Recovering.

Brother T. F. King, of Farmington, who met with a painful accident about ten days since by being thrown from the high spring seat of a wagon he was riding in, through the front wheels suddenly dropping into a deep hole in the road, is recovering, but is unable to get around yet without crutches. His back was so badly hurt that for a time he almost lost the use of his lower limbs. Brother King is, by the way, Utah's most extensive producer of peaches. His large orchard in the northern part of Farmington produced such a quantity of the luscious fruit last year that it was difficult to care for and dispose of the crop as fast as it ripened, but the yield this year is not nearly so heavy. AMUSEMENTS.

The sale of seats for the Sol Smith Russell engagement at the Theatre commenced at the box office this morning. Friday night a "A Poor Relation will be given, and Saturday night "Peaceful Valley."

"THE LOST PARADISE."

This evening "The Lost Paradise" will be presented, concluding the present engagement of Chas. Frohman's excellent company.

The Lost Paradise was given its initial performance on the return trip, at the Theatre last evening, to an excellent house. It is not too much say of the piece that it is one of the best of American plays. Though not so strong a play in its evenness, it excels Men and Women, and the skilled hand of the polished playwright is manifest in every detail. The company, too, has made a vast improvement over the first appearance here of the piece, and shows the value the San Francisco engagement has been. Especially is this the case with Miss Tyler. Her acting before was somewhat cold strained, and lacked the warmth given it in last night's production. Mr. Morris also gave to the audience a much better and more natural impersonation. Mr. Johnson was almost a faultless rendition of the parts. Mr. Crompton even and strong. Mr. Scott would be very difficult to excel. Mr. Thorne, to be sharp, was out of sight. Mr. Corrigan was simply perfect, while Mr. Barrow's unctious manner was as contagious as peripiration, with the thermometer at 100. Mr. Guerite was vehement and natural. Miss Hawtrey, though just as a mag pie, was whole souled and fetching. Miss Elliott was simply bewitching. Mrs. Mahlie Adams, as always, sweet and tenderly sympathetic. Miss Adams did all that could be made of the part she played.

The company spent today at Lemmy Tunt, the Wasatch summer retreat of Mrs. Nettie Shell, Members of the Home Dramatic and some other stage interested friends accompany the troupe.

All lovers of the pure and beautiful in drama should certainly see "The Lost Paradise."

WASHINGTON, Aug. 17.—Acting Secretary Grant received a telegram this morning from General McJack at Los Angeles, Cal., in regard to the murder of the two men murdered at Davenport's ranch, between Schenectady of Sequit, N. M., on the eighth, from which it appears that the act was probably committed by a party of eight renegade Apaches under the notorious Kiho, recently seen in that vicinity.

The Great Railroad Strike.

BUFFALO, Aug. 17.—The situation this morning in the great railroad strike is not encouraging. The New York Central switchmen having joined the strikers makes it much more formidable. The Central parties are under picket guard. It is feared the strike will spread to other Vanderbilt lines, Lake Shore, Michigan Central and West Shore. Under orders from General Doyle, the entire Fourth United States brigade of the State militia will be concentrated here today. All will be needed as the strike covers several miles of territory.

YORKERS EXPLAINS.

The State board of arbitration here will make strenuous efforts with both parties to a settlement.

Superintendent Vorhees of the New York Central, said to an Associated Press representative this morning, that there was a hundred and fifty men of that line out. They probably demand shorter hours which the company refused to grant, but they have accepted higher pay, the last ten per cent. increase in the pay. This also the company would not grant, as the men were already receiving more than any other road performing a like service on the roads in the State. He added, there has been no delay in the trains and things are in good shape, because there is no switchmen's strike in the yards. If given protection by the authorities they would have no difficulty in supplying the strikers' places.

THE WEST SHORE HAS STRIKED.

Florence Denyven and Wm. Parrell of the State board of arbitration are in the city and will attempt a conciliation between the railway officials and the strikers.

The day shift of the West Shore switchmen worked about an hour this morning and then dropped everything where it stood. The night switchmen are similar to the Central men. The night shift, without doubt, will refuse to work tonight.

General Manager Halstead, of the Delaware, Lackawanna and Western has issued imperative orders that no goods will be received from any of the freight sheds. When the fire was discovered, Hoxsey, who had been in poor health for some time, ran out on the porch in great excitement and dropped dead from heart disease.

The Recent Gold Shipments.

WASHINGTON, Aug. 17.—The treasury officials, while apparently unconcerned over the recent gold shipments, are generally observing minutely reference in the matter. Acting Treasurer Whitelay takes a very philosophical view of the situation and says he sees no occasion for any excitement because the assistant treasurer at New York yesterday paid out $1,000,000 in gold on demand for exchange for Treasury notes. He says that there is nothing unusual in the transaction, beyond the fact that the gold shipments seem to have taken a little later this year than heretofore. It was due, he thought, to very heavy imports of silver, which had to be almost to made in gold. The gold exports, in his opinion, are practically at an end for the season, and the usual reaction in favor of the United States will soon set in.
