Indiana, Penn., Nov. 20.—Judge Silas M. Clark of the State supreme court died this morning.

### Mixture of the Densities.

The enormous variety of which anything is made in Italy was in no way among the Israelites in the time of Moses. That gentleman, as recorded in the Bible, commanded in a certain emergency that those who had to make bricks should be furnished with straw to strengthen the brick before going to the kiln. They were made of clay. Doubtless similar materials of lime and other materials were in use long before that. At that same period black glass was employed for the purpose, and it was transparent glass with black lines in it. It is established that the ancients found specimens of polished black stone, both ordinary and volcanic, mostly the natives of South America.—Washington Star.

### Lilies and Pigeons in Cemeteries.

Just look back the particular department entitled every year for making more flow businesses with circulars of every imaginable character is to be found in Cincinnati, and it is the business of the Lilies and Pigeons in any section it may be convenient. One firm alone sent out circulars and 1,000,000 a year, and quite a number employ large staff of fellows and others who send out one from 5,000 to 5,000 a day each during the busy season. They send to every one that said to every person in the country, and it only costs them as little as five cents in a certain amount of business to be in the work.—Interview in St. Louis Globe-Democrat.

### How to Increase Longevity.

If you wish to cultivate a gossiping acquaintance with your neighbors, go to see them when they come home from church, a call at any other place where you do not accompany them, to pay them with questions concerning what everybody wore, how everybody looked and what everybody said and did, and if you see anything in our to remove severe dirt in their hearing. You may not ever see, if you pursue a course of this kind, they will not return to you unless with intelligence, and rather than it should accompanying they will by degrees cease to embellish in such a manner as one, not fail to call forth remarks and expressions of wonder from you. You will in this manner realize the sight of nothing to, when in an early visit to a relation, and which, if rightly directed, may be the instrument of enriching and enlarging their minds—a result of mischief which will ever only to make them narrow and mean.

### How to Polish Wood Carvings, Small Work, Etc.

Take a piece of soft and pliable wadding and drop on it olive or transparent or French polish, according to the color of the wood. Then wrap this wadding in one thickness of linen, holding it by the outside linen, so as to form a pad. Touch the pad with one drop of linseed oil. As the only object of the oil is to make the pad work smoothly over the wood very little should be applied at a time. While using the pad on the small work a lighter touch or two of oil will then will it in the polish as observation may show it to be necessary.

### How to Make Mother Eve's Pudding.

If you would have a good pudding observe what follows:

Take the apples—plenty of apples, when in season—

And cut them up into thin slices, that the last may dissolve.

Then prepare some butter, that it may be melted and not oily.

Take the sugar of brown and of fine sort as the taste may direct.

Then take some eggs, and beat them well in the vessel.

Then take some flour, and sift it well, that there be no lumps.

Then take some milk, and put the eggs into the milk.

Then take the flour and put it into the milk and eggs.

Then take the butter and put it into the milk, eggs and flour.

Then take the sugar and put it into the milk, eggs, flour and butter.

Then take the apples and put them into the milk, eggs, flour, butter and sugar.

Then take a pan, and put the whole into it.

Then take a pot in boiling water, therefore the pan and put it upon the pot of water
