ADJACENT CITIES

PROVO.

City Council Business.—A Rolling Stone Returns.—Legal and Other Notes.

Regular Correspondence.

PROVO, March 28.—The city council held a session last night. The following items of business were transacted: It was reported by the city recorder that E. A. Wilson, appointed to succeed Mr. Probert as a member of the city council, had filed his bonds. Report accepted, and Mr. Wilson took his seat in the council circle.

T. O. Jones was denied the privilege of running his lunch counter on Sunday.

It being reported by the committee on license that S. M. Duggins was conducting a saloon business within the prescribed distance from a church forbidden by territorial statute, not in connection with a hotel business, an order was made citing Mr. Duggins to appear before the council at the next session, and show cause why his license should not be revoked.

The matter of the city's one sixth interest in the court house or the purchase of the county's five sixths interest was referred to the committee on public grounds and city property.

It was reported by City Attorney Houtz that he had communicated with Rhodes Brothers in reference to their payment of the judgment of S. S. Cluff against the city for $201 for damages sustained by Cluff's boy when he was thrown from a horse on account of said horse stepping in a hole caused by the waterworks; and that Rhodes Brothers had consented to pay one half of said damages. The council instructed the attorney to notify Rhodes Brothers that the city declined to receive any sum less than the whole amount, and further that a second suit for damages had been commenced by the boy himself.

NOTES.

The Home Fire Insurance Co. has fully settled with Walter Cox for his recent loss sustained by fire. Mr. H. G. Whitney, representative of the company, was in the city to adjust the claim.

Israel Hodson, a young man of twenty years, has returned home after an absence of two and a half years. During his absence he has made his way to Chicago, Philadelphia, New Orleans and other parts of the United States. He has been employed in numerous avocations; for a while he was a seat hand with Forepaugh's circus. While he was away his father died. He is undecided as to whether he will now remain home or will again go roaming.

Griffin, the patient of the Insane Asylum who became demented while serving a two years' term in the Salt Lake county jail, has been taken out of the asylum and back to his jail cell, he having recovered his reason.

V. M. Pratt, of Salt Lake City, who is taking a course at the Zenarian Art college, Columbus, Ohio, it is understood, will be connected with the B. Y. Academy next school year.

The Provo Commercial and Savings bank recently obtained judgment against the Central Building company for over $2000. In pursuance of said judgment the company building was sold at auction, netting $8000. Deputy Marshal Clark is now busily engaged in serving papers on all of the delinquent stockholders of the company for the payment of the amount of their stock due to complete the satisfaction of the judgment.

OGDEN.

Fireman Brennan Arrested.—Work to Begin on the Southern Pacific Shops.—News Notes.

An enthusiastic meeting was held last night in the city hall by the Business Men's association. President Loundy occupied the chair and Secretary Smurthwaite was at his desk when the call to order was made. A large number of ringing speeches were made by Ogden's business men and manufacturers, the general tone of which plainly showed that the business prospect is a little more healthy and that with the united aid of Ogden's citizens the city can become the manufacturing center of the west. The secret of the whole thing is, patronize home industries. The way to do this is for every housewife and purchaser to demand articles manufactured at home in preference to those manufactured abroad. On Thursday night, at 7:30 o'clock, the chairmen of the various committees and the board of directors will meet in the mayor's office to complete the committees and fill the vacancy in the treasurership.

Weber county's board of selectmen held a regular weekly session yesterday with all members present. Two numerously signed petitions asking for the opening and improvement of the road through North Ogden canyon to Ogden valley were presented and referred to Selectmen Shurtliff and Waggoner. This is an improvement which would mean much to the farmers of the valley and they have made the court a proposition to donate $1000 in labor toward the road. The opening of the canyon would mean a saving in travel of sixteen miles on the round trip to Ogden. A petition was also presented for a road leading from the Hot Springs to the lake. Referred to Selectmen Shurtliff and Iverson. The board allowed Sheriff Belnap $405 for services rendered as jailer since September 1, 1892. The petitions of J. H. Wardleigh and David Menroe to be appointed constables were tabled indefinitely.

Superintendent Knapp was notified yesterday by the head office of the Southern Pacific company that the final plans and specifications for the new shops would reach Ogden this week and that if the present weather continues, contracts would be let and active operations commenced within the next ten days. There are now on the ground nearly 500,000 of the 1,600,000 bricks which it is estimated will be needed in the construction of the buildings, and the kilns at the Anderson yards are being filled with raw brick to prepare for the run which will burn the remainder. These will be ready by the time the foundation walls are in. It is understood the plans contemplate a much more extensive plant than at first stated and it is highly probable more material than at present contracted for will be necessary.

Sheriff Belnap submitted his annual financial report for 1892, which makes the following showing: Receipts, $2,098.53; disbursements, $1,293.06; received from civil business, $1,875.90; expenses on civil business and amounts unpaid, $513.60; number of arrests made, 82. The report shows that the sheriff closed but $525.50 for the year, the balance going to expenses and to deputies. A considerable amount of routine work was done and the court adjourned for one week.

Frank W. Brennan, captain in the Ogden fire department, was yesterday afternoon placed under arrest by a deputy sheriff on a complaint charging him with battery committed upon W. G. Childs at the time of the Utah Loan & Trust company building fire. He was taken before Commissioner Gideon and released on $300 bonds to await trial on Friday.

Sixty thousand pounds of ordnance and case mates, loaded on a specially constructed car, for the battleship Oregon, now building at the Mare Island navy yard near San Francisco, went west yesterday, having arrived from the east on the early morning train.

The secretary of the Los Angeles, California, chamber of commerce says that Southern California will send a large delegation to the Trans-Mississippi congress. Los Angeles is said to be after the next meeting of the congress.

Max Binder was adjudged insane by an examining board in Judge Bishop's court yesterday and ordered sent to the asylum at Provo. Sheriff Belnap took him down this morning.

The bids which may be received for the $100,000 issue of general improvement bonds authorized by the council on Monday will be opened on April 10th.

KANSAS CITY, MO.

How Much will you Risk for One Cent?

THE difference in price between the PUTNAM NAIL and cheaper brands amounts to one cent on each 1000 nails.

Are you willing to use the cheap adulterated and shortest nails with all their manifold disadvantages, in order to save that one cent?

The process of their manufacture is spoken ill of. The cold process distinguishes the best and cannot be force to repose, so that after the point is formed and the nail is driven into the wood it is entirely free from any and rule is the cable broke. Did you ever allow your cent?

Now this is how you can save the ten or three hundred dollars you would have to pay for a dead house, but you would not save your cent.

Use the Putnam Nail.

It is Not-Forged from the best Swedish iron rods, while at a welding heat, by the action of Hammers alone, and then Hammer-Pointed.

Thus, the old hand process is followed, which was hot-forging nails under hammers, and hammer-pointing them by the shoer, cold, without any clipping or shaping whatever.

AND THE NAIL CANNOT SPLIT.

But it will cost you one cent more for each horse shod!

The shoe will stay on longer and your reputation will be thereby increased.

ALL FOR ONE CENT.

Send for sample.
