ELECTION IN BLOOD.

Kansas Catholics and American Ringers in a Battle.

ONE KILLED, OTHERS WOUNDED.

Account of the Affray.—Results of the Election in Many Places.

KANSAS CITY, April 5.—The American Protective Association and the Catholics came together in a bloody conflict at the polls today. More than probable were exchanged between the combatants in less time that many seconds.

Mike Callahan, city sidewalk inspector was killed and a number seriously injured.

The riot was the culmination of a bitter feeling which has been manifested by action and words ever since the polls opened in the morning. The two antagonistic elements were evenly divided in their choice of candidates for mayor.

The riot which resulted so seriously was the climax of a series of smaller riots that took place at other polls either in the day between the same opposing factions. The first took place in the northwest boulevard, very close to police station No. 3, and those who took part in it had been heated to a fighting temper by reports that had been hourly arriving at the station of scenes at other polling places.

The A. P. A., which supported Webster Davis, the Republican candidate for mayor, had their workers at the different polling places, and they distinguished in some respects their own islands bearing their candidate's name and decorated with the American flag. Jim Pryor, a Fifth ward politician, notoriously in the A. P. A., who supports Frank Johnson, the labor union and Democratic candidate, was active on the head of Bry constables, which included Judge Lehman's original district. It is said that the constables were, many of them, disreputable characters, and were solely the cause of the trouble. Johnson's supporters were most threats of mobbing them before they were got to headquarters after the bloody riot was over. It is claimed that some of Pryor's followers fired the first shot. That one was Mike Callahan, and he was killed the next moment. In less than five minutes from the time the first shot was fired, however, the bluecoats from station No. 3 had appeared on the scene and quieted the disturbance.

THE RESULT.

Returns received up to 11 o'clock tonight indicated that Webster Davis, the straight Republican candidate for mayor, has been elected by a good round majority over all other tickets, carrying with him the entire Republican ticket.

LADIES' DAY IN COLORADO.

DENVER, Colo., April 5.—This was ladies' day at the town elections throughout the state, and flowers and smiles abounded. Pretty young women could be seen pinning violets or carnations on the coat lapels of big bearded men, with winning smiles that said, "You will vote my ticket, won't you?"

A big vote was polled at Leadville, where the women have been in some time stumping up on the Australian ballot system.

Returns from the greater part of the state at midnight show a pretty general Republican sweep, ostensibly a woman sweep, Gov. Adams, Democrat, but in very few places. At Las Animas, the Democrats are elected. At Leadville the Republicans polled over 40 majority and have also votes more than the Populists and Democrats combined. Pueblo goes Republican by 300. At La Junta, where the issue was saw and order vs the gamblers, the latter were buried, thanks to the ladies, out of sight. Returns as they come in only increase the Republican majorities. Cripple Creek elects a citizens' ticket.

THE NEBRASKA ELECTIONS.

OMAHA, Neb., April 5.—Politics cut no figure in Nebraska elections today. The only question of stake was license or no license. In fifty 90 per cent of the towns that have reported up to midnight, license has carried.

In Nelson and Superior, where prohibition has killed saloons twice, license bonds have been chosen.

It is pretty certain however, that the Citizens' ticket has been elected by a good majority.

In South Omaha the entire Democratic ticket was elected, the A. P. A. combine being flattened completely.

CHICAGO'S NEW ALDERMEN.

CHICAGO, April 5.—At 11 o'clock tonight the returns show that the Republicans have elected twenty-three aldermen and the Democrats eleven. Seven Republicans succeed Democrats and two Democrats succeed Republicans.

In the town election the Democrats capture the entire West side town and three out of four in the South Town.

The Republicans carry the North Town by both. A great majority for the annexation of the towns of Evanston and South Park was carried by over 20,000 majority.

SPRINGFIELD, Ill., April 5.—The Republicans carried every town in the city for aldermen and elected their ten township ticket from 700 to 1,200 to 1,500; also thirteen of the supervisors.

These theaters will be intimately connected and the management will lift traveling companies at a yearly rate to play engagements in the chief cities.

Fighting in Oklahoma.

KANSAS CITY, Mo., April 5.—A special to the Times from El Reno, Okla., received late tonight says the troops of early start out to find the fighting going on between the Indian and cowboys on one and a cutter back to Fort Reno for reinforcements. It is reported that another battle has occurred and that several men on both sides were killed and wounded.

A rumor prevailed yesterday to the effect that the agency building had been burned by the Indians, is unfortunate. The scene of the fighting is so remote that particulars are scarce. Tidings from the Indian country are very difficult to get. It is known that great loss of life will result before reinforcements can reach the large band of the front.

The Situation Alarming.

UNIONTOWN, Pa., April 5.—The situation throughout the entire region at the close of the second day's strike of the miners and coke workers is very alarming and it looks as if disorder and destruction to property will only be averted by resorts to the military. The strikers have been receiving ammunition from the company stores, which were cut off from them yesterday. Tonight the great horde of foreigners reputed to be armed have not been heard from. The only way it can be reached is by asking the company's officers and to be sure they must provide deputy sheriffs who are standing guard with Winchesters.
