COAL THAT DERBY LIKES.

Engineer Purchases a Quantity of Black Diamonds from Twin Sam.

HELENA, Mont., Nov. 3.—A special to our contains the following:

The proceedings of a war between Great Britain and France, and Twin Sam's interest here yesterday in the action of England when purchased a large quantity of Anderson coal from the Anderson mines at her West India naval station. In response to several subpoenas from Denver, ship masters and engineers of the Twin Sam's trade spent the greater part of yesterday searching for bunker suitable to transport the coal from Anderson mines to Kingston, Jamaica, the place where Twin Sam's ships touch on their way to points where it will be most convenient for British war vessels to fill their bunkers. Sailing masts from Puget sound to Jamaica are in demand, and are particularly in demand.

The first shipments are to be sent to Kingston by the Twin Sam's steamers, which are the principal ports in the West Indies subject to Great Britain. The coal will be taken from the mines of the purchaser at St. Thomas, a Danish island, where ships will be used.

The Twin Sam's steamers that were burned yesterday had been chosen because of their superior speed, which would be of great assistance in escaping the British cruisers.
