and Secretary Melvin D. Wells of the Consolidated Wagon & Machine Co. These gentlemen are members of the executive committee of that institution, and the purpose of the trip was to inspect locations for business. The mileage covered was 100, the running time was 4 hours and 45 minutes, and the gasoline consumed cost less than two and three-fourths cents per mile.

The party chose the Rambler as their vehicle, left Salt Lake at 10 o'clock a. m. and pulled up at Grantsville, 45 miles distant, shortly after 12. Their return to Salt Lake was made in the afternoon. Mr. Burton states that the experience was a delightful one, as the road was in good shape and the Rambler made the round trip without a stop or a jar. Tooele county never looked so beautiful from an agricultural standpoint, and the dry farming districts promise to break all records.

This morning at 4:30, in the same automobile, a party left this city for Silver Lake, Brighton. It consisted of Hon. J. H. Moyle, Dr. R. R. Hampton and Mr. J. Fred Odell, with Mr. Albert Bird as chauffeur, four persons, with baggage equal to the weight of a fifth. The party arrived at Silver Lake at 6:43, having made the trip over the steep and rough mountain road in two hours and 13 minutes. The distance is about 34 miles and for several miles the road is so steep that some automobiles cannot climb it at all. A trip from this city to Brighton by automobile in two hours and thirteen minutes is certainly a remarkable achievement. It rivals in speed the train to Park City.

SOLDIERS SUPPLIES.

May Be Allowed to Buy Different Kinds at Army Storehouse.

Washington, Sept. 1.—Barbers' supplies may soon be furnished to soldiers at cost price by the government. Brig.-Gen. Constant Williams, commanding the department of the Colorado, in his annual report recommends that articles needed for the proper care of the face shall be added to the list that may be purchased from the army storehouses. He thinks also that soldiers should have the privilege of buying thread and needles at cost.

ICE COMPANY FINED.

Omaha, Neb., Sept. 1.—The Omaha Ice, Coal & Storage company and John Doe, as its president, were fined today in police court by Justice Cockrell, two counts each on the charge of selling ice under weight. The fine amounted to $25 on each of the two counts.

MARKET NERVOUS AND UNCERTAIN

At Opening Changes From Last Night's Figures Were Only Trivial.

UNION PACIFIC MADE A BOUND

Went to 194⅝—On Appearance of Bank Statement Operations on Long Side Resumed.

New York, Sept. 1.—Only trivial changes from last night's closing figures were recorded at the opening of business in the stock market today, the widest being a rise of ¾ in St. Paul. Otherwise the market was slightly irregular and on a very light volume of trading.

Buying orders were too scanty to sustain prices and the market sold off slightly.

Operations on the long side of the market were resumed with vigor after the publication of the bank statement, which was better than forecasted. Union Pacific bounded up to 194⅝, the highest price yet reached. Great Northern preferred and Atchison gained 1 and Northern Pacific, Northwestern and New York Central 2 to 2¼. The rise elsewhere reached a point in many stocks. The market fluctuated nervously toward the closing under the weight of realizing but ended generally strong.

Chicago, Sept. 1.—The wheat market was firm at the opening today because of small deliveries on September contracts. December wheat opened ⅛@¼ to ¼@⅜ higher, at 73⅞ to 74, and sold at 73⅞@73¾.

The corn market was easier. December opened a shade lower at 43⅝ nad sold at 43½@43⅝.

December oats opened a shade to ⅛ cents higher at 30⅝@31 and sold at 31.

Despite an advance of 5 cents in the price of live hogs the provision market was barely steady. September pork was 2½ cents lower at 16.87½; lard was unchanged, at 8.77½ and ribs were down 2½ at 8.75.

Cash: Wheat—No. 2 red, 71⅞@72¼; No. 3 red, 71@71⅞; No. 2 hard, 70¾@71½; No. 3 hard, 70@70½; No. 1 and No. 2 northern, nothing doing; No. 3 spring, 73@74½.

Oats—No. 2, 30@30¼; No. 3, 29¾.

Corn—No. 2, 46@46¼; No. 3, 45½@46⅜.

The feature of the market was the buying of September which carried the price of December up to 74@74¼. The close was firm with December ¼ higher at 73¾@74.

Corn—The market became firmer in the last half hour. The high mark for December was 45¼. The close was firm with December up a shade at 43⅝.

TREPOFF SERIOUSLY ILL.

St. Petersburg, Sept. 1.—Reports are persistently circulated that Gen. Trepoff, commandant of the palace, is so seriously ill that his life is in danger. No statement regarding the nature of his malady has been given out but it is intimated that it dates back to the time of the recent rumors that an attempt had been made to poison the general.

DREADNOUGHT COMMISSIONED.

Portsmouth, Eng., Sept. 1.—The battleship Dreadnought was commissioned today, within 11 months of the laying down of her keel. She will not be fully completed internally for a couple of months.

SULTAN'S BROTHER RELEASED.

Paris, Sept. 1.—A dispatch to the Temps from Tangier, Morocco, yesterday says that the sultan has released his elder brother, who has been imprisoned since the death of their father.

The correspondent adds that reports to the effect that it is the sultan's intention to transfer the court from Fez to the city of Morocco continue to circulate, but that no confirmation is obtainable.

SHERIDAN'S PASSENGERS LAND.

Honolulu, Aug. 31, 10:00 p. m.—The interisland steamer Helene arrived here at 9:45 p. m. with a number of passengers on board from the stranded transport Sheridan, including 20 women and 10 children.

Tugging has moved the vessel considerably, and it is believed she will be pulled off during the night.

FISHERIES COMMISSION TO MEET

Victoria, B. C., Aug. 31.—An Ottawa dispatch says Prof. Prince of the fisheries commission is endeavoring to arrange an early meeting of the international commission before the Washington state legislature meets. Orders were given today by the fisheries department at Ottawa permitting the trappers to continue fishing for cohoes, though they are not permitted to catch sockeyes. The season ended on the 25th under the regulations.

CARRIED RED FLAGS.

Vladivkaz, Russia, Sept. 1.—As a protest against a meeting of teachers being dispersed by Cossacks yesterday, the population of this city marched through the streets in procession, carrying red flags.
